This Sunday, October 2, is Rally Day at our church and we will attempt to help you — the parents — to see more clearly your responsibility for the spiritual nurture and care of the most precious gift you have ever received from the the hand of God—YOUR CHILD! It starts at 10 A.M. with a promotion program. During the 11 A.M. worship service parents will dedicate their children to the instruction of the Bible. After the service a basket dinner will be served after which the Rev. Mr. DeVress of Ann Arbor will speak. A feature of the Baptist Youth Fellowship meeting at 7:30 P.M., will be an installation of the newly-elected officers. Choir rehearsal is held on Wednesday night at 7:30, under the direction of Mrs. Harley McConnell.

A Big Boost For Smitty!

Stepped into Smith's Department Store the other noon and saw the strangest thing. "Sis" Davis was coming up the stairs from the basement with a bundle of wash.

"Is Smitty taking in washing these days?" I asked. "Not quite," she says. "He's just put in a new automatic washing machine, so the girls who work here can get their laundry done while they're eating lunch. Means more time to relax at night and on weekends."

I thought what a swell boss Smitty must be. Human relations between the boss and employees have certainly taken a big step forward during my lifetime.

From where I sit, people seem to be doing a better job of seeing our neighbor's viewpoint these days. Though his ideas and tastes may not be ours, we can understand his preference for a certain breakfast cereal, a favorite movie star, or for a temperate glass of beer or ale. That's the way it should be in a free country.

Why Do They Want to Put A&P Out of Business?

The answer is to be found in the formal complaint "they" have filed with the court.

By "they" we mean, of course, the anti-trust lawyers from Washington who are out to destroy A&P.

They say . . . and these are the anti-trust lawyers' own words . . . that we "have regularly undersold competing retailers."

To this charge we plead guilty:

We confess that for the past 90 years we have constantly stepped up the efficiency of our operations in order to give our customers more and more good food for their money.

The American people have seen nothing wrong in this. By their ever-increasing patronage for 90 years they have shown that they like this low-price policy.

Apparently the people still see nothing wrong in this today. All during the past week – since the anti-trust lawyers made their charges – we have been deluged with phone calls and letters from men and women in all walks of life who want us to know they are opposed to this effort to put A&P out of business.

An enormous number of customers are telling our store managers and clerks that they want to continue to enjoy our low prices for quality foods.

Farmers and other suppliers are asking what they can do to preserve this efficient outlet for their products.

Our 110,000 employees are asking us to protect their jobs and pensions.

Labor leaders are wiring us their opposition to this threat to labor's living standards.

If all these people will be hurt, why then do the anti-trust lawyers want to put A&P out of business?

Low Prices Don't Hurt Anyone

The anti-trust lawyers say because we are able to sell food cheaper than other grocers, we make it impossible for those grocers to compete with us.

If this were true, we should have all the food business in the United States by this time.

Just the opposite is true. In 1933 we had 11.6 per cent of the nation's food business. Now, according to the anti-trust lawyers, our share has decreased to 6.4 per cent in 1948. Anyone can see we have nothing even approaching a monopoly.

As a matter of fact, there are about 30,000 more individual grocers in business today than there were ten years ago.

There are about 275 more food chains in business today than there were ten years ago.

In other words, we have more competitors in the food field and do a smaller share of the nation's food business than before.

Where is this alleged destruction of other grocers? Where is there any evidence of their inability to compete with us?

Do You Want Higher Prices?

As anyone can see, the only purpose that would be served by putting A&P out of business would be to raise food prices.

Who would this benefit?

We were the first merchants to set the pattern for low-cost, low-profit distribution. Our example and our competition has led other grocers to keep their prices down.

Remove A&P from the picture and food prices are bound to go up.

Remove A&P from the picture and the way will be cleared for the destruction of every other efficient large-scale distributor.

Is this what the American people want?

Is this in the public interest?

We Can Save You Real Money
If You're In The Market For A Used Car

If you're thinking of buying a used car or trading your car in toward a better used car, we'd like to talk with you and prove to you that we can make you a money-saving deal. We have many good used cars—cars we've taken in trade. And we've priced them to sell. Check this list:

HERE'S A DANDY—A 1947 Chevrolet 2-door with only 13,000 miles. You will never find a better used car. Maroon metallic finish. This is an exceptional buy.

SPIKE THIS ONE—A 1946 Ford 2-door, super deluxe. Only 32,000 miles. Gray finish like new. Radio and heat.

A GOOD DEAL—1939 Mercury, 2-door. Good tires. Black finish. Heat. Motor new last year.

TRUCKERS, LOOK!—A 1946 Ford cab and chassis. 158-inch wheelbase. Four 7:50 x 20 tires, new. Two others excellent. Recently overhauled. Here is a deal for someone.

SUPER SHARP—A 1948 Ford, super deluxe tudor. Gray. Only 11,062 miles. Custom radio. Fresh air heater. Seat covers. Wonderfully kept and cared for. Local owner. You'll never find a better used car.

SUPER—A 1941 Ford coupe. New green paint. Looks keen. Runs like a million. Spotlite. Heater. This a sharp number.

SPORTY—A 1941 Mercury convertible. Light gray finish. New black top. Good tires. Motor just overhauled. A real price on this one.

CLEAN AND KEEN—A 1939 Ford deluxe fordor. Generally in good repair. Good black finish. Good tires. Motor excellent. Heat and music. "Not rough."

DR. HARDY PREPARES TO CELEBRATE HIS 80TH BIRTHDAY

County's Dean Of Physicians Has Practiced 57 Years

Back in the days when cod liver oil and castor oil were the two most important remedies to be found in the nation's medicine chest, and when sulphur and molasses was the standard spring tonic for both young and old, an Andover, New York, youth had a desire to learn more about the mysteries of life, and how life, itself, might be prolonged. Today, looking back over 57 years of service as a practicing physician and surgeon, Dr. P. B. Hardy of Tecumseh, dean of medical men in Lenawee county, recalls a most interesting, active and useful career as he prepares to observe his 80th birthday anniversary on Friday.

In point of service, Dr. Hardy is the oldest practicing physician in Lenawee county. And while he does not still follow his profession day-in-and-day-out strenuously—he does enjoy frequent and sometimes extended vacations—he is nevertheless on the job taking care of a well-established practice.

Born in Andover on October 7, 1869, Dr. Hardy, while still in high school, had a desire to practice medicine. In those days the medical schools required four years of training. The first year of college work, however, was done under the supervision of a "preceptor"—a practicing physician with whom the student worked. In Dr. Hardy's instance, it was Dr. F. E. Comstock of Andover, the family physician.

It is interesting to hear the doctor tell of his first year's experience. One of his early duties was that of janitor in the doctor's office and, in addition, he drove his horses. A little later he was permitted to aid the doctor in his office, assist with some surgery and, near the end of the year, he sat in on consultations, mixed medicines and, on occasions, made a diagnosis.

After his year's service with his

Seated at his office desk with a patient at his left, Dr. P. B. Hardy, for 57 years a practicing physician and surgeon here, is a familiar figure to hundreds and hundreds of residents of Lenawee county. Tomorrow, Dr. Hardy will observe his 80th birthday anniversary — but he doesn't intend to take the day off. He'll pull the shade, but the office door will not be locked. But about Monday, Dr. and Mrs. Hardy will travel north where he plans to do some duck shooting and later, in November, some deer hunting.

Clinton Downs Indians, 25-6

TECUMSEH HIGH LOSES SECOND GAME OF SEASON; HUDSON HERE, OCT. 14

By Don VanCamp

The Clinton Redskins overpowered the Tecumseh Indians Friday night at Recreation Center and handed the local team its second loss of the season in L. C. A. A. play by the score of 25 to six. Tecumseh held the Redskins to a 6-6 half time score, but the visitors managed to rack up another three touchdowns to win from their traditional rivals.

In the first quarter Clinton scored the first touchdown when the Redskins worked their way down field and, after getting to the one yard line, Feldkamp went over standing up. The rest of the first quarter was played in midfield.

When the second quarter started, Clinton, who seemed to be going good in the first, started fumbling the ball and Indians took good advantage of it, scoring their first and last touchdown. Van Winkle passed to Henkel on the Clinton 12 and Henkel ran the rest of the way to score.

The third quarter got under way with Clinton kicking off to Tecumseh. On the first play the Indians pulled a pass play and it was intercepted by Woodward who was given a clear field to run 45 yards to score again. The try for the extra point failed.

Vanderpool, Clinton fullback, ran the ball to the Indians 20 yard line after an intercepted pass by Randall. Again Feldkamp took

Street Program To Begin Soon

CURB, GUTTER TO BE LAID ON CHICAGO BOULEVARD IN DOWNTOWN AREA

A curb and gutter program in the downtown business district will be started about October 10 and completed a month later, C. C. Beach, chairman of the Council's street committee, said today.

Mr. Beach pointed out that during the construction period, the cooperation of the public will be of great importance. Parking of cars will be permitted during the removal of the old curb and gutter, but parking will be done at the vehicle owner's own risk. And because of this fact, parking meters will not be used, Earl D. Bowen, chief of police, said. It was said that parking in the immediate area of the work, during removal and construction and for about a three day period thereafter, will not be permitted.

A small crew of men will do the work, which will start on the south side of Chicago boulevard at Pearl street and continue east to Ottawa street. That section finished, work will start on the north side. The cost of the project will be $3,200 and about one-half of the expense will be borne by the state.

Property owners desiring new sidewalks in front of their stores may have them laid by the village during the improvement program. The expense of such walks, it was said, will be 30 cents a square foot, this to be paid by the property owner. Owners desiring walks should contact F. K. Dawson, village engineer.

BAND IS HONORED AT V.F.W. DINNER

In appreciation for its cooperation to the community and for winning a trophy at the State Fair, some 48 members of the Tecumseh high school band and their instructor, Clare Camburn, were entertained at dinner by Hall-Slater post, Veterans of Foreign Wars, last Thursday evening. Brief talks were given by Wallace Whiting and Mr. Camburn, after which the band participated in the pep meeting at the main four corners.

Pre-School Children To Have Play School

A play school for pre-school children of the Tecumseh area, under the direction of Mrs. Garth Hall, is scheduled to open October 17. Mrs. Hall will be assisted by Mrs. Clark Vincent.

The recreation room of the Hall residence on North Union St., has been converted into a suitable place for indoor activities of the group. The school will be held Monday through Friday from 9 to 11:30 a.m.

The purpose of the play school is to provide an opportunity for children in three ways: 1. Gain social experience through group participation.2. Benefit by creative expression. 3. Develop self help.

Open house is being held from 1:30 to 3:30 p.m., Thursday, October 13, for parents and children interested in the play school.

Guest To Speak At Dinner Here

DETROIT POET HEADLINES DEDICATION PROGRAM AT PRESBYTERIAN CHURCH

Dedication of the new recreation rooms in the First Presbyterian church, recently completed at a cost of $30,000, will take place next week Thursday evening, October 13, at a dinner program. Edgar A. Guest, nationally famous Detroit poet, will be the guest speaker.

Only 275 persons may be accommodated at the dinner, it was said today, and reservations are being taken at Wright's store until Friday. The dinner will be served by the ladies of Tecumseh Grange.

The new recreation and Sunday School rooms are located in the basement of the church building, which has been extensively remodeled and a new heating plant installed. The main recreation room is 45 by 43 feet, and there is an 18-foot stage, as well as a new kitchen with ultra-modern equipment.

It is the plan of the church to use the rooms for recreational purposes during the week and already such a program is under way on

Bad Check Artists Are Operating Here

Police have asked merchants and others in Tecumseh to be on the lookout for fraudulent check artists operating in this community.

Within the past week, four worthless checks have been cashed by merchants. Two of the checks were drawn on the United Savings Bank of Tecumseh, two others on Detroit banks. Two of the checks totaled about $70, the others nearly $100.

Police have a description of one of the men who gave his name as Ernest N. Henderson, jr. The check was drawn to his order and signed by E. N. Henderson, sr. Police say Henderson is about 35 years of age, six feet tall, weighs 180 pounds and is well dressed. He had no account at the bank.

Big Crowds To See "Old Soak"

PRODUCTS PLAYERS TO STAGE FIRST PRODUCTION FRIDAY AND SATURDAY

When the curtain goes up at 8:15 p.m., Friday night, October 7, in the United Products Workers Union Hall, an anticipated capacity audience of first nighters will see the Products Players in their initial performance of the season, Don Marquis' play of the early twenties entitled, "The Old Soak." Si Kring is directing the production which will be staged again Saturday evening at the same hour.

Cast in the laugh-provoking comedy, which promises to recall memories of prohibitions days, are nearly all "veteran" players, most of them having appeared in one or more of the three productions staged by the Players in their first season, which was last year.

Clem Hawley, the Old Soak himself, is portrayed by Mr. Kring. He is fond of quoting both the "Good Book" and Shakespeare, sometimes getting them slightly confused. The Old Soak is a good customer of "Al," the bootlegger, characterized by Walt Atwell.

Matilda, the nagging, but long suffering wife of the Old Soak, is impersonated by Evelyn Eyler. She loves her daughter Lucy, in real life Joan Burke, puts up with her husband and practically worships her son Clem, jr., in the person of Bob Hite. The younger Clem has been brought up to look at Cousin Webster Parsons, a teetotaler, enacted by Dunc Oliphant, as a pattern for success and right living.

Lucy has a sweetheart, Tom Ogden, a rising young broker. Henry Stein plays the part of Tom. Ina Heath, an "artist" portrayed by Betty Fish and the hired girl Nellie played by Clara Rebottaro add to the comedy of the production.

Of course, all these people get into trouble and naturally the Old Soak straightens everything out.

Consumers Power Co. Boosts Output To Keep Pace With Products' Growth

To meet the increasing demand for electric power at the Tecumseh Products Company plant, Consumers Power Company has announced increased capacity from 2500 kilovolt amperage to 4000 kilovolt amperage with the installation of an additional 1500 kva unit at the substation serving this customer. This substation is served by a 44,000 volt line from Adrian-Beecher street transmission substation and distributes three phase primary power about the plant at 7,200 volts to ground.

In 1941 the Tecumseh Products Company, manufacturer of air conditioning ans refrigeration compressors, produced an electric power demand of approximately 600 kva, Consumers said. Through the war years, the production effort was such that by 1945 this demand for electric power and exceeded 1000 kva. With a large post-war demand for refrigeration and air conditioning units the company rapidly expanded to the point where the demand for electric power exceeded 3,500 kva.

Ray W. Herrick, president of Tecumseh Products, predicted early in 1948 that the company had a rapidly expanding future, and had already made a step forward by acquiring the former Philco Corporation building. This was a continuation of an expansion program started as early as July, 1941.

The effects of this fast growing manufacturing concern were twofold. Not only were their own electrical needs doubled and then more than trebled, but the influx of workers increased local housing and business activities, thereby increasing again the demand for electricity. Meanwhile, Mr. Herrick showed his faith in the company he established and the town in which it was situated by assisting in the building of schools and other civic improvements, enabling workers to obtain homes by promoting housing projects, and in many other ways. All these factors contributed to the ever increasing demand for electric power and early in 1948 Consumers Power Company planned an addition of 2,500 kva of substation capacity to its existing substation to supply Tecumseh Products plant.

This addition was completed in February, 1949, but Mr. Herrick's goal was realized at higher levels than anticipated and it became necessary to again increase the power supply.

Power supply to the entire area will receive still further improvement by having two 44 kv sources of power available when the present 22,000 volt line now serving a portion of the Tecumseh load is converted to 44,000 volts.

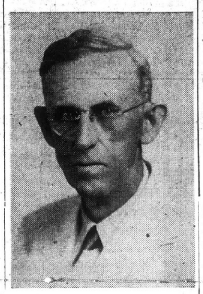
FORMER PRODUCTS' COMPANY TREASURER DIES AFTER LONG ILLNESS

Funeral services for Bert B. TurnBull, aged 76 years, who died Friday afternoon at Tecumseh hospital, were held from the Green Funeral Home Monday at 1 p.m. The Rev. W. H. Skentelbury of Chelsea officiated. At 3:30 p.m., a service was conducted at the Staffan Funeral Home in Chelsea, where burial was made in the Oak Grove cemetery.



B. B. TurnBull

The Masonic lodge of Chelsea conducted the service at the grave. The pall bearers were Charles O. Butler, R. S. Moore, Clarence Gilman, Lena K. Touborg, Paul Breitenwischer and Paul Keyser. The honorary bearers were O. W. Farver, Ray W. Herrick, C. H. Glitner, C. F. Sage, M. L. Dannells, Robert G. Fuller and H. H. Hanna.

Friends and relatives attended from Detroit, Flint, Lansing, Chelsea, Clinton, Dexter and Grosse Pointe.

Mr. TurnBull, born in Chelsea, January 18, 1874, moved to Tecumseh in 1936 when he became affiliated with the Tecumseh Products Co. He was treasurer of the company for a number of years, retiring in 1946. He graduated from the Detroit College of Law in 1900 and practiced law in the firm of TurnBull & Witherell in Chelsea for several years.

ADRIAN MANUFACTURER ROTARY CLUB SPEAKER

It is up to the people who believe in the American way of life and free enterprise to sell that idea to others if such a system is to endure. James T. Bolan of the Gerity-Michigan Corp., Adrian, told members of the Rotary Club when he spoke to that group, following dinner at Brees House, Tuesday evening.

It is not sufficient, Mr. Bian said, simply to express a belief in the American way, it is necessary to put the system into practice and to prove that it excells other programs. This can be done, he believes, and must be accomplished if free enterprise is to survive.

Mr. Bolan was the guest of Donald Nixon. Other guests were G. H. Fisher and Glenn Driscoll, Tecumseh, and Fred Seger, Lansing.

Phone Service To Be Expanded

MICHIGAN ASSOCIATED TO BEGIN CABLE PROJECT; 350 MORE PHONES

The Michigan Associated Telephone Company plans to start a new cable project Monday, to be completed during the first quarter of 1950.

The cables will be placed in underground conduit from the existing manhole in the street at the side of the Consumers Power Company office, north one block to the first alley north of Chicago boulevard. From this point, the cable will be aerial and will go out Ottawa street cutting over to Mill street and thence north to the Airport corner. One of the new cables will feed east from Ottawa street down Logan street, one cable will feed west off Mill street down West Brown street to the railroad tracks and another cable will feed into and serve the new Herrick Park Addition.

In planning this new cable project, emphasis was placed on avoiding duplicate pole lines being built by both the telephone company and the Consumers Power Company.

The net result of this cable project will be that approximately 350 more telephone lines will be available for service to this area plus the fact that all the cable and service wires will be new.

Red Devels Whip Tecumseh Braves

SEMI-PRO FOOTBALLERS TAKE SEVERE DRUBBING FROM HEAVIER TEAM

By Max Brandt

Using two quick breaks and a long drive, the Rossford, Ohio, Red Devels, jumped off to a quick 19 point lead in the first quarter when Tecumseh's semi-pro football team, the Braves, traveled there Sunday. The Ohio team then rolled on to a 40 point total while holding the Tecumseh Braves to a big goose egg in the scoring column. The Braves had two touchdowns called back by the officials. The Red Devels hard charging line outweighed the Tecumseh line by nearly 20 pounds to the man, but Coach Neville Hart's chargers played a strong game under these conditions.

Rossford took the opening kickoff and drove to the Tecumseh 14 yard line where the two teams exchanged fumbles. Then the Red Devels smashed over, with Rossford's fullback, Kramer, carrying the pigskin. The kick was blocked. Rossford 6, Tecumseh 0.

The Braves got the kick off, but after three tries were forced to punt and Baker, Braves quarterback, got off a nice kick to the Rossford 27. Hreban, Devel's quarterback, caught the ball on the dead run and behind beautiful downfield blocking, raced 73 yards to paydirt. The kick was good. Rossford 13, Tecumseh 0.

After another kickoff the Braves were again forced to kick on fourth down. This time Baker's kick was blocked and Buzzenko, Devel center, picked up the ball and darted into the Braves end zone for the score and the kick was wide. Rossford 19, Tecumseh 0.

After the kick off, the Braves opened up with a passing game. The second quarter was all Tecumseh but the Braves just couldn't score. Tecumseh drove deep into Rossford's territory on two occasions only to have the bigger Ohio line stop them cold. The half ended as Rossford quick kneed when they intercepted one of Kensler's passes on their own six yard line.

In the second half, the Red Devels again broke loose to score 14 points in the third quarter and seven more in the fourth. A Tecumseh fumble on their own 29 led to the fourth T.D. of the game. It was Kramer again smashing off

12 Bands Will Stage Fesitval

SIX HUNDRED MUSICIANS TO TAKE PART IN PAGEANT, MEMORIAL SERVICE

A mammoth cross composed of some 600 musicians, and 100 trumpeters sounding taps will climax the third annual Band Festival, to be held next Wednesday evening, October 12, at Recreation Center. Some 12 bands will participate in the program which will begin at 8 o'clock.

After each of the bands has completed its specialty number an memorial service will be held honoring the youth of World War II. The mass band will form the cross and while in formation will play "Onward Christian Soldiers" and "The Star Spangled Banner." After the firing squad from Hall-Slater post, Veterans of Foreign Wars, has sounded its volleys, taps will be played by the trumpeters.

The bands and their directors participating will be Britton, Joseph Foder; Onsted, Hudson, Raymond Westgate; Morenci, Mr. Westgate; Lyons and Metamora, Ohio, Jack Phillips; Sand Creek, Ellen Beck; Addison, John Huffman; Brooklyn, George King; Ida, Harmon Melhls; Adrian, Al Bohms; Tecumseh, Clare Camburn. Blissfield, under the direction of Gilbert Blanks, will present a specialty number but will not take part in the mass band, due to a conflicting engagement.

Tickets are on sale now by school students. The proceeds will be divided evenly among the participating bands.

Dave Beck, the aggressive leader of the Teamsters Union, who has fought many a no-quarter battle with employers, recently had this to say in a newspaper column: "It is my firm belief, gained from many years of experience, that labor has a tremendous stake in our system of free private enterprise as opposed to government ownership and operation of business. In fact, labor's stake is as great as that of the owners and managers of industry . . .

"Wages and working conditions in socialized industry, established by government, always lag behind those in private industry, established by collective bargaining by unions . . .

"To produce superior goods and services, owners and managers of business must have courage, foresight, alertness and good workmanship. They must toil and they must be willing to take a risk. As a reward they are entitled to a profit which must come out of the difference between mediocre goods and services and the superior things which the public needs and wants."

Any labor leader, and any working man, who believes that he and his organization would be better off under socialism, communism or any other kind of dictatorship is blind to the hard evidence of history. If government is to control and dominate the means of production—factories and the tools and the other physical facilities—it must also control and dominate those who operate them, which means all labor. The two go together like a bit and a nut. That is why, whenever dictatorship takes over a nation, the labor unions are destroyed in one way or another and the labor force becomes the virtual property of the state.

Dave Beck's views should be shared by every labor official in this country, regardless of their differences with management. Under free enterprise, both sides to a labor-management dispute can deal on equal terms, and reach the best agreement possible. Under socialism, both are impotent, and the political bosses make all the decisions.

F. F A. NOTES

D. G. Locke, Instructor

The officers of the Tecumseh F. F. A. held their regular monthly meeting Monday, September 26. Among the things discussed was the fine showing Tecumseh made at the Lenawee Fair. The most notable was the first place in judging. Howard Pennington's wheat also took sweepstakes of small grain. For the high three in each division of judging there will be a free trip to the Chicago International Livestock Exposition which will be held December 5 to 11.

It was decided to have the initiation of greenhands October 5. There are about 30 new members expected to join at that time. The annual Pheasant Feed will be held October 26. The Mothers Club will handle the major portion of this event.

Horse races in which horses are entered before they are born are called futurities.

ONSTED

The Happy Rebekah lodge will meet Tuesday, October 11.

Members of the Springville Ladies Aid are to bring canned fruit and both fresh and canned vegetables to the next meeting October 27. These will be sent to the Methodist home at Chelsea. The annual fried chicken supper and bazaar will be held October 12, beginning at 5:30 p.m.

Recent callers of Mr. and Mrs. Charles A. DesErmia were Mr. and Mrs. Floyd Cramer of East Rives.

Mrs. Matthew Vance of Toledo was the guest speaker at this week's meeting of the Onsted Woman's Club, held at the home of Mrs. M. E. Smith. Past President's Day was observed.

The Past Matrons Club met last evening at the home of Mrs. C. J. Pentecost in Adrian.

GUEST NIGHT

The Florence Weld Mission Guild will observe Guest Night, Monday, October 10, at the home of Mrs. Margaret Kidman. There will be a demonstration of fancy work by Mrs. Kidman, program leader, and Mrs. Nina Heath will lead in devotions. Each member is asked to bring a guest.

You have also probably noticed before this that the less a man knows the easier it is for him to make up his mind.

In an average package there are approximately 983 yards of spaghetti.

"Because I was a Blue Cross member, my baby was covered, too..."

After our baby was born, he had to spend an extra month in the hospital without me. But Blue Cross covered the baby's hospital bill as well as mine!"

CASE #33-P49725-100

Mrs. _____, wife of a Blue Cross subscriber, with full family coverage, admitted as a maternity case. She was discharged in 9 days, but her baby had to remain in the hospital an extra month for treatment. The bill, for mother and child care to $548. Under her Blue Cross contract the baby was protected from birth—so Blue Cross covered the charges for both.

If you are a Blue Cross member, you can be sure your baby will get the finest hospital and medical care—right from birth!

SERIOUS ILLNESS among infants is most likely to occur within 30 days after the child is born. For this reason, under BLUE CROSS all newborn children are covered *automatically*, during the mother's stay, by the mother's eligibility and may be added to the contract immediately for future care.

No other health-care plans offer so much for so little. That's why you and your family need BLUE CROSS—Michigan's only completely voluntary, non-profit health-care plans—organized and directed by the doctors and hospitals of Michigan to provide the greatest possible protection at the lowest possible cost . . . only a few cents a day.

Doctor Hardy

(Continued from page 1)

preceptor he entered Long Island College Hospital at Brooklyn, New York, and graduated with honors in 1892.

It was in that year that Dr. Hardy moved to Britton where he began his own practice. Four years later he moved to Tecumseh and since 1931 his home and offices have been located at the corner of Chicago boulevard and Pearl street.

"I really served what today might be termed my internship in the London General Hospital in England," Dr. Hardy said. "I spent a year there and I have been back there for clinics on four or five occasions."

Later, the Doctor spent six months in Algamina Krankhaus, a general hospital in Vienna, where he studied abdominal surgery and later he specialized in eye, ear, nose and throat surgery. Some time later, and on different occasions, he took post graduate work in Chicago hospitals. He is licensed to practice in Michigan, Ohio, Colorado and Texas.

"What kind of surgery have I done?" he asked in answer to a question. "Well, I have done just about all of it that there is to be done except for brain operations."

Dr. Hardy recalls that in his early practice there were few if any hospitals as we know them today. "My work shop, generally, was the kitchen or the dining room table," he said, "for operations, even those we know today as major surgery, were done in the home."

What about obstetrics? How many babies had he delivered? The Doctor just shook his head. "I wouldn't even guess" he replied. He did say, however, that he discontinued his practice of obstetrics in 1917, because he found that it was impossible for him to continue with it and still keep up his surgery. "Surgery is a real job," he said, "and it tires the doctor."

For about three years Dr. Hardy has done very little surgery, and for about two years he has turned all surgical cases over to other physicians.

Asked about the greatest advance in drugs in his long practice, Dr. Hardy replied: "The sulfa drugs, penicillon and the Army's flu vaccine for pneumonia." About the latter he was very loud in his praise.

While Dr. Hardy's practice has kept him extremely busy—he recalls a time during the first World War flu epidemic when for 13 days he slept with his clothes on, when he had a chance to sleep,—he also has had an opportunity to follow another path, that of the sportsman. He is very, very fond of hunting and fishing and the travel that goes with it.

Dr. Hardy has been around the world once and has crossed the English Channel 11 times. No, he had never visited Russia, he said, nor had he visited Sweden, Denmark or Norway, and by chance, he'd never been to Japan or to China. But except for those spots, well, it seemed easier to list the places where he had not visited than where he had been.

He spent four years in Australia, hunted kangaroo there and looked after some financial interests. Yes, he'd fished in the Gulf of Mexico and the Pacific and in his waiting room are some fish exhibits, some of them several feet long, to prove the stories he can tell.

But it's hunting that the Doctor really enjoys. Sure, he'd hunted in Germany, Mexico, Canada, Alaska and all over the United States. Moose, caribou, antelope, deer, elk, mountain lions and goats, all of these trophies are included in his wide collection which may be seen in his spacious offices.

A sportsman has to hunt antelope, the Doctor thinks, before he fully realizes that there is one animal faster than the rifle. And he can tell a most interesting story of caribou hunting near the Arctic Circle that included considerable mountain climbing.

The early American Indians and their habits also have fascinated the physician and, he believes, he has visited most every reservation in the United States. He has hundreds and hundreds of feet of motion pictures and scores of trophies in his collection.

How will Dr. Hardy observe his 80th birthday? It will be a very quiet affair. He may pull the curtain on the waiting room door, but the door will not be locked. If a patient opens the door and walks in, the Doctor will be there to give the needed attention.

But, about October 10, when the duck season opens, Dr. and Mrs. Hardy plan to go to their cottage at Higgins Lake where they will spend several days. Dr. Hardy really enjoys duck shooting. And then, the duck season past, they will return to Tecumseh for a few days and then, around November 15, they will return to the north for the deer hunting season.

Dr. Hardy firmly believes that participating in the deer hunt in Northern Michigan is a MUST on his calendar. And he always has some choice venison on his table before the season is over.

CLINTON

The Auxiliary of the F. E. Pieper post, American Legion, met Tuesday evening in the Legion hall for a potluck supper and installation of officers. Mrs. Elvin Witherell was the installing officer.

Mrs. J. H. Sullivan has returned to her home in Urbana, Ohio, after spending several weeks with her sister, Mrs. F. W. Hogan.

John Girbach of north of Clinton underwent surgery at Tecumseh hospital recently.

New officers of the South Bridgewater Home Economics Extension Club were elected last week as follows: chairman, Mrs. Burton Stadler; vice chairman, Mrs. Fred Blumhardt; secretary-treasurer, Mrs. Louis Winters; recreation chairman, Mrs. John Hoelzer; community chairman, Mrs. William Kershner; news reporter, Mrs. O. B. Feldkamp. Lesson leaders chosen were Mrs. Fred Reiser and Mrs. L. J. Van Deusen with Mrs. Martin Hoelzer and Mrs. Edgar Randall as the substitutes. All officers take charge December 1. Because of the large attendances the Bridgewater town hall has been selected as the meeting place for this year.

Cpl. Frank Gignac is home on a 15-day furlough after spending six months in Cello, Germany, in the British zone with the U. S. airlift force.

Mrs. G. E. French has been confined to her home for several days with a back ailment.

Jack E. Warner, lay minister at St. John's Episcopal church, was in Parishfield near Brighton, recently, where he attended a clergyman's conference.

Classes in driver education and training began at the Clinton Community school, Monday morning.

The Rev. Fr. William McGoldrick, assistant at St. Dominic's Catholic church and St. Joseph's Chapel in the Irish Hills, has left Clinton to become pastor at St. Benedict's church in Highland Park. The Rev. Fr. Emery Petko is the new assistant to the Rev. Fr. Mitchell Witkowski.

AUXILIARY TO MEET

The Tecumseh Hospital Auxiliary will meet Tuesday evening, October 11, at the home of Mrs. H. H. Hanna with Mrs. Frank Purcell and Mrs. J. H. Rohweder as assisting hostesses.

A&P, TOO, TAKES OFF ITS HAT TO MR. C. WHIT BLOUNT

OF WAYNESBORO, GEORGIA

-AND TO ALL OUR OTHER GOOD COMPETITORS WHO HAVE TAKEN A SIMILAR STAND

An Editorial From The Atlanta Journal, Thursday, Sept. 29, 1949

Competitor Denounces Suit Against A&P

THE BOLD three-column advertisement in the current issue of the Waynesboro True Citizen catches the reader's eye. We quote it in full.

To our notion that advertisement by C. Whit Blount states the economic and governmental aspects of the case against A&P with a clarity and forcefulness that most of the editorial comment has lacked.

Also it strikes us as a fine example of sportsmanship in business.

Incidentally, it is about as effective an advertisement as could have been written for Mr. Blount's "Groceteria".

Makes you sort of wish you were in Waynesboro to trade with him, doesn't it?

An Advertisement From The Waynesboro True Citizen

A Word For Our Competitor The Great Atlantic & Pacific Tea Co.

There has been a move by the anti-trust department of the Federal Government to destroy our leading competitor, the A&P Food Store.

It may seem odd, but we are opposed to this move.

The A&P Co., is definitely our strongest competitor - they keep us hopping. But, we are still in business - And Expanding. We do it by selling quality merchandise, buying at a close margin and selling at CLOSER margin.

The so called "trust-busters" charge that the A&P Co. control some of the production and processing ends of the food business. As a result, they hold the cost price down on foods.

WELL, WHAT'S WRONG WITH THIS??

If A&P holds the costs down, it makes our suppliers hold their costs down to the same competitive level. They can sell cheaper, AND SO CAN WE.

We intend to continue to try to sell better merchandise than A&P; We also will continue to have competitive prices.

BUT, We don't believe the government, or any individual should try to break up a firm that is doing a good, clean, efficient job of serving the people of this country.

Miss Audrey Lucille Schuch Bride Of Carl E. Peterson

Bebe mums and white gladioli in vases, baskets of white chrysanthemums and burning tapers in candelabra at the altar in St. Peter's Episcopal church formed the setting for the wedding of Miss Audrey Lucille Schuch and Carl E. Peterson, which took place Saturday evening, October 1. The Rev. Allan L. Ramsay read the double ring [illegible] at seven o'clock.

The bride is the daughter of Mr. and Mrs. Clarence Schuch of Union City. She has resided with her uncle and aunt, Mr. and Mrs. Harry Schuch of Tecumseh for the past two years. The groom is the son of Axel Peterson of Cadillac.

As a program of nuptial music was played by Mrs. Kenton Hunt at the organ, the guests were seated by Victor Peterson, brother of the groom, and Robert Schuch, cousin of the bride. Mrs. Florence Gallant sang "I Love You Truly" and "Because."

Preceding the bride to the altar were Miss Erna Peterson, of Detroit, sister of the groom, as maid of honor; bridal aids, Mrs. Ardyth Mohr of Tecumseh and Mrs. Shirley Cook of Palmyra and the little flower girl, Janice Elaine Schuch, cousin of the bride.

The gowns of the attendants were similar in style, each featuring a bussle back. Miss Peterson's gown was of ice blue satin with which she wore a matching satin hat and carried a bouquet of Johann Hill roses. Mrs. Mohr wore old rose satin and carried bronze bebe mums. Mrs. Cook was gowned in yellow taffeta with blue and white bebe mums for her bouquet.

Janice was gowned in white taffeta with lace trim, wore a crown of white bebe mums in her hair and carried a basket filled with bebe mums of pastel colors.

As the bride approached the altar on the arm of her father, who gave her in marriage, she was lovely in her gown of white slipper satin, the fitted bodice of which was styled with long sleeves, rounded neckline with net insert and wide lace ruffle. Matching lace was used for the peplum of the full skirt, which extended into a long train. Her fingertip veil of combined illusion and lace was held in place with a beaded crown. She carried a white Prayer book topped with a white orchid.

Charles Schuch of Lyons, Ohio, brother of the bride, attended the groom as best man.

For her daughter's wedding, Mrs. Schuch chose a black flowered print and white carnation corsage.

After the ceremony a reception for some 75 guests was held in the parish house with Mrs. William Wright, Mrs. George Elliott, Mrs. Helena Deviller and Mrs. Gibbs Barber serving. The bridal table was covered with a lace cloth, which was a gift of the bride's cousin. Centering the table was an arrangement of yellow and white mums. The four-tiered wedding cake was topped with the traditional miniature bride and groom.

When the couple left later on a trip to Northern Michigan, the bride was wearing a gray suit with navy accessories and a white orchid. Upon their return they will reside in Mt. Clemens where the groom is a Staff Sergeant in the Army Air Force at Selfridge Field.

The bride graduated from Union City high school and has been employed in the Service department at Tecumseh Products Co., the past two years. The groom graduated from Manton high school.

tackle for the tally and the kick was good. Rossford 26, Tecumseh 0.

Two minutes later, the big Devel line charged through and blocked another punt by Baker and Moore. Rossford end, grabbed the ball and ran 34 yards to score. The kick was good. Rossford 33, Tecumseh 0.

The Braves fought back only to have their efforts abborted by penalties. In the fourth quarter, Baker, hrew the pigskin all over the field to his pass receivers. At the start of the fourth period, Rossford scored their last touchdown with Kramer getting his third score of the game on a plunge through center and the kick was good. Rossford 40, Tecumseh 0.

Tecumseh monopolized the play the rest of the game and it was during this time that Kensler hit Colson with a pass only to have it called back by an off side penalty. This play was good for 27 yards. Late in the quarter, Kensler again hit his mark, this time to VanCamp, who raced 59 yards to score and again it was called back. The game ended as the two teams exchanged pass intereceptions. Final score Rossford 40, Tecumseh 0.

The entire squad played good, but against the heavier Ohio team just couldn't get started until too late. Coach Hart is now using the two platoon system.

Tecumseh came back in the fourth quarter on the warpath, determined to score. It looked as if they were going to do it as they marched up the field but the drive was stopped when Dick Beasley, Tecumseh quarterback, fumbled after getting a pass from Van Winkle. Dick was hit hard by a host of Clinton players and had to be carried from the field. Clinton scored in this quarter as Feldkamp again took the ball and went around end to score the last Clinton touchdown. The try for the extra point was no good.

Tomorrow, October 7, Tecumseh battles Addison there at 2:30 in the afternoon.

Highlighting the football season will be the Tecumseh-Hudson Homecoming game, Friday, October 14, to be played at Recreation Center. The Varsity Club and Student Council are planning a parade through the downtown district which will include three bands, floats and many other attractions. After the game a dance will be held.

Round-Up with characters dressed as cowboys, was introduced by Bob Hadley's playing of two accordion solos: "Home on the Range," and "Back in the Saddle." Forty-eight new boys were given Bob-Cat badges in an impressive candlelight ceremony, directed by Mrs. Harold Naser and Mrs. Karl Place. Parents were asked to pin the badges on their sons. The following Cubs participated: Gary Cameron, Duncan Harris, Eddie Hodges, Neil O'Hara, John Naser, Jimmy Purkey, and Jimmy Place.

The new Cubs are: Gary Abner, Dillard Atkinson, William Atkinson, Richard Baiser, Edward Frank Bryan, Jerry Lee Butler, Ronald Butler, Charles Henry Curtis, David Elliott, Gary Elliott, John R. Wilbur Holmes of the Wolverine Council conducted inspection of all Cubs in uniform. This inspection was held on a nation-wide scale the last week of September and by the appearance of all the uniformed boys of the local pack, it is assured that the Tecumseh rating will stand high on the list.

O. E. S. Will Elect Officers This Evening

Officers will be elected at a meeting of the Tecumseh chapter, Order of the Eastern Star, to be held this (Thursday) evening at 8 o'clock. Mrs. Ted Ehinger and her committee are in charge of refreshments.

At a special meeting last week Thursday evening a mock wedding was held honoring Mr. and Mrs. Lawrence Hoagland on their silver wedding anniversary, after which they were escorted to the East and presented with a gift from the officers. Lunch, featuring a decorated cake for the honored members, was served in the dining room by Mrs. LaRue Hart and her committee.

Mr. and Mrs. Elmer Bryan, Mr. and Mrs. Eugene Judson and Mr. and Mrs. Clare Ramsay were initiated into the order.

Harvest Home Day Planned By Friends

The 16th annual Harvest Home Day will be observed next Sunday, Oct. 9, at the Tecumseh Friends church with Dr. G. A. Hodgin, president of Cleveland Bible College, as guest preacher. Bryan Teague of Cleveland will be the soloist and there will be other special music by the choir.

As in former years the church will be decorated with flowers, fruits, vegetables, canned goods, etc. The motto, the same as in the previous 15 years, is "No gift too large—no gift too small."

Those making contributions are asked to bring them to the church as early as possible Saturday. All of the contributions and both the morning and evening offerings will be given to the Cleveland Bible College.

D. A. R. TO MEET

Abi Evans chapter, Daughters of the American Revolution, will meet Friday evening, October 14, at 8 o'clock at the home of Mrs. Chas. Williamson. Mrs. Clare Beland is in charge of the program on conservation. The co-hostesses are Mrs. Frank Bates, Mrs. Virgil Deming, Mrs. George Elliott, Mrs. Ralph Ruesink and Miss Isabelle Tripp.

White Elephant Sale Planned By Club Women

The Ladies Day luncheons at the Tecumseh Country Club have been held twice monthly instead of weekly. Those who wish to resume the luncheon and card games on a weekly basis should register their opinions at the next luncheon and it will be arranged if enough are interested.

The next Ladies Day will be held October 19. This will be a special feature luncheon and entertainment, bound to be big in every way to match its name—a White Elephant sale. Mrs. Ray Shuyler and Mrs. Frank K. Smith and committee are in charge and it promises to be "fun aplenty." Good unused articles, baked goods, canned goods, home made candy, potted plants or anything that someone will be eager to buy at auction will be acceptable for each to contribute in lieu of the amount usually charged for cards.

The purpose of the White Elephant sale is to raise money for draperies for the banquet room, which members will make themselves to save money. Proceeds so far earned at the weekly card games have been used to buy durable card tables. The next objective is equipment for the ladies lounge. A good attendance will readily achieve some of these objectives painlessly. Members are urged to bring guests. For reservations call either of the following hostesses by Tuesday noon: Mrs. Marvin Watkins, phone 415J, or Mrs. A. W. Porter, phone 264RX.

On September 21 hostesses were Mrs. Orville Farver and Mrs. Frank K. Smith. They announced the winners at cards as follows: Mrs. Dalton Walper, bridge; Mrs. Schiegel of Chicago, a guest, pinochle, and Mrs. Russell Carey, door prize.

Guild Is Sponsoring Girl Scout Troop

The Methodist Guild is sponsoring a Girl Scout troop with Mrs. Janet Maples, a member, as leader. Another member, Mrs. Lottie Martin, is acting as a committee woman for the troop.

At a recent meeting of the Guild, held at the home of Mrs. Kenton Hunt, plans were laid for a baked goods booth at the W. S. C. S. bazaar, which will be held October 19. A donation offering will be held at the Guild Christmas party for a family in Greece adopted by the group. The mother of the family presented the Guild with a handmade luncheon cloth and napkins and these will be given to a member at the party.

The next meeting will be held October 25 at the home of Mrs. Gladys Spangler, beginning promptly at 8:30 p.m.

OLSEN and JOHNSON'S
FIREBALL FUN-FOR-ALL
every Thursday on Television

"Buick's the Buy"

It's part of every street scene—something you see every day.

Car owners in three different price classes—all happy about the same thing.

One of them drives a new Buick SPECIAL, which you see poking forth its new, bold-look forefront at the left of our picture.

Another will tell you there's nothing like the SUPER's "happy medium" of size and comfort, power and easy handling, style and standing.

And if you're looking for prestige, where is your money going to buy so much as in that handsome 18-footer, the ROADMASTER, with its 150-hp performance and really royal bearing?

But all these good folks get together on this:

There's no ride quite so soft and cushiony as the Buick ride, whatever the size and series. There's no power quite so satisfyingly lively as Buick's high-compression, *high-pressure* Fireball power.

Above all, there's no "buy" like a Buick—no car that gives you such a rich dollar's worth of smartness, handling, comfort *and* liveliness for every dollar you pay.

So why not look the whole line over? Your Buick dealer has these grand travel-mates in a baker's dozen of different body types and sizes. Start your shopping in his showroom—and you'll find that even on delivery he has exactly what you want.

BUICK alone has all these features

Silk-smooth DYNAFLOW DRIVE* • FULL-VIEW VISION from enlarged glass area • SWING-EASY DOORS and easy access • "LIVING SPACE" INTERIORS with Deep-Cradle cushions • Buoyant-riding QUADRUFLEX COIL SPRINGING • Lively FIREBALL STRAIGHT-EIGHT POWER with SELF-SETTING VALVE LIFTERS (Dynaflow Models) plus HI-POISED ENGINE MOUNTINGS • Low-pressure tires on SAFETY-RIDE RIMS • Double-Duty VENTIPORTS • DUREX BEARINGS, main and connecting rods • BODY BY FISHER

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

You Don't Need Very Much Money To Buy One Of Our Better, Satisfying Used Motor Cars

No, it doesn't take very much money to buy one of our used automobiles, especially if you have one to trade in—and most everybody does. We're listing below a few of the cars we're offering this week at rock-bottom prices. Drop in, swap your old one for a better one or, if you're looking for transportation, we can arrange that, too.

TRUCKERS, LOOK!—A 1946 Ford cab and chassis. 158-inch wheelbase. Four 7:50 x 20 tires, new. Two others excellent. Recently overhauled. Here is a deal for someone.

SPORTY—A 1941 Mercury convertible. Light gray finish. New black top. Good tires. Motor just overhauled. A real price on this one.

GET THIS—A 1938 Dodge Tudor. Good black finish. Better than usual tires. Not banged up at all.

A GOOD LOOKER—1940 Chevrolet Tudor. Good tires, just painted. A dandy car for little cash.

A CHEAP BUY—1940 Ford Tudor. New tires. Motor overhauled last year. Gas heat.

TRANSPORTATION—If you want a car to run around in see this 1940 Ford Tudor. Its a standard and a good guy.

A PEACH—For its age. A 1935 Ford Fordoor. Little money and a lot of miles.

CITY KIDS DON'T HAVE A CORNER ON GOOD TIMES IN SCHOOL.

Lamkin District Youngsters Enjoy 'The Little Red Schoolhouse'

If the kids in the city and village schools think that they have a corner on fun and that the kids in the "little red schoolhouses" lead a drab and dreary life, they'd be in for a rude awakening if, some day, they traded schools with their rural cousins and actually found out that fun begins in the country.

What city kid ever had the pleasure of chasing a woodchuck into its hole at recess time or perhaps, pocketed a field mouse to scare the ruffles off Mary's pink dress durin' readin' class? It just can't be done in the city, nohow. But in the country, well, it's just routine.

Anyway, it took only five minutes or less on a visit to the Lamkin School, (District No. 10, Franklin township), to discover that the 24 youngsters in that school really enjoy life. The oldest of the children are in the seventh grade. There are five beginners. All are happy because they have plenty of room in a spacious school yard to enjoy every imaginable type of recreation. Comes recess time in the morning or in the afternoon they wear off their excess energy and then, in the one-room building fifteen minutes later they settle down to readin', 'riting and 'rithmetic.

Of course the red schoolhouse kids enjoy every advantage of their city cousins, plus, maybe, a little something extra. They hear the upper grades recite—if they have time to listen—because all classes meet in the same room which also serves as the study hall. Books used are similar or the same as those used in larger

(Continued On Page 6)

Students at the Lamkin school, reading left to right, front: Harold Tilton, Billy Yenor, Jerry Munger, Barbara Yenor, Russell Rieves and Bobby LaGore. Second row: Norma Fergason, Jimmy Fergason, Raymond Aylesworth, Bernice Simonds, Bertha Fergason, Meredith Munger and Mary Tilton. Third row: Billy Every, Walter Fergason, B. Tilton, Mary Louise Kotts and Harlen Yenor. Five beginners, who attend school only half days, were not present when the picture was taken. They are: Ronald Muckenstrum, Tommy Simonds, Joan Ailshouse, Raymond Yenor and Gary LaGore.

Youngsters Need Happy Home Life

CHILD STUDY CLUB HEARS DR. HUNTLEY, COUNTY HEALTH DIRECTOR

The mental development of a child is greater during its first year than during the next 25 years, Dr. H. C. Huntley, Lenawee county health director, told members of the Tecumseh Child Study Club, Monday evening, when that organization met at the home of Mrs. Howard Truesdale.

Developing his topic of "Mental Health of the Young Child," Dr. Huntley stressed the fact that a happy home life was most important for a well-adjusted child.

During the business meeting the club decided to sponsor Brownie troop No. 7 with Mrs. Duncan Oliphant as leader. It was also voted to give $50 to the Cub Scouts. A box of clothing will be sent to an orphanage in Germany and members are requested to bring clothing to the next meeting.

At the conclusion of the meeting refreshments were served to the 33 members and guests by the hostess and her assistants, Mrs. Robert Manchester, Mrs. Raynor Rose and Mrs. Keith Barron. Mrs. David Dick, Mrs. LeRoy Tripp and Mrs. Hubert VanCamp furnished favors of Hallowe'en pumpkins for the children.

Funeral Service Today For Mary Leonardson

Funeral services will be held this (Thursday) afternoon from the Niblack Funeral Home in Britton at 2 p.m., for Mrs. Mary S. Lenardson, 82, widow of Owen Lenardson, who died Tuesday at the Parrett Nursing home where she had been a patient for one and one-half years. Burial will be in Ridgeway cemtery.

Mrs. Lenardson and her husband operated a grocery and drygoods store in Britton for 25 years and retired about 20 years ago. She was a member of the Congregational Christian church and the Dorcas class.

Surviving are a son Faunt V. of Wamplers Lake, two grandsons and a niece and nephew. She was preceded in death by her husband and two sisters.

PARENT-TEACHER MEET POSTPONED A WEEK

The Tecumseh Parent-Teacher Association, scheduled for this (Thursday) evening, has been postponed until next Thursday evening, October 20, because of Teachers Institute this week. Mrs. Thomas O'Hara, program chairman, has announced that scenic movies of the Porcupine Mountains, canoeing, and angling from the state conservation department will be shown as a portion of the program.

Refreshments will be served in conclusion.

My office will be closed from October 10 through October 15. Duck hunting.

'Value Days' To Speed Up Buying Here, Oct. 21-22

RETAIL DIVISION OF CHAMBER OF COMMERCE SPONSORS TRADE EVENT

A special trade event, to be known as "Tecumseh Value Days," will be observed on Friday and Saturday, October 21-22, it was announced today by Ronald Harris, secretary of the Chamber of Commerce. The promotion is under the sponsorship of the Retail Division of the Chamber, of which Mrs. Ray Sluyter is chairman.

"Merchants entering into the promotion—and all members of the Retail Division are participating—plan to make the Value Days outstanding by offering GENUINE values to their customers. Some of the merchants plan to sell goods in many instances at cost or below and in all instances to offer bargains that are certain to attract buyers," Mr. Harris said.

"These Value Days have been discussed by the merchants at several meetings and all have agreed that they, themselves, will do special merchandising in order to bring to shoppers in Tecumseh next week Friday and Saturday many bargains the like of which have not been found in many years."

Products Players To Stage New Show Soon

The Products Players are looking ahead and will begin preparations soon on another type of entertainment after a successful two-night run of "The Old Soak," a Don Marquis comedy, presented before two appreciative audiences, Friday and Saturday evenings, at the United Products Workers Union Hall. Si Kring directed the production and enacted the part of Clem Hawley, the old soak, to perfection.

The amateur players were cast well and provided plenty of laughs for their audiences. Those taking part, each one adding to the hilarity in his own way, were Walt Atwell, Duncan Oliphant, Evelyn Eyler, Joan Burke, Bob Hite, Henry Stein, Betty Fish and Clara Rebbataro, as well as Mr. Kring.

Those "behind the scenes" included Dick Hartley, Elmer Harper, Edna Ramsay, Mary Heath Martin, Dick Beasley, Malcolm Duncan, Jane Partee and Edna Hartley. Jack Puffer played piano interludes.

O.E.S. Plans Party For Retiring Matron, Patron

Members and officers of Tecumseh chapter, Order of the Eastern Star, are invited to attend the party to be held at the Masonic Temple, Monday, October 18, at 8 p.m., in honor of Mr. and Mrs Chester Beach, retiring patron and matron. The party is being held instead of the dinner, scheduled for Tuesday evening, October 19.

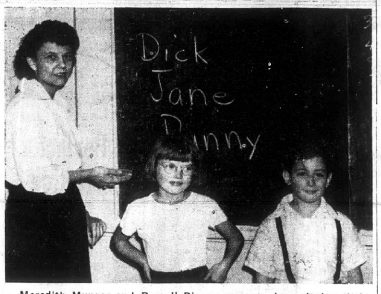
Cards will be played and a short but hilarious program will be presented, followed by refreshments. The Star points in charge are Mrs. Louise Partridge, chairman; Mrs. Kathryn Gibson, Mrs. Ann Rozelle, Mrs. Beulah McCombs and Mrs. Ethel Green.

The committee in charge urges all members to be present.

SCHOOLS CLOSED

The Tecumseh Public Schools are being closed today (Thursday) and Friday, for the fall Teachers Institute, which is being held in Lansing, according to Earl H. Place, superintendent.

PRIME RIB BEEF Dinner Thursday, October 20, St. Peter's Episcopal Church. Bazaar Sale 3 p.m., Dinner 5:30 p.m. Adults $1.25, Children 65c.—Adv. O13



Meredith Munger and Russell Rieves seem to be enjoying their lesson in spelling as they stand at the blackboard with their teacher, Mrs. Elsie Neitling, at the Lamkin school, (Franklin No. 10), on the county road north of Billington's Corners. Twenty-four students attend this one-room school, which recently has undergone extensive repairs.

Organization Of Scouts Complete

MRS. ELVEN E. DUVALL IS NAMED OFFICIALLY AS NEW PRESIDENT

Mrs. Elven E. Duvall is now officially president of the Tecumseh Girl Scout Association, although she has been active in that capacity for several weeks. At the Association meeting held last week in the high school the nominating committee presented the ballot and the remaining officers elected are as follows: vice president, Mrs. Grenval Spangler; secretary-treasurer, Mrs. Benjamin Standen; corresponding secretary, Mrs. Murray Day; registrar, Mrs. Robert Manchester; secretary of supplies, Mrs. Truman Rentschler; custodian, Mrs. Hoyt Raymond.

Annual reports were given by the retiring officers and all troop leaders. The Association is sponsoring a roller skating party for all Girl Scouts and Brownies, except the new Brownies who have not yet been invested. All expenses will be paid by the Association and each troop leader is to make arrangements for transportation for her own members.

Leaders were given flags and sums of money for materials to begin this year's activities. Plans for the Christmas bazaar were begun with Mrs. Hoyt Raymond as chairman. It will be held December 3, the place to be announced later.

The leaders are forming a Leaders Club, whereby they will each receive 16 hours of basic training approved by National Headquarters. Mrs. Arthur Bowser and Mrs. George Wittrup are taking the course in Detroit now and will have completed it October 19. The next week they will begin teaching leaders and anyone else interested in Girl Scout leading.

The Jackson Girl Scout Council has invited interested leaders to take advantage of its handicraft shop work, which will be held October 28.

Poet To Speak Here, Tonight

Edgar A. Guest, nationally known Detroit poet, will be the guest speaker at a dedication service and banquet in connection with the opening of the church's new recreation rooms, tonight, at the Presbyterian church. Tickets are on sale at Wright's Drug Store.

YOUNG ARTISTS TO DRAW WINDOW PICTURES FOR PRIZES

Unique Hallowe'en Contest Is Sponsored Here

Tecumseh's unique Hallowe'en window decorating contest will be repeated this year with added embellishments it was announced today by the Rev. B. O. Bashore, chairman of the 1949 Hallowe'en committee.

This popular event was inaugurated last year when the art class of the Tecumseh High School and some of the more talented grade school students put their best efforts into pictures in soap on downtown store windows. Hundreds of shoppers made special trips downtown to see the students at work and to see their finished productions.

This year the pictures are to be done in color. The committee is obtaining a special window writing crayon which will withstand all except severe weather, but which will clean off with a semi-dry cloth. The pictures will be in red, white, blue, green, black, and yellow.

Miss Dorothy Burgess, school art director, reports that almost three dozen students will take part in the contest. The pictures will be placed on the windows the latter part of the last week in October in order to give the public ample time to view them before the final judging at Hallowe'en.

The Tecumseh Rotary Club is again sponsoring the Hallowe'en promotion, with the Retail Merchants Division of the Chamber of Commerce cooperating on the window decorating contest.

Harvest Home Gifts To College

Photo shows a section of the dozens and dozens of cans of fruits, jams and jellies, apples, eggs and other food, including a ton of flour, given by members of the congregation of the Friends Church last Sunday in observance of Harvest Home Sunday. All of the food was taken on Monday to the Cleveland Bible College as a gift from the church.

Harvest Home Day At Friends Church Yields Tons of Food

CHURCH HERE CONTRIBUTES SUPPLIES TO CLEVELAND BIBLE COLLEGE

The 16th annual harvest home day was observed last Sunday at the Tecumseh Friends Church, with a large attendance at all of the services. As in former years the church was beautifully decorated with fall flowers, apples, pears, pumpkins, vegetables, canned goods, etc. included in the contributions were over three hundred quarts of canned fruits and vegetables, a crate of eggs, and a ton of flour. In addition to the above the offerings at the morning and evening services were given for the work of Cleveland Bible College.

The preacher at both services was Dr. G. Arnold Hodgin, president of the college, and the special soloist was Byran Teague, a student at the college. At the morning meeting the choir also sang the selection, "All Hail, Emmanuel."

Edward Escolme, the pastor of the Tecumseh Friends Church, says that the custom of holding harvest festival services is one of long standing in England, where it is very generally observed. Usually, at such services in England, all of the proceeds are given to some worthy institution such as a hospital, an orphanage, or old people's home. Since the local Friends church began in 1933 to hold such harvest home days the custom has been spreading among other Friends churches in other communities.

Mrs. Dora Billmeyer Is Buried At Onsted

Funeral services were held Sunday afternoon from the Dunn Funeral Home in Onsted for Mrs. Dora Billmeyer, agd 85 years, who died Friday morning at Adrian Bixby hospital. The Rev. F. D. Hague officiated and burial was in Maple Shade cemetery.

Since 1896 Mrs. Billmeyer had been a resident of Onsted, where her husband, Charles, operated a hardware store for 44 years. He died January 25, 1946. Mr. Billmeyer and Dora Springer were married April 22, 1885, and they celebrated their 60th anniversary. She was a life member and past matron of the Cambridge chapter, Order of the Eastern Star.

Fire Prevention Posters Distributed By Scouts

Tecumseh's Cub Scouts took part in their first community activity this season when representatives of the various dens in the city took over the task of distributing Fire Prevention posters for the Chamber of Commerce.

The Cubs have fire prevention as one of their achievement projects this month, and the Chamber's program for Fire Prevention Week gave them an excellent opportunity to translate their den activity into help for the entire community.

Other activities of the Chamber of Commerce for Fire Prevention Week include the distribution of home inspection blanks through the students of the public schools, and the distribution of self-inspection blanks for industrial and merchantile establishments, churches, and places of assembly in the village.

Monday Club In Its 55th Year

LUNCHEON ON MONDAY GETS WOMEN'S ORGANIZATION UNDER WAY HERE

The Tecumseh Monday Club opened its 55th year at the American Legion Home, where luncheon was served at one o'clock to 72 members and guests. Autumn flowers and leaves were arranged on the table and large baskets of flowers placed about the hall completed the decorations.

Mrs. Don Goddard, president, introduced her officers as well as the past presidents. Mrs. Perry Hayden led in devotions. The Service Woman's Club of Blissfield extended an invitation to the Monday Club to be their guests November 22 at the Presbyterian church in Blissfield. The southeastern district of Women's Clubs will meet October 20 and 21 at Hotel Hayes in Jackson, with Mrs. Goddard, Mrs. Truman Rentschler and Mrs. Clair Beland as the local delegates.

Radio station WABJ has invited the club to participate in an interview April 23 and Mrs. Ronald Harris and Mrs. Earl Place were announced as the committee for this event. Miss Edith Ingersoll was appointed to give current events and Mrs. Guy Pocklington to report on legislative news.

Mrs. Pocklingon, leader, introduced Mrs. Herbet Dillon, who opened the program with a piano solo, "Blue Danube Waltz." Mrs. Marjory Wegharst of Dundee sang three selections, "Loves A Merchant," "Fires," and "Love Went," with an encore "Chrysanthemums." She was accompanied by Mrs. A. H. DeGroot, also of Dundee. Ronald S. Pocklington showed moving pictures of and spoke on South America, after which the meeting was adjourned.

BURIED IN ROME

Funeral services were held Monday afternoon from the Dunn Funeral Home in Onsted for Mrs. Hazel P. Johnson, 59, who died Thursday at her home two miles west of Rome Center. The Rev. F. D. Hague officiated and burial was in North Rome cemetery.

Surviving are two sisters, Mrs. Gynath Stevens, with whom she made her home, and Mrs. Ruth Rigdon, and a brother, Frank Pawson, all of Onsted and vicinity, one niece and one nephew.

Indians Ready To Meet Hudson

TO PLAY HOMECOMING GAME HERE FRIDAY; ADDISON DOWNED LAST WEEK

By Don VanCamp

By defeating Addison 7 to 0 last Friday at Addison, the Tecumseh high school Indians brought their L. C. A. A. standing to two wins and as many losses. The Indians outplayed the Panthers but could only score once. The tally came in the first quarter when Dave VanWinkle passed to end Doug McDowell who ran 50 yards to score. Dick Beasley ran the extra point on a quarterback sneak.

McDowell, who was the spark of the team all afternoon, took the kickoff for the second half and with some nice blocking ran the ball to the Addison two yard line, but on the second play Beasley, Tecumseh's quarterback, fumbled the ball and Addison took over.

Addison started a drive down field when Joe Ehlenger took a pass from Hickory and ran to the Indians 15. The Panthers got as far as the eight when they were stopped. Jerry Henry, Tecumseh halfback, went off left tackle and on a nice run went 30 yards to score what should have been Tecumseh's second touchdown, but the officials ruled he had stepped out of bounds on the ten yard line. A 15 yard penalty stopped the threat.

Jerry Judd, Tecumseh guard, played outstanding ball. McDowell, VanWinkle and Henkel also turned in a good game.

Friday, October 14, Tecumseh will take on Hudson here at Recreation Center. There will be a big half time show, including floats, bands and crowning of the queen of the homecoming game.

The lineups for Friday afternoon's game were as follows:

Tecumseh: Center, Eggleston; guards, Jackson, Judd; tackles, Bailey, Goodacre; ends, McDowell, Karsten; backs, VanWinkle, Henkel, Whelan, Beasley.

Addison; Center, McCallum; guards, Frey, Probant; tackles, Bates, Hilly ends, Ehlenger, Knight; backs, Hickory, Rigdon, Baldridge, Decker.

Llewellyn C. Rinehart Is Buried On Monday

Funeral services were conducted Monday afternoon from the Collins Funeral Home for Llewellyn C. Reinhart, 23, who died Friday at 2:50 p.m., at the University of Michigan hospital, in Ann Arbor. Brother George Snyder of Jackson officiated and burial was in Mills cemetery, west of Tipton. The bearers were Allis Robtham, Wm. Kukral, Morgan Petee, Claude Creger, Melvin Whitney and Leonard Sessler. Friends and relatives attended from Morenci, Ypsilanti, Lansing, Mason, Hillsdale, Swanton and Toledo, Ohio, Blissfield, Palmyra, Grass Lake, Jackson, Dimondale, Holt, Addison, Ottawa Lake, Manitou Beach, Sand Creek, Clinton, Tipton, Britton, Ridgeway and Tecumseh.

Born, June 8, 1926, in Franklin township, Mr. Reinhart had been in failing health for the past three months. He served in the U. S. Army, being stationed at Fort Ord, Calif., and at the time of his death was an inspector at the Tecumseh Products Co.

Surviving are his parents, Mr. and Mrs. Clare Reinhart; three brothers, Lyle of the Irish Hills, Norman of Blissfield and Dean at home; one sister, Mrs. Sidney Disbrow of Ypsilanti and several aunts, uncles and cousins.

NOT BY BREAD ALONE

Each year, during the third week of October, National Bible Week is observed. The 1949 observance will run from the 17th to the 23rd.

The week is designed to again focus attention on those basic principles of Christianity which much of the civilized world is supposed to live by—and which are so widely and tragically violated. Here in the United States, to say nothing of other nations, we have little to pride ourselves upon as Christians. We have the highest rate of crime and delinquency in our history—three times as many people are incarcerated in penal institutions as are attending universities and colleges. Eleven out of 12 young people are not active church members. Over 8,000,000 people are under treatment for mental disorders. Religions and morals are often openly ridiculed, and totalitarian principles, which are directly opposed to Christianity and all the other great religions as well, are advocated and taught. There has never been a time when so much cheap and tawdry entertainment—in books and magazines, and on the radio, stage and screen—was offered for sale, and it has a huge audience. Racial and class hatreds are rampant.

Looking at the international scene, it is clear that the failure to live up to the basic ideals of Christianity has led to misery and despair for millions, to the enslavement of once-free people, to a cold war which is absorbing more and more of our energies, our thoughts, our resources. The world is moving swiftly toward a cynical materialism which may destroy it unless the trend is checked.

At a time like this, National Bible Week has a vast significance. In the great old phrase, "Man cannot live by bread alone."

YOUR KEY TO GREATER VALUE

ONLY one make of car in all the land can give you the sweet 'n' easy luxury of Dynaflow Drive†—and that's Buick.

But look how much territory that takes in—how many different-sized budgets can now afford the only drive with neither a clutch pedal nor gears that shift.

You can have Dynaflow as optional equipment on the tidy, sparkling new Buick SPECIAL, with its traffic-handy size, stepped-up roominess, and bold new front-end treatment.

You can have it, again as optional equipment, on the neat and nimble SUPER, with its sleek lines, 110 or 120 horsepower Fireball power plant, and triple Ventiports.

And of course Dynaflow is standard equipment on that best buy among fine cars, the magnificent ROADMASTER. There it combines, with matchless ride, the stirring lift of 150 Fireball horsepower and truly regal size and bearing.

So look at the SPECIAL, the SUPER and ROADMASTER, three Buicks that match almost any price range you have in mind—and remember that all of them offer the added enjoyment of Dynaflow Drive.

†Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

On every one it is the same silky, sweet-handling delight. On every one it cuts driving effort to the minimum, takes tension out of traffic, brings you to the end of day-long drives with surprising freshness and relaxation.

Sooner or later we predict that you'll join the army of car owners who wouldn't think of passing up what Dynaflow has to offer.

Why be among the late-comers? Your Buick dealer will be tickled to show you how quickly and how easily you can have Dynaflow to enjoy—*right now!*

DO YOU KNOW HOW YOU CATCH A COLD IN THE FALL?

Colds Are Contracted From People Who Have Colds

With a little care you may be able to avoid Michigan's first "cold" wave, the Michigan Department of Health advised today.

Colds usually become widespread in Michigan about the time people start heating homes, office buildings and factories in the fall, and they remain prevalent until spring.

Colds are responsible for more illness and absenteeism from work and school in Michigan during fall and winter months than all other communicable diseases put together.

You catch a cold from a person who has a cold—when you take in more of his cold germs than your body defenses can destroy. This is apt to happen when somebody is coughing and sneezing around you, the Health Department said.

Avoid taking in large masses of the germs by staying away from the person who has a cold; by staying out of crowded places during a cold epidemic; by washing your hands before you eat and after contact with a cold-infected person or articles he has handled.

Keep your general health high by getting plenty of sleep; by eating regular well-balanced meals and drinking plenty of water; by getting some outdoor exercise every day; and by letting sunshine and fresh air into your home, office and factory.

Don't lower your resistance by getting too tired, over-heated or chilled. Avoid sitting in drafts, smoke-, dust- or chemical-laden air. Dress according to the weather and the temperature in which you must work.

Go to bed if you possibly can at the first sign of a cold. If you can't stay in bed, get as much rest as possible. Protect others by covering your mouth and nose when you cough or sneeze, and by washing your hands frequently, especially before handling food, cooking utensils or dishes.

Don't try to treat yourself. If your cold symptoms persist, call your doctor and follow his advice.

From where I sit ... *by* Joe Marsh

But Curly "Knows What The Score Is!"

Was over at Doc Sherman's drug store listening to the World Series on the radio. Curly Lawson wanders in and says: "How about a chocolate malted, Doc?"

"Sorry, Curly," says Doc, "can't make you a malted for a while yet." "What's the idea?" Curly asks. "Well," says Doc, "most of the folks want to hear the game and the mixer makes too much noise." Curly thinks a moment and says, "Okay with me, Doc—I'll take a chocolate soda!"

This shows how tolerant folks *can* be. Doc showed his respect for how the majority felt; Curly was big enough not to insist on his malted even though he doesn't happen to be fond of baseball.

From where I sit, willingness to respect the other people's feelings is important in a Democracy. If we're tolerant of a person's like for baseball or a glass of temperate beer, we've come a long way on the right road . . . the road to a better America, that is!

Miss Margaret Jane Baird Bride Of Howard Hintz

Period gowns and customs predominated in the wedding of Miss Margaret Jane Baird and Howard Hintz, both of Clinton, which took place Saturday evening, October 8, in the First Congregational Church of Clinton. The Rev. Harold Sullivan performed the double ring ceremony at eight o'clock before the altar banked with white gladioli, chrysanthemums and lighted tapers in candelabra. Lighted tapers were also placed in the windows of the church.

Francis Baird of Clinton gave his daughter in marriage. Elmer Hintz of Tecumseh is the groom's father.

Wedding music and the traditional wedding march was played on the organ by Mrs. George Catton, preceding the ceremony. Mrs. W. H. Holbrook, accompanied by Mrs. F. C. Gilman at the piano, sang "Because," and "I Love You Truly." During the service she sang "The Lord's Prayer."

Preceding the bride to the altar was Janet Baird, who attended her sister as maid of honor; Janet Papp, flower girl, cousin of the bridegroom; and the two ring bearers, Charles Baird and Elwyn Baird, nephews of the bride. Another little nephew, Donnie Baird, carried the bride's train.

Traditional white satin was chosen by the bride for her wedding gown. The bodice featured a marquisette yoke with four tiers of lace and was made with long sleeves coming to points over the hands. The long full skirt was hooped and extended into a long train. The bride's fingertip veil was edged with matching lace and fell from a crown of orange blossoms. Her only jewelry was a single strand of pearls, a gift of the bridegroom. White satin ribbons cascaded from the colonial bouquet of white gladioli carried by the bride.

The maid of honor was gowned in ice blue satin, and wore a matching headdress. Her colonial bouquet was of pink gladioli. The flower girl wore a gown of pink satin styled like the honor maid's and this was accented with a shoulder corsage of white chrysanthemums.

The two ring bearers were dressed alike wearing maroon corduroy jackets with gray corduroy trousers and boutonnieres of white carnations. The train bearer wore a black velvet suit with white satin blouse, black bow tie and small boutonniere.

After the ceremony a reception was held for some 200 guests who attended from Tecumseh, Milan, Britton, Saline, Ann Arbor, Farmington, Ypsilanti, Morenci, Dearborn, Wayne, Garden City, Concord, Whitmore Lake, Grand Rapids, and Toledo and Metamora, O.

Flowers from the garden of Mrs. Vivian Kendall were used in decorating the church parlor. The table was covered with a hand crocheted lace cloth, a gift from Mrs. Oley Mahrle, and centered with a four-tiered wedding cake made by Mrs. Robert Baird. Lighted candles were at either end of the table. Mrs. Lillian Fitzgerald and Mrs. Baird poured from silver services. Mrs. William Baird had charge of serving and assisted in cutting the cake. Those who served were Mrs. Ervin Schilling, Mrs. Norman Kemp of Tecumseh and Mrs. Don Corwin of Grand Rapids. Mrs. Sam Baird was in charge of the guest book.

The bride was wearing a dark green gabardine suit with brown accessories and a corsage of yellow mums, when she and the groom left on a week's trip through northern Michigan, after which they will be at home at 215 Litchfield St., in Clinton.

The bride graduated from Clinton high school in 1942 and from the Riggs Beauty School in Adrian in 1946. She is employed at the Coral Beauty Shoppe in Clinton. The groom graduated from Britton high school with the class of 1942 and is employed by Argus, Inc., in Ann Arbor.

O. E. S. TO INSTALL NEW OFFICERS, OCT. 20

Thursday evening, October 20, new officers of the Tecumseh chapter, Order of the Eastern Star, elected last Thursday will be installed in a semi-public ceremony. They are as follows: worthy matron, Mrs. Kenton Hunt; worthy patron, George McCombs; associate matron, Mrs. Warren Benham; associate patron, Mr. Benham; secretary, Mrs. Lynn Harris; treasurer, Mrs. Louis Schneider, sr.; conductress, Mrs. Charles Driffill; associate conductress, Mrs. Ray Schlegel.

CHURCH CLASS ELECTS

Mrs. Clifford Curran entertained the members of her Baptist church school class, Thursday evening, at supper, after the girls hiked to her home on the Newburg road. During the business meeting the following officers were elected: president, Norma Bilby; vice president, Janet Bashore; secretary, Helen Furgason; treasurer, Phyllis Butler. The next meeting will be held November 8.

White Elephant Sale At Club, October 19

Thirty-four ladies met at the Tecumseh Country Club for the Ladies Day luncheon, Wednesday, October 5. Although an earlier decision had reduced the number of luncheons to twice monthly, it was decided, in the discussion led by Mrs. Gertrude Schneider, chairman, to resume the custom of meeting once each week for luncheon and cards, beginning October 12. The Tecumseh Country Club setting, particularly in its fall dress, has proven to be irrestible. Inasmuch as the proceeds of these functions help to achieve feminine touches to the club's interior this decision was well received.

Mrs. Frank K. Smith announced a White Elephant sale for October 19. This will be another special attraction designed to draw a large number of guests as did the style show. It will be held in the club lounge where the hilarious auction and novelty entertainment engineered by Mrs. Ray Sluyter, will take place. Contributions of good, unused articles, baked or canned goods, home made candy, potted plants, anything that will attract a buyer, will be accepted in lieu of the amount usually charged for cards. This meeting promises a ton of laughs.

The hostesses of the October 5 luncheon, Mrs. Howard Truesdale and Mrs. Ken Hall, announced Mrs. Frank K Smith as winner of first prize for bridge, and Mrs. Orval Minney, of San Diego, Calif., a guest of her mother, Mrs. Ellsworth Collins, was the recipient of the first prize for pinochle and also the door prize.

Hostesses to be called by Monday noon if possible for the White Elephant sale and luncheon of October 19, are Mrs. Marvin Watkins, phone 415J, or Mrs. A. W. Porter, phone 264RX.

St. Peter's Announces Dinner And Bazaar

The annual bazaar of St. Peter's Episcopal church will be held next Thursday, October 20, with Mrs. O. W. Laidlaw as general chairman. The bazaar sales will begin at 3 p.m., and serving of the prime rib of beef dinner will begin at 5:30 p.m. Proceeds from the dinner will be used to purchase new china and stainless steel dinnerware for use in serving meals.

The following church organizations have appointed their respective chairmen as follows: Altar Guild, Mrs L. W. Larsen, chairman, candy and parcel post sale; choir, Mrs. Jack Smith, chairman, country store; Daughters of St. Peter's, Mrs. Anna Hardenburg, chairman, aprons, luncheon sets and fancy work; Lyster League, Mrs. M. L. Dannells, jr., chairman, pillow cases and handkerchiefs; St. Peter's Guild, Mrs. Donald Goddard, chairman, bakes. Ads; Sunday School, Mrs. Thomas O'Hara, chairman, fish ponds, games, and movie cartoons.

Mrs. Barney McCaughen is dinner chairman and Mr. and Mrs. Orville Farver are chairmen of the ticket committee. The Lyster League will do the decorating and serve as waitresses. Mrs. Lynn Hubbard's Sunday School class has been busy making and distributing posters. Mrs. Charles Butler and Mrs. Karl Schneider are the hostesses.

BAPTIST MINISTER TALKS TO EXCHANGE

Rev. B. O. Bashore used as his subject, "Cooperation in Better Citizenship," when he addressed the members of the Tecumseh Exchange Club, Monday evening, following dinner. His talk was timely and interesting.

Mrs. E. E. Duvall spoke to the group concerning the Girl Scout organization. The club voted to sponsor Troop No 7, again this year. Al Merz and Alvin Coltharst were guests of Bobbie Robinson.

DINNER AND BAZAAR PLANNED BY BAPTISTS

The Baptist Ladies Union voted to cooperate with the young women of the church to hold a public dinner and bazaar at the church, Saturday, November 5, when that group met at the Baptist parsonage, Tuesday afternoon.

Miss Otillie Pechous, superintendent of the Gleiss Memorial Center in Detroit, was guest speaker and described the activities there. The offering at the Harvest Home service, to be held October 30, will be given to the institution. Tea was served in conclusion.

TO MEET OCT. 19

The Harmony Home Makers Club will meet October 19, at the home of Mrs. Wenton Murphy, assisted by Mrs. Thomas Murphy and Mrs. LaVern Murphy. The program at one o'clock will be followed by tea.

WIT, WISDOM CLUB

The Tecumseh Wit and Wisdom Club will meet with Mr. and Mrs. Alvin Brazee at the Iron Creek parsonage, Monday evening, October 17.

About The Folk You Know

It may have been October 9 but nevertheless, Mr. and Mrs. Ray Sluyter had the pleasure of picking roses when they visited his sister and her husband, Mr. and Mrs. E. J. Muir at Saline, Sunday. The Muirs rosebushes are blossoming almost as though it were July or August . . . And, speaking of the weather and gardens, Earl Lindsley brought a branch off one of his raspberry bushes to The Herald last Saturday and it was loaded with berries. Earl is not expecting to harvest a second crop but, he says, at least one of his bushes is thinking seriously about "doin it all over again."

Although many folk are picking roses during this mild weather, those who have seen Mrs. Russell Comfort's generally agree that hers are the best—in beauty, quality and quantity . . . Others who are enjoying their roses are Mrs. Ralph McCarbery, Mrs. Thomas O'Hara, Mrs. Edward Escolme and Mrs. George Schumm.

Several of the Albion College students home for the weekend attended the Adrian-Albion football game at Adrian, Saturday evening, and were sadly disappointed when the Britons failed to defeat their traditional rivals. Jane Hanna and her house guest, Miss Nora Riasco, Jeanet Ehringer and Maureen McLain were among the Albion rooters. Sunday Mr. and Mrs. H. H. Hanna took the girls back to school . . . Mary Brown and her house guest, Miss Virginia Wyman, students at Albion, also spent the weekend here, with the former's parents, Dr. and Mrs. Arthur H. Brown.

Mr. and Mrs. Clyde Bailey entertained at dinner, Sunday, honoring the birthday anniversary of their son-in-law, Royce Beal. Robert Bailey was home from Walled Lake for the occasion.

Mr. and Mrs. Otto Sipe were surprised Sunday, when a large number of relatives and friends joined together for a potluck dinner to help them in celebrating their 30th wedding anniversary. Mr. and Mrs. Richard Brighton and son did the entertaining . . . The guests were Mr. and Mrs. Earl Campbell of Jackson, Mr. and Mrs. Earl Harper and daughters and Jim Records of Adrian, Mr. and Mrs. Don Jaque and daughter of Manitou Beach, Mr. and Mrs. Elmer Harper and family, Mr. and Mrs. Glenn Harrison and daughters of Holloway, Mr. and Mrs. Garth Hall and family, Mr. and Mrs. Ed Harper and son, Mr. and Mrs. Harold Harper and daughter and Mr. and Mrs. Harold Richardson and family of Tecumseh . . . Mr. and Mrs. Sipe received many lovely gifts.

Mrs. Reno Feldkamp of Pleasant Lake was the guest of honor at a cradle shower, given Thursday evening by Mrs. Kenneth Couture at her home near Manchester. During the course of the evening several games were played in which the 22 guests participated. The prizes won were presented to the mother-to-be. Refreshments were served after which Mrs. Feldkamp —formerly Miss Nancy Every— was presented with many nice gifts . . . it happened that on the same day Mrs. Couture's parents, Mr. and Mrs. Richard Ellis, were observing their silver wedding anniversary, so they were pleasantly surprised with a gift from the group.

D. A. R. Will Hear Conservation Speaker

Clarence J. Tinker, representative of the Michigan Department of Conservation at Lansing, will speak and show movies when Abi Evans chapter, Daughters of the American Revolution, meet tomorrow (Friday) evening, at the home of Mrs. Naomi Williamson at 8 o'clock. Husbands of members will be guests and Mr. Tinker has said that the films, such as the one on deer hunting, will be of special interest to the men. Mrs. Clair Beland will introduce the speaker.

The assisting hostesses will be Mrs. Frank Bates, Mrs. Virgil Deming, Mrs. George Elliott, Mrs. Ralph Ruesink and Miss Isabelle Tripp.

SHOWS TRAVEL MOVIE

The Rev. Allan Ramsay, rector of St. Peter's church, showed several reels of motion pictures, covering one of his recent trips to Yellowstone and Glacier National Parks and the northwest, at the regular dinner meeting of the Rotary Club, Tuesday evening at Brees House. The district governor of Rotary was to have been at the meeting but he cancelled the engagement, due to the illness of his wife.

MEET AT PARSONAGE

Wednesday, October 19, the women of the North Rome church will meet at the Baptist parsonage and all Baptist church women are invited Mrs. Naomi Williamson will describe her trip to Japan.

Farm Bureau Opposed To The Brannan Plan

The Tecumseh Raisin Community Farm Bureau meeting was held Monday evening at the home of Mr. and Mrs. Dean VanValkenburg. The meeting was called to order by the chairman Carl Williams with thirty-eight in attendance.

After election of officers James Feight led a discussion on the question "Do we want a Brannan Plan?" The majority of those present were not in favor because higher prices cannot be paid to the farmer and have lower prices for the consumer with a large tax burden.

At the conclusion of the meeting refreshments were served by the hostess.

The next meeting will be held at the home of Mr. and Mrs. Lawrence Boyd.

Clayton L. Greenwald Weds Christine McClure

Christine McClure, daughter of S. Newell Wisner, of near Adrian, and Clayton Greenwald, son of Mrs. Karl Listman of Tipton, were united in marriage Friday evening, October 7, at the Wisner farm home. The Rev. W. N. Taylor of the Tipton Community church read the single ring ceremony.

The bridegroom's 80-year-old grandmotner, Mrs. Lena Poucher, played Mendelssohn's Wedding March as the bride and her matron of honor, Mrs. Ralph C. Ruesink, descende. [illegible] The bride was attired in a blue spruce afternoon dress with brown accessories. Mrs. Ruesink, the bride's sister, wore cocoa brown crepe with black accessories.

A reception was held for some 50 guests after the ceremony. Later the couple left for West Virginia. Mrs. Greenwald was formerly employed as manager of the ready-to-wear department of the A. B. Park Co. store in Adrian and Mr. Greenwald owns and operates The Tecumseh Laundry.

Dinner And Bazaar At Methodist Church

The annual bazaar and turkey dinner of the Woman's Society of Christian Service will be held in the Methodist church next Wednesday, October 19. The bazaar will open at 4 o'clock after the close of school and the dinner service will begin at 5:30 o'clock. The dinner tickets may be purchased at the door.

The following committees are at work to make this affair a success: Fancy goods, Mrs. Lillian Gray, Mrs. Lizzie Foster and Mrs. Mertie Waring; quilts and rugs, Mrs. Chas. Schoenholtz; aprons, Mrs. Edward Leighton and Mrs. Ernest Robison; country store, Mrs. Carl Burch, Mrs. Edward Pangle and Mrs. H. H. Loveland; bakery, Mrs. Ella Bryan, Mrs. Lenore West and Miss Arlene Sherman; candy booth, Beverly Hay and Youth Fellowship; fish pond, Junior boys and girls; posters, Virginia Snyder and Youth Fellowship; dinner plans, Mrs. Wilfred Waldron and Miss Vera Gilbert; cashier of the day, Mrs. George Wittrup.

The proceeds will be used by the women of the church for their Christian work at home and around the world.

OFFICERS REELECTED

The W. C. T. U. met Tuesday afternoon at the home of Mrs. Alta Boyce, with a good attendance. During the business meeting, presided over by the president, Mrs. Jessie Brown, it was voted unanimously to retain the present officers for the coming year. An offering was taken by the sunshine committee, of which Mrs. Emma Day was named chairman, during the absence of Mrs. Boyce, who will leave soon for Florida. It was decided to send plants to Mrs. Melinda Comfort and Mrs. Reuben VanWinkle, who are ill.

The next meeting will be held November 15 in connection with the county institute at the Friends church. It will be an all day and evening meeting.

GENTILE-WALTON

Miss Ann Jean Walton of Tecumseh and Philip A. Gentile of Detroit were united in marriage Friday evening, October 7, at the First Methodist church in Mt. Clemens. The double ring ceremony was performed by the Rev. Henry H. Crane and the Rev. Philip Gentile, father of the bridegroom.

After the ceremony a reception for some 400 guests was held in the church parlors. Upon their return from a northern trip the couple will reside at 139 East Chicago Blvd., Tecumseh. Mrs. Gentile graduated from Adrian College and is now supervisor of music in the Tecumseh public schools. Mr. Gentile is a student at Adrian College.

WHITE CROSS PROGRAM

The Baptist Junior League will meet Tuesday evening, October 18, at the home of Mrs. Gilbert Nighswander with Mrs. Clayton Mikesell as co-hostess. Mrs. Mikesell and Mrs. Charles Beland are in charge of the White Cross program and Mrs. Beland will lead in devotion. Mrs. E. E. Duvall will be a guest and will speak on the Girl Scout activities.

Lamkin

(Continued from Page 1)

schools. And, because it sometimes is easy to juggle schedules, it is possible for the teacher to spend a little extra time here or there, if special emphasis is needed.

Mrs. Elsie Neitling of 321 N. Maiden Lane, Tecumseh, is the teacher at the Lamkin school. It is her second year there and she is popular with the student body. Mrs. Neitling a native of Chesaning, attended college at Mt. Pleasant and later did some postgraduate work at Siena Heights, Adrian. For two years she taught in Macon.

In the Lamkin district, beginners are accepted if they are five years old by November 1 of the initial school year. All grades are taught through the eighth but this year there are no eighth graders. After the eighth grade the children are sent to the Tecumseh public schools and this year there are eight in the Tecumseh schools.

The Lamkin district is one of the oldest in this section of the county and at least four generations have attended in the same building, located about a mile and a half north of Billington's Corners on the county road.

And the oldsters are active in the district, too. There's a very busy Parent-Teacher Association, which meets monthly. In addition, movies are shown once each month, and a special Hallowe'en party, for the grown-ups and the children is now being planned. Never a week goes by but there is something doing at the schoolhouse in which the whole district is interested.

During the past summer the schoolhouse has been completely redecorated. New cupboards and bookcases have been installed, as has a new sink and curtains. Running water is to be added in the spring. Special maps and globes also have been purchased.

And the folk in the Lamkin district are proud of their school—one resident just shook her head when querried about a consolidation program. She indicated that so long as it was financially possible for the district to operate a school the school would be operated.

'Value Days'

(Continued from Page 1)

The merchants participating in the bargain days will do special advertising next week, telling their reader customers about the values that they will offer.

"One thing should be remembered by the buying public, however," Harris said, "is that these Value Days will be for only two days, next week Friday and Saturday, and the bargains that are offered on those days will not continue after Saturday at the deep-cut prices. This is readily understandable because we all know that merchants cannot long sell without profit. However, Tecumseh merchants want shoppers to know that just as great bargains as may be found anywhere will be found and are found in Tecumseh stores not only on Value Days but on other days, as well."

Members of the Retail committee cooperating with Mrs. Sluyter in the promotion are: Mrs. George French, Ned Baldwin, Paul Hadsell, Oscar Bryan and Wm. Wright.

MEXICAN PROGRAM

"Mexico" will be the theme of the program when the Tecumseh Music Club meets next Tuesday, October 18, at the home of Mrs. R. S. Moore, at 7:45 p.m. Mexican costumes will be worn by those taking part and decorations will be from "south of the border," as will the music.

RIDGEWAY

Church of the Nazarene
Rev. C. A. Bearinger, pastor

Friday evening, Oct. 21, Rev. Royall will bring a special message with Sunday School emphasis regarding the responsibilities of Sunday School work.

HOLLOWAY

Mr. and Mrs. Alton Wellnitz and family entertained in their home Sunday Mrs. T. C. Stange and son of Toledo, Mrs. S. E. Beaverson, Forrest Beaverson of Holgate, Ohio, and Ron Beaverson of Detroit who was a weekend guest also.

Mr. and Mrs. George Gehring of Toledo spent Sunday as guests of Mr. and Mrs. George Henry, Sr.

Mr. and Mrs. Floyd Hodges of Sturgis were Sunday dinner guests of Mr. and Mrs. David Grindstaff.

Mr. and Mrs. Edward Mitchell and daughter Molly were Sunday guests of Mr. and Mrs. Chet Haynes and family of Lansing. The birthday anniversary of their mother Mrs. E. M. Haynes of Detroit was celebrated.

The first meeting of the fall season of the P. T. A. Districts 2 and 3 was held Friday evening at the Holloway School. Officers for the year were elected as follows: vice president, Mrs. Rolland Fairpresident, Mrs. Paul Kopke; first banks; secretary and treasurer, Mrs. Gail Austen; the teachers, Mrs. Walter German and Miss Delores Martolock will act as second and third vice president. The program consisted of group singing, vocal solo by Mrs. Walter German accompanied by Mrs. Ken Kopke, and several musical selections by the pupils of both schools. Refreshments were served after the meeting.

The Holloway Presbyterian Church will hold Rally Day Sunday in the church with dinner being co-operative for the families and friends. Each family is asked to furnish a dish to pass.

Mrs. Robert Graham was the honored guest at a cradle shower held at the home of Mrs. Floyd Graham, Sr., with Mrs. Raymond Jenkins giving the shower. Colors of pink and blue were carried out throughout the home and the center piece of the table was decorated baby cake with tiny baby in the middle. Refreshments were served to 15 relatives and friends. Mrs. Graham received many gifts for the expected guest.

Mr. and Mrs. George Henry, Sr. returned home the first of the week from Pesotum, Ill., where they visited relatives last week.

A&P

If You're Looking for REAL FOOD VALUES

YOU'RE LOOKING RIGHT AT 'EM!

And your A&P has plenty more of them, every day, throughout the store! Our policy of high quality with low everyday prices means greater economy all way around in your food budget.

CUSTOMER'S CORNER

Who wants to put A&P out of business?

Not our customers. Many thousands of them are writing and phoning us and telling our clerks and managers that they want to continue to enjoy quality A&P foods at low A&P prices.

Not our suppliers. Farmers and manufacturers alike are telling us that they want to protect this efficient outlet for their products.

Not our 70,000 employees. They want to keep the high wages, good working conditions and security they enjoy with A&P.

Not labor. Union leaders are wiring us to ask what they can do to defeat this threat to labor's living standards.

All these people are telling us they don't want the anti-trust lawyers to put A&P out of business.

Detroit Book Reviewer To Speak Here, Oct. 18

HARRIET HARWOOD, book reviewer for The J. L. Hudson Company, Detroit, will be sponsored by members of the Presbyterian League, who are presenting her on a benefit program to be held Tuesday, October 18, at the First Presbyterian church, at 8 p.m.

Miss Harwood's topic will be "BOOKS OF THE SEASON," and she will discuss outstanding books for adults and children of general interest. Her reviews are neither critical nor dramatic but, rather, they are the highlight about books and the people who write them. Miss Harwood is convinced that reading is one of the greatest pleasures in life and enjoys sharing her own enthusiasm in new books with others. Children's

Miss Harriet Harwood

Miss Harwood and she believes that one of the greatest gifts parents can give their children is to help them develop a taste for good reading. "Reading is fun," she says, "and a child who likes to read is never lonely and grows into an adult with a background of wider horizons for the future."

A graduate of Knox College, Galesburg, Illinois, where she majored in history and literature, Miss Harwood's chief interest in life has always been books and she declares she has haunted local book shops and libraries from the age of ten. She has written book reviews for newspapers and appears each Tuesday and Saturday on Hudson's "Minute Parade" over Station WWJ.

After Miss Harwood's address, light refreshments will be served in the new activities room of the church.

Tickets for this event may be procured now at The Flower Shop or at the church on the evening of the program.

LIGHTING FIXTURES For Every Room

Almost every day we receive new shipments of beautiful lighting fixtures and, almost every day, we sell one or a dozen fixtures to satisfied customers.

THE REASON: Direct shipments enable us to price our fixtures very, very economically. Then, too, the turnover makes possible a small profit.

If you're in the market for fixtures, whether its for the bathroom, hall, porch or dining room, we are in a position to supply them.

BRIDGE ON COUNTY ROAD CROSSING BEAN CREEK ¾ MILE NORTHWEST OF MEDINA, HUDSON TOWNSHIP, LENAWEE COUNTY.

PROJECT: CS B1 of 46-9-5, C1 (S-253 (1)).

Net classification required for this project is 4-Fa.

Sealed proposals for the construction of this project located in Hudson Township, Lenawee County, will be received from contractors having 1949 Michigan State Highway Department prequalifications, in the Veterans' Memorial Bldg., 213 South Capitol Avenue, Lansing, Michigan, until 11:00 A.M., Eastern Standard Time on Thursday, October 20, 1949, and will then and there be publicly opened and read. Proposals may be mailed to Room 424, State Office Building, Lansing, Michigan.

The work will consist of the removal of the existing bridge, the construction of a new bridge and approaches, and work incidental thereto.

Completion date for entire project August 1, 1950.

The Department's Standard Specifications (1942 Edition), its current Soils Manual, the plans for this project, the special provisions governing subletting and assigning the contract and the employment and use of labor, and the proposal blanks (all of which are essential parts of the contract) may be examined at the district office of the Department at Redford, Michigan; at the County Road Commission, Adrian, Michigan, and at the Michigan Road Builders Association, Lansing, Michigan, but may be obtained only at the office of the Contract-Estimate Engineer, Room 424, State Office Building, Lansing, Michigan, up to 5 P.M., of the day preceding the opening of bids. A fee of three dollars will be charged for furnishing plans or proposal blanks, which will not be refunded.

Full cooperation in carrying out the special provisions will be required.

Minimum wage paid to labor employed on this contract shall be as follows: Skilled labor $0.90 per hour. Intermediate labor $0.75 per hour. Unskilled labor $0.60 per hour.

A certified or cashier's check on an open, solvent bank, in the sum of $2,000.00, payable to Charles M. Ziegler, State Highway Commissioner, must accompany each proposal. All such checks will be returned promptly after the bidding, except that those of the two lowest bidders will not be returned until execution and delivery of the contract to the State Highway Department.

The right is reserved to reject any or all proposals.

Six 'Displaced Persons' Happy

Above, Mr. and Mrs. Arijs Freimanis of Sigulda, Latvia, sitting contentedly in the living room of the farm home of Mr. and Mrs. Amos Wilson, northwest of here, after their journey across the Atlantic with their four daughters. They are 'displaced persons', victims of the war, who lost all of their possessions in their native country. Below, their four daughters, Astride, 8, Rudite, 6, Zalga, 4, and Inara, 3 (Herald Photos).

Latvians Find Tecumseh To Be 'Heaven on Earth'

EUROPEAN FAMILY OF WAR VICTIMS ENJOYING FOOD FREEDOM IN LENAWEE

Eggs for breakfast, all the milk you can drink three times a day and at bedtime and, in addition, apples by the dozens if you have room for them in your tummy—These are some of the unusual things that Mr. and Mrs. Arijs Freimanis and their four daughters are enjoying at the Amos Wilson farm, on the county road three miles north of Billington's Corners. The Freimanis family arrived at the Wilsons last Friday afternoon from Germany, having been admitted to the United States under the Displaced Persons quota.

"Of course, we hardly know them," Mrs. Wilson commented, "but they are a lovely family. Mr. Freimanis and the children speak very little English but Mrs. Freimanis is the interpretor. While she doesn't speak our language easily, she does very well."

Freimanis and his wife are natives of Latvia, one of the countries on the Baltic sea. They are 32 years of age and both are graduates of the university at Riga, the capital city. While it is difficult for them to tell you too much about their lives in their native town of Sigulda—a village about the size of Clinton—it may be assumed that they were above the average in wealth and education. Freimanis owned 317 acres of land and operated a wood-working plant, employing 15 persons. Their two older daughters were born in Latvia, the two younger ones in Germany. He served for 18 months in the Latvian army.

The father, mother and two daughters fled Latvia in 1944 when the Russian army took control of the country. They went to

Indian Acres Play School Is Under Way

The Indian Acres Play School opened as scheduled on October 17, with a group of children around the age of four attending. Children are being enrolled on a weekly basis, but parents may make arrangements for the entire first term if they so desire. There will be no increase in rate when the school is reopened after a Christmas holiday. In addition to the morning program, a Wednesday afternoon schedule is being arranged for children of the approximate ages of three to five.

The play school is open to children in the Tecumseh area. Anyone interested in seeing the play room may do so by appointment. Tuesday and Thursday evenings between eight and nine-thirty are reserved by the director for play school arrangements.

INFANT BURIED

A prayer service was held at the Hause Funeral Home in Clinton, Sunday afternoon, for Frederick M. Pate, four-months-old son of Mr. and Mrs. Edwin L. Pate of East Ann Arbor, who died Thursday night in the University hospital. The Rev. C. F. Riggio officiated and burial was in Bridgewater cemetery, north of Clinton. In addition to his parents, he is survived by a brother Edwin, jr., and his grandparents.

NOTICE

I will be out of town from October 29 to December 4 inclusive. Except for the week of November 20 office will be open Monday and Wednesday afternoons only for collection of accounts.

Value Days Oct. 21-22

TECUMSEH MERCHANTS CO-OPERATE TO BRING SHOPPERS SPECIAL BARGAINS

Tecumseh Value Days, October 21 and 22, a sales promotion plan sponsored by the Retail Division of the Chamber of Commerce, will get under way at 9 a.m. tomorrow morning. Practically every store in the village is offering special bargains for the two days and The Herald, in this issue, is carrying the merchants' messages in advertising form.

"Deep cut prices" is the slogan adopted by the cooperating stores for the two days but, the Chamber warned, the prices offered for the Value Days will end on Saturday night.

"Some of the values offered for the two shopping days are at cost or below" Ronald Harris, secretary of the Chamber said, "and buyers can readily understand that merchants cannot, for long, operate without profit. However, for the two special trade day event, they are sacrificing profit to bring outstanding values to their customers."

Mr. Harris pointed out that there are no contests being operated in connection with the bargain days and he concluded; "Rather than to give prizes, the merchants are really cutting prices, passing the savings directly to the shoppers."

Mrs. Ray Sluyter is chairman of the Retail Division of the Chamber, sponsoring the sales event. A special street radio broadcast, over Station WABJ, Adrian, will be a part of the promotion. The high school band also will play each afternoon of the two days.

YOU MAY PARK FREE DURING "VALUE DAYS"

If you shop in Tecumseh tomorrow or Saturday, Value Days, you may park free. The meters will not be in use. Tecumseh's downtown streets are somewhat torn up, because of the installation of new curbs and gutters, but there still is plenty of parking room. The curb-gutter project is somewhat behind schedule, due to state approval of contracts, but it was pointed out that the work cannot be delayed longer if it is to be finished before cold weather. So, all in all, motorists get a break. Its free parking this week, either on the streets or in the parking lots.

Braves Downed Twice In Week

FENTON AND COLDWATER BOTH TRAMPLE LOCAL SEMI PRO AGGREGATION

By Max Brandt

The Tecumseh Braves victory wagon received two jolts off the winning trail during the past week when the semi-pros lost to Coldwater, 25-0, last Wednesday night and when the Fenton Independents edged them out by a 12 to 6 score, Sunday afternoon. Both games were played on foreign soil and both home teams, therefore, had distinct advantages.

In a knock down and drag out game on Sunday, the Fenton team had to stop two Brave drives the last quarter in order to squeeze out a 12-6 victory. The local boys just couldn't cross the last double stripes else the contest would have been a win for the Indians. Fenton scored in the first and third quarters while the Braves picked up their marker in the fourth.

Mrs. Leora Floraday Buried In Rochester

Funeral services were held Monday afternoon from the Collins Funeral Home for Mrs. Leora B. Floraday, aged 81 years, who died Saturday at 2:30 a.m., at the home of her daughter, Mrs. John Betser, 516 W. Logan. The Rev. B. O. Bashore officiated and burial was in Rochester. The bearers were Jesse Long, Clarence Taylor, William Mohler, Thomas Boyd, Earl Betser and Burton Floraday. Friends and relatives attended from Detroit, Toledo, Rochester, Sand Lake, Clinton and Tecumseh.

Born, January 10, 1868, in Rochester, Mrs. Floraday had been ill for about three weeks. She was a member of the Rochester Baptist church.

Surviving are two daughters, Mrs. Betser and Mrs. Austin Chambers of Detroit, one nephew, Burton Floraday of Toledo, one niece, Mrs. William Harris of Richmond, two granddaughters and one great-grandson.

Indians Down Hudson, 18-7

HIGH SCHOOL GRIDDERS VICTORIOUS AT HOMECOMING GAME, FRIDAY

By Don VanCamp

Coming from behind in the second and third quarters the Tecumseh Indians overpowered Hudson high school at Recreation Center, Friday evening, by the score of 18-7. It was a Homecoming game and a big half-time program was staged.

The first touchdown was made by Hudson in the first quarter when Culver tossed a pass to halfback Meredith good for 39 yards and the tally. In the second quarter, Tecumseh, taking the ball on their own 14, started a drive which resulted in six first downs and a touchdown. After moving to the 19 on a ground attack, the Indians took to the air. VanWinkle's toss to Henkel picked up nine yards. Whelan, right over center, went for two yards for a first down on Hudson's 8 yard line. VanWinkle again taking the pigskin hit Beasley with a pass to the one. With just seconds to go before the half, Beasley took the ball over the stripe. Henkel's kick was not good and the half time score was 7-6 with Hudson leading.

Early in the third quarter Doug McDowell recovered Culver's block punt on Hudson's 40. Van Winkle then took the ball on an end run and went 12 yards. Henkel took a lateral for five yards and on the next play Dick Whelan, Indian fullback, went off tackle to score Tecumseh's second touchdown. Henkel made the extra point and Tecumseh led 13-7.

In the fourth quarter Tecumseh again threatened when Hudson took a five yard penalty against Tecumseh. If they had refused it would have forced Tecumseh to kick, but their decision gave the Indians another chance. Van Winkle, fading back, tossed a long pass to end Norm Karsten which put Tecumseh on Hudson's five yard line. But on the next play a fumble was recovered by Hudson to end the threat.

Kroger Predicts Drop In Pork, Apple Prices

TOLEDO—Even though a three-year low in the cost of living figures was reached recently, an additional drop in the retail price of two important commodities, pork and apples, can be expected, Carl Fuller, branch manager of the Kroger Grocery & Baking Co., in this area, said today.

Pointing to a thirteen per cent increase in hog numbers with peak marketing yet to be reached, and the largest apple crop in 10 years, he said that both were plentiful in large supply and the prices were the lowest in years.

Kroger, as well as many other food distributors, is staging special promotions, running special newspaper advertising and featuring special prices on both items in an effort to stimulate an increase in the movement of these farm products. Moving the abundant supply quickly will not only aid producers but will also provider consumers with good value, the Kroger official said.

Prior to the war years, Kroger and many other food chains conducted these producer-consumer promotions to move agricultural surplus. Such promotions proved effective in stabilizing farm prices. By keeping farm prices from sinking below the cost of production is to the best interest of both consumer and the producer, Mr. Fuller said.

Rotary Plans Spooks' Party

ENJOYABLE TIME FOR TECUMSEH'S YOUNG FOLK IN CLUDES FREE MOVIE

The Tecumseh Rotary Club, following its usual custom, has plans under way for the annual Spooks' Party on Hallowe'en, and this year it will include a free evening's length movie at the Strand theatre in addition to a parade and gifts for the youngsters.

"There'll be an evening packed full of fun and thrills for both young and old," the Rev. B. O. Bashore, chairman of the event, said today. "We plan to get the evening program started about 7 o'clock with a parade of masked merrymakers through the business district, headed by the high school band, and later, after each youngster has received a gift, there'll be the theatre party to which every youngster of school age is invited."

Special prizes for costumes will not be awarded this year, as in the past, the Rev. Mr. Bashore said, but instead, every school age child participating in the event will receive a worth-while gift, in addition to free admission to the show.

"We are not discouraging the use of costumes, rather we want everyone to wear costumes," Bashore said. "However, we want every child to have a gift, too, instead of a few, so we are changing the program a bit." He said that children would be admitted to the theatre, whether or not they were in costume.

Another feature of the celebration will be the decoration of downtown store windows with colored pictures, drawn on the glass by art students designated by high school instructors. Special crayons will be used and the pictures will be judged.

The complete Hallowe'en program in detail will be announced in next week's Herald.

Judge Tripp Speaks At Historical Meet

The fall meeting of the Lenawee County Historical Society was held Thursday, October 13, at the home of Mrs. Lena Pocklington, south of Ridgeway.

After a bountiful potluck dinner at noon, a talk was given by Judge Maurice E. Tripp of Adrian on the topic, 'Children's problems" which was illustrated with movies shown by Mr. Blaonk.

The group sang "America" accompanied by Mrs. Wilfred Waldron, who then played a piano solo. Mrs. Pocklington read an interesting history of Ridgeway township and Mrs. Frederick Kellogg of Adrian related some interesting pioneer stories. Mrs. Dewey Sturtevant played a piano solo.

After a short business meeting the group adjourned to meet next May with Miss Edith Shull of Tecumseh.

250 At Dedication Banquet At Church

$30,000 IMPROVEMENT TO PRESBYTERIAN CHURCH IS FORMALLY PRESENTED

Two hundred and fifty persons attended the banquet at the First Presbyterian church here, last Thursday evening, formally dedicating the new $30,000 Fellowship Center, recently completed. Mrs. Amey Scutt, oldest member of the church in attendance, placed the dedication plaque.

Edgar A. Guest, nationally known Detroit poet, was the speaker. He was introduced by Circuit Judge G. Arthur Rathbun. Earl H. Place briefly reviewed the history of the progress of the church, as it has kept pace with the community's growth. The invocation was offered by John Lott and the benediction was by the Rev. Donald Wilson, pastor of the church. The dinner was served by Tecumseh Grange.

The Fellowship Center, located in the church basement, will in the future be used for all church activities as well as for a meeting place for the Sunday school.

Chest Campaign To Open Nov. 4

BUDGET IN RED FEATHER DRIVE THIS YEAR TO AMOUNT TO $5,370

Tecumseh's Community Chest campaign will get under way on Friday, November 4, it was announced today, following a meeting of the board of directors of the organization, Tuesday evening. Geo. H. Adamson is president of the Chest.

The tentative budget, as set by the directors, is as follows: Tecumseh Hospital Auxiliary, $350. Cancer Society, $350. Hallowe'en and Christmas parties for children, $200. Girl Scout Association, $500. Tecumseh Boy Scouts, $100. Tecumseh Cub Scouts, $200. Recreation Center, $500. Sister Kenny Fund, $100. Salvation Army, $300. Michigan Welfare League, $10. Travelers Aid, $10. Michigan Aid for Blind, $50. Tecumseh Health Education Committee, $100. Tecumseh Child Study Club, $100. Emergency Relief Fund, $2,500.

The total budget this year amounts to $5,370, or $50 more than it was last year, when contributions amounted to $5,639.

"We hope that the Chest campaign may be concluded in record time this year, and that contributions will be generous," Mr. Adamson said. "We feel that the public appreciates giving once, and only once for the several participating organizations. In this instance, 15 organizations are sharing in the drive."

While all of the details of the drive have not been completed, it was said that an intensive campaign would be launched, including house to house solicitation as well as industry and business.

3,000 Audience At Band Festival

SIX HUNDRED MUSICIANS PARTICIPATE IN MUSICAL PROGRAM AT RECREATION

Six hundred musicians of 12 high school bands in mass assembly at Recreation Center, last week Wednesday evening, thrilled some 3,000 spectators, who had previously witnessed for two hours routines by each of the bands. The third annual festival was made possible through the efforts of Clare Camburn, Tecumseh high school band instructor, who was presented to the audience by the Rev. B. O. Bashore, master of ceremonies, during the program.

Massed together for a great memorial service honoring the youth of World War II, the bands played "March Religioso" (Onward Christian Soldiers) and the national anthem, under the direction of Edward Cooley of Williamston. After a prayer by the Rev. Mr. Bashore, the firing squad of Hall-Slater post, Veterans of Foreign Wars, discharged its volleys. Taps sounded by some 100 trumpeters climaxed the impressive service. Plans for a giant cross with all 600 musicians taking part had to be abandoned because of electrical difficulties.

Sneaking onto the field in a very unique fashion led by a nattily attired drum major, the Brooklyn band made a most colorful appearance in their royal blue uniforms with bright yellow plumes attached to their headgear. Included in their comedy routine was "Merlin the Magician," who "hypnotized" the members into wooden soldiers, after which they marched stiff legged while playing "March of the Wooden Soldiers." "Merlin" then

TWO CARS CRASH HEAD-ON ON MATTHEWS ROAD EARLY SUNDAY EVENING

Seven persons are patients in Tecumseh hospital as a result of a head-on collision, which occurred at 8:30 o'clock, Sunday evening. A car driven north on the Matthews Road a short distance south of US-112 and about a mile southwest of Clinton by Dale Bowen of Tecumseh, crashed head-on with one driven in the opposite direction by Orville Weasel of Deerfield, Route 1. The two cars met at the top of a hill, according to investigating officers.

Mrs. Bowen, a passenger in her husband's car, suffered a broken left collar bone and broken right leg. Mr. Bowen received a wrist injury and forehead cuts. All car. They are: Mr. Weasel, head car. The yare: Mr. Weasel, head and chest injuries; Homer Weasel, 10, broken arm; George Van Haerents, 25, of Deerfield, multiple lacerations; his wife, 23, lacerations; their daughter, Nancy 3, broken leg and lacerations. Mrs. Weasel, who suffered shock, was released after treatment.

Both cars were damaged extensively. Bowen was charged with failure to keep to the right side of the road and Weasel was given a summons for having no operator's license on his person. State police of the Clinton post investigated the accident.

FOR INFERIOR MEDICINE

How much would the proposed scheme for compulsory government health insurance cost the taxpayer of this country?

Many estimates have been made, and most of them have contained a large element of guesswork. As a pattern, however, we can take Britain's experience with her "free" medical care plan. Accordingly, Aneurin Bevan, the Minister of Health, the plan is costing Britain more than 50 cents a week a person—over twice the original official estimates. The total cost of the system this year will probably exceed $1,500,000,000.

In an editorial on the subject, E. T. Leech, editor of the Pittsburgh Press, says: "On the same per capita cost, a similar U. S. health plan would cost about $6,000,000,000 a year. But far higher living standards would probably make the bill twice that amount." In other words, at a time when the Federal government is unable to make both ends meet even with a $40,000,000,000 income, compulsory health insurance alone would pile up to $12,000,000,000 a year more on the sagging backs of the taxpayers!

And that would not be all—not by a long shot. Government-medicine would levy an enormous cost in a coin other than money. It would—if experience elsewhere means anything at all—lower the standards of medical care. It would be a barrier to research and preventive medicine which, in the long run, can do more than anything else to improve the health of a people. It would create a great new political bureaucracy, with sweeping powers over medical practice. And, sooner or later, it would inevitably end in completely socialized medicine.

B. & P. W. CLUB PLANS HALLOWE'EN PARTY

The Tecumseh Business and Professional Woman's Club will meet Monday evening, October 24, for a Hallowe'en party at the Presbyterian church. Supper will be served at 6:45 p.m., and will be followed by a program with Mrs. Anna Hardenburgh, Mrs. Ray Sluyter and Mrs. M. G. Partridge in charge. A fine will be collected from all members who do not appear in costume.

Mrs. Naomi Sallows will lead in devotions and Mrs. Nina Heath, Mrs. J. M. Artman and Mrs. Jennie Hillman are the hostesses.

U. S. Presidents Wilson, Tyler and Cleveland married while in office.

President Inspects Auxiliary of V. F. W.

Mrs. Esther Mathews of Dimondale, president of district No. 6 of the Auxiliary of the Veterans of Foreign Wars, conducted the annual inspection of Hall-Slater post auxiliary, Thursday evening, following dinner served in her honor in the post rooms. Three new members were initiated into the organization. They were Mrs. Emily Naugle, Mrs. Minnie Eisenminger and Mrs. Marie Marten.

During the business meeting the auxiliary voted to sponsor the same Brownie Scout troop it did last year and to offer its services in the Community Chest campaign. Quotas were met for National Home, Americanism and Buddy Poppy camps. It was voted to give $5 to the National Home Christmas fund and $15 for the hospital work.

An area meeting will be held at the Ottawa Lake I. O. O. F. hall, October 25 at 8 p.m. Members who plan to attend are to call Mrs. Max Brandt by Monday, October 24.

The next regular meeting will be held October 27 in the post rooms.

Thank You, Mr. & Mrs. N. M. Davies of Congers, New York

We're Sure That Millions of Farmers and Consumers Feel Just as You Do!

One of the wonderful things about Americans is their great sense of fair play.

Ever since the anti-trust lawyers announced their intention of putting A&P out of business, tremendous numbers of people like Mr. & Mrs. N. M. Davies of Congers, New York, have deluged us with letters, wires and phone calls.

These people are telling us, as Mr. & Mrs. Davies do in the following letter, why they like A&P and why they don't want to see this company destroyed.

Gentlemen:

We have been distressed by the possibility that the A. and P. stores, because of unfair accusations, may cease to exist. I wonder if you will see that our letter reaches the proper source, if there is one.

We are farmers, as you know, and not only sell our products, but buy necessary food from local A. and P. stores. We deliver farm produce, daily, to approximately eighteen stores in nearby villages. This includes two A. and P. markets, whose managers very wisely buy on-the-spot, thus saving deterioration due to excess handling, transportation and longer time from the farm to store. Our price to sixteen stores is the same as we get from the two A. and P. stores.

We wondered whether the low prices we see all the time in A. and P. stores might mean that sales people were underpaid. Evidently not, for we have noticed that the same employees stay on year after year, and we know high-school students in our town who have started at the bottom with A. and P. and risen to responsible positions.

Then what is this all about, if the consumers, the salespeople, those who manufacture your brands, the truckmen, the laborers and the farmers are ALL satisfied?

We believe the answer is simple. The A. and P. has developed an organization whose efficiency should be an example to all stores handling food. If this were so, independent grocers could well expect larger profits. The solution is not in destroying something that has taken years to build, but in encouraging all merchants to still further improve the efficiency of their operations.

Very sincerely,
Niles M. Davies
Erica Davies

For 90 years this company has tried to build a sound business on the basis of giving consumers more good food for their money and giving farmers better markets for their products.

It is heartening to know that the public approves of the job we have done . . . to know that our policy of fair, honest dealing has won us the friendship of millions of consumers and farmers.

We will always be grateful to all our good friends who have offered us their help.

We are proud to live in a country where such things can happen.

THE GREAT ATLANTIC & PACIFIC TEA COMPANY

Latvians

(Continued from Page 1)

Esslingen, Germany with Mrs. Freimanis' father, whose wife and ons son were taken to Russia by the soldiers. Mrs. Freimanis says that she knows nothing of the whereabouts of her mother or her brother.

Asked about the treatment they received at the hands of the Russians, Mrs. Freimanis only shakes her head and says, "Very, very badly." She recalls that some 30,000 persons were killed during the first year of the occupancy, and many others died. The diet was bread, water and soup.

When the family fled Latvia they left everything behind—their business, their property and their clothing, except the clothing they wore. It seems that the mother and father were separated for a year and for several months, and in winter, Mrs. Freimanis and her two children lived in an unheated room.

The Freimaniss were reunited in Esslingen, Germany, and have lived there since the war. They resided in the American zone and Freimanis worked for the I.R.O., (International Relief Organization), as a truck driver. Mrs. Freimanis taught kindergarten. He received about $20 (American money) for a month's work and she was paid $19 for her work.

How it was possible for them to support a family of six on less than $40 a month—and it would have been impossible had it not been for relief in the form of food and clothing from America—is difficult to understand. Prices as we think of them here were low in many instances for food and clothing, but what they lacked was the money with which to buy the things they needed. For instance, a pair of children's shoes cost about $4.50, a pair of men's shoes about $5.75, and women's shoes about $7.75. A man's suit was priced at $19, women's clothing was more expensive, and eggs were six for $1. Milk, well it couldn't be afforded on such a slim budget, and apples and other fruit were out of the question.

Asked about toys for the kiddies, Mrs. Freimanis simply shook her head and said, "Too costly, we needed our money too badly to buy food. When they arrived here, one of the little girls had a plastic dolly about two inches high, and one of the other children had a dolly a little larger. Those were all of the toys they had known as their own.

Mr. Freimanis and his oldest daughter, Astride, aged eight, play the piano. Maybe some of the other children do, too, as well as the mother. Anyway, Mrs. Freimanis managed to save a few of the marks she earned each month to give her oldest daughter music lessons. The other children in the family are Rudite, 6, Zaiga, 4, and Inara, 3.

It seems that the Freimanis have an uncle in Detroit who fled Latvia at the time of World War I. He is a semi-invalid, suffering from the hardships he underwent in his escape to America. He has worked diligently in Detroit, (he is with one of the automobile companies), and years ago he resolved he would bring all of his family to the United States. He has succeeded—almost— there is still one family of three in Europe, now that the Freimanis family is here.

The uncle sponsored the Freimanis family under the Displaced Persons quota and paid for their passage to America. Amos Wilson and Mrs. Wilson contacted him several months ago in Detroit, and arranged to take the family upon their arrival in the United States. It was a seven day voyage and there was sea sickness. They landed in New York last week and then came on to Detroit.

At the present time Mr. and Mrs. Freimanis and the girls are living with Mr. and Mrs. Wilson and their four children in the farm home. However, Mr. Wilson plans either to remodel the large farm house and make an apartment upstairs or to purchase another house nearby in which the Freimanis family may live.

Both Freimanis and his wife are anxious and willing to work. He is busy helping Wilson on the farm from early morning until late at night. She is busy, too, helping Mrs. Wilson in the home. There are 36 meals to be served each day —and that doesn't include lunches.

Mr. and Mrs. Freimanis and their daughters, it would appear, are enjoying at the Wilsons the first happiness that they have known since they fled Latvia in 1944. The little girls romp and play in the spacious farm yard, visit the orchard and eat the apples, scamper to the kitchen for a glass of milk or a slice of bread with real butter, and, most of all, they are unafraid.

The kiddies, like their parents, have known the true meaning of the word fear. Perhaps the children do not remember as much about what happened in Latvia as do their parents, but, nevertheless, they must have memories.

And the Wilsons, too, are being repaid for their kindness, because every member of the Freimanis family is exceedingly grateful. The little girls love Mrs. Wilson and its a treat for them, comes evening, to sit on her lap when she rests in her favorite rocking chair.

Asked what she enjoys most about America—what little she has seen of it in the 10 days that she has been here—Mrs. Freimanis only smiles and says, "Everything, its heaven."

And Mr. and Mrs. Wilson and their family of four may justly take the credit for bringing "heaven" into the lives of the displaced family.

Funeral Services Held For Former Resident

Funeral services were held Sunday afternoon from the Everies Funeral Home in Adrian for Eland Stone, who died last week Wednesday in St. Joseph's hospital, Ann Arbor. The Rev. Howard Western officiated and burial was in East Rome cemetery. The bearers were Clarence and Homer Pickford, Luther and Pliny McRobert, Harold Hoag and Lawrence Stanley.

Mr. Stone was born in Rome township, December 13, 1886, and spent his entire life in Adrian and Tecumseh. Before entering the Ann Arbor hospital he had been a patient in the Tecumseh hospital.

Mr. Stone had been employed by the Tecumseh Products Co. for two years. He was a veteran of World War I and a member of the William C. Stark post of the American Legion and the Annis-Fint post of the Veterans of Foreign Wars. He was affiliated with the Tecumseh Eagles lodge.

February 24, 1911, Mr. Stone married Bessie Reeves and she preceded him in death December 28, 1911. Surviving are one brother, Elwood of Onsted, two sisters, Mrs. Emma Haviland and Mrs. Edith Halstead of Adrian, and one niece, Mrs. Harold Hoag of Adrian.

Two U. S. Presidents received the Nobel peace prize—Theodore Roosevelt in 1906 and Woodrow Wilson in 1919.

George Washington was born in Virginia, at that time a British Colony.

Woodrow Wilson issued the first Mother's Day proclamation.

3,000 Audience

(Continued from Page 1)

"unhypnotized" them. Later the members "beheaded" an "intoxicated" persons, who interfered with their marching. George King is director of the band.

The snappy Lyons, Ohio, band, under the direction of Jack Phillips, displayed its skill in precision marching and its majorettes performed well. As its specialty number, the band formed a pipe, and, as the majorettes released gas-filled balloons, played "I'm Forever Blowing Bubbles."

Many spectators were feeling pity for Marilyn Lindsley, local drum majorette, when she was reprimanded by Mr. Bashore because she directed the formation of the letter "T" by the Tecumseh band facing in the wrong direction. It was all in the script, however, and when Marilyn blew her whistle the band members turned the entire letter around to face the audience.

Square dances and waltzes were featured by the Hudson band, which was well received by the audience. Raymond Westgate directs the band.

The Adrian band, directed by Al Bohms, was in the formation of a symphony orchestra, and, as imaginary nickels were inserted into an imaginary juke box, the audience was shown "what goes on behind the scenes of a juke box."

While the Ida band was in the formation of a tepee, the majorettes did an Indian war dance and the "Indian chief" was introduced. The band is directed by Harmon Meihls.

The Addison band, directed by John Huffman, did a television formation which received a big round of applause from the crowd.

Columbus was remembered by several of the bands which each formed the letter "C." Still others did precision marching and formed school letters. Among these were Britton, under the direction of Joseph Foder; Onsted, Morenci, directed by Raymond Westgate; Metamora, Ohio, under the direction of Jack Phillips; and Sand Creek, directed by Ellen Beck. The Blissfield band, under the direction of Gilbert Blanks, opened the program with precision marching.

Braves Downed

(Continued From Page 1)

In the Wednesay night game the Coldwater Independents put on a razzle dazzle show for the home fans during the first half. The Braves played Coldwater to a standstill the second half but the 25 point lead was too much to overcome. On offense Kensler and Tilton opened holes while Purkey and Sisson caught Colson's passes. Baker and Van Camp drove the opponent's line. On Defense, Murphy and Carpenter backed the line as Dinse and Williams plugged.

Mexican Program Is Enjoyed By Music Club

The living room of the home of Mrs. R. S. Moore on West Chicago Boulevard, was delightfully transformed into a Mexican market place for the meeting of the Tecumseh Music Club, Tuesday evening. As the members and guests arrived at the Moore home they were greeted at the door by Jane Dillon and Sharon Lee Gallant, both in appropriate dress, who ushered them to their places. Hand woven baskets, rugs, shawls, and blankets, costumes, many curios and Mexican scenes met the eyes of the members, and as they became engrossed in the program, it was easy for them to believe they, too, were "down Mexico way."

Further carrying out the theme were the participants in the program, who were dressed in Mexican costumes. The hostess announced the following numbers: Mexican National Anthem, Signor Dickinson; tango, "El Irresistable," Signora Waldron; "Cie Lito Lindo," Signor Whiting; "Fiesta," Signora Hayden; fiesta dance, Signoritas Moore and Purcell; "Las go londrenas," Signora Mulvaney; trio, "Estrellito," Signoras Boyce, McConnell and Heath; "Mi Sombrero," Signor Dickinson; "Tango in D," Signora Dillon; "Salud, Dinera, Y Amor," Signor Whiting; "La Rosita," Signora Gallant; duet, "Marquita," Signora Day, Signor Dickinson; dance, "Jurabe Tapatio," Signoritas Crosby and Helzerman and Signors Barton and Randell; "Buy My Violets," Signora McConnell; "Mexican Serenade," Signoras Moore and Heath and Signors Dickinson and Whiting.

Signora Driscoll was the accompanist for the dancers.

Seated at either end of the refreshment table, which was covered with a hand-woven cloth from Mexico, were Mrs. Kennard Wise and Mrs. Maynard Mulvaney, who served punch in hand blown glass tumblers, brought from Mexico by the Moores as were a majority of the articles in the "market place." Cookies were served on matching plates. Assisting Mrs. Moore as hostesses were Mrs. Joe Rice, Mrs. George Wittrup and Mrs. Kennard Wise.

Church Fair, Dinner Planned By Baptists

Members of the Baptist church congregation are making plans for a church fair and dinner to beheld Saturday, November 5, in the dining room. The fair booths will be a church fair and dinner to be held will begin at 5:30 p.m.

The following chairmen and their committees are busy making arrangements for the affair: Mrs. Carl Kempf, fancy work; Mrs. Maurice Cornell, aprons; Mrs. Cecile Baker, baked goods; Mrs. Clifford Curran, candy; Mrs. Ronald VanValkenburg, dining room; Mrs. Dow Bilby, dinner. Miss Swick will be the cashier.

Proceeds will be used to redecorate the primary room and the upstairs parlor.

Girl Scouts In Need Of Leaders

The Jackson Girl Scout Council has invited all interested adult Girl Scout personnel in Tecumseh to participate in its three-day Handicraft Workshop to be held at Jackson headquarters beginning Wednesday, October 26. The registration fee for all three days is $1.00. Registrations must be given to Mrs. George Wittrup by Friday October 21. Any troop leader or member of the Tecumseh Girl Scout Association is eligible to attend. The first session begins at 1:30 p.m. on October 26. Valuable handicrafts and skills will be taught as well as teaching methods.

The welcome mat is still out for new teen-troop women leaders in Tecumseh. To be a leader, one must be over 21 years old, enjoy having fun, and being with girls 11-15 years of age. There are sponsors and committees available to assist new leaders in every way. Leader training is being started to thoroughly familiarize girls with the Girl Scout principles and program. The association will arrange meeting places and troop financing and will cooperate in every way to make the new leaders' year a success. All troops must be registered by November 1.

"Unless a few women can spend about two hours of one day each week and one evening each month with these teen-age troops, 64 girls in Tecumseh will not be able to continue in Scouting, Mrs. Elven Duvall, president of the association said. Anyone interested in troop leading may contact Mrs. Duvall.

Leaders and troops are busy on bazaar plans. Mrs. Duvall reminds them that all projects must be authorized by Mrs. Hoyt Raymond, bazaar chairman, before work is begun. Others on the bazaar committee are Mrs. E. M. Partridge, treasurer, and Mrs. R. F. Helzerman, publicity.

Leader training courses will begin next week. These classes are open to any woman over 18 who would like to lead a troop at some future time is invited, also.

A new leader has joined the association. She is Mrs. George Meads who will meet with Troop 12 Brownies on Tuesday at the Friend's church. This troop was formerly Mrs. Charlotte Boyes' from Tipton.

Past Matron, Patron Entertained At Party

An evening of fun was enjoyed by members of Tecumseh chapter, Order of the Eastern Star, who entertained for Mr. and Mrs. Chester Beach, past worthy patron and matron.

Games were played and prizes were won by Mrs. Lynn Harris, Mrs. Glenn Driscoll, Mrs. James Barton, and Miss Edith Shull. A "style show" was presented with some 10 men and women modeling the "latest" in women's clothes. During an intermission Mrs. Barton entertained with a hula-hula dance.

The "Tecumseh Country Slickers," composed of the "models," played several selections, bringing to a close a most enjoyable program, witnessed by some 60 members.

Mr. and Mrs. Beach were presented with a gift and they in turn presented each of the officers with a gift. Refreshments were served in conclusion.

WIT, WISDOM CLUB ENTERTAINED BY BRAZEES

The Tecumseh Wit and Wisdom Club met Monday evening at the Iron Creek parsonage, with Mr. and Mrs. Alvin Brazee. Ray Brazee showed travel pictures and Mr. Brazee read several readings from his scrap book. In conclusion refreshments were served by Mr. and Mrs. Brazee assisted by Dr. and Mrs. H. H. Loveland.

The next meeting will be held at the home of Mr. and Mrs. M. G. Partridge with Mr. and Mrs. Glenn VanDenbergh assisting host and hostess.

About The Folk You Know

Let folks pick raspberries, roses and peas — George Wittrup will take strawberries any time. Tuesday afternoon Mr. Wittrup brought into The Herald office a handful of strawberries he had just picked from his garden. They measured approximately an inch in diameter and were delicious. Sunday, the Wittrups and members of their Sunday Evening Club enjoyed ample helpings of strawberry shortcake. Mr. and Mrs. Luther Wood assisted the Wittrups in entertaining, Sunday.

Mr. and Mrs. Floyd Bryan entertained at dinner, Sunday, honoring the 87th birthday anniversary of her mother, Mrs. Harriett Knight. Guests included Mr. Bryan's sister and husband, Mr. and Mrs. Robert Kerr of Durand, and Mr. and Mrs. Fred Bryan and children of Britton.

Clarence Gilmore was entertained, Sunday, October 16, on his 80th birthday at Manchester by his daughters, Mrs. S. W. Jensen and Mr. and Mrs. Alvin Clark. Guests were Frank Gilmore and daughter Hilda, Mr. and Mrs. Donald Gilmore and Mr. and Mrs. Carlton Moe of Parma, Mr. and Mrs. Ray Gilmore and Millard, Mrs. Herbert Gilmore of Macon, Miss Lulu Gilmore and Miss Julia Gilmore of Ridgeway, Mrs. S. W. Boyce and Mr. and Mrs. Wilbur Boyce of Tecumseh, Miss Patricia Jensen of Gregory, Miss Carol Brewer of Dundee and Robert Clark of Manchester.

Mr. and Mrs. Neil Pearson entertained at a family dinner, Sunday, in celebration of their birthday anniversaries. Home for the occasion were Gordon Pearson and Curtis Dolan of Detroit, Richard Pearson of the University of Michigan, Ann Arbor, and Mr. and Mrs. Max Brandt and son Jimmy.

Sandra Lee Bartenslager celebrated her sixth birthday anniversary, Sunday, when 17 little children gathered at the home of her parents, the Ben Bartenslagers, at four o'clock for an afternoon of fun climaxed by supper. Decorations were in keeping with the Hallowe'en season. Games were played and prizes awarded to the winners. The guests were Camilla Grigg, David Brewer, Ellen Hicks, David Powell, Helen Hicks, Vicky Peterson, Carlene Irelan, Jimmy Bashore, Jimmy Ripley, Billy Truesdale, Thelma Bancroft, Carol Ann Lowe, Jane Hodge, Billy Ross, Sharon Bartenslager, Mary Titley and George Freeman. Sandra received many nice gifts.

Martha Hewlett was in East Lansing for the weekend as the guest of Pat Klein, who entertained for her Sunday at a prenuptial shower. Guests were the bride-elect's sorority sisters from Delta Delta Delta . . . Martha and Earl Baldwin will be marrie' November 4.

Perry Hayden has a busy schedule for next week . . . Sunday, October 23, he will speak and show his film "God Is My Landlord," at the Third Baptist church in Coldwaboro, Ky. From there he will fly to Houston, Texas, for meetings October 26 and 27 in the south Main Baptist church. Saturday, October 29 he will be the guest of President White of Baylor University and will attend the Baylor-Texas Christian football game. Sunday, October 30, he will speak in the morning in the Calvary Baptist church in Waco, Texas, address the Young Peoples Assembly at 6:30 and show the film in the First Baptist church at 7:30 that night, with several churches of Waco cooperating. Monday, October 31, he will address the student body of Baylor University, the largest Baptist University in the world, and in the evening will fly to Abilene, Texas, to show the film and address a gathering at the First Baptist church. . . That's it. Now all Texan subscribers to The Herald can take their pick.

Odd Fellow Sunday At Baptist Church

Odd Fellow Sunday at the Tecumseh Baptist church will be observed Sunday, October 23, at the morning service at 11 o'clock. The Rev. B. O. Bashore, pastor, and grand chaplain of the Grand Lodge of Michigan, has invited every Odd Fellow and Rebekah and their families to attend.

"However," the Rev. Mr. Bashore added, "if you are a member of some other church you are not asked to be absent from there, but are urged to attend church Sunday."

N. Michigan Is Topic At D. A. R. Meeting

C. J. Tinker, a representative of the Michigan Department of Conservation, was the guest speaker at the regular meeting of Ann Evans chapter, Daughters of the American Revolution, which was held Friday evening at the home of Mrs. C. H. Williamson. Some 38 members and guests, including the husbands, were in attendance. Mrs. Clair Beland, chairman, presented F. C. Dickinson who opened the program with a vocal solo, accompanied by Mrs. Dickinson.

Mr. Tinker held the attention of his listeners with a very interesting talk on conservation, which proved to be educational as well. His colored movies filmed in northern Michigan included one reel of the Porcupine Mountains, which was excellent. Mrs. Tinker accompanied her husband to the meeting.

Mrs. Louis Schneider, regent, presided at the business meeting and Mrs. Clair Beland acted as secretary pro tem. An invitation from the Sara Treat Prudden chapter of Jackson to a luncheon meeting November 2 at the Hayes Hotel was read. The Librarian General of the D. A. R. will be the speaker. Reservations are to be made with Mrs Leon Rosacrans by October 31. Mrs. B. O. Bashore, finance chairman, reported receipts of $131.75 were collected on the recent bake and rummage sales.

Refreshments were served from a lace-covered candle lighted table in conclusion. Mrs. Ralph Ruesink poured.

Wilber J. Hogan, 76, Buried At Clinton

Funeral services were conducted from the Hause Funeral Home in Clinton, Friday afternoon, for Wilber J. Hogan, who died October 11, at his home north of Clinton. The Rev. O. E. Priest officiated and burial was in Riverside cemetery, where a Masonic service was held by Clinton lodge, F. & A. M., of which he was a life member.

The bearers were Hiram Martin, Donald MacIntosh, Frank Burroughs, sr., Robert Hammond, Claude Gage and Fred Tirb. Relatives and friends attended from Grand Rapids, Jackson, Detroit, Saline, Adrian, Tecumseh and Manchester.

Surviving are two sons, Wilber G. Hogan and Robert J., both of Bridgewater township, a sister, Mrs. Opal Burroughs of Grand Rapids and a granddaughter. His wife, Edith, precede him in death in 1947.

Former Naval Officer Exchange Club Speaker

Marshall E. Collins, former commanding officer of the naval reserve activities in Jackson, presented an interesting program at the regular dinner meeting of the Tecumseh Exchange Club, Monday evening. He showed motion pictures of Panama, where he had spent several months and displayed a collection of musical instruments of that there. He also played several Latin-American selections.

Duane Hay, the club's representative to Boy's State, gave an interesting report of its activities and introduced the new Exchangite, Kenneth Swartz, jr., president of the Junior class of Tecumseh high school.

Guests of Max Rudock were Robert Martin and Al Pincheff.

Here's what you do.—Fill in the correct brand name for any of the 54 advertising slogans on the official entry blank. They're easy, well-known slogans such as: "Breakfast of Champions"... "The Pause That Refreshes." Look for slogan clues at Kroger stores. Then write a last line to this jingle:

"Live Better for Less" is the slogan to know,
It tells me that all Kroger prices are low.
I find all the brands that I like on display.

Fill in the last line and make it rhyme with "display." For example: "And that's why I shop at my Kroger each day."

Officers Are Elected By Royal Neighbors

Some 24 members of the Tecumseh Camp of Royal Neighbors attended the tri-county convention held in LaSalle, last week Wednesday. Tillie Tuckey was elected vice president; Margaret Preston, marshal and Audrey Glancy assistant marshal for next year's convention, which will be held in Hudson.

Other officers named were as follows: president, Velma Brady of Hudson; past president, Edith Tucker of LaSalle; chancellor, Carey Stark of Adrian; secretary-treasurer, Edna Johnson of Hudson; inner sentinel, Nellie West of Ann Arbor; outer sentinel, Rose Mary Sampson of Belleville; flag bearer, Dora Grass of LaSalle.

Tecumseh received the banner for having the largest percentage of members in attendance at the convention.

We Ain't in Kahoots with the Cops, No, Suh!
We're Jist Tryin' to be of Service to our Motorin' Friends

When us and Ford Motors—yuh notice we said us first—announced our $100,000 Safety Award Contest a few weeks ago and, incidentally, the contest closes end o' this month, we didn't mean to intimate that we was in kahoots with the cops or sumpin when we ask'd yuh to bring your car to us for inspekshun.

We're jist as interested in helpin yuh to avoid a aksidunt as you are, now. We jist ask that yuh bring yur old buggy in to us and let us tell yuh what's wrong with her that might cause yuh to lose control or somethin' and snap yur neck—or somebody else's neck.

Yuh kin bring her to us in confidence—jist like yu'd go to yur Doktor. We don't squack to the cops about yuh after yur gone, but we do tell yuh what's ailin the critter. And, then we give yuh an emblem, lettin' everybody know yuh been inspected, and if yuh want to have the work done in our shop, OK. If yuh don't, well, that's OK too. And, then yuh kin write a few words if yuh want to, enter the contest and maybe win one of our prizes, ours and Mr. Ford's.

ON TECUMSEH VALUE DAYS, TOMORROW AND NEXT DAY, IF YUH BRING YUR CRITTER IN FUR A CHECK AND HAVE THE OIL CHANGED, WE'LL THROW IN A FREE GREASE JOB. THAT GOES FOR ANY CAR OR TRUCK.

There ain't no ketches to this thing—its jist honest Injun. Kum on in and join with other motorists who are trying to save their neck and yours, too.

Warn Hunters Of Tularemia

PIECE OF NICE, WELL-BROWNED RABBIT MAY HIDE SERIOUS ILLNESS

While you're giving thought to that wonderful platter of wild rabbit, browned to a turn, give a little thought also to the danger of tularemia, the Michigan Department of Health advised today.

Some Michigan wild rabbits do have tularemia so it is best to handle any wild rabbit as if he had the disease: to wear rubber gloves while cleaning the game and cook it thoroughly before even tasting it.

In humans tularemia is extremely painful, dangerous and difficult to treat. People usually get tularemia from handling, cleaning, or eating the carcass of an infected wild rabbit. They may get it from the bites of rabbit or wood ticks and some other biting insects. The germ is so small that it can get into the body through unbroken skin on the hands or face or it may enter through the eyes, mucous membranes or intestinal tract. Humans become ill four to twelve days after the germ gets into the body. The illness begins with chills, fever, body pains and nausea. A sore usually appears where the germ enters the body. Nearby lymph glands become swollen, very painful, and often have to be opened. After opening they may continue to drain for a long period of time. This condition is usually accompanied by fever and may keep the patient in bed for weeks or months.

A large infecting dose of the organism may cause high sustained fever and prostration. This type of the disease can cause death and at best requires long convalescence. It isn't worth taking a chance.

When you clean, handle or cook game use these precautions, the Michigan Department of Health warned:

1. Wear rubber gloves when dressing wild rabbits. Use care so that a sharp bone cannot pierce the glove.
2. Do not handle wild rabbits that are found dead.
3. Shoot only rabbits which are running. Slow or sluggish rabbits are likely to be infected with tularemia.
4. Cook wild rabbits thoroughly so that no red meat or red blood remains. Do not taste the game until it is well done. Only thorough cooking of the meat destroys the germs.
5. Play safe! Destroy all rabbits whose internal organs are studded with small white spots. These spots are signs of tularemia.
6. Guard against the bites of flies and ticks.

Take rubber gloves and use them when cleaning game. Cook all game until it is thoroughly done before you even taste it.

You'll have better luck hunting, and you'll be safer hunting and in traffic of you do not over-indulge.

Remember that hunting accidents occur to those who know better, but who temporarily are careless, and that you are in more danger of injury from members of your own party than from others.

Get your recreation, get your game but, more important, get back, the Department urged.

Here Are Some Don'ts For Autumn Hunters

The autumn hunting in Michigan's beautiful fields and woods is really good for you: It's good for physical and mental recreation, and the game you shoot is good for you, too, the Michigan Department of Health says.

Don't let little miseries spoil your fun, the Department urged. Choose your eating spots with care. Don't drink from a creek or from any well you do not know to be safe. Don't use unpasteurized milk, cream or butter, no matter who gives or sells them to you. Treat blisters, scratches, chiggers, poison ivy or sumac at once.

Don't get all tired out. Take hunting clothing to suit the climate or type of hunting you will do. Don't trudge around in rain soaked clothes, or with wet feet.

FORMER BRITTON BOY IN ARMY IN JAPAN

HEADQUARTERS, 527TH AIRCRAFT CONTROL AND WARNING GROUP, FUKUOKA, JAPAN —Corporal Carl A. Schmidt, son of Mr. and Mrs. Emil Schmidt, Route 2, Tecumseh, Michigan, was recently transferred to Headquarters Fifth Air Force according to an announcement made by Colonel Paul M. Jacobs, Commanding Officer of the 527th Aircraft Control and Warning Group.

Corporal Schmidt was a former graduate of the Britton Public High School, Britton, Michigan, prior to his enlisting in the Air Force 2 September 1947.

Corporal Schmidt received his basic training at Lackland Air Force Base, San Antonio, Texas and upon completion of basic training he was transferred to Tinker Air Force Base, Oklahoma to attend a Air Force technical school.

Upon completion of school he was transferred to Boling Air Force Base, Washington, D. C., he was then transferred to Hamilton Air Force Base, California, to await shipment to the Far East Command.

Corporal Schmidt arrived in Japan in the early part of 1948 and was assigned to the Fifth Air Force, the occupational Air Force of Japan, and was subsequently reassigned to the 43rd Weather Wing, Tokyo, Japan.

He was later transferred to the 527th Aircraft Control and Warning Group, Fukuoka, Kyushu, Japan, located on the southern-most home island of the Japanese chain.

Corporal Schmidt was assigned as an administrative clerk in the Adjutants Section of this headquarters.

Warren G. Harding was the first U. S. president to speak over the radio.

TELLS OF CAMP LIFE

Helen Furgason and Doris Bilby spoke during the first part of the morning service at the Baptist church, Sunday, describing camp life at the Baptist camp at Lake Louise, and benefits derived from it. A collection was taken for the all-purpose building to be erected there at a cost of $35,000 to house a recreation room, chapel, etc. Those who were not in attendance at the service will be given an opportunity to donate next Sunday, October 23.

CHARITY BALL

The Devils Lake Yacht Club will present a charity ball and buffet supper at the club house, Friday evening, October 21, for the benefit of the Addison Community hospital. Dancing will be from 9:30 p.m., to 1:30 a.m. Mr. and Mrs. Amos Carlson are the chairmen for the event.

Jack: "Whatta you mean, 'recreation'? You call that old furnace and all this ductwork fun? Besides, there's no *room* for a *room* here!"

Mac: "Hold on. I said, 'will be.' We're takin' this old battleship out, and replacing it with a modern Lennox Heating System! And a Lennox is so compact it will take up just a few corner down here. We'll have plenty of space for a dandy play room."

Jack: "Go on—and I suppose you're inferring a Lennox can save *anybody* lots of extra space, and still keep 'em warm and comfortable. You're probably a special case!"

Mac: "Special, my foot! Why, there are complete Lennox systems that can be installed in small recesses, inside walls, beneath floors, even up in attics! What more d'you want?"

Jack: "Not a thing, pal—except the name and address of my nearest Lennox dealer.

Montreal Has Charm. Old World And New

MONTREAL — This Canadian city ranks as one of the great tourist centers in North America, on a year-round basis, the official Province of Quebec agency asserts. In fact, it adds, Montreal shows as many out-of province car license plates in the fall as any time of the year.

Visitors have come to realize therefore, that at no time is the climate more dependable or more beautiful than in the two months of September and October, the official source says.

A natural attraction in its own right, with a picturesque and historical background, Montreal sometimes is referred to as the "New Orleans of the North," the agency says. It boasts an international cosmopolitan atmosphere, with great shops and stores.

Montreal, it points out, is a day's drive from New York or Boston; overnight by train. The city is situated remarkably like New York, in that it is located on an island, though Montreal also has the added topographical attraction of twin mountains in its midst. The more noted of these is 750-foot Mount Royal, a favorite sight-seeing spot taken either by car or by horse-drawn carriages.

Montreal is notably bilingual. Everyone in trade or in the business of meeting the public takes this fact for granted and is able to converse either in English or French. All street signs, furthermore, are in both languages. Visitors are intrigued, moreover, by the great number of stone buildings in the city, evidence that the natives have long ago learned that stone is the genuine winter-resistant material.

CLINTON

Proceeds from the progressive card party, to be held by the Clinton Parent-Teacher Association at its regular meeting November 11, will be given to the Community Chest fund. Assisting Mrs. Milton Johnston will be Mrs. F. H. Halladay with Mrs. F. H. Odell as refreshment chairman.

In cooperation with the Band Boosters Club, the Clinton Woman's Club with hold a fall festival and bazaar at the Clinton school building, October 21, in the afternoon and evening.

Mrs. E. L. Parker is living at the E. L. Thompson home at 302 West Michigan Avenue.

STOMACH TROUBLE GONE — O-JIB-WA DID WONDERS FOR ME

— Mrs. Fay Cox —

I suffered miserably from indigestion, gas pains, stomach distress, nervousness and severe headaches before I used O-JIB-WA BITTERS, says Mrs. Fay Cox, a suburban Detroiter.

Every person suffering with gas, indigestion, heartburn, nervous headaches and that always tired feeling, is strongly urged to read the following unpaid for testimonial of Mrs. Fay Cox, of 17742 Dix Road, Melvindale, Michigan. This statement will be a revelation to many thousands of suffering men and women, who have sought in vain for relief from the same torturing miseries, which plagued this grateful Melvindale woman.

● Mrs. F. Cox

Gas made it hard to breath

"I would like to tell you about my experience with O-JIB-WA BITTERS. Stomach trouble and gas have bothered me almost continually for over a year, and for the three months before taking O-JIB-WA, it was really bad. It seemed that no matter what medicines I tried, I continued to get worse. Everything I ate seemed to turn to gas and I would bust up so badly that it was extremely hard for me to breath. My heart would just pound and I was so nervous that I could jump. To add to my misery, my kidneys bothered me a lot, making a good night's sleep impossible. I would get severe headaches that would last all day, which was terrible. I guess I was getting pretty bad."

Results in one week

"One night I read about O-JIB-WA BITTERS in one of the local papers, and I decided to see if it would help me. My husband went out that very night and bought a large bottle. I started taking it, and have been thankful ever since. Now, I want you to know that I am sincerely grateful for what your medicine has done for me. By the time I had taken it for one week, I could tell that the gas was loosening up, and I felt much better. My condition continued to improve and by the time I had finished the bottle, my stomach trouble disappeared. I was completely well, and could then eat anything without the slightest distress from stomach pains or gas, and my headaches and nervousness are both things of the past. I have plenty of pep, and restless to say, I eat, sleep and feel 100% better. Because of the wonders that O-JIB-WA BITTERS has done for me, I believe it to be the best all around medicine I know of. I highly recommend it to everyone. Incidentally, my husband is taking it at the present time . . ."

WHAT IT IS HOW IT WORKS

O-JIB-WA BITTERS is an all herb medicine, containing no dope or harmful drugs. This great medicine acts to uproot and drive out the causes of most common stomach ills. O-JIB-WA is like taking "3 medicines in 1", as it stimulates the digestive organs, stopping gas, indigestion and heartburn. It helps to clear the blood of poisons and waste that foster dizzy spells, headaches and rheumatism. O-JIB-WA strengthens weak sluggish kidneys to relieve backaches, night rising and restless sleep. Yet, it is truly an amazing medicine and much more could be said for it, however, the proof is in its use. We urge every sufferer to try this medicine. YOU WILL NOT BE DISAPPOINTED. O-JIB-WA BITTERS is not expensive. It is available in three economical sizes and sold in all leading drug stores in Michigan, being especially recommended by:

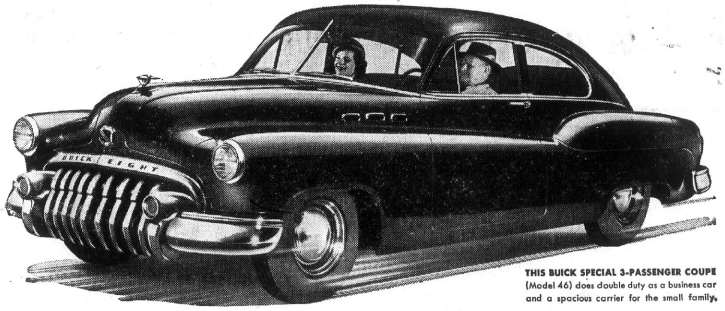
It's all yours for less than you think



THIS BUICK SPECIAL 3-PASSENGER COUPE (Model 46) does double duty as a business car and a spacious carrier for the small family.

RUN your eyes over this fresh new beauty. Take in its style-setting non-locking bumper-guard grille, the graceful down-sweep of its fender lines, so unmistakably Buick, and we think you'll agree—

It looks like a lot of money—but the fact is, it's a lot *for* your money.

Take in those bigger interiors, the sofa-soft seats, the easy control and the high visibility you get from the more-than-generous glass area all around—and you'll beam at the news that this one's priced for really modest budgets, right down near the "lowest-priced three."

Beyond that—put this gorgeous new Buick SPECIAL through its paces.

Sample its valve-in-head straight-eight power—the lively, ever-thrilling kind that comes from a high-compression, *high-pressure* Fireball engine.

You'll find a ride that's pillow-soft smooth, level and steady. You get ample wheelbase—in shorter bumper-to-bumper length for easy parking, garaging, maneuvering.

You'll find a car that handles light as lace—made even more of a breeze by Dynaflow Drive, available at your option at moderate extra cost.

TEN-STRIKE! Only Buick SPECIAL has *all* these Features!

Traffic-Handy Size • More room for the money • Dynaflow Drive optional at extra cost • Jet-Line Styling • Non-Locking Bumper-Guard Grilles • High-Pressure Fireball Straight-Eight Engine • Coil Springing all around • Low-Pressure Tires on Safety-Ride Rims • Greater Visibility fore and aft • Self-Locking Luggage Lids • Steady-Riding Torque-Tube Drive • Three Smart Models with Body by Fisher.

So why not do a thorough matching-up of price tags; and what they'll buy around town?

In particular, *put this straight-eight beauty up against the sixes, feature for feature, dollar for dollar*—and you'll see for yourself there's nothing to touch this Buick as a buy.

Yes, go see your Buick dealer, take in the SPECIAL from every angle—and learn how quickly you can have one for your own.

Michigan Mirror

Non-Partisan News Letter

By Gene Alleman
(Special to The Herald)

No special session of the state legislature will be called by Governor G. Mennen Williams this fall.

Such is the interpretation which the "Michigan Mirror" deduces from an exchange of letters between the governor and State Treasurer D. Hale Brake, Auditor General Murl K. Aten and Controller Robert F. Steadman over a 1950 deficit.

An additional observation might be made: The problem of state finances, caused directly by diversion of 78 per cent of sales tax revenues to public schools and cities and townships, will await the 1950 session of the state legislature.

Here is the record, and you can judge for yourself.

Last May the governor intimated he would call legislators into special session to consider new taxes. Legislators had declined to adopt a levy on corporation profits. A proposed increase in the state gasoline tax had been pigeon-holed in committee. Controller Steadman, who heads the department of administration, said that legislative appropriations were approximately $50,000,000 higher than the state's anticipated tax revenues.

The legislature's attitude, as represented by G.O.P. leaders, was this: Wait and see. Many Michigan taxpayers are not convinced new taxes are necessary.

To bring the matter to a head, Governor Williams recently sent a letter to the state treasurer, auditor general and controller. He asked for advice: What are you going to do in 1950 "when" the deficit develops?

The controller replied that he would certify whether disbursements were proper in the light of legislative appropriations. The auditor general said he would issue warrants only if cash was on hand.

The state treasurer's reply was along these lines: "If" a deficit develops, the treasurer was willing, to delay payment of some bills, to utilize certain funds other than trust funds, and to use even earmarked funds temporarily. He said it might be possible to reduce liquor inventory of the state liquor control commission—a step taken by Governor Frank Murphy in 1938 when a similar deficit existed.

Brake suggested that the governor try "economy," rather than more state spending and thus help reduce any treasury deficit.

It is the contention of Controller Steadman that the treasury deficit will rapidly develop in March, 1950. During February and March the state must divert substantial sums of sales tax revenue to schools, cities and townships. These payments are expected to drain the general fund of its remaining cash.

Thus, history will repeat itself.

Eleven years ago the late Frank Murphy was governor. The 1937 session of the legislature had left the state budget $18 millions in the red. By the end of the first fiscal year (June 30, 1937-38) the actual deficit was $9,000,000—about half of what had been anticipated.

The state had met all payrolls on time. The treasurer had merely borrowed from other funds. Unemployment was high in 1938, due to a recession. Governor Murphy called the legislature into special session to appropriate more money for welfare aid. A sum of $10,000,000 was authorized—in the face of an existing deficit. No new taxes were levied.

Frank Fitzgerald campaigned for economy in state government. He assailed a $9,420,000 increase in the state payroll during the Murphy administration. The CIO sit-down strike had evoked strong public resentment. Fitzgerald capitalized on this, too. Murphy lost the election and later was sent by President Roosevelt to the Philippines and then to the United States Supreme Court.

If state government could meet payrolls in 1938 with red ink on its books, it seems logical to us that it can do so in 1950.

Why then all this letter writing in September, 1949?

President Truman said he opened the 1950 political campaign with his Labor Day speeches at Pittsburgh and DesMoines. The same might be said about Governor Williams' letters.

The Michigan gubernational campaign is already under way.

Who is to blame for the big, bad deficit at Lansing?

Not the voters who want 78 percent of state sales tax revenue for schools, cities and townships. No. No! The "villian" will be — take your choice (1) a Republican legislature which declines to tax corporation profits; (2) a Democratic governor who insists on more state aid for everyone, especially for members of the CIO.

F. F. A Notes

The FFA started off the new year with the preliminary initiation of their new members. Some 14 boys were put through their paces to find how much they knew about our organization and its constitution. Rumors have it that the goat was not too favorably impressed judging from his conduct and the gymnasium resounded with various penalties inflicted on the Hapless Green Hands.

The latter part of the evening was spent in acquainting the new initiates with every conceivable back road and ditch they could find. We wish to thank the various farmers in the area for their generous contributions of green tomatoes, potatoes, ears of corn and eggs to the foot sore boys.

The following boys joined the organization: Richard Young, James Young, Merlin Wagner, Calvin Suydam, Dorman Mobley, James Stutzman, Robert Bird, Robert Kash, Robert Furgason, Harley Slick, Charles Staples, James O'Connor and Lieverett De Jonghe.

The evening ended with refreshments of cider and donuts. Our agricultural enrollment now totals 41 students.

We are now planning for the next activity promoted by the organization which is our Parent and Son Banquet and Pheasant Feed. The date set is October 26th.

A final check shows the following boys are to be credited for winning the Dairy Judging Contest in the County: Robert Rupert, James Young and Charles Bishop. The following boys copped the county honors in livestock judging: John Young, Fred Feight and Lawrence Young. These boys are entitled to a trip to the Livestock International exposition in December.

We were pleasantly surprised one day last week to receive a gift of $25.00 from Art Eaton for the use of our FFA. This was in the form of a cancellation of the rental of the ground for our FFA pop corn project.

ONSTED

Robert Rainey was recently appointed postmaster at Onsted and took over his duties, last week. Billie Murphy is continuing as clerk.

Mr. and Mrs. Dale Redfield, Mrs. Ernest Abbott, Mr. and Mrs. Harold Abbott and Mrs. Fay Bilby were in Holt Thursday, to attend the funeral of Mrs. Leida Mathias.

Mrs. Iva Earles of Hudson is now living with her sister, Mrs. L. T. Townsend.

Mrs. Frank Bryan is visiting friends and relatives in Lansing and Lowell.

James Buchanan was the only bachelor president.

BRITTON

The Britton Woman's Club held its first meeting of the fall season Tuesday afternoon in the town hall. Mrs. Leah Keasal was program chairman. Mrs. Jennie Theeke, refreshment chairman and Mrs. Dora Benedict hostess chairman.

Mr. and Mrs. W. J. McWilliams are announcing the engagement of their daughter Marie Lenore to Loren Edwin Gall, son of Mrs. Nellie Gall all of Britton. No date has been set for the wedding.

The L. and M. County Line Extension Club met Thursday at the home of Mrs. Mary McElroy with a potluck dinner served at noon. The afternoon was spent in a preliminary lesson on glove making.

The Dorcas Class of the Christian church will hold its regular monthly meeting today with a one o'clock luncheon at the church. Mrs. Ella Swick and Mrs. Carrie Murphy will be hostesses of the day. Mrs. Jennie Theeke as devotion and program chairman and Mrs. Lottie Meyers as chairman of the luncheon.

CLINTON

Mrs. Alice Clark was surprised on her 87th birthday anniversary, when the women of htr neighborhood gathered at her home Thursday afternoon, for a social time followed by a potluck supper. Mrs. Mary Clark and Mrs. Irvin Martin of Boston, Mass., both Mrs. Clark's daughters, have been with their mother.

Elmer B. Brown, underwent surgery at Ford hospital in Detroit, recently, and is recovering satisfactorily.

Mason Keller left for California, where he has taken a position, after visiting his brother and wife, Mr. and Mrs. Clarence Keller.

Mrs. Mills Jedele entered St. Joseph's Mercy hospital in Ann Arbor, Thursday, for observation.

Mr. and Mrs. Milton Johnston and daughter Carolyn were in Elkhart, Ind., Thursday.

Mr. and Mrs. Adolph Miller of Toledo have returned home after spending a week with her sister and brother, Mrs. Katie McHenney and W. J. O'Reilly.

"Mush," the Alaskan term, is a contraction of the French "marchons" meaning to go on.

Cleave means both to stick together and to part.

"The cost of my operation could have wiped out our savings

...If Blue Cross hadn't stepped in and covered $655 of my hospital and surgical bill!"

CASE #D49127-101

Mr. ——, a Blue Cross Hospital and Surgical Plan member, was confined to the hospital for 12 days—in general surgery. His hospital bill came to $437.70. Patient paid only $51.00 (chiefly because a private room was used part of the time). Blue Cross covered the rest, and in addition paid $267.50 for surgical services —a total of $684.20.

How about you and your family? Are you protected against unexpected hospital and medical bills?

Figures show that one out of every four breadwinners will have to pay hospital or ——bills this year—his own or for members of his family. That's why you and your family cannot afford to be without BLUE CROSS—*Michigan's only truly non-profit prepayment health-care plans. No other health-care plans offer so much for so little—just a few cents a day!*

The BLUE CROSS *Hospital Plan* provides up to 120 days of hospital care in any of the 175 participating hospitals in Michigan. NO CASH LIMIT on the benefits covered.

The BLUE CROSS *Medical-Surgical Plans* pay liberal amounts for operations, and pay for your doctor's visits to the hospital in non-surgical cases.

Talk over with your employer how your company can make Blue Cross available to you. Or ask your friends who are already BLUE CROSS members. BLUE CROSS is available to employed people, *without* physical examination or health statement, through the Group Enrollment Plan. Rural residents may join through their local Farm Bureau or Grange.

Glands Are Key To Personality

SCIENCE BELIEVES THAT "YOU" ONLY REFLECT YOUR EMOTIONAL SELF

Personality differences are coming to be regarded more and more by science as the result of the functioning of six glands in the body. These endocrine glands dominate emotional responses, according to Virginia Miles, Ph.D., and determine whether we are short or tall, fat or thin, placid or high-strung. Writing in Redbook Magazine for October, she explains in simple language what science knows about these "creators of personality":

"Within your body, there are six endocrines. There are also hundreds of other glands. But these other glands, for the most part, do minor jobs, important only to their own regions of the body. The endocrines, however, affect your entire body and your total personality. Disorders can impair the mind, weaken the body, bring death.

"Most important gland in the body is the pituitary at the brain's base. It carries signals of emotional disturbance from the nervous system to the other endocrine glands, affects sexual functions, growth, intelligence, ability to see, and blood pressure. An abnormal pituitary may make one a giant or a midget or excessively fat. The pituitary can affect the flow of a mother's milk or it can cause menstrual disorders.

"The thyroid controls the body's consumption of oxygen, or the 'basal metabolic rate.' An overactive thyroid can cause nervousness, irritability, worry, increase in sexual drive. These people often have bulging eyeballs, body trembling, rapid heart action. Persons whose thyroids are not active enough usually have dulled emotions, poor intelligence and memory.

"The parathyroid glands enable your body to use the calcium taken in through such foods as milk. If your parathyroids furnish your body with too much calcium, your bones might become excessively brittle or you might develop kidney stones. You would probably feel lazy mentally and physically. Usual cause of parathyroid over-production is a tumor.

"The adrenals might be called 'anger glands.' When you are upset by fear or similar emotion, your adrenals secrete extra amounts of their hormone. This speeds up the heart, halts action in the digestive system, makes you less susceptible to fatigue. Your liver releases energy-giving sugar into the blood stream. You are ready for action. The adrenals also affect the sexual interest, and they stimulate secretions from the gonads.

"Over-active adrenals can produce in a six-year-old boy the beard, deep voice, and sexual development of an eighteen-year-old. The 'bearded lady' of the circus sideshow is another example. Under-active adrenals can give their victims body weakness, poor circulation, insomnia.

"The pancreas is the gland which contains the 'islands of Langerhans,' which produce insulin. This insulin passes directly into your blood stream where it regulates your body's use of sugar as fuel. If your pancreas produces insufficient insulin, sugar will accumulate in your blood, producing the condition called diabetes mellitus by scientists.

"Some persons suffer from overactive pancreas. Their bodies have an excess of insulin and sugar is burned up too fast. This can result in a low level of activity.

"In women the gonads are called ovaries. They create the reproductive cell, called the ovum. They control such characteristics as breast development and menstruation. Men's gonads are called testes. They create reproductive cells, called spermatozoa, and control masculine characteristics."

LOCALS AND PERSONALS

Mr. and Mrs. Ernest Brandt spent from Thursday to Sunday at Gaylord.

Mr. and Mrs. Richard Wood and children Barbara and Joyce of Jackson were recent guests of his parents, Mr. and Mrs. Earl Wood, and his sister and husband, Mr. and Mrs. Samuel L. Lawrence. Mr. Lawrence, who received a badly bruised foot in a truck accident two weeks ago near the village limit, has returned to work.

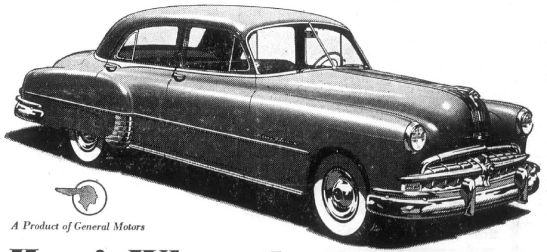
You ought to be driving a '49 **PONTIAC**



A Product of General Motors

Here's Where the Best Begins!

Most people look no further after they've had a good look at a 1949 Pontiac—they know that the *best* begins here!

Here is the *best* in beauty—with a "Silver Streak" personality all its own. Here is the *best* in performance—thanks to Pontiac's great engines, straight eight or six. Here is the *best* in comfort, luxurious detail and appointments.

And here is the *best* in real economy—a sensible price to begin with and the famous Pontiac record of rolling out miles and miles and miles with only routine servicing.

The *best* begins right in our showroom—come in and see!

THERE'S MORE COMFORT IN A PONTIAC!
It's *so much nicer* to ride in a Pontiac—there's loads of head- and leg-room, the doors are wide for easy entrance and exit. Every mile is smooth and comfortable.

HALLOW-E'EN

Ghosts and Goblins To Parade, Monday Evening

If you are a timid soul, if you're afraid of ghosts, goblins and the like, it might be well for you to stay indoors next Monday evening—Hallowe'en—when, according to the chairman of the Rotary Club's annual Spooks' Party, the spirits of many worlds will be on parade in Tecumseh.

"The Rotary party this year will be an affair in which tiny tots and teen-agers may participate and share in the fun," the Rev. B. O. Bashore, chairman, said. "There will be the parade of masked merrymakers, so much enjoyed by both young and old; there will be a theatre party at the Strand for all youngsters and, in addition, there will be gifts of candy and crackerjack for children taking part."

The Spooks' parade will get under way at 7 o'clock, forming at the intersection of Chicago boulevard and Ottawa street. Headed by the high school band, the masked merrymakers will move through the business district to the theatre. This year, the Rev. Mr. Bashore said, masked funmakers will not be judged on costume, as has been the practice in the past. "Heretofore," he said, "only a few persons have received prizes. This year, every youngster taking part will receive a gift."

After the parade is over, the youngsters will be admitted to a special evening's length movie party at the Strand, as the guests of Rotary.

A Hallowe'en innovation of a year ago, pictures on store windows—real art work by local students—will be continued again this year and prizes awarded. This year, however, the pictures will be in color, they will be judged and special prizes awarded during the theatre program.

The bright Hallowe'en pictures are already beginning to make their appearance on the downtown store windows of Tecumseh as the second annual window-picture contest gets under way.

This popular feature was instituted last year by the Retail Merchants Division of the Chamber of Commerce in cooperation with the Hallowe'en promotion sponsored by the Rotary Club. At that time emphasis was placed on a constructive use of the old habit of soaping windows on Hallowe'en, only art rather than scrawls was to be the objective. The feature was so popular that at a recent meeting of the retailers they expressed unanimous approval of repeating the promotion.

Scout Group To Meet At School

GIRL'S ORGANIZATION URGES ATTENDANCE OF ALL PERSONS INTERESTED

The Tecumseh Girl Scout Association will meet Wednesday, November 2, at 8:30 p.m., in the music room of the high school. All troop leaders and committeemen and women are urged to attend. Any interested parents or citizens will be welcomed. Mrs. Truman Rentschler will report on the constitutional revision and Mrs. Hoyt Raymond will report on the progress of the Christmas bazaar committee.

Mrs. Raymond's committee met Tuesday afternoon, October 25, at her home to discuss their plans. She announced the troop projects which have been authorized, and made assignments to other troops. Mrs. M. G. Partridge, bazaar treasurer, was given a fund of $50 from the Association. This money is to be used by leaders to purchase bazaar materials. Leaders should check with both Mrs. Raymond and Mrs. Partridge before beginning any projects or spending any money. Others on the committee are Mrs. R. F. Helzerman, publicity; Mrs. G. W. Spangler and Mrs. H. Wick.

Mrs. M. R. Blanden was hostess to the leaders and committees of the new Brownie troops 7 and 9 Friday afternoon. The group discussed plans for a combined investure service for both troops. It will be held Wednesday, November 3, at the Scout Cabin. Following it will be a tea served by the Brownies to their parents and friends attending. The tea will be sponsored by the Girl Scout Association. The leaders and committee of Troop 7 are Mrs. Duncan Oliphant, Mrs. Clifford Cameron, Mrs. Herbert Dillon and Mrs. F. Schummer. Mrs. George Wittrup, Mrs. Howard Truesdale and Mrs. M. R. Blanden are in Troop 9.

Garden Club Elects Officers For The Year

Mrs. H. E. Kenrick was named as president of the Tecumseh Garden Club when twenty-four members met at the home of Mrs. Kennard Wise for the October meeting Friday afternoon. Other officers named are: Mrs. Charles Branigin, vice president; Mrs. Joseph Rice, secretary; Mrs. Geo. Wright, treasurer; Mrs. M. C. Miller, corresponding secretary; Mrs. August Hoffmeister, publicity.

The group voted to sponsor the Red Rose Brownie Scout troop and Mrs. Clarence Beach was chosen as committee woman to the Scout organization.

At the conclusion of the meeting, slides were shown on flower arrangements and tea was served by Mrs. Beach from a lace-covered table, centered with a bouquet of snapdragons from Mrs. Wise's garden. Assistant hostesses were Mrs. Miller, Mrs. Al Helzerman, Mrs. L. Curtiss and Mrs. Fred Whelan.

NOTICE

I will be out of town from October 29 to December 4 inclusive. Except for the week of November 20 office will be open Monday and Wednesday afternoons only for collection of accounts.

BRAVES TO PLAY COLDWATER, SATURDAY

The Tecumseh Braves semi-pro football team, have thrown their offense into high gear in preparation for their coming battle with the Coldwater A. C. team this Saturday night, October 29, at Recreation Center. The Braves will be out to avenge an earlier 25 to 0 beating. The Coldwater team is rated high in southern Michigan and the local lads will go all out to beat them at home. A large crowd is expected to witness the game.

Traveling to Howell Saturday evening, they gave the Howell A. C.'s a severe beating, the final score being 21 to 0.

Scouts Receive Fire Training

INDUCTION SERVICE IS HELD BY CUBS AT THE BAPTIST CHURCH

Tecumseh Cub Scout Pack No. four held its monthly meeting Monday evening, October 24, at the Baptist church, at 7:30. A large crowd of parents assembled for the program on Fire Prevention, the Cubs' theme of the month.

After an impressive opening conducted by the oldest cubs, under the direction of Mrs. Owen Partridge and Mrs. Ronald Harris, a brief but pertinent talk was given by Charles Manley on what boys should do to receive aid when they first detect a fire.

Dens four and six under the directorship of their den mothers, Mrs. Gerald Baker and Mrs. Clair Bozelle and assistants, Mrs. Carlyle Mason and Mrs. James Elliott, presented clever pantomines of the wrong and right ways to handle fire hazards.

An induction service was held for the following new Bobcats: Jerry Munger, John Dewey, Teddy Kempf, Jerry Robinette, Jerry Lee Coates, Jimmy Walker, Ray Sluyter, Chummy Hartsell and Lee Vescelius. The following boys received badges: Tom Maupin, lion badge, one gold and one silver arrow; Duncan Harris, bear badge, lion badge, one gold arrow; Jimmy Place, one lion badge; Ross Hadley, one lion badge, one gold, two silver arrows; Donald Partridge, one bear badge, one gold and two silver arrows, one lion badge, one gold and one silver arrow.

The closing ceremony of cub songs and yells was ably conducted by Den five, whose den mother is Mrs. Laine Holden.

TO MEET NOV. 1

The Golden Rule Division of the Presbyterian church will meet Tuesday, November 1, at the home of Mrs. M. G. Partridge, West Chicago Blvd., at 8 p.m. Mrs. M. C. Miller, Mrs. H. E. Kenrick and Miss Bess Spayde will be the assisting hostesses and Miss Ruth Harding will lead in devotions.

INJURED IN ACCIDENT

Thomas Everlove, 16, of Tecumseh, suffered a severe head laceration when the car in which he was a passenger truck a tree, Saturday at 12:15 a.m., on M-50 west of Billington's Corners, when the driver, Garland Holmes, 17, lost control of his vehicle. State police of the Clinton post, who investigated the accident, have charged Holmes with reckless driving. Holmes and two other passengers in his car were not injured.

UNION TO MEET

The Baptist Ladies Union will meet Thursday, November 3, at the home of Miss Edna Gamboe, 116 So. Pearl St., at 2 p.m.

Children Need Hearing Tests

THREE PER CENT OF SCHOOL STUDENTS HAVE SOME HEARING DEFECTS

Three out of every 100 Michigan school children have some degree of hearing loss which needs attention, the Michigan Department of Health said today.

In many children hearing loss is so slight that neither parents nor teachers suspect it, but if it is untreated it may become serious.

To find these children before the hearing loss becomes serious is the object of the Hearing Conservation Program which the Michigan Department of Health and local health departments are now carrying on in schools of the state. Experience has shown that when hearing loss in children is discovered early, hearing can be improved or restored totally in three cat of four cases. If the loss is not found early, some children will suffer handicapping or annoying deafness through the rest of their lives.

In the six years the program was started the hearing of more than 325,000 children in 62 Michigan counties has been tested. Of these children, 3 per cent showed some hearing loss. Of those who received medical treatment, 75 per cent improved, about half of them to normal hearing. The improved hearing resulted in better social adjustment, better school work and in improved personality, according to Courtney Osborne, Senior Hearing Consultant of the Michigan Department of Health.

For those children whose hearing defects could not be helped by medical care, special education techniques are being employed to teach the child to speak and to understand others by lip reading, so that he can lead a normal life in a hearing world.

Recent developments in individual hearing aids offer great promise to children with permanent hearing defects, Osborne pointed out. Wise parents and well-adjusted children, he said, are learning to think no more of wearing a hearing aid than they do of wearing glasses.

The Hearing Conservation Program is being carried on in hundreds of Michigan schools this year. Hearing tests are given by local people with the help of local health department people and hearing consultants from the Michigan Department of Health. Local health departments and school people then follow up to see that each child with a hearing loss is taken to an ear specialist for examination and medical care, Osborne said. Where the child's family is unable to provide such medical care, interested community agencies assist, he explained.

BAND PARENTS TO MEET

A special meeting of the Band Parents Club will be held at the high school this (Thursday) at 8 p.m. Parents of both junior and senior band members are urged to attend. There will be an election of officers and refreshments will be served.

SMOKE DAMAGE

Firemen were summoned to the Jack Smith residence north of town where an overheated oil water heater had caught fire. Considerable damage was done by smoke.

Mrs. Place Hostess To The Monday Club

Mrs. Earl Place entertained some 40 members of the Tecumseh Monday Club at her home, this week with Mrs. Earl Wickwire, Miss Jennie Temple, Mrs. Glenn Williams and Mrs. Perry Hayden as the assisting hostesses.

Mrs. Don Goddard, president, opened the meeting. Mrs. Jay Moore led in devotions in the absence of Mrs. Hayden, who was injured in an automobile accident, recently. Miss Edith Ingersoll gave a resume of current events and Mrs. Truman Rentschler and Mrs. Clare Beland gave interesting reports of the meeting of the southeastern district of women's clubs, held last week in Jackson. Mrs. Earl Updike was reinstated into the club.

Miss Ingersoll, program leader, presented Mrs. Naomi Williamson, who spoke interestingly of her boat trip to the Hawaiian Islands, Philipine Islands, China and Japan, which she enjoyed last winter.

Former Tecumseh Girl Now Working In Iran

Nancy Anne Eaton, daughter of Mr. and Mrs. A. Wilbur Eaton of Swampscott, Mass., has arrived in Tehran, Iran, where she has been assigned a position in the United States Embassy. Miss Eaton, formerly Nancy Cheetum, and her mother moved from Tecumseh several years ago.

Miss Eaton spent the summer in Washington studying with the State Department for diplomatic service, devoting much of her time acquiring a knowledge of the Persian language. She attended Tecumseh high school, graduated from Swampscott high school and attended Boston University and Katherine Gibbs School. For a year she was a member of the clerical staff in Dean Kennedy's office, Harvard University.

MRS. ANNA REEVES BURIED IN CHICAGO

Funeral services were held Monday afternoon in Chicago for Mrs. Anna R. Reeves, mother of Mrs. Ray (Lucyle) Schlegel of Tecumseh, who died October 19 in Handley, Texas. Burial was in Acacia Park. Mr. and Mrs. Schlegel returned home Monday evening from Chicago where they had been since Friday.

Surviving are eight children, Starling Olufs, Charles F., Joseph A., Herbert W., Lucyle Schlegel, Dorothy Larson, Mildred and Robert, and 13 grandchildren. Her husband, Charles C., preceded her in death.

VANDERCOOK LAKE MAN BURIED FROM TECUMSEH

Charles Meakin, 76, died Thursday evening at his home in Vandercook Lake, Michigan. After lying in state in the Green Funeral Home services were conducted in Jackson on Monday afternoon by the Rev. Allan Ramsay of St. Peter's Church with burial in Woodland cemetery, Jackson. Family and friends were present from Detroit Flint, Birmingham, Tecumseh Jackson and Vandercook Lake.

Summerfield Bows To Indians

HIGH SCHOOL GRIDDERS REST THIS WEEK-END, PLAY BEDFORD NEXT WEEK

By Don VanCamp

The Tecumseh Indians chalked up their fourth victory out of six, Friday evening, by beating Summerfield, 20 to 0 at Recreation Center.

The first Tecumseh score came in the first quarter when fullback Dick Whelan ran off tackle for 75 yards and a touchdown. Dick played one of his best games of the season.

In the second quarter, halfback Dave VanWinkle tossed a 25-yard pass to Henkel who took the ball on Summerfield's three-yard line and ran it over the stripe. Henkel then took the pigskin and passed to end Doug McDowell for the extra point.

Tecumseh's last touchdown came in the third quarter when Dick Whelan passed to end Norm Karsten, good for 25 yards. This gave the Indians first and goal on Summerfield's one yard line. VanWinkle took the ball and plunged right over center for the score. Van Winkle also plunged the center for the extra point and it was Tecumseh's game 20 to 0.

Summerfield threatened to score twice, once in the first quarter when they picked up three first downs and moved to the Indians 15, but were stopped by the Tecumseh line. Again in the third quarter they started a drive which was stopped five yards from paydirt. The rest of the game Summerfield found it hard to get past their own 30 yard line.

In the backfield for Tecumseh Dick Whelan, along with Henkel and VanWinkle, drove the Summerfield line. The outstanding linemen were ends McDowell and Karsten and guard, Jerry Judd.

The Indians take a rest tomorrow night, with no game scheduled. Next week Friday they meet Bedford, here.

Drive Is Delayed

COMMUNITY CHEST HAS DIFFICULTY IN SELECTION OF A CHAIRMAN

Tecumseh's Community Chest Campaign, scheduled to get under way on Friday, November 4, has been delayed for at least a week because directors of the Chest have been unable to obtain the services of a suitable chairman.

"To date, we have been unable to find anyone to head the drive," Geo. H. Adamson, president of the Chest, said. "We had hoped to have been able to make the selection earlier, but we have had refusals. There will be a meeting of the Chest directors this week, and in all probability a chairman will be named so that the drive can start about November 11."

The total Chest budget this year is $5,370 with 15 organizations participating.

Heart Attack Fatal To Chicago Priest

The Rev. Fr. Frank Nogajewski, 49, of Chicago, died in Tecumseh hospital at 10:30 a.m., Monday, a few minutes after he was admitted. Death was caused from a heart attack, according to Coroner Paul Mott of Adrian. The body was taken to the Hause Funeral Home in Clinton and later removed to Chicago.

Fr. Nogajewski had stopped his car at a restaurant on US-112 and complained of feeling ill. An ambulance was summoned and the priest was taken to the hospital, where he died. Fr. Nogajewski had been on sick leave and was not assigned to a parish. Efforts were being made to contact relatives.

FORMER RESIDENT DIES

The body of Edwin J. Schreder, 59, who died Tuesday at his home in Toledo, will be brought to Tecumseh for burial in Brookside cemetery, Saturday, at 3 p.m. The son of the late Grant R. Schreder, he formerly resided in Tecumseh, moving away some 30 years ago. He is survived by three children and two sisters, Mrs. Anna Shaw of St. Petersburg, Fla., and Mrs Leon J. VanDeusen of west of Clinton.

ENJOY TAP DANCERS

Six girls tapped their way into the favor of the Tecumseh Exchange Club, when they appeared before that organization, Monday evening, following dinner. Rita Crosby and Betty Barton tapped three numbers and Nancy Randall, Dulcie Bowen, Patsy Purcell and Grace Moore entertained with three numbers. Mrs. Glenn Driscoll was the accompanist.

Baptists To Observe Harvest Home Sunday

Harvest Home Sunday will be observed at the Baptist church, Sunday, October 30, when Grange members from throughout southern Michigan will be guests. The service begins at 11 a.m., and the pastor, the Rev. B. O. Bashore, will deliver his sermon over radio station WABJ at 11:30 a.m., preceded by the Pomona Grange chorus singing "To Thee, Beloved Grange."

"Faith, Hope and Charity" will be in evidence as members of the congregation and the special guests come to the church bearing contributions of canned goods, fresh fruits and vegetables, etc. A majority of the contributors are asked, however, to bring their goods to the church on Saturday so that the decorations may be completed. The entire offering will be taken to the Gleiss Memorial Center in Detroit following the service.

O.E.S. Officers Are Installed

100 ATTEND CEREMONY HELD AT THE MASONIC TEMPLE IN TECUMSEH

New officers of Tecumseh chapter installed during an impressive ceremony at a special meeting held at the Masonic Temple, Thursday evening. Fall flowers and burning tapers in candelabra decorated the room.

Mrs. Lynn Harris, past matron, invited the retiring worthy matron and worthy patron, Mr. and Mrs. Chester Beach, into the chapter room. They were escorted by Mrs. Clair Rozelle and Mrs. Ernest Greene, assisting marshals. The installing officers were escorted to the East and were introduced as follows: Kenton Hunt, worthy installing officer; Mrs. Tom Hamilton, installing marshal; Jennie Temple, installing chaplain; Mrs. Arlene Hunt, installing organist; Fred Dickinson, installing soloist.

As Mrs. Kenton Hunt, worthy matron, was installed, the lights were dimmed and a star was formed around the altar. She was escorted to the East and presented with a bouquet of flowers by her daughter, Sally. As George McCombs, worthy patron, was installed a hollow square was formed around the altar and he was escorted to the East by his daughter, Isabel, and son Bradley.

A square and compass was formed at the altar as Mr. and Mrs. W. E. Benham were installed as associate matron and associate patron. Other officers installed are: Mrs. Charles Driffill, conductress; Mrs. Ray Schlegel, associate conductress; Mrs. Lynn Harris, secretary; Mrs. Louis Schneider, treasurer; Mrs. Owen Partridge, marshal; Mrs. Tom Boyd, chaplain; Mrs. Glenn Driscoll, organist; Mrs. Raymond Platt, Adah; Mrs. James Barton, Ruth; Mrs. Don Goddard, Esther; Mrs. Robert Gibson, Martha; Mrs George McCombs, Electa; Mrs. Jack Morehouse, Warder; John H. Smith sentinel; Mrs. G. Garlick and Mrs Carl Stevens, color bearers; Arcelia McElroy, American flag bearer.

As the Star Points were escorted to their stations the Merry Maids, who are members of Mrs. Hunt's Sunday School class, sang a hymn. After the installation Mrs. Beach was escorted to the East and presented with the Past Matron's jewel, a gift from the chapter while Mrs. Charles Driffill sang a solo in her honor. She was welcomed into the Past Matron's Circle by Mrs. LaRue Hart and presented with a bouquet of yellow mums.

Mrs. Hunt was presented with a ritual by the Past Matrons. She then announced that the next regular meeting, November 3, would be Obligation Night.

Lunch was served in conclusion to some 100 guests by Mrs. B. J. Asbersold and her committee.

CONSERVATION CHIEF TALKS TO ROTARIANS

William J. Brown, regional business director of the Michigan Department of Conservation, Lansing, was the guest speaker at the regular dinner meeting of the Rotary Club, Tuesday evening at Brees House. Mr. Brown was the guest of L. W. Larsen, vice-president of the club, who presided.

The many functions of the department were explained to the club by Mr. Brown who later showed reels of official films, one on deer hunting, the other on wild life generally. Guests at the meeting were Peter Klein of the Blue Cross Hospital Service, Detroit and Claude Helms, Tecumseh.

Downtown Cafe Opens Its Doors To Young People

RESTAURANT "TURNS OVER" DINING ROOM SO YOUNG FOLK MAY HAVE FUN

Music, laughter and dancing feet turned the Cozy Cafe into a haven of fun for some 70 young people, Monday evening, due to the generosity of the establishment's owners, Mr. and Mrs. W. G. Barker. The evening proved so successful that a Hallowe'en party is being planned for next Monday evening.

At last week's meeting of the Tecumseh Parent-Teacher Association, Mr. and Mrs. Barker offered to close the doors of their establishment to business from 8 to 10 p.m., so that young people of junior and senior high school age could gather there to dance, play cards, etc. The proposal was readily accepted by both the association members, who agreed to act as chaperones, and the young people, who showed their enthusiasm for the plan by mixing readily in the activities at the cafe the opening night.

Grenval Spangler, chaperone, said he was very much pleased with the large turn-out and especially with the good behavior of the youngsters. A stipulation included in the offer and acceptance of the proposal was that the building be treated with due respect and if this condition is adhered to it will be open exclusively for the young people for the two hours every Modnay evening.

"The young people in Tecumseh have had no place to meet one another to dance and have fun during the week," Mr. Barker said, "and Mrs. Barker and I have had this plan in mind for some time. I have four daughters of my own and, although they are all married, I know that young people like to have a place to meet and enjoy themselves." Mr. Barker was also impressed by the behavior of the youngsters.

Monday evening, Mrs. Barker baked cookies as a special treat for the teen-agers, beaming her approval of the fun they were having as she served them. Soft drinks and potato chips may be purchased and the juke box contains the latest records.

At last week's Association meeting, some 200 parents and teachers were in attendance. The fifth grade students, who are taught by Mrs. Irene Boltz, entertained with several numbers, under the direction of Mrs. Jean Gentile. David Dick showed several reels of conservation films, including the Porcupine Mountains, the Au Sable River, and fishing and lumbering scenes in Michigan.

Refreshments were served by parents of kindergarten and first grade pupils, with Mrs. Lawrence Price as chairman.

Indian Snappers To Hold Photo Contest

Members of the Indian Snappers Club who are participating in a photo contest are to bring their pictures to the next regular meeting, which will be held November 7 at the Tecumseh Camera Shop. The photos will be judged and prizes awarded. The three judges selected are Lester Coller, local photographer; Earl Wickwire, editor of The Tecumseh Herald, and Walter Nichols, manager of the Strand theatre.

The pictures will be judged on the general interest they arouse rather than photographic technique. The decision of the judges is final. The contest is open to club members only.

New officers will be elected at the November meeting and anyone interested in photography may join.

MRS. HAYDEN RECOVERING FROM AUTO INJURIES

Mrs. Perry Hayden is recovering satisfactorily from foot injuries received in an automobile accident which occurred Thursday at 8:30 p.m., north of Cadillac.

Mr. and Mrs. Hayden and their two-year-old son, John, were enroute to Traverse City when another car made a left turn in front of the Hayden car. The Hayden car crashed into the rear of the other vehicle.

Mrs. Hayden was removed to a hospital where she remained overnight. Several bones in her left foot were broken. Mr. Hayden and John were uninjured. The family was brought home Saturday morning by Ralph Daniels.

Ruinous "Welfare" Schemes

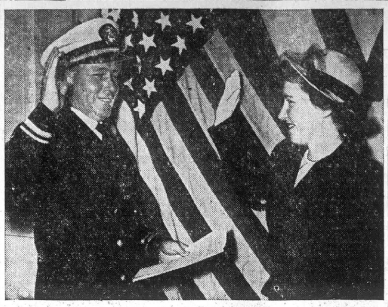
The suicidal drive for more and more so-called "social security," regardless of the cost or what it does to the economy, came to a head in California last November. At that time the voters, whose attention was largely fixed on the Presidential election and other matters, approved an amendment to the state constitution which, among other things, increased old-age assistance, canceled out any responsibility of relatives to support their own aged, reduced residence and age requirements for applicants, and set up an autonomous Department of Welfare answerable neither to the executive or legislative branches of the state government.

Now, on November 8th next, the voters of California, at a special election, will be given the chance to repeal the year-old measure, and put assistance to the aged, the blind, and the needy on a basis that will adequately serve the deserving, and save the state from financial ruin.

Social Security Administration figures for June of this year show how critical the situation is. California had 258,516 people on pensions, while Pennsylvania, with about the same population, had 88,202, and New York, with nearly half again as much population, had 116,743. California's total payments to pensioners, for June alone, came to $17,306,073, while Pennsylvania's and New York's were $3,544,002 and $6,151,820 respectively. California's pension costs are still rising rapidly, and, already, the state sales tax has been increased about 20 per cent, the income tax by a similar amount, and the corporation tax by 18 per cent.

It is a significant fact that the campaign to repeal the amendment is being led by the California Council For the Blind which says, "In many important respects the blind and the aged are worse off now than they were prior to its adoption." Repeal is supported by a long list of other organizations, including the state Chamber of Commerce, the Federation of Women's Clubs, the Association for Social Welfare, the California Farm Bureau Federation, etc. Every one of these groups wants to properly help the needy — but every one also knows that the present law would prove ruinous to all in the long run.

California's vote will be of national importance, at a time when misguided "welfare" schemes threaten to undermine the financial stability of the whole country.



BROTHERLY GESTURE . . . It's all in the family (Uncle Sam's) as navy Lieut. George M. Farm Marketing Law Is Step Nearer Goal

LANSING — Prospects for a Michigan farm marketing law have become much brighter during the last few weeks, says Governor G. Mennen Williams.

Governor Williams has been urging the establishment of a Michigan "Seal of Quality" which would be used on Michigan-grown food products that meet quality standards.

The "Michigan Seal" would be widely advertised by the state.

The "Seal of Quality" bill bogged down in the last Legislative session in an argument over the powers to be given the Department of Agriculture to establish the standards.

The Legislature, however, set up an interim committee to study the problem, headed by Representative Kirk Haley of Bad Axe.

Attorney General Stephen Roth recently advised Representative Haley and Governor Williams that the "Seal of Quality" bill would be constitutional if certain minor changes were made.

The Governor now has his legal advisor, Clark Adams, redrafting the bill to conform to the attorney general's ruling.

PAST CHIEFS CLUB TO ELECT OFFICERS

Mrs. Henry Kempf entertained the Past Chiefs Club of the Pythian Sisters at her home Friday evening, with Mrs. Clark Vincent as assisting hostess. Some 20 members were in attendance as well as two guests, Mrs. Garth Hall and Mrs. Fred Whelan.

During a short business meeting, it was announced that the Past Chiefs were to fill the offices at the next meeting of the Pythian Temple. Games were played and prizes awarded to Mrs. Lynn Hubbard, Mrs. Fred Marsh and Mrs. Frank Gray. The traveling hostess gift was won by Mrs. Walter Hizer.

Lunch was served by the hostess in conclusion. The next meeting will be held at the home of Mrs. Silas Kring, sr., with Mrs. Ed Swift assisting.

GOP Is Keeping Eye On Fair Sex

WOMEN ARE EXPECTED TO PLAY IMPORTANT PART IN THE 1950 CAMPAIGN

Lansing — The "little woman" who was shunted into the background several years ago as someone to be condoned rather than sought out, is going to be an important factor in the state Republican party during the forthcoming 1950 campaign.

Leaders of the GOP are putting a lot of faith in the ability of the housewife in spreading the philosophies of the party during the next few months, and in the all-important job of getting out the vote on election day. They believe that if the women of the state are solidly organized with a unity of purpose during the next six months that it will enhance the chances of a Republican sweep in "50" immeasurably.

And the women haven't been letting the cobwebs collect in the Republican house during recent months. Since she took office as vice-chairman of the state central committee last spring, Mrs. Mary Streit, Detroit, has visited 38 counties. During her visits she talked to county chairmen and leaders of women's Republican groups, made a survey of past elections, and laid the groundwork for stepping up GOP organizational work. In counties where there isn't an active women's group, Mrs. Streit gets the wheels in motion for an active organization.

Plans are on the boards for a Bureau of Information under the Women's division of the state central committee. In recounting her travels, Mrs. Streit said, "often I found the women at their household tasks. Sometimes they were surprised, but for the most part they were happy to see me. We would sit down and chat, and then get around to the activity of women at election time. I found that women of the state are alert and interested in state governmental problems, and are anxious to receive information about issues of the day."

Mrs. Streit is working hand in hand with Mrs. Rae Hooker, Mt. Pleasant, Republican national committeewoman, and Mrs. Katherine Gibson, Monroe, president of the State Federation of Women's Republican Clubs. The trio just completed an extensive tour of the Upper Peninsula to organize the women in that section of the state. Tours of the Lower Peninsula are being arranged for the Fall and Winter months.

In Mexico City there are no flies, insects or mosquitos.

Head your Buick for our fountain of youth

NOW'S the time when Autumn calls you out for a ramble in your Buick.

Slide under the wheel and answer that call! Take a Fireball cruise through the countryside, with your heart growing lighter and the years slipping off your shoulders at each mile!

Just one reminder, though. Make sure your Buick is in top shape to keep step with you. First bring it in to us—and let us clean summer's dust out of your air filter, flush out tired summer crankcase oil with its grit and goo, check your carburetor adjustment to see that you're getting the most powerful, most economical mixture with October's cooler, heavier atmosphere.

We can do this quickly, economically, with a sure touch. Our thorough Buick training and long Buick experience in doing each job the factory-designated way have earned us a reputation—we're the "Fountain of Youth" for Buicks.

To make it easy, we've printed a Fall Check List below. Just tear this out, drive in this week and hand it to us—and when you head out for the open road there'll be a happy smile on your face!

Tear out this check list—bring it in with your Buick

Fall Checkup — Lights, brakes, tire wear, front-end alignment, oil filter unit, battery, car heater.

Adjust — Carburetor, distributor.

Clean — Air cleaner.

Flush — Crankcase, cooling system.

Estimate — Antifreeze requirements.

ALSO — Lubricare (bumper-to-bumper lubrication and inspection).

Moved and supported that Police Report be accepted and placed on file. Motion carried.

Moved and supported that extension of time be granted E. Rossi & Son of 15 days to complete Job No. 3, 1949, Interceptar Sanitary Sewer to October 15, 1949. Motion carried.

Petition of Hilda E. Will to remodel house at 107 S. Union Street was denied. Motion carried.

Moved and supported that Amendments to Building Code be adopted as read.

An Ordinance to Amend Sections 4a, 4b, 4e, 4h, 5i, 6b, 6d, 6e, and 6i of an ordinance to regulate the erection, remodeling, moving and repairing of buildings, to establish minimum construction requirements for erection and remodeling of all buildings in the Village of Tecumseh, and to provide for the administration, enforcement and periodic renewal of this building code.

4 (a). Duties of Building Inspector. The building inspector shall approve all applications for permits requested by this ordinance. He shall inspect premises for which permits have been issued to see that the provisions of this ordinance are complied with and that construction is prosecuted safely. He shall enforce all provisions of this ordinance relating to the construction, alteration, repair, removal, demolition, use and occupancy, and location and maintenance of buildings and structures except as may be otherwise provided for. He shall, when requested by the Mayor or Village Council, or when the interests of the Village so require, make investigations in connection with matters referred to in this ordinance and make written reports on the same. For the purpose of enforcing the necessary safeguards during construction or to require adequate exit facilities in existing buildings or structures, he shall issue notices or orders as may be necessary.

4 (b). Inspections required under the provisions of this ordinance shall be made by the Building Inspector. Under special conditions and upon approval of the Village Council, he may seek the assistance and accept reports of inspection of recognized inspection services or of consulting engineers or architects, upon satisfactory evidence of their qualifications and reliability. But no certificate called for by any provisions of this ordinance shall be based on such reports unless such reports are in writing and certified by a responsible officer of such service.

4 (c) Any changes of rules shall be referred to the Village Council.

4 (h). The Building Inspector shall make a report to the Village Council at its monthly meeting of all permits approved and orders issued in connection therewith.

5 (i). Repairs to buildings or structures not involving any structural changes or alterations when the estimated cost thereof for labor and materials shall not exceed the sum of $25.00, may be made by first making application to the Village Clerk for a permit to be approved by the Building Inspector.

6 (b). Approval in Part. Nothing in this section shall be construed to prevent the Building Inspector from approving a permit for the construction of a part of a building before the entire plans and detailed statements of said building or structure have been submitted or approved, if adequate information and detailed statements have been presented for the same, and have been found to comply with this ordinance.

6 (d). Conditions of the Permit.

6 (i). All work performed under a permit issued by the Village Clerk shall conform to the approved application and plans, and approved amendments thereof.

6 (e). Signature to Permit. Every Permit issued under the provisions of this ordinance shall have affixed thereto the signature of the Village Clerk and approval of the Building Inspector.

6 (i). Fees. Before any permit shall be issued covering building or other operations regulated by this Ordinance, a permit fee and an inspection fee shall be paid to the Village Clerk according to the following schedule:

For new buildings and other enclosed structures—$6.00.

For alterations or repairs under $25.00—no charge.

For alterations or repairs over $25.00 but not exceeding $200.00—$1.00.

For alterations or repairs over $200.00—$3.00.

For wrecking of buildings or structures or parts thereof over 5000 cubic foot capacity—$2.00.

For moving buildings or other structures—$2.00.

For all other miscellaneous structures or installations—$2.00.

Inspection fee for industrial or business structures, for each inspection—$6.00.

(1) First inspection to be made upon completion of foundation walls.

(2) Second inspection to be made when plumbing has been roughed in.

(3) Third inspection to be made upon completion of construction, provided, however, that for industrial construction there shall be collected by the Village Clerk at the time the permit is issued, an inspection fee of $35.00 to cover the cost of additional inspections as the Building Inspector may deem necessary. Provided, however, that no permit shall be required or fee collected for the wrecking of buildings or structures of 5000-cubic-foot capacity or less.

This ordinance shall take effect twenty (20) days after publication.

How Much Would You Take For Your House?

Maybe the question is a bit personal but nevertheless its a fair one, especially from our standpoint. We'd like to ask it because we'd like to have you consider for a moment whether or not you'd sell your present house for the amount for which you have it insured.

If you wouldn't sell at the insured price then you are UNDER INSURED.

If you're under insured, we'd like to talk with you and to write a policy for you that will give you complete protection.

Don't delay. Tomorrow may be too late.

BRITTON

GUBBE-DOWNING

The North Blissfield Immanuel Lutheran church was the scene of a pretty wedding Saturday evening at 8 o'clock, when Rena M. Downing, daughter of Mr. and Mrs. Irving Downing of Britton, became the bride of Elmer E. Gubbe, son of Mr. and Mrs. Paul Gubbe of Deerfield. Rev. William Weinandt read the single ring service before the altar glowing with lighted candles in candelabra and baskets of mixed chrysanthemums. Miss Arlene Weinlander church organist played the traditional wedding music and accompanied Mrs. Naomi Spohr of Britton who sang "I Love You Truly", "As the Years Go By," and "The Lord's Prayer."

The bride entering the church on the arm of her father, chose a gown of white silk organzie with alecon lace yoke, long fitted sleeves, tight bodice with full sweeping skirt. She wore an illusion fingertip veil held in place by a beaded seed pearl tiara edged with matching alecon lace. The bride carried a bouquet of modified colonial feathered white mums and roses centered with a gardenia. Her only jewelry was a rhinestone necklace; a gift of the bridegroom.

Mrs. Stella Wagner of Britton, sister of the bride, as matron of honor, was gowned in nile green marquisette over taffeta. Mrs. Wanda Coven of Britton and Miss Dorothy Dieterle of Saline, friends of the bride dressed in pink marquisette over taffeta. Each carried a heart shaped cluster of feathered chrysanthemums in graceful sea of misty maline. Lou Ann Gubbe of Deerfield, niece of the bridegroom, wore a floor length pale blue silk organzie gown as flower girl carrying a small white basket of carnations. All wore matching tiara head dresses. Jerry Papworth of Britton, nephew of the bride, acted as ring bearer. Carl Gubbe of Deerfield attended his brother as best man. The ushers were Dale Gubbe of Deerfield, brother of the bridegroom, and Lloyd Wagner of Britton, brother-in-law of the bride.

Mrs. Downing chose a rose figured black crepe gown and black accessories for her daughter's wedding, while Mrs. Gubbe chose dacia brown tissue faille with gray and black accessories. Both wore corsage of white roses.

About 250 guests attended the reception in the church dining room. Mrs. Beatrice Papworth, sister of the bride, presided at the guest book and later cut the wedding cake. Mrs. Ethel Kimerer, Mrs. Ethel Miller, Mrs. Sylivilla McCoffey and Mrs. Myrtle Prielipp served the refreshments assisted by the Misses Gene and Geneva Kimerer and Phyllis Frost.

Mr. and Mrs. Gubbe will be at home at their newly furnished apartment on Smith road near Tecumseh.

Those attending were from Jackson, Claire, Blissfield, Lansing, Milan, Tecumseh, Adrian, Palmyra, Deerfield, Dundee, Evart, Macon and Britton.

Mrs. George Beale entertained Friday evening in her home in honor of her son Peter's twelfth birthday. Nine boys and girls attended and enjoyed a lovely dinner with a featured birthday cake and later Mr. Beale accompanied the group to the movies.

The Congregational Church Dorcas class met last Thursday at the church with a 1 o'clock luncheon in charge of Mrs. Lottie Meyers and committee. The afternoon program was presented by Mrs. Jennie Theeke. Mrs. Ella Swick and Mrs. Carrie Murphy were hostesses of the day. The next meeting will be friendly service day November 17 with a potluck dinner at the church and all ladies of the church invited.

Mrs. Belle Cundiff entered Tecumseh hospital Tuesday to undergo surgery.

Master Darls Waterbury returned to his home at Camden after spending Wednesday till Sunday with his grandparents, Mr. and Mrs. Glen Grigton.

Weekend guests at the home of Mr. and Mrs. J. V. Ferman were Mr. and Mrs. Richard Ferman and children of Detroit.

A Hallowe'en party sponsored by the joint cooperation of the Business Men, P. T. A., Kiwanis Club and Village Council is set for October 31, at the high school gymnasium. The party will include a costume parade with cash prize awards. Refreshments to be served and an interesting motion picture will conclude the evening. All boys and girls as well as parents from Britton and the Community are urged to attend.

Rev. Harry Rogers of Key West, Fla., formerly of Michigan, will be the new pastor of the Congregational church. He and Mrs. Rogers expect to move their household furnishings here soon.

Sunday, Mr. and Mrs. Clyde Brown entertained in honor of their son Clifford and her mother Mrs. Mary Gobba of Holloway who were having birthdays. Mr. and Mrs. Robert Goetz of Ann Arbor were out of town guests attending.

Mr. and Mrs. Fay Wiggins were weekend guests at the James Taylor home in Detroit.

Mr. and Mrs. Charles Patterson and sons entertained Sunday, Mr. and Mrs. Lear VanValkenburg and children of Jasper and Mr. and Mrs. Mills Swick of Macon.

Mr. and Mrs. Ivan McCarbery and children returned to their home in Dearborn after spending the weekend here with her parents, Mr. and Mrs. G. L. Gripton.

Mr. and Mrs. Charles McCarbery were Sunday dinner guests of their daughter and husband, Mr. and Mrs. Edward Bradley at Grass Lake.

Weekend guests of Mrs. Bertha Swick and Mrs. Velma Miller were Mr. and Mrs. Grover Yates and son of Walled Lake and Richard Wendt and daughter of Ann Arbor.

Mr. and Mrs. Ray Smith accompanied Mr. and Mrs. William Kingsbury of Deerfield to Toledo Sunday where they were dinner guests of Mrs. Grace Burnham.

The Britton Woman's Club met last week for their first meeting of the fall session. The meeting was held at the town hall with Mrs. Doris Forsyth presiding. Mrs. Francis Eberhardt showed pictures which were very interesting. Refreshments were served by Mrs. Jennie Theeke and committee.

I. O. O. F. Grand Master Speaks Here, Sunday

Theodore A. Thomson of Williamston, grand master of the Independent Order of Odd Fellows of Michigan, addressed some 100 Odd Fellows and Rebekahs from lower Michigan at the Temple, Sunday, following a potluck dinner.

Previously, the lodge members had attended services at the Baptist church when the grand chaplain, the Rev. B. O. Bashore delivered the sermon.

Among the dignitaries present were Mr. Thomson and George Bain of Wyandotte, the grand warden. Other guests were from Ann Arbor, Parma, Monroe, Blissfield, Milan, Dundee, Britton, Adrian and Onsted.

Here's what you do.—Fill in the correct brand name for any of the 54 advertising slogans on the official entry blank. They're easy, well-known slogans such as: "Breakfast of Champions" . . . "The Pause That Refreshes." Look for slogan clues at Kroger stores. Then write a last line to this jingle:
"Live Better for Less" is the slogan to know,
It tells me that all Kroger prices are low.
I find all the brands that I like on display.
Fill in the last line and make it rhyme with "display." For example: "And that's why I shop at my Kroger each day."
Send the dated end from a Kroger Hot-Dated Coffee bag or tear off strip from a Kroger Coffee can, and the printed portion of the label containing the brand name you identified. Mail to: Kroger Contest, Box R.R., Chicago 77, Illinois.

Ghosts, Goblins

(Continued from Page 1)

Interest in the competition is keener this year. Instead of the white soap which was the medium used last year a special solidified paint stick has been purchased and this year's pictures will be in color. Merchants, who have to do the washing off, have been assured that the color washes off readily with a wet cloth.

All pictures are to be completed by Friday afternoon. This will permit all week-end shoppers to view the pictures and those who are downtown during the remainder of the week will have the added opportunity of watching the young artists at their work.

There will be prizes offered for first, second, and third places, as well as two honorable mentions. In addition to these, the company in Chicago which manufactures the paint stick has declared its interest in the unusual contest and has offered for the first place winner.

Miss Dorothy Burgess, art director for the public schools will supervise the production of the pictures. A committee from the P. T. A. will do the judging.

Among the stores which have offered their windows for the contest are the following: A & P, Allisons, Anderson Bros., Baldwin's, Bancroft's, Brandt's, Butler's Firestone, Butler Motor Sales, Cameron's, D & C, Martin's Gamble Green's, Hadley's.

Hellman's, Henkel's Hite's, Hodges', Kerby's, Kroger, Nation Wide, Palman Bros., Rosacrans, Seitz, Osborne's Skogmo, C. F. Smith, Sluyter's, Tecumseh Electric, Van's Pastry, Watkins, Western Auto, Wolf's, Wright's, Hanna Insurance and Consumer Power.

Candy Kitchen, The Herald Beach's Service, Whelan implement Co., Heidenreich's, Garno's Weatherman's, McConnoll's, Lamson's, Mix & Raymond and Norman Bailey's.

Miss Burgess reports that the students will be allowed to choose their own window. There is a possibility that still more windows may be necessary, or that the illness of one or two students may make the above number more than sufficient.

The Hallowe'en party is staged annually by Rotary, with the Community Chest, the Chamber of Commerce, and the village cooperating in the expense.

"The purpose of the party," Mr. Bashore said, "is to reduce vandalism in Tecumseh to a minimum on Hallowe'en. In the past, it has been very successful. Last year, for instance, there was not a serious bit of vandalism in the village.

"The children realize," Bashore continued, "that the community goes to considerable expense to stage the party. Those sharing in the cost feel that they would rather give the youngsters a party than to spend money cleaning up the next day. We trust that again this year the children will cooperate, as they have in the past, and that there will be no destruction of property."

TO HONOR CHAPEAU

TIME-TESTED APPLES ARE STILL 'KING' FOR TASTE

Department Suggests Healthful Uses for Apples

There's a new vitamin—"Z" for zest—in Michigan apples, the Michigan Department of Health announced today. They enliven a jaded appetite, pep-up every day meals, provide color, flavor and bulk which everyone needs.

The plainest meat loaf takes on importance and looks fit for a king when surrounded with grilled apple rings, and Michigan's apple pie with cheese is famous throughout the world.

You can be patriotic as well as healthful and economical by bringing more of Michigan's world-leading, 11,000,000 bushel apple crop to your home and your table, the Department added. Buy your apples by the bushel or bushels, and store them in a cool, moist place, can them or dry them.

Try the time-tested apple pie, apple sauce, baked apples, apple dumplings, brown betty and Waldorf salad, but try some new apple dishes this year, as well.

Chop apples and cabbage, apples peanuts and marshmallows; or apples with raisins, carrots, celery, coconut or other nuts, for salads.

Make apple pan dowdy, apple crunch, apple roll (like jelly roll), deep-dish apple pie, apple sauce cake, apple oatmeal cake, apple tapioca, spiced apples, pink apple sauce (with cinnamon candies and apple-raisin, apple-prune or apple-cranberry pie for dessert. Make butterscotch apples by using brown sugar syrup thickened and with butter added, poured over warm stewed apples, or spiced apple snow made with gelatin and egg whites for luncheon. Try apple coffee cake for breakfast.

Make apple stuffing for your pork chops or for your birds. Use a relish of chopped raw cranberries and unpeeled apples.

When children come around, "Trick or Treat," on Hallowe'en, have plates of taffied apples ready, or let your children make the candied delicacies at their Hallowe'en party. Let them bob for apples in a dishpan of water; nibble at apples hanging on a string and find their partners by matching cut apples. Give them doughnuts and cider for zestful and inexpensive refreshment.

Take an apple for your mid-morning snack or with your lunch. Give your child an apple for his after-school refreshment.

You can decorate with apple "snow-men" or bowls of the beautiful fruit mixed with an egg plant and bananas; or with Michigan's purple grapes and a golden summer squash.

Bright red apples and bowls of snowy popcorn which were a feature of Michigan home life a generation ago will add zest to your television, radio or platter party or to the family gathering just as they did in gramophone days. Apples and popcorn aren't nearly so fattening or expensive as other refreshments and they won't leave you with a headache to keep you awake nights. There's more than one way for an apple a day to keep the doctor away, the Department concluded.

LANSING—More federal aid for conservation is assured by Congressional approval of the Dingell bill earmarking existing federa excise taxes for game fish restoration and management projects.

The excise tax applies to fishing rods, creels, reels and artificial lures, baits and flies—items perennially in demand by sportsmen. How much money will be raised by this levy? Approximately five million dollars a year!

The National Wildlife Federation declares that the Michigan measure ranks high in the history of wildlife movement. Its importance is equal to that of the Migratory Bird Treaty and the Pittman-Robertson Acts. Michigan's conservation program is regarded nationally as "tops" in the Nation. P. J. Hoffmaster has been director of the state department for the past 15 years.

If you are a sportsman, and Michigan is filled with them, you probably read with approval the above item about new federal aid to Michigan and other states.

The trend of more governmental spending for more public benefits has been accelerated at Washington by the 81st Congress. Federal spending for the present fiscal year (ending June 30, 1950) is expected to exceed $45 BILLIONS, as compared with anticipated receipts of $40 billions. Thus a treasury deficit of $5 billions is now in sight!

As 1950 is an election year, Washington observers do not expect that Congress will increase taxes next year. Deficit spending is likely to rise in 1950.

This inflationary pressure, newly created by the Russian A-Bomb, is a new economic factor that may have direct effects on Michigan state government finances.

The 1949 general session of the state legislature resisted efforts for new taxes, but legislators also resisted attempts to curtail spending, much of which benefits local governments. Just as the Dingell bill will benefit Michigan conservation projects and hence will be popular with sportsmen, so the state aid appropriations for local governments — schools, libraries, cities, counties and townships — are generally favored. The net result seems to be one thing: More spending by government; more taxes and more treasury deficits.

Michigan's "D-Day"—the coming treasury deficit—may occur next spring when heavy payments will be made by the State of Michigan to public schools.

It is a matter of record, repeatedly emphasized in this column, that 78 per cent of the state sales tax is now being diverted back to home governments. Most state officials believe that a treasury deficit will be inevitable when price inflation ceases to produce an ever higher amount of sales tax receipts. So far, the state treasury has been protected by post-war inflation. If 1950 brings more inflation, as present signs appear to indicate, the day of reckoning may be delayed once again.

The writer of this column for state capital interpretations has followed a policy of avoiding personal bias on controversial matters. We have reviewed factually legislative matters on a federal and state level which have been highly socialistic in their objectives. The federal housing law to subsidize rents for low income workers was a recent case.

When future historians write about our current post-war period, they will present judgment on our swing to the left, the trend towards collective statism, the so-called "welfare state" wherein government protects the citizen from cradle to the grave. Why are we traveling in this direction? Is there anything we can do, as free-loving Americans, to halt these encroachments on our personal liberties?

Some contemporary historians say the Communist menace of atomic war is forcing Democracy to bankrupt itself in a race for survival. Dollar devaluation by Great Britain — and possibly soon by the United States are cited as proof of such dire forecasts.

What can we do in the face of increased government spending at Washington and Lansing? That's the A-1 problem for the taxpayer today.

The answer must come at the ballot box in American communities everywhere. The choice is one for the people to make — and that means YOU.

Chairmen Are Named For County CROP Drive

The county committee of the Christian Rural Overseas Program (CROP) in Lenawee county met last week at the court house in Adrian. The county chairman, Rev. Paul Wengel of the Adrian Baptist church conducted the meeting. The committee is composed of Rev. Mr. Wengel, Rev. Gerald Fisher, Co. Pres. of the Ministerial Association, Rev. A. J. Lucht, representing the Lutheran churches, Father Sullivan, representing the Catholic churches, Mrs. John Ruesink of Adrian Township, Mrs. George Mattis, Co. Chrm. Extension Clubs, Arthur Eaton, director of the Fair Board, Willis Moore, Adrian Township supervisor, Harry Bradley, county treasurer, Claude Porter, mayor of Adrian, Milton C. Porter, Co. Supt. of Schools.

The county is to be divided into four sections for local township drives. The sections and the co-chairmen appointed to work with Mr. Wengel are as follows: Northwestern section—Milton Wheaton, Woodstock township; Northeastern section—Arthur Eaton, Tecumseh township; Southwestern section—Max Huff, Seneca township; Southeastern section—Bob Thompson, Ogden township.

Father Sullivan, the Rev. Mr. Lucht and the Rev. Mr. Fisher will have charge of publicity in the churches throughout the county.

The drive will be conducted over a ten day period starting November 13 and ending with a dedication service sometime after November 23, the exact date for which has not yet been set.

White Elephant Sale Nets Club New Drapes

White elephants were featured at the Tecumsen Country Club Ladies' day last week Wednesday, October 19, when the animals, designed from cardboard, marched down the long tables set for 100 guests. The chairmen of the White Elephant sale which followed, Mrs. Ray Sluyter and Mrs. Frank K. Smith, arranged the program of fun which realized enough profit to furnish draperies for the club's banquet room and leave a goodly sum for still more decorative touches to be added later.

Mrs. Murray Day opened the program with two vocal sofbs, "Come Walk With Love," and "September in the Rain." Models promenaded in styles of yesteryear during the fur and style show, which mimicked the genuine one given in September. The market for these styles was noticeably sluggish, although they were displayed to their best advantage. Mrs. Orville Lenhaw represented the "fur" company and introduced each number appropriately as "rich fitch," "plump plush," etc. Mrs. ArleneOusterhout created the corsages which accented each costume.

Following the style show a playlet entitled "Hiring the New Teacher," was presented by six young matrons who had just doubled as models. These were Mrs. Mahlon Sebring, Mrs. Frederick F. Dickinson, Mrs. Charles Stevenson, Mrs. James Barton, Mrs. W. Wotring and Mrs. Robert Manchester. Others who modeled were Mrs. Hilda Will, Mrs. A. W. Porter, Mrs. Harold Wilson and Mrs. Lou Carlson.

Mrs. Gertrude Schneider, general chairman, gave the chairmen of the function her assistance and was aided by her officers, Mrs. C. O. Butler, Mrs. Russell Carey, Mrs. Yale Kerby and Mrs. Charles Mensing.

Mrs. A. W. Porter and Mrs. Marvin Watkins were appointed hostesses for the afternoon.

The regular weekly luncheon and card games will continue on November 2 with Mrs Jens Touborg, phone 48, and Mrs. H. H. Hanna, phone 337J, as hostesses. Reservations will be received by them until Tuesday noon.

Fun-Packed Program Enjoyed By B. & P. W. Club

Some 36 costumed members and guests of the Tecumseh Business and Professional Woman's Club, enjoyed a fun-packed program climaxed by square dancing, in the Fellowship Center of the Presbyterian church, Monday evening. A delicious dinner was served by members of the Presbyterian League, after devotions by Mrs. Ray Sluyter.

During the business meeting, it was voted to sponsor the Senior Girl Scout troop with Mrs. Anna Mae Bowser as leader. Mrs. Elven Duvall gave an interesting talk concerning Girl Scout work and Mrs. Jean Partee was selected from the Club to act as a committee woman for the Senior troop. It was voted to make an amendment to he constitution, which would require the payment of one dollar in dues before a new member would be eligible to join the club.

Mrs. Anna Hardenburg, Mrs. Sluyter and Mrs. M. G. Partridge arranged the program, which opened with two piano selections by Miss Irma Broiller. Mrs. Dualne Service, Miss Ruby Preston, Mrs. Dale Tingley and Mrs. Nina Heath entertained with a comedy version of "The Strawberry Blonde," after a mis-leading introduction. Mrs. Sluyter accompanied them at the piano.

The difference between the first and second years of a "typical" marriage was portrayed by Mrs. Ogland Lay as the groom and Miss Lulu Waldron as the bride. The laugh-provoking skit was prepared by Mrs. Sluyter.

After various stunts, square dancing was enjoyed. The assisting hostesses were Mrs. Jennie Hellman, Mrs. Heath and Mrs. J. Artman.

About The Folk You Know

"You have a big town newspaper," writes Walter E. Norris of New York City on his return from a trip to Europe. Mr. Norris is a former Tecumseh resident who renews his acquaintances here once a year and his testimonial points out the value of the home town newspaper. His letter to The Herald is reprinted in full: "I have just returned from a visit to some of the European countries and I found a large stack of Heralds accumulated in my absence. There was so much in them that I am persuaded to write you. I go away back in the history of The Herald (though not quite to its founding) and remember so well many of the past events you emphasize from time to time. Your paper, like the old town, has made such magnificant progress since my boyhood days there. Among all the other good things, I like especially your front page features and your vigorous little editorials.

"The Floyd Elliott blacksmithing story took me back to my early days when all the Elliott brothers in Tecumseh were competitors doing all the country round horseshoeing. The Tecumseh Acres development revived my memory of Nehemiah Sutton, whom I as a neighbor farm boy knew well, and his opera house, where I used to see such plays as Uncle Tom's Cabin, Ten Nights in a Bar Room, and other melodramas, together with the good lectures of those days. And again the very interesting story of Dr. Hardy and his long career. He has been physician to many of my family and he looks younger than ever today.

"And you don't miss any of the current happenings of interest to every one.

"You have a big town newspaper appropriately doing business in the big town Tecumseh has become. Yours sincerely, Walter E. Norris."

Eleanor Cadmus and Al Schumm, both seniors at Adrian College, were among fifteen junior and senior students nominated by the college faculty as candidates for "Who's Who Among Students in American Universities and Colleges." Basis for their selection were service to the college, leadership, and potential usefulness to business and society. . . . Eleanor, daughter of Percy A. Cadmus, was elected secretary-treasurer of her class recently, and is active in Alpha Delta Chi, a religious organization, and the Women's Athletic Association . . . The son of Mr. and Mrs. George Schumm, Al is director of athletic publicity and has been named as sports editor for the "Mound," college yearbook. He was placed on the Dean's List for his scholastic average during last semester.

More news about college students . . . Clair Manwaring, a senior at the University of Michigan, is a member of the marching band and the concert band there, and appeared with the former group during a half-time program at the Michigan-Minnesota game, Saturday afternoon. His brother, Vern Manwaring and Mrs. Manwaring attended the game . . . Another brother, Aaron, received his BA degree in music at the University last June and is now preparing for his master's degree.

And speaking of the nearness of winter, Indian summers and such things, Dr. E. E. Davis thinks that perhaps the seasons really are changing and that, perhaps, the time may come when Californians will be spending their winters in Michigan. Anyway, the Doctor and Mrs. Davis have been enjoying roses from their garden this week.

Mrs. William Beckey entertained at a cradle shower in her apartment at 108 W. Pottawatamie, Thursday evening, honoring Mrs. Roderick Welch. Some 15 guests played games and the prizes awarded were in turn presented to Mrs. Welch J., formerly Janet Frost, who also opened some attractive gifts. Refreshments were served by the hostess.

The James Barton home was gay with merry-makers, who were helping Johnny Barton celebrate his ninth birthday, Thursday afternoon. Brenda Heeman, Marilyn Helzerman, Janie Colgrove, Nanette Walper, Roger and Arnold Partridge, Michael McCann, Michael Furgason, Ronnie Wotring and Terry Holdridge . . . and Johnny . . . played games in the yard after which they enjoyed refreshments in keeping with Hallowe'en.

Mr. and Mrs. Leon Johnson entertained at a dinner party, Friday evening, honoring their daughter, Linda, who celebrated her tenth birthday anniversary. Guests included Mr. and Mrs. Luther Wood and daughter Arlene and Mr. and Mrs. Leon Strahle and daughter Bonnie.

VISITOR . . . Michele Gius, Italian Socialist senator, is shown here as he arrived at La Guardia field from Rome. He proposed to join Henry Wallace on the latter's nationwide peace tour in which the former vice-president is expected to urge accord with the Russians.

Three birthday anniversaries were celebrated when Mr. and Mrs. Ernest Brandt entertained at dinner, Sunday. Their grandson, Jimmy, son of Mr. and Mrs. Max Brandt, turned three that day and Mrs. Ernest Brandt and Ivan Gorr of Petersburg observed their birthdays very recently. Dorothy Jean Brandt was home from Ypsilanti Normal for the occasion.

Mrs. Max Brandt entertained at dinner on Friday evening honoring the birthday aniversaries of her son, Jimmy, and Mrs. Ernest Brandt. Other guests were Ernest Brandt and Dorothy Jean.

Safety Is Urged In Spooks Dress

WHEN YOU COSTUME THE KIDDIES FOR HALLOWE'EN, USE PRECAUTION

Warnings to parents and children preparing Hallowe'en costumes were issued today by the Chamber of Commerce in cooperation with the National Safety Council.

"Hallowe'en is a holiday keenly looked ahead to by children," the Chamber statement said. "Unfortunately there are many tragedies annually in connection with this great fun-fest. It is the local goal to have a fine time on Hallowe'en without the occasion's being marred by any pain or grief."

Since many Hallowe'en accidents are directly a result of the child's costume, the Chamber urges particular observance of the following few precautions in preparing costumes:

1. Many Hallowe'en festivities center around a bonfire. Be sure the costume is as fire-resistant as possible. Many cheap boughten costumes in particular as well as paper decorations on them will burst into instantaneous flame if brought into contact with fire.

2. Make the costumes light-colored so they can be seen more easily by motorists.

3. Make sure the costume is not so long it is a tripping hazard. Bedsheets are especially bad.

4. Choose a mask that permits clear sight—not only straight ahead, but to each side. Be sure also that it will not burn.

Parents and children are urged to observe these precautions as well as all other common sense safety rules.

Quick Diagnosis Of Cancer Urged

COUNTY HEALTH UNIT OUTLINES PLAN TO BECOME OPERATIVE IN COUNTY

A plan for the early diagnosis of cancer is now being initiated by the Lenawee County Medical Society in cooperation with the County Cancer Society and the County Health Department. The plan, which is very simple, calls for the periodic examination of every woman 40 or over every six months. It is known that over half of the cancers occurring in women are found in four locations: the breast, cervix, rectum, and skin, and in these four locations cancers are readily detected in the early stages without involved diagnostic procedures.

In the age between 35 and 55 cancer is the leading cause of death in women, both in the nation and in this county. It is well known that many of these deaths are preventable, because cancer is curable if it is found in the early stages. The hopes of cure, however, fade rapidly as the disease progresses. It has been estimated by the American Cancer Society that 75% of the women dying each year of cancer of the four locations mentioned above could have been cured if the disease were detected in the early stages.

In a study of cancer statistics furnished by the County Health Department, it was found that last year the number of persons dying from cancer in Lenawee county was sixty-four. This is about the average for the United States as a whole. The disturbing fact is that many of these cancers originated in sites where they could have been readily found and cured by periodic examinations. The number of cases of cancer in Lenawee county at the present time is unknown; however it has been found over the United States there is an average of three cases for each death, which would mean that there are around 200 cases at the present time in Lenawee county.

It was found also that on the average of a period of six months elapses between the time of the first noticeable symptoms and the first visit to a physician's office for diagnosis. By this delay many patients sign their death warrant. Cancer can only be cured if treated early.

Cancer is listed as the second leading cause of death in Michigan and in this county. It is hoped that through this plan of early diagnosis every woman 40 or over in this county will feel free to visit her physician at periodic intervals and thereby stop many of these needless deaths occurring from cancer.

MISS CLARA FICK WEDS GAYLON FURGASON

Miss Clara Fick, daughter of Fred Fick of Blissfield and the late Laura Fick, and Gaylon Furgason, son of Mrs. Bernard Furgason of Tecumseh and the late Mr. Furgason, were married Saturday afternoon, October 21, by the Rev. John P. Emig at the Presbyterian manse in Adrian. The bride's sister, Miss Annie Fick and the groom's brother, John William Furgason, attended the couple.

A reception for the immediate families was held in the evening at the home of the bride's sister, Mrs. Terrance Wagner and Mr. Wagner in Tecumseh. Upon their return from a northern trip, the couple will make their home in Adrian. Mr. Furgason is employed by the Tecumseh Products Co.

Joseph Sweeny invented the banjo, so called because he was dubbed a one-man-band.

Baby Sitting Big Business

SEATTLE PAIR SOLVE PROBLEM AND BUILD A NEW $100,000 BUSINESS

Baby-sitting has become an American institution by now, but many young parents still find it almost impossible to get a reliable person to sit with their children. One enterprising couple of Seattle solved the problem by establishing their own sitter service and building up a $100,000 business in two years. Writing in Redbook Magazine for October, Bob J. Burandt tells how the service operates and gives some advice to baby-sitters:

"Only eighteen months ago, Mr. James was a cost accountant for a construction firm in Yakima, Washington. He and his attractive wife, Winifred, had a newly-arrived baby boy — plus sitter trouble. One evening, they got the idea of opening a sitter service to introduce the sitters to the parents.

"Winifred and Frank James decided to try their idea in Seattle, where they rented an office, and advertised in the newspapers for sitters. From more than 700 replies, they selected the 200 applicants they considered best qualified, and then were ready for business. The rate for their sitters was (and still is) sixty cents per hour (before midnight), seventy-five cents after midnight.

"Like many a good idea, the sitter service did not catch on immediately, but by March, 1948, their office's fees were up to three hundred and sixty dollars. Recently their share has been around $1,000 per month, and is still rising.

"Mr. and Mrs. James now have a list of 175 full-time expert sitters, between thirty and fifty years of age. Each has been thoroughly checked on character, reliability and knowledge of child care. Each has had a free medical examination by the Seattle Health Department. No sitter is sent on a job for less than four hours of work. Most calls come from former patrons, and they usually have preferences.

"Sitters provide their own transportation to and from their jobs, and are assigned to calls in their own neighborhoods.

"To qualify for the James service, sitters must be experienced in child care. Many have also attended Red Cross child-care classes. Each sitter attends a staff meeting once a month, to hear from Mr. and Mrs. James how the newest problems are being dealt with, and to present their own views.

"Here are some of the Don't's the James service tells its sitters:

"1. Don't give a child medicine, unless parents provide written, signed instructions.

"2. Don't spank a child, even if the parents urge it.

"3. Don't eat clients' food or candy, unless invited to do so.

"4. Don't permit your relationship with clients to reach a personal basis. Be businesslike. Exchange no personal information with them. Leave promptly."

R. N. A. MEETING

The Royal Neighbors met Monday evening at the home of Mrs. Tillie Tuckey. During the business meeting a bake sale was planned for Saturday and plans for a Thanksgiving dinner were discussed. Later the group attended a restaurant for refreshments.

A&P

Customers' Corner

Is it wrong for us to give you more good food for your money?

Is it wrong for you to shop at our stores if by so doing you will make our business grow?

Apparently the anti-trust lawyers, who are trying to put A&P out of business, think so.

Apparently the American people don't agree with the anti-trust lawyers, for many, many thousands of them are writing and saying:

"WE LIKE A&P AND DON'T WANT THEM PUT OUT OF BUSINESS."

U. S. Is Buying Apples For School Lunches

LANSING — The campaign of Governor Williams to help Michigan apple growers market their bumper crop has begun to pay off.

The Governor had the idea that the surplus Michigan apples ought to be used in the school lunch program.

He sent one of his aides, Edward C. Meade of Newaygo, to Washington with this idea and Secretary of Agriculture Brannan thought the scheme was a good one.

As a result, the federal Production and Marketing Administration has been buying Michigan apples by the carloads.

Up to last week, the federal purchases had totaled 130 carloads, taken from 32 of Michigan's apple-producing counties.

Governor Williams said: "This is a good deal from several viewpoints. It helps the Michigan apple growers who otherwise wouldn't be able to sell their crop. It helps the school children by putting into their lunch boxes one of America's finest fruits. And it helps to make people in many areas aware that Michigan produces the finest apples in the world."

Of the 130 cars purchased up to last week, 37 were destined for Michigan schools, 39 for Kentucky, 36 for Tennessee, and 18 for Missouri schools.

From where I sit ... by Joe Marsh

Now They're Sitting Pretty

Squint Miller, who's working as a telephone lineman, was telling me about some birds that got into a fight with his company.

Seems a couple of woodpeckers set up housekeeping in a telephone pole. Nobody minded them living there, but they kept pecking at the wires—causing one short circuit after another.

Finally, the telephone people—who had nothing personal against the birds—just stopped up the hole where they lived. But they kept coming back. At last, the company donated that pole to the woodpeckers and set up a brand-new one for their own use!

From where I sit, we'd all be better off if we were as tolerant with our own kind as that telephone outfit was with the woodpeckers. Let's consider the other fellow's point of view—whether it's his right to live where he wants, or to enjoy a friendly glass of temperate beer or ale when and if he pleases.

Non-Partisan News Letter

(Special to The Herald)

Signs are multiplying that the proposed bridge over the Straits of Mackinac will soon become a pressing issue. The Michigan Hotel Association recently adopted a resolution recommending to the Governor and to the State Highway Commissioner that every effort should be made at an early date to bring about the construction of the bridge. The resolution pointed out that the structure could be constructed 50 per cent of its cost being paid by grant of the congress and the remaining 50 per cent being paid by sale of revenue bonds to private investors "without obligation of any kind on the part of the state." Hotel men feel keenly that Michigan will miss a good bet if the traffic bottleneck at the Straits is not removed in the near future. Leading argument: Modjeski and Masters, bridge and traffic engineers, forecast that motor traffic across the Straits would triple in one year after completion of a bridge.

Approximately 5,000 employees of the Ford Motor Company at Dearborn will be eligible for retirement in April, 1950 at pensions of $100 per month including Social Security benefits. The company estimates that 13,000 employees are sixty years of age or over. The new pension plan will cost the company $20,000,000 per year. Increase in the price of Ford automobiles may be an indirect result.

With election of Wyley R. Kirk of Fairgrove as chairman of the State Agricultural Commission, speculation has increased that Charles Figy, director of the State Department of Agriculture, may be replaced in the near future. Figy was reappointed by the old commission early in 1949, but the usual one-year appointment was withheld.

Governor G. Mennen Williams continues to utilize the Attorney General and State Controller as agencies to put republican state elective officials on the defensive. The Attorney General has ruled that purchases by the Highway Department must be cleared through the Department of Administration of which the controller is director. As republicans hold a majority on the state administrative board, headed by the Governor, the recent moves by Williams have been largely nullified.

Banks of Michigan paid a record sum of $3,503,673 as interest earnings on funds of the State Treasury, it is announced by State Treasurer D. Hale Brake. Brake has been mentioned as a possible republican candidate for Governor in 1950. Accordingly, he has been the target of criticisms by Governor Williams, well publicized in the press. When the Governor asked the State Treasurer to collect interest on some $32,000,000 in state funds on deposit at banks, Brake replied with a press statement that such was not practical in view of the state needs for funds and requirements of banks for 30 to 60 day or longer withdrawal notice for money on deposit drawing interest.

The October term of the Michigan Supreme Court, is being watched carefully by Lansing observers. Among the cases before jurists is the suit brought by Attorney General Stephen J. Roth contesting appointment of former Gov. Kim Sigler as Special Macomb County Prosecutor. The case involves a charge that former Senator Ivan A. Johnston, Mt. Clemens, allegedly accepted a bribe while serving as Macomb County Prosecutor. Special Macomb Judge Paul R. Cash, Alma, ruled in favor of Sigler.

The continued trend of high school graduates to colleges and universities is shown by the all-time enrollment record at Michigan State College, East Lansing. The 1948 total was 15,886 the new record is 16,051. Of this number 43 per cent are war veterans. To remind visitors that most of its new buildings are being financed without cost to the public, the college administration has erected large signs in front of new buildings with this reminder.

Contracts have been awarded by the state administrative board for construction of the first 500 bed unit of the new Northville State Mental Hospital. Total overall cost of the hospital development is expected to approximate $12,000,000 with facilities for 3,000 patients. The hospital is only 30 minutes from downtown Detroit.

Grass root sentiment on state issues are to be submitted by a republican policy planning committee headed by Dr. Robert M. Ford of the University of Michigan. Ford was a former administrative assistant to former governor Harry F. Kelley. Vice-Chairmen are Herman H. Luhrs, Royal Oak; Mrs. Isabelle Schwaderer, Cass City, and George A. Osborn, Sault Ste. Marie.

West Indies Cruises Planned For Winter

NEW YORK—A series of four West Indies cruises during the coming winter by the motorship Italia, the former Kungsholm has been announced by Home Lines here.

The schedule calls for two 14-day and two 18-day cruises. The 14-day trips are scheduled to depart from New York on December 23 and January 10. These cruises include stops at St. Thomas in the Virgin Islands, Martinique, La Guaira, Curacao, and Kingston.

The 18-day trips, to leave New York on January 27 and February 17, include stops at Barbadoes, Trinidad and Havana.

The Italia boasts spacious deck areas with indoor and outdoor swimming pools, and passenger accommodations designed for luxury cruising.

Cosmopolitan Shipping Company, 42 Broadway, New York, is general agent for Home Lines in the United States, and Cosulich Brothers, Genoa, Italy, are agents in Europe.

An Ordinance

VILLAGE OF TECUMSEH
Council Building
October 3, 1949

Present: President Watkins, Trustees Beach, Sluyter, Oosterhout, Porter.

Absent: McCombs, Driscoll.

Moved and supported that Amendments to Building Code be adopted as read.

Amendments

An Ordinance to Amend Sections 4a, 4b, 4e, 4h. 5i, 6b, 6d, 6e, and 6i of an ordinance to regulate the erection, remodeling, moving and repairing of buildings, to establish minimum construction requirements for erection and remodeling of all buildings in the Village of Tecumseh, and to provide for the administration, enforcement and periodic renewal of this building code.

4 (a). Duties of Building Inspector. The building inspector shall approve all applications for permits requested by this ordinance. He shall inspect premises for which permits have been issued to see that the provisions of this ordinance are complied with and that construction is prosecuted safely. He shall enforce all provisions of this ordinance relating to the construction, alteration, repair, removal, demolition, use and occupancy, and location and maintenance of buildings and structures except as may be otherwise provided for. He shall, when requested by the Mayor or Village Council, or when the interests of the Village so require, make investigations in connection with matters referred to in this ordinance and make written reports on the same. For the purpose of enforcing the necessary safeguards during construction or to require adequate exit facilities in existing buildings or structures, he shall issue notices or orders as may be necessary.

4 (b). Inspections required under the provisions of this ordinance shall be made by the Building Inspector. Under special conditions and upon approval of the Village Council, he may seek the assistance and accept reports of inspection of recognized inspection services or of consulting engineers or architects, upon satisfactory evidence of their qualifications and reliability. But no certificate called for by any provisions of this ordinance shall be based on such reports unless such reports are in writing and certified by a responsible officer of such service.

4 (e) Any changes of rules shall be referred to the Village Council.

4 (h). The Building Inspector shall make a report to the Village Council at its monthly meeting of all permits approved and orders issued in connection therewith.

5 (i). Repairs to buildings or structures not involving any structural changes or alterations when the estimated cost thereof for labor and materials shall not exceed the sum of $25.00, may be made by first making application to the Village Clerk for a permit to be approved by the Building Inspector.

6 (b). Approval in Part. Nothing in this section shall be construed to prevent the Building Inspector from approving a permit for the construction of a part of a building before the entire plans and detailed statements of said building or structure have been submitted or approved, if adequate information and detailed statements have been presented for the same, and have been found to comply with this ordinance.

6 (d). Conditions of the Permit. (1) All work performed under a permit issued by the Village Clerk shall conform to the approved application and plans, and approved amendments thereof.

6 (e). Signature to Permit. Every Permit issued under the provisions of this ordinance shall have affixed thereto the signature of the Village Clerk and approval of the Building Inspector.

6 (i). Fees. Before any permit shall be issued covering building or other operations regulated by this Ordinance, a permit fee and an inspection fee shall be paid to the Village Clerk according to the following schedule:

For new buildings and other enclosed structures—$6.00.

For alterations or repairs under $25.00—No charge.

For alterations or repairs over $25.00 but not exceeding $200.00—$1.00.

For alterations or repairs over $200.00—$3.00.

For wrecking of buildings or structures or parts thereof over 5000 cubic foot capacity—$2.00.

For moving buildings or other structures—$2.00.

For all other miscellaneous structures or installations—$2.00.

Inspection fee for industrial or business structures, for each inspection—$6.00.

(1) First inspection to be made upon completion of foundation walls.

(2) Second inspection to be made when plumbing has been roughed in.

(3) Third inspection to be made upon completion of construction, provided, however, that for industrial construction there shall be collected by the Village Clerk at the time the permit is issued, an inspection fee of $35.00 to cover the cost of additional inspections as the Building Inspector may deem necessary. Provided, however, that no permit shall be required or fee collected for the wrecking of buildings or structures of 5000-cubic-foot capacity or less.

This ordinance shall take effect twenty (20) days after publication.

Marvin Watkins, President
Attest:
Wade L. Jones, Clerk

Ayes: Sluyter, Beach, Oosterhout, Porter. Nays: None. Motion carried.

On motion Council adjourned.

Many Have Diabetes And Do Not Know It

Approximately 37,500 Michigan people have diabetes and don't know it. These people could live healthier, longer lives if they knew of their illness and were under treatment for it, the Michigan Department of Health said today.

In an effort to find these unknown diabetics and get them under the care of their physicians, Diabetes Detection Week was observed in Michigan October 10-16.

If there is or was a case of diabetes among your blood relatives, you and your children should have examinations for diabetes.

If you have any of the symptoms of diabetes, you should also be examined. Symptoms of the disease are loss of weight, excessive thirst and excessive urination.

Examination for diabetes includes an analysis of your urine and possibly of your blood.

Treatment of diabetes cases consists of a balance of diet, exercise and possibly insulin. The earlier the treatment is begun the less difficulty the patient will have.

Cooperating in Michigan's diabetes Detection Week were the practicing physicians of the state, the diabetes committee of the County Medical Societies, the local committees of the Michigan Diabetes Association and public health personnel. The week began a year of special emphasis on diabetes education to persuade apparently-well people to have diabetes examinations, and to persuade diabetic patients to follow their individually prescribed control measures.

When it's summer in California it's also summer in China.

Didyuever See An Iron Hoss Shimmey And Shake? Wa'al, Hula Dancin's Not Intended Fur Iron Hosses, We Says

There's half a dozen causes fur iron hosses shimmyin' and shakin' and we know all the reasons. And while we're on the subjict, let us tell yuh that there ain't any of 'em good.

Trouble can be in the front wheels, tires, steerin' mechanism, sometimes in the clutch or transmishum and sometimes itshosses shimmyin' and shaking' and we know Any o' 'em kin give yuh a bad time.

Wa'al, that's where we kum into the pitcher. Iron hosses, we says, are jist like peepul. Nowadays they're gaddin all o' the time. Goin' here and there, wild like. Wa'al, there kums a time when it ain't only the iron hosses what shake.

We don't profess to be able to take the shakin' out of the drivers of these animuls but we do say that we can take it out o' the animul.

'Fore yuh get all nirvous and shake like yur iron hoss, bring him to us fur a treatmint. Yuh know, if yuh neglict him, yur hospitul bill is goin' to git bigger.

And here's a funny thing about this hoss-tradin, garagin' busnis. Fellers 'll bring their hosses in after they've tinkered em, and then we have to untinker em, like. Waal, if they'd jist bring um here furst, ten chances to one the job would cost em less, and their troubles would be over sooner.

It's jist as we heerd a wife of one of these iron steed owners say other day. Her husband didn't know enough to fix his own lawn mower, still he'd try to tinker his car. Wa'al, maybe the little woman had somethin' there.

Chest Drive Nov. 11

RONALD HARRIS, CHAMBER SECRETARY, NAMED AS CAMPAIGN CHAIRMAN

Ronald E. Harris, secretary of the Chamber of Commerce, has been chosen as general chairman of Tecumseh's Community Chest Red Feather campaign and the active drive to raise $5,370 to be shared by 15 cooperating organizations will get under way on Friday, November 11, it was announced today.

"Mr. Harris was chosen to head the drive and he will serve without pay," George H. Adamson, president of the Community Chest board of directors, announced. "It will be Mr. Harris' job to coordinate all of the efforts of workers who will assist in putting the drive over the top in, we hope, three weeks."

Harris was a guest at the regular dinner meeting of the Rotary Club, Tuesday evening, at Brees House, and he spoke briefly, urging that organization to lend its support. After the meeting, the club's board of directors met and sanctioned Harris' appeal and pledged the club's cooperation. Harris said that a similar appeal would be made to the Exchange Club.

The tentative budget, as set by the directors, is as follows: Tecumseh Hospital Auxiliary, $350. Cancer Society, $350. Hallowe'en and Christmas parties for children, $200. Girl Scout Association, $500. Tecumseh Boy Scouts, $100. Tecumseh Cub Scouts, $200. Recreation Center, $500. Sister Kenny Fund, $100. Salvation Army, $300. Michigan Welfare League, $10. Travelers Aid, $10. Michigan Aid for Blind, $50. Tecumseh Health Education Committee, $100. Tecumseh Child Study Club, $100. Emergency Relief Fund, $2,500.

The total budget this year amounts to $5,370, or $50 more than it was last year. Contributions amounted to $5,639.

"We hope that the Chest campaign may be concluded in record time this year, and that contributions will be generous," Mr. Adamson said. "We feel that the public appreciates giving once, and only once for the several participating organizations. In this instance, 15 organizations are sharing in the drive."

Education Week Will Be Observed

PARENTS URGED TO VISIT SCHOOLS; SPECIAL PROGRAM NEXT THURSDAY

American Education Week, during which time parents are urged to visit the schools which their children attend, will be observed in the Tecumseh Public Schools next week, November 7 to 11, with a program to be presented at the high school next Thursday evening, Earl H. Place, superintendent, announced this week. The theme of the 29th annual observance is "Making Democracy Work."

The week is designed to create a closer relationship between the school and home, Mr. Place said, and on Thursday, November 10, all parents of children from grades seven through 12 are invited to consult with the teachers as to the progress of their sons or daughters in school. Also they will be given an opportunity to see the scores of the special tests given each student at the beginning of the school year.

For parents of children grades kindergarten through six there will be a grade school exhibit, including fine arts, on the first floor of the central building. Teachers will be available for consultation in each room on Thursday, and Darwin Smith and James McDowell, principals of the elementary and high school grades, will be on hand to answer any questions that may arise and to assist parents in locating the correct rooms. In outlying areas, the superintendent said, it will be appreciated if the parents will visit their schools earlier in the week.

Wednesday, November 9, Mr. Place will introduce a transcription to be played over WABJ at 9:30 a.m., on the Tecumseh Town Crier program. The transcription has been produced by the National Education Association but is applicable to the Tecumseh school district.

"We Make the Flag" is the title of the play to be presented by the fourth, fifth and sixth grade children in the high school auditorium, Thursday evening. The high school

Child, 3, Is Injured In Fall From Auto

Timmie Collins, three-year-old son of Mr. and Mrs. Russell Collins of Macon, is recovering at Tecumseh hospital from a head laceration and slight concussion, suffered when he fell from his father's car, Saturday evening, one-half mile west of Macon. Mr. Collins was stopping the car to lock the door when the child fell from it. Sixteen stitches were required to close the wound. Timmie's condition continues to improve.

Friends Churches 'Friendly Rivals'

RAISIN VALLEY AND TECUMSEH FRIENDS IN SUNDAY SCHOOL CONTEST

Of course, there is nothing but good fellowship among the members of the Friends Church but, for the next five weeks, at least, there will also be some friendly rivalry.

It seems that the Raisin Valley Friends Church last week challenged the Tecumseh Friends Church to a Sunday School attendance contest and, while the Raisin church is smaller than Tecumseh's, its members are out to win. A point basis was established to take care of the comparative size of the two groups and, for the next five weeks, the spirit of rivalry will run high.

Last Sunday, 200 persons attended the Tecumseh Friends Sunday School. At Raisin, 132 attended. On the point basis, this put Tecumseh 20 points at the lead. Next Sunday, both churches hope to increase attendance.

The two Friends churches in the contest have many things in common. Both churches are painted white and both recently received fresh coats of paint. The Raisin church was established in 1831, the Tecumseh church in 1841.

To spark fresh interest in the contest, a Family Night has been scheduled at the Tecumseh church for November 9. Two reels of sound films will be shown and later a social time with refreshments will be enjoyed. The public is invited to attend.

155 At Baptist 'Home' Service

CONTRIBUTION OF FOODS TAKEN TO DETROIT; GRANGE MEMBERS GUESTS

An inspiring setting for the Harvest Home service, Sunday morning, was made on the altar of the Baptist church with a mammoth corn shock surrounded by foodstuffs of every description. Some 155 persons were in attendance and members of the Granges from Lenawee and Jackson counties were special guests.

Some 55 primary children took an active part in the observance by bringing their offerings to Church School and, in a body, placing them at the altar. During the worship service the Pomona Grange chorus sang "To Thee, Beloved Grange." The Rev. B. O. Bashore, pastor, based his sermon on the topic, "Faith, Hope and Charity."

The entire food offering was taken to the Gleiss Memorial Center in Detroit on Monday. Included in the offering were 61 packages of gelatin desserts and puddings, six pounds of rice, one bushel of potatoes, 41 quarts of fruits and vegetables, 75 tin cans of fruits and vegetables, 17 glasses of jellies and jams, 17 pounds of sugar, five pounds of dried fruits, five dozen eggs and one bushel of apples.

After the church service some 116 Grange members met at the Tecumseh Grange hall for a cooperative dinner. The Rev. Mr. Bashore was chairman and he introduced Thomas Wiley, master of the Jackson Pomona Grange; Vincent Fetters, master-elect of the Deveraux Grange; Estell Loomis, master of Pulaski Grange, and Hert Fetters, master of the Deveraux juvenile Grange. A program of songs and readings was enjoyed.

Band Parents Delay Meeting

TREASURER'S REPORT, HOWEVER, SHOW HOW CLUB'S FUNDS WERE EXPENDED

Because so few members were in attendance at the meeting of the Band Parents Club, held Thursday evening in the high school, the nomination of new officers was postponed until the next meeting when the band members will present the program. The date of the meeting will be announced later.

The financial statement was prepared as follows: Exchange Club paid $2,304.81 toward new uniforms; Band Parents paid $1,306 toward uniforms and the two new majorette costumes and white fur shako for the drum major. In all, 60 gray uniforms, one white drum major uniform and one white director's uniform were purchased. Other expenditures were $58 for 25 new music racks, $181.50 for bus rental for transporting the band, $39.50 for instrument repair and $419 for miscellaneous bills, such as dry cleaning, repair of old uniforms, etc.

The names of the students who received cash awards for selling the largest amounts of tickets for the recent festival were announced as follows: Miss Bernice Parker's room, Marcia Bashore, who has won three years in succession; Mrs. Irene Boltz's room, Terry Holdridge; Mrs. Purnell Osburn's room, Marilyn Manley; Mrs. Cora Pfaus's room, Gary Marsh; Mrs. Ina Bailey's room, Joyce Hadsell. Each received one dollar in cash. Mrs. Boltz's room won the room prize which was three dollars.

Incorporated into the minutes was a thank-you note to all the merchants and citizens who assisted the club in any way at the dance at the high school, the fair at the Union Hall or the 125th anniversary celebration, the proceeds from which was used to purchase the new uniforms.

Comets Defeat Braves, 12 to 6

TO PLAY ANOTHER GAME HERE, SUNDAY; PUBLIC'S SUPPORT LACKING

By Max Brandt

Tecumseh's semi-pro football team entertained the Coldwater Comets here last Saturday evening, in a football game played at Recreation Center. In a knockdown, dragout battle, the Comets eeked out a 12 to six advantage over the local team, the Braves.

Tecumseh scored first in the initial quarter when they capitalized on a Coldwater fumble. The play started when Braves Bob Baker dropped back to punt from the Coldwater 42 and got away a high kick. Comet back Gilbert tried to catch the ball but let it slip through his arms and the ball rolled into the end zone where several Braves fell on it for a touchdown. The placement try was blocked.

Tecumseh had kept the strong Coldwater squad in check the first quarter and it wasn't until late in the second quarter that the Comets got under motion. One of Jr. Kensler's passes was intercepted by Coldwater at midfield. One line play lost a yard and then quarterback Harry Cooper took the ball from center on the T, dropped back and threw a beautiful long pass to his brother, Bill, who caught the ball on the Tecumseh 20 and out-

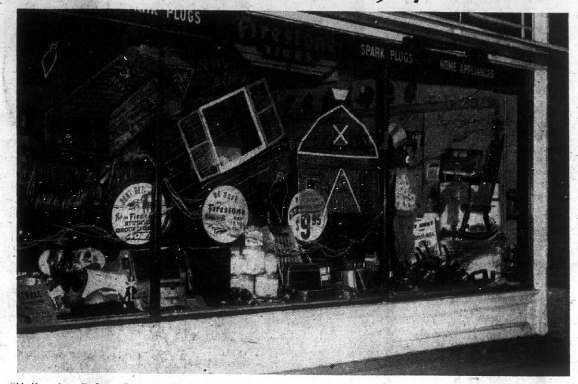
Rotary's Hallowe'en Party Spells Doom to Vandalism



"Hallowe'en Before Rotary's First Party," might well have been the title of the first prize drawing by Duane Hay, 17-year-old high school junior, on the window of the Butler Home & Appliance Store that won him a $10 cash award. Duane, son of Mr. and Mrs. Geo. D. Hay, 116 N. Division street, was one of 10 to receive cash prizes in the window decorating contest. The winning picture shows Dad, sitting in the rocking chair, telling some of the pranks that were accomplished on Hallowe'en when he was a boy. — (Herald Photo)

Here are eight of the 10 prize winners in the window decorating contest on Hallowe'en, sponsored by Rotary and the Retail Division of the Chamber of Commerce. Reading left to right, front row: Virginia Gregory, Russell McKenzie, Neil O'Hara, Nickey Touborg and Ileen Arntz. Back row: Nadine Carney, Barbara Quigley and Duane Hay. The latter won the first prize of $10. Two winners were absent, Bonnie Naugle and Sherry Fielder. O'Hara and Touborg are in the sixth grade. Other winners were in junior or senior high school.

Police Report No Damage On 'Spooks Night'

Ghosts walked, goblins danced and the old witch rode merrily away on her broomstick, Monday evening, when more than 800 youngsters—and some 1,000 others who were not quite as young—enjoyed or participated in Tecumseh's annual Hallowe'en celebration, sponsored by the Rotary Club.

"The party, in my opinion, was a success in every way," the Rev. B. O. Bashore, general chairman of the affair, said. "The purpose of the party, which has been an annual affair of the club for many years, is to reduce vandalism in the village to a minimum. Again this year, the club realized its purpose because, insofar as I know, there was not a single case of serious damage. For the club, then, and for the community generally, I'd like to say thank you to the young folk."

Police concurred in the Rev. Mr. Bashore's statement. They said that they had few reports of vandalism. The most serious offense was committed by two boys who opened fire plugs in widely separated parts of the town. The boys, police said, admitted opening two plugs, but officers found four open. The boys, aged 16 and 17, were to confer further with police.

The Rotary's party included a parade of the masked merrymakers through the business district and then, at the Strand Theatre all were given candy bars and crackerjack and admitted to an evening's length movie. About 800 attended the show.

The window decorating contest, sponsored by the Retail Division of the Chamber of Commerce, attracted many to the downtown district, Monday evening. Students of art classes in both the junior and senior high schools were furnished with special colored crayons for the picture drawing contest and some 43 stores donated the use of their windows for decorating purposes.

Prizes totaling $39 were awarded as follows: Duane Hay, first $10, with picture on window of Butler Home & Auto Supply. Ileen Arntz, second, $8, with picture on window of Garno's Barber Shop. Barbara Quigley, third, $5, with picture on window of Allison's. Honorable mention prizes of $3 each went to Nadine Carney for her picture at Wolf's Refrigeration, and Neil O'Hara for his picture at Whelan's Implement. Honorable mention prizes of $2 each went to: Sherry Fielder, A & P Store; Russell McKenzie, Green's Clothing; Bonnie Naugle, The Rosacrans Store; Virginia Gregory, C. F. Smith; Nickey Touborg, Consumers Power.

The judges of the window picture contest, chosen by the Parent-Teacher Association, were Mrs. John Cameron, Mrs. Frederick F. Dickinson and Mrs. Clair Roselle. The prizes were awarded by Ronald Harris, secretary of the Chamber of Commerce, at the theatre party.

Home Nursing Service Begins

HOSPITAL TO FURNISH HOME BED-SIDE SERVICE AT DOCTOR'S REQUEST

Home nursing service for Tecumseh residents, available upon the request of the physician if he is a member of the Tecumseh Hospital staff, was announced today by Miss Gertrude Spaulding, hospital superintendent.

Designed to relieve crowded conditions at Tecumseh Hospital by making it possible for some patients to leave the institution a few days earlier than they might otherwise do so, the benefits of the plan, Miss Spaulding pointed out, will be two-fold. First, it will save money for hospital patients and, second, it will permit the hospital to perform an even greater service to those who need actual hospitalization.

Under the plan now operating, the request to the hospital for nursing service must come from the

Camera Club Contest To End Monday Night

Members of the Indian Snappers Club will bring their contest entries to the next regular meeting, which will be held November 7 at the Tecumseh Camera Shop. The photos will be judged on the general interest they arouse, rather than photographic technique. The contest is open to the club members only.

The judges who will judge the pictures are Lester Coller, local photographer, Earl L. Wickwire, editor of The Tecumseh Herald, and Walter Nichols, manager of the Strand theatre.

New officers will be elected and all members are urged to attend.

ENJOY HAY RIDE

The Raisin River Riders enjoyed a hay ride from the Bob Spence home, last evening. Mr. Spence provided the horses and the wagon. Sunday afternoon the Riders enjoyed a ride ending at the Spence home where a business meeting was held followed by refreshments of chili, cider, doughnuts and coffee served by the committee.

Future Farmers Enjoy Banquet

"PHEASANT FEED" AND PROGRAM PRESENTED AT HIGH SCHOOL HERE

The Tecumseh Future Farmers of America were hosts to their parents, teachers and friends at the ninth annual Pheasant Feed and third annual Parent and Son Banquet, last week Wednesday evening, at the high school. The Mothers Club prepared and served the dinner.

The hunting was apparently good and the marksmanship of the boys was superb, for some 32 fowls were brought in and consumed by the record crowd that attended.

Ronald Woodward, president of the organization, introduced the toastmaster, Lawrence Young, and he in turn announced the remainder of the program. Mrs. Ann Jean Gentile led the group in singing after which the Onsted demonstra-

Harry H. Hoffman Buried At Clinton

Funeral services were held Saturday afternoon from the Hause Funeral Home in Clinton for Harry H. Hoffman, 72, who died at Tecumseh hospital Wednesday at 11:20 p.m. The Rev. H. R. Sullivan officiated and burial was in Riverside cemetery, Clinton. The bearers were Fred VanDeMark, Glen Wilson, Orrin Middlebrook, Harry Crane, George Lancaster and John White.

Mr. Hoffman had lived in or near Clinton for many years, having farmed on property which now is part of the Hayes state park at Wamplers lake. He operated a bakery in Clinton for 12 years and for the last seven and one-half years he had been employed by the Tecumseh Products Co.

Surviving are the widow, Anna of Tecumseh, a son Harry H., Jr., of Tecumseh, a daughter, Mrs. Walton Matthews of Clinton, four grandchildren, four brothers, Oliver, George, Eli and Edward D., all of Akron, and two sisters, Mrs. Ruth Lane and Mrs. May Shannon, both of Akron.

Baptist Church Plans For Fair And Supper

The Baptist church ladies are busily engaged in last minute preparations for the church fair and supper, to be held Saturday, November 5, in the social room. Mrs. Lyle Grigg is general chairman of the event and Mrs. Dow Bilby is in charge of the dinner.

The fair booths will open at 2 p.m., and will include fancy work, aprons, vegetables, farm products, dairy products, candy, baked goods, etc. There will also be a unique version of a popular fair attraction. Dinner will be served at 5:30 p.m., cafeteria style, and those attending will have their choice of baked ham or swiss steak.

The proceeds will be used to redecorate the dining room and parlor of the church.

All donations to the various fair booths, except the baked goods which can be brought Saturday, are to be at the church by 8 p.m., Friday.

NOTICE

I will be out of town from October 29 to December 4 inclusive. Except for the week of November 20 office will be open Monday and Wednesday afternoons only for collection of accounts.

PREMATURE BABIES NOW HAVE CHANCE FOR LIFE

Incubators Now Save 4 Out Of 5 Tiny Infants

Four in every five of the premature babies born today in U.S. hospitals will live—thanks to the modern incubator and skillful feeding techniques. But there is still a great deal to be done in saving more babies in the two-to-three-pound-weight group, where the rate is now only one in every two, according to Edmund Christopherson. Writing in Hygeia magazine for November, he tells about a doctor's early fight to get his incubator known and accepted:

"It was back in 1890 that Dr. Couney, then a young obstetrician in Paris, decided to make a career out of saving premature babies. He developed an incubator that immediately cut the death toll among the wee ones brought to him for care. But parents were often too poor to pay for incubator care, hospitals decided his incubator was just a stunt and would give him no support, and his own funds were all but non-existent.

"Finally, to make his incubators pay for themselves, he made them with glass walls and tops, and placed his babies on exhibit in a showroom, taking them over Europe and eventually to the United States. The public flocked to see his star performers being bathed, changed and fed, and the admission fees more than paid for their board and room.

"Any baby whose birth weight is less than the normal average, 5.5 pounds, is treated as premature. In 1947, 200,000 of the 4,000,000 born were premature. In hospitals, nearly 95 per cent of the early-born weighing over 4.4 pounds survive. In the 3.3-4.4-pound-weight class, 82 per cent of the babies are pulled through. About one-half of the 2.2-3.3-pound group live. This is the weight group presenting the greatest challenge to doctors and nurses. These babies are born after only 28-35 weeks of the normal 40 week pregnancy.

"The greatest advance in saving babies in the 2.2-3.3-pound-weight group has been made through the development of the incubator. A typical incubator is about three feet long, with a glass window, and a removable top or end.

"At the time of birth, instead of spanking to induce breathing, the doctor must carefully clean out the diminutive, mucus-filled lungs. Oxygen must be administered, as soon as the lungs are working, by means of a small respirator.

"In the artificial, womblike environment of the incubator, a temperature of 100°F and humidity of 65 per cent are maintained at first, and oxygen is administered constantly. Gradually, as the baby develops, the temperature is lowered, and the oxygen content of the air the baby breathes decreased. During the last couple of days, no artificial heat or oxygen is administered, and the lid of the incubator is propped open.

"Until the baby is able to swallow and suck, it is necessary to thread a catheter, a small rubber tube, through his mouth into his stomach. Through this is poured a specially fortified formula. As the baby grows older and becomes able to swallow, an eye dropper is substituted for the tube-feeding method. Finally, when the sucking reflex develops, at about the time the baby is ready to leave the incubator, a nipple is introduced."

COST OF COMPULSION

The advocates of compulsory government health insurance seem eager to make us believe that the average American has no way of protecting himself against unexpected illness—and that only the well to do can afford adequate medical care.

This notion is about as wrong as anything can be. The rapid growth of voluntary prepaid health insurance plans has been one of the most significant developments in our medical history as a nation. The number of policies actually in effect today totals more than 80,000,000. Allowing for duplications—as some individuals carry separate policies for hospital, surgery and medical coverage—it is reliably estimated that about 52,000,000 people are covered. The largest organization in the field was started 20 years ago—and now boasts more than 32,000,000 members. In every case, the cost is low. The beneficiary has freedom of choice in selecting his physician. And that very important freedom has always been destroyed, in one way or another, in nations which have gone in for socialized medicine or government-dominated medicine.

Government officials have estimated the cost of compulsory health insurance at about $4,000,000,000 a year to begin with. Such estimates are usually notoriously low. A very distinguished authority has taken Veterans Administration figures as a yardstick and predicts that the starting figure would be $18,000,000,000 a year and that it would rapidly mount. Are we to be coerced into paying this incredible price for inferior medical care?

State Offers Movie Service

FREE FILMS FOR CLUBS AND ORGANIZATIONS ARE NOW AVAILABLE

Would you like to have free motion pictures to show in your club meeting, classroom, or community gathering?

The Michigan Department of Health has 180 film strips on 50 different health subjects which can be borrowed free. They include such topics as environment, sanitation, cancer, nutrition, immunization, first aid, child health, diabetes, nursing, rat control, sight conservation, hearing, dental health, reproduction, rheumatic fever and venereal diseases. There are films for all age levels, for both professional and lay audiences.

Films are loaned to school groups, Parent-Teacher Associations, church organizations, clubs, farm groups, medical societies, civic organizations and other educational groups upon request made to either the state or local health departments.

The film loan service was started in 1940. Last year, 484,683 school children and adults saw the films, film strips and slides in 10,588 showings. Showings increased 26 per cent over the previous year and attendance increased 48 per cent. The only cost to groups sponsoring the showings was return postage and insurance, usually not more than 50 cents.

All motion picture films in the library are 16 mm. The majority are sound films and some are in color. Both sound and silent 35 mm. film strip are available and these require a 35 mm. film strip projector, the sound strips require a 33⅓ r.p.m. record player. Colored two inch slides on food handling, dental health, milk sanitation, swimmer's itch and school sanitation and a set of 3¼ by 4 inch slides on some dangerous communicable diseases may be borrowed from the library also.

Requests for films should include the date for showing, at least one alternate and an alternate subject, if possible. They should be made at least three weeks in advance to the Visual Education Service, Michigan Department of Health, Lansing 4.

A new film catalog is now being prepared. It will be ready for distribution from local health departments or the Michigan Department of Health in November. Current catalogs are available in local health deparments and in most schools or they may be had from the Michigan Department of Health, Lansing 4.

There are approximately 456,000 words in the English language.

The Power that made Buick Famous

IF you want to know what's "the newest thing" in automobile engines, look at the Buick engine pictured here, and you'll see the words "valve-in-head."

But it happens that this isn't new with Buick. As a matter of fact, the valve-in-head engine was invented back in 1902—U. S. Patent No. 771095—and immediately, Buick adopted the principle, which became the first in a long string of "Buick firsts."

Not everyone went for the idea—then. In spite of the fact that this engine "breathes" more freely—gets fuel in and exhaust gases out more easily—others hung onto their pet ideas.

Then came the airplane, with its need for maximum power from every drop of fuel—and every maker of internal combustion airplane engines adopted the valve-in-head principle.

And more recently—with the hope that higher-octane fuels will become available—a lot of automotive engine designers are taking a new look at the valve-in-head idea.

But just for the record, we'd like to point out that Buick got there first.

And ever since, Buick has gone steadily ahead, building up a name as "valve-in-headquarters." Buick engineers reshaped pistons to put Fireball wallop in these engines. They stepped up compression ratios as fast as better fuels came along.

So perhaps you'll want to remember, when you hear the term "valve-in-head," that *this is the type of power that made Buick famous.*

If others want to climb on the bandwagon, we say "more power to them"—and no pun is intended.

But Buick has been doing more with valve-in-head right from the start.

And—we might add—it stands to reason that Buick is not through making this type of engine better and better.

Marked Gain In Family Insurance Is Reported

New evidence of the extent to which life insurance ownership has been spread towards complete family protection is contained in a survey conducted by University of Michigan.

There's now an average of 2.3 life insurance policyholders per families which are insured, the survey shows, and nearly half of all families have two or more policyholders. The word family here means "spending unit."

One-tenth of all U. S. families have three insured persons, 8 per cent have four and 7 per cent have five or more policyholders. Eliminating the family units which have no life insurance policyholders, three-fifths of all insured families were found to have two or more policyholders, one-third have three or more, one-fifth have four or more and very nearly one-tenth have five or more.

Only 22 per cent of U. S. families were found to have no life insurance and these were in large part families with incomes below $2,000 annually. Half of the families with incomes of less than $1,000 owned some life insurance and almost three-fourths of the families earning $1,000 to $1,999 had at least one life insurance policyholder. The percentage insured rose as the income increased, the families earning $3,000 to $3,999 showing 91 per cent with life insurance and the $5,000 to $7,499 group showing 93 per cent with life insurance.

Increase in Crime Rate Noted in Rural Sections

While the crime rate has dropped in cities of America the first half of this year, an increase of 7.5 per cent over last year in rural sections is reported by Federal Bureau of Investigation.

J. Edgar Hoover, director of the FBI, reported to the department of justice that crime figures revealed a 7.5 per cent rise in crime in the rural sections for the first half of the year.

During the same period, however, there was a decline of 2.3 per cent in crime in cities as compared with the first six months of 1946.

Hoover observed that although there was a drop in urban areas, the figures were still more than 12 per cent above those of the first half of 1941, a prewar period.

Breaking down the report into various classifications, the FBI noted in the first half of 1947 that burglary increased by 17.1 per cent in rural areas and 2.1 per cent in urban regions, compared with the first six months of last year.

Rural larcenies rose 13.9 per cent in comparison to 1.1 per cent in the cities.

Aggravated assaults increased on an average of 2 per cent in both rural and urban communities.

Holds Mysterious Ruins

Cambodia in French Indo-China is famous for the mysterious ruins of its old Khmer civilization. The remarkable and numerous buildings of Angkor of the Middle Ages, featuring careful stonework and intricate, highly artistic sculptures, were discovered in the jungles in 1860. The forest-and-mountain region of Laos, to the north, is even more remote. Most of the Laotians belong to the same racial stock as the Siamese. The men wear wide trousers and long jackets. Typical dress of the women, who coil their smooth black hair into a bun, is a wide striped skirt and soft scarf. French Indo-China has been France's most valuable overseas possession. Fertile in spots, it is one of the leading rice producers of the East. Big rubber, tea and coffee plantations have been developed. The country is larger than Texas and contains valuable resources in minerals and forest products.

Two Billion Egg Loss

Five per cent of the eggs produced in the United States, or two billion eggs, annually are smashed, cracked or otherwise damaged between the time they leave the farm and reach the breakfast table. This means a loss to both farmers and dealers and ultimately higher prices to the consumers. The U. S. department of agriculture has set up a research project in order to develop a new type of case or crate that will cut down handling losses. The study also will cover types of flats and fillers for egg cases as well as railroad handling methods. It has been estimated that if all egg loss could be prevented the consumer would secure his eggs at least five cents a dozen cheaper than he does now due to loss in transit.

Movements of Fish

Movements in the water of the different species of fish tend to be characteristic. In jumping over a low obstacle, such as a counting board, both king salmon and silver salmon tend to go over with a sort of rolling motion, while the steelhead tends to jump straight ahead. Similarly, in breaking water in a pool the salmons tend to come out with a rolling motion, while the steelheads usually come out with a straight thrust. In some instances it has been noted that in leaping the salmons have extended their pectoral fins fully, while the steelheads have folded them partially against the body.

Why Don't You?

"My old truck was just about ready for retirement, so when I heard about the big trade-in allowances my Ford Dealer was making, I decided to deal. If I had waited a few months longer, I would have had to take a couple of hundred dollars less for my old truck."—*Roy Gigi.*

"When I decided to trade in my old truck, I did a little shopping around to see how good a deal I could make. The best deal was at Ford! My old truck brought me $75 more from my Ford Dealer than it would have at three other places."—*Ben Fleischman.*

"My old truck was facing some big repair bills. So, when I heard that my Ford Dealer was making big trade-in allowances, I went down to see. In addition to a dandy allowance, I figure I made a fast $200 on a Ford Truck trade. Used truck prices were slipping so fast that in 90 days, the kind of truck I traded in was selling for $200 less."—*Leonard Doble.*

"When I heard my Ford Dealer was making the best truck deals in town, I decided to check. I made up my mind on the spot, and I'm tickled pink I did. Used truck values have slipped in the last three months, so that I figure my quick thinking and fast action got me at least $175 extra on a Ford Truck trade."—*Andrew Ligeski.*

"When he topped the best previous offer by $100, my Ford Dealer proved he was making the best truck 'deals' in town. But that isn't all! I figure I made another $150 by trading rather than waiting because used truck values were slipping so fast."—*Sam Perlston.*

New Hay Fever Drugs Rated by Physicians

Three new drugs available for relief of the thousands of victims of hay fever and other allergic conditions have been tested and compared by three Northwestern university doctors who reported their findings to Illinois State Medical society.

They emphasized that the three drugs—benadryl, pyribenzamine and neoantergan—are not the same and that their values differ against various symptoms and that their benefit is only temporary. They do not cure the allergy, but merely relieve the symptoms.

Of these three drugs, pyribenzamine most consistently improved the symptoms of seasonal hay fever. It produced symptomatic benefit in 210 of 254 patients. Benadryl helped 52 per cent, while neoantergan relieved 65 per cent. Hives and atopic dermatitis were relieved in 80 per cent of cases treated with pyribenzamine and benadryl. Sniffles were improved in 83 of 130 patients by pyribenzamine.

All of these drugs gave poor results in asthma. Both the incidence and degree of relief were small. The three new drugs are known as antihistaminic drugs. Since 1910 medical science has believed that a substance called histamine is principally responsible for allergies.

Fire Insurance Prompted By Disastrous 1666 Blaze

In 1666 a tiny wooden house in London burned to the ground and set off the whole city of tinder box houses. With two-thirds of the city in ruins, Nicholas Barbon conceived the idea of an insurance company to protect against loss from fire.

The insurance companies proved a good idea with a mixed blessing. People paid money to an insurance company for fire protection and so-called "fire brigades" were chosen to protect the insured buildings.

As fire insurance became more popular, the number of fire insurance companies increased but each company protected only the buildings it insured. If the brigade, according to Franklin institute, reached the burning house only to find that it was not insured by their company, they often stood back and watched the house burn while awaiting the arrival of the proper brigade. It was not until 1825, when the London brigades began to unite, that the city became adequately protected.

In 1696 the first legislative effort at fire protection for Philadelphia was made. Each householder was required to keep a bucket and a swab 12 to 14 feet long.

Locate Home of Tomato

Middle and South America have been identified as the original home of the tomato by B. Y. Morrison in "New Crops for the New World." Tracing the origin of the tomato has been difficult. Throughout the years seeds and uneaten portions have been scattered casually over large areas of the hemisphere as the fruit was eaten out of hand. Now, however, crop experts have located the home of the tomato in the Mexican meseta and the coastal and higher Andean areas of South America. Centuries before the white man dared to eat the "love apple" which he believed to be poisonous, the Mayas were cultivating and enjoying the tomato. The tomato is only one crop which has migrated from Latin to North America and other parts of the globe. The rich variable soils of these Caribbean nations have made Middle America a world cradle of popular crops.

Plastics From Pine Bark

A wax-like material from the bark of pine trees, which promises to become one of the most important substances in plastics manufacture, has been reported by Prof. H. Von Euler of Sweden. At the International Chemical congress in London he stated that this bark product called phlobaphene is a new and cheap softening agent or plasticizer.

Manufacture of phlobaphene from the bark which cannot now be used by the lumber and pulpwood industries not only would solve a major waste problem, but also would give the plastics industry a new material. The plasticizers from bark are suitable for replacing plasticizers from castor oil and alkyd products, as well as the phthalic acid derivatives, made from coal. Up to 30 per cent of synthetic resins produced consists of the plasticizers. Thus the volume of the bark materials needed will be large.

Tile Art From England

Ceramic tile was used in the United States even before the Revolution, but it has been manufactured here in large quantities for only the past 70 years. An English immigrant, Samuel Keys, was first to realize the great possibilities in tile making in this country and began experimenting with tile in 1867. Four years later he produced floor tiles which were favorably recognized. Then, in 1876, a tile manufacturing plant was opened in Pittsburgh with Keys as superintendent. As tile became increasingly popular in homes and commercial buildings other plants were founded in Ohio, New Jersey, New York and Pennsylvania. After the last war, California also became an important tile manufacturing center.

About The Folk You Know

Ghosts, goblins and witches were busy over the weekend and Hallowe'en night with requests for a "treat or trick." Parties were held throughout the village, too, with everyone in the "spirit" of things.

Corn stalks and pumpkin lanterns decorated the lawn at the August Hoffmeister home, Friday evening, when Mrs. Hoffmeister, assisted by Mrs. W. L. Becker, entertained at a Hallowe'en party for same 20 youngsters. Games were played and prizes for the funniest costumes were awarded to J. J. Walper and Merene Boltz. Refreshments were served by candlelight on a gayly decorated table.

Brownie Scout troop No. 8 enjoyed a party at the Scout Cabin, Saturday evening, with Mrs. Steven Maples, Mrs. Betty Wilcox and Mrs. Wallace Whiting in charge. The little girls played games and prizes were awarded to the winners. Refreshments were served and everyone left smiling.

Mr. and Mrs. Howard Everhart entertained on Hallowe'en night and this party was key-noted by much merriment. Among the 25 guests were the Dean VanValkenburg families, the Percy VanValkenburgs, the Leon VanValkenburgs, the Faye VanValkenburgs, the Ronald and Raymond VanValkenburg families., the Percy VanValkenburgs, Mrs. Jessie Brown and the E. L. Martins and sons, Jo'in Mark and Gary, and Gordon Syska of Jackson. The usual decorations were used and refreshments served.

Suzanne Hite, daughter of Mr. and Mrs. W. D. Hite, celebrated her 10th birthday anniversary, Thursday, when 16 of her friends gathered at the Hite home for dessert, after which they attended the theater. Suzanne received many nice gifts.

Mrs. Lillian Owen and her daughter, Mrs. Carl Kempf, entertained at the Kempf home, last week Wednesday evening, for the telephone operators who were under the management of the late Mr. and Mrs. M. E. Fox, of the local Michigan Associated Telephone Co. office. Twelve guests enjoyed a social time with games and refreshments. Among those from out of town were Mrs. Margaret Leighton Iffland and daughter, Mrs. Elaine Nichols and Mrs. Letitia Hueter, all of Blissfield; Mrs. Thelma Pruyne Mossing and Mrs. Ione Mossing of Adrian and Mrs. Virginia Pruyne Hesslegrave of Jackson.

Mrs. M. J. Hueter, sister of Mrs. Leon Johnson, entertained at her home in Blissfield, Thursday evening, honoring the birthday anniversary of their mother, Mrs. Jennie Brockway. Guests from here included Mrs. Earl Updike, Mrs. Harry Creger, Mrs. Ben Hammack and grandson Gary McKenzie and Mrs. Johnson.

The family of Dr. R. F. Helzerman was saddened last week by the loss of their pet dog, Lassie, who was struck by a truck in front of the Helzerman home on West Chicago Blvd. Helzerman's had secured Lassie in Kansas seven years ago while Dr. Helzerman was in the service and since then the collie had been a faithful and devoted friend to the family.

Eleanor Cadmus, daughter of Percy A. Cadmus, was awarded WAA numerals at a recent meeting of the group. These numerals were the first awards given by the Women's Athletic Association to members who have earned 300 points or more in varsity or intramural sports.

Mrs. Oakley Baxter, Mrs. Clair Rozelle and Mrs. Paul Hadsell entertained some 16 neighborhood children at a Hallowe'en party, Saturday evening. The costumed guests played games and filled up on doughnuts, cider, popcorn and apples. Among those who enjoyed the fun were Ned and Craig Rosacrans, Eddie and Beth Rozelle, Sally Hunt, Judy and Ronnie Baxter, Yvonne Morningstar, Linda Starkey, David and John Elliot, Raymond Shuyter, Raymond Miller, Joyce and Dick Hadsell, Janet and Joyce Broiller and Dick and Karen Golat.

Mrs. Schneider Honored At 8 And 40 Meeting

Mrs. Louis Schneider, la chapeau departmentale, 8 and 40, was honored at a testimonial dinner held Thursday evening in the dining room of the American Legion Home. Dinner was served to some 100 persons by members of the American Legion Auxiliary. Mrs. Albert Bagshaw was chairman of the event.

Miss Marilyn Lindsley played piano selections throughout the dinner. The program opened with community singing with Mrs. Dorothy Caughey of Adrian at the piano. The invocation was given by Mrs. Luvilla Fint of Adrian, after which Mrs. Harriet Bliss of Milan introduced Mrs. Marie Lok of Adrian as toastmistress. Mrs. O. W. Laidlaw welcomed the guests and the response was given by Mrs. Rose Bassett of Detroit, l'avocate departmentale. After the guests were introduced by Mrs. C. W. Howe, Mrs. Lucile DeRyke of Milan gave a tribute and introduced the guest of honor, Mrs. Schneider, who spoke briefly. The guests enjoyed a number of humorous readings which were given by Mrs. Bert Kopka of Tecumseh. Mrs. Jane Pound of Saginaw, l'ammonier departmentale, gave the benediction, closing the program.

The guests at the speaker's table included Mrs. Norma Fetkenhier of Adrian, la chapeau of Salon 127; Mrs. Urfa Sullivan of Prudenville, la demi chapeau premiere; Mrs. Pearl Trudell of Detroit, national committee femme, who brought greetings from the national organization; Mrs. Viola Robertson of River Rouge, la demi chapeau deuxiemi; Mrs. Edith Bryan of Detroit and Mrs. Mary Kopka of Ann Arbor, department vice presidents of the auxiliary; Mrs. Ilene MacPherson of Detroit, la cassiere departmentale; Mrs. Agnes Baines of Birmingham, la secretaire departmentale.

Additional guests were Mrs. Gertrude Hildebrand of Detroit, Department historian of the auxiliary and Miss Florence Holland of Three Rivers, department Gold Star chairman, 8 and 40. Others were from Adrian, Ann Arbor, Battle Creek, Brooklyn, Chelsea, Detroit, Metamora, Milan, River Rouge, Milford, Royal Oak, Saginaw, Three Rivers and Grand Rapids.

Mrs. Schneider was presented a social hour with dancing to the with a variety of lovely gifts and music of the juke box brought the evening to a close.

raced the Brave defensemen into the end zone for a Comet score. Coldwater's place kick was also blocked. At half time the score read Tecumseh 6, Coldwater 6.

Midway in the third period Harry Cooper directed his team on a 47 yard march. Using line smashes as decoys, he sent Gilbert around the Braves right end to score. The play carried 15 yards and again the conversion was blocked.

Both teams threatened in the last quarter but neither squad could muster enough power to score. The game showed that the Braves were improving because this same Coldwater team beat the Braves early this year, 25 to 0. Tecumseh's defense played a whale of a game as did the Coldwater team.

Next Sunday afternoon, November 6, Tecumseh will play host to another county team, the Hudson A.C. Tecumseh beat Hudson 6 to 0 in their first battle last month and the Braves will want this game, as it is the last one this year, and, unless a very large crowd turns out, it may be the death of the local semi-pro team.

The semi-pro association will go into the red this year unless they receive some strong backing. This team has played very good ball against most teams that are two and three times larger than their own. They deserve more support than they have received in their last two home games. The Sunday game will be a great battle and will be a good contest to witness.

The lineups for Saturday night's game were as follows:

W. C. T. U. Institute To Be Held Here, November 8

The Women's Christian Temperance Union institute will be held Tecumseh Friends church, beginning at 10 a.m. A cooperative dinner Tuesday, November 8, at the Te will be served at noon, with the coffee being furnished.

A worthwhile program is being planned with several speakers taking part, according to Mrs. Jessie Brown, president. During the afternoon session Mrs. Parker Tassol of Blissfield will speak on the topic, "What Our Children Hear,' which should be of great interest to parents, especially to modern mothers. The evening session at 7:30 p.m., will feature an address by Mrs. Elizabeth Irwin of Detroit who will speak on "Prayer Plus Purpose."

Everyone is welcome to attend the institute.

DEPENDABLE CIRCLE

Some 15 members of the Temple Dependable Circle of the Methodist church met last week Wednesday evening, at the home of Mrs. George Cole. It was voted to hold a rummage and bake sale, November 25 and 26. Refreshments were served, including a birthday cake. The birthdays of Mrs. Gertrude Pangle, the president, and Mrs. Eva VanVleet were celebrated.

The next meeting will be held at the home of Mrs. Norman MacNaughton in Adrian.

P. E. O. TO MEET

Tuesday, November 8, at 1:30 p.m., there will be a regular monthly business meeting of Chapter AJ, P. E. O., in the country home of Mrs. Marjorie Allen. The program will include a constitutional quiz with Mrs. Louise Lott as leader.

MINISTERS GUESTS

Friday, November 11, the Rev. and Mrs. B. O. Bashore will entertain the ministers and their wives of the Lenawee Association of Baptist churches and the state board members and their wives at an all-day meeting.

ENGAGEMENT ANNOUNCED

Announcement of the engagement of Miss Louise Bowen, daughter of Mr. and Mrs. Percy Bowen, to Ray Bandemer, was made recently when a party was held at Alpha Gamma Delta sorority house at Michigan State College, East Lansing, in celebration of her birthday anniversary.

The son of Mr. and Mrs. Paul Bandemer of Grosse Pointe, Ray is also a student at Michigan State, where he is affiliated with Delta Sigma Phi.

HAPPY HOME BUILDERS

The Happy Home Builders class of the Baptist Church School will meet at the parsonage, Monday, November 7, for a potluck supper at 6:30 p.m. Mr. and Mrs. Carl Fosbender are in charge of the program.

Hostesses Are Named For Ladies Day Meeting

After the regular weekly luncheon at the Tecumseh Country Club on Ladies Day, Wednesday, October 26, there were two tables of bridge, two of canasta and one of pinochle. Mrs. G. Rainbun and Mrs. F. C. Hanna, hostesses, announced the prizes were awarded to the following: bridge, Mrs. Dalton Walper; canasta, Mrs. Paul Breitenwischer and Mrs. Joe Horvath; pinochle, Mrs. Bert TurnBull. Mrs. M. R. Blanden drew the door prize.

Hostesses for November 9 to be called by Tuesday noon for reservations are Mrs. M. R. Blanden, phone 49R2, or Mrs. Frank Purcell, phone 522.

"We urgently invite all parents to visit the schools of their children anytime during 'American Education Week,'" Mr. Place said, "but more particularly on Thursday evening for the program which has been planned for them."

Last year some 400 parents visited the schools during American Education Week.

Married Fifty Years, Dundee Folk Honored

Mr. and Mrs. Charles Winkelman of Dundee observed their 50th wedding anniversary, Saturday, October 29, and in celebration of the occasion their daughter, Mrs. Howard Diedrich and Mr. Diedrich entertained at dinner, which was followed by a reception at the United Workers Union Hall.

The dinner was served at a restaurant in Dundee and the guests included the Rev. and Mrs. J. deRuiter and family of Tecumseh, Mr. and Mrs. Melvin Pierce and family, Mr. and Mrs. Russell Winkelman and son and Mr. and Mrs. Lyle Winkelman, all of Monroe; Mr. and Mrs. William Winkelman of Petersburg, Mr. and Mrs. Henry Winkelman and Hugo Gaertner of Dundee, and Mr. and Mrs. Winkelman, as well as the host and hostess.

The reception was attended by some 150 friends and relatives from Ypsilanti, Milan, Adrian, Tecumseh, Blissfield, Britton, Dundee, Petersburg, Ida, Strawburg, Monroe, LaSalle, Detroit, Dearborn, Alanta and Sidney, Ohio. Mrs. Melvin Pierce was in charge of the guest book and Mrs. Russell Winkelman presided at the punch bowl.

Two duets were sung by Mr. and Mrs. Vernon Winkelman, followed by a brief talk by the Rev. Mr. deRuiter, who also introduced Mr. and Mrs. Winkelman's grandaughter, Mrs. Melvin Pierce, and great-granddaughter, Susie Pierce, who presented the honored guests with a host of greetings and donations for a television set. The Winkelman Trio sang a selection.

Lunch was served by Mr. and Mrs. Kenneth Miller and Mr. and Mrs. Robert Montgomery. The three-tiered wedding cake was topped with three golden bells. Refreshments and dancing were enjoyed later with music being furnished by the Petersburg Hot Shots.

TO WED SOON

Mr. and Mrs. Lawrence Cameron of Manchester announce the engagement of their daughter, Phyllis, to Arnold Wilson, son of Mr. and Mrs. Amos Wilson of Clinton. The wedding date has been set for December 27.

tion team presented their demonstration on raising swine. The manner in which the team presented the problems of swine raising and the humorous manner and thoroughness with which they demonstrated the factors of successful swine raising by means of self constructed models could not but exact words of commendation and approval from the audience assembled and it was easily seen why the team was named winner of the State FFA demonstration contest in 1948.

The local officers of the FFA presented their Green Hand degree team and initiated two candidates into their organization. They were Merlin Wagner and Charles Bishop.

David Locke, agricultural instructor, explained to those present the plans and organization of the agricultural program and the FFA emphasis was placed on the fact that the development of leadership and good farming practices was the core of the vocational program. "The accomplishment of this is dependent upon the cooperation of the parents as well as the school," Mr. Locke said.

Movies were shown, included some of the swine and dairy projects the boys have carried and some of their community activities which included sheep dipping, soil testing, milk testing, etc. Mr. Locke stated that in the past three years the boys have dipped 6,500 sheep with their portable dipping tank and they have requests for this work yet to be done this fall.

Mr. Little, superintendent of the Onsted school, presented the awards to the winners of the county judging contest. They were as follows: Dairy, Larry Osburn. Robert Rupert, James Young; livestock, John Young, John Powell and Charles Bishop. Earl H. Place, superintendent, spoke briefly and introduced some 16 junior and high school teachers.

The committees for the event were as follows: dinner, Fred Feight, Ray Jackson, Freddie Long; invitations, Robert Rupert, Will Kaufman; decorations, John Young, Tom Linnes, Robert Kash, Douglas Aylesworth.

Heart Ailment Fatal To Clyde Way, Clinton

Funeral services were held Monday afternoon from the Congregational church in Clinton for Clyde W. Way, 52, who died of a heart ailment soon after his admittance to a Jackson hospital, Friday afternoon. The Rev. H. R. Sullivan officiated and burial was in Riverside cemetery, where members of the American Legion were in charge of the service at the grave.

Prominent in business and civic activities in Clinton, Mr. Way was a sales representative for the Shell Oil Co., from 1933 to the time of his death. He operated a garage in Clinton from 1920 to 1929 and was a supervisor for the Cities Service Co., from 1929 to 1933.

Born, August 31, 1897 in Bridgewater township, the son of the late Lewis G. Way and Mrs. Luzetta Way, he graduated from Clinton high school in 1916 and from Michigan State College in 1921. June 13, 1920, he married Miss Doris E. Cooley in Clinton.

Mr. Way had served as a member of the Clinton village council and the school board. He was a member of the Rotary Club, Chamber of Commerce, American Legion, Masonic Lodge and the order of the Eastern Star. He was a trustee and deacon of the Congregational church.

Surviving besides the widow are one son, John Clyde of Clinton, his mother and a sister, Miss Hazel M. Way of Clinton. Preceding him in death were a son Charles Lewis Way and a brother Raymond B.

Home Nursing

(Continued from Page 1)

doctor. The nurse is furnished by the hospital and the charge for her services is $2 for the first hour and one dollar for each additional half-hour, up to three hours. Mrs. Alice Williams of the hospital staff, is the home service nurse and it is possible for her to make about eight calls daily.

"This is purely a local service and one that may be expanded," Miss Spaulding said in making the announcement. She pointed out that Tecumseh is one of the few communities of its size to have such a program and she expressed the opinion that it will be widely used once residents become familiar with it.

The hospital superintendent also said that the service will be available to some residents who have not been hospitalized. If, in the doctor's opinion, bed-size nursing in the home is sufficient, he may request the service for his patient rather than remove him to the hospital. This also will be a money saving to patients, Miss Spaulding said.

Complete information as to how the program is set up, it was said, may be had by consulting the family physician or by calling the hospital.

CONFIRMATION SERVICE AT ST. PETER'S, SUNDAY

The Rt. Rev. Russell S. Hubbard, D. D., suffragan bishop of the diocese of Michigan, will conduct the rite of confirmation and preach the sermon at 11:15 a.m., Sunday, November 6, at St. Peter's Episcopal church. Ten people will be admitted into the full fellowship of the Episcopal Church in this special service. The public is invited to attend.

Parents who attend church are reminded of the Nursery School for small children which is held in the Youth Center during the morning worship hour, in which a regular children's worship service is a part of the hour program for little ones.

Quaker Sees Need To Hold Down Costs

REVIEW OF BUSINESS YEAR IS MAILED TO ALL COMPANY EMPLOYEES

The need for holding down costs was emphasized in a special report mailed today to all Quaker Oats employees, highlighting the company's business year which ended June 30.

In a letter accompanying the report, Harold B. Lourie pointed out that while sales volume was maintained this year, both net earnings and dollar sales dropped. Most of the 12% dip in dollar sales, he explained, is due to the company's action in lowering prices on many of its food and feed products, doing its part in helping to bring down the cost of living.

Lourie's letter emphasized the report's statement that "if we're going to maintain our earnings, we have to hold our costs down; if we don't, we help our competitors instead of ourselves."

Both the company's profits and each individual's share of these profits depend on teamwork, the booklet summarized in reporting to employees on the past year's business and forecasting a good future.

The employee report is illustrated with sketches of an average Quaker family of four, its theme is the effect of business generally and Quaker's business, more specifically, upon the employee and his family.

Dealing broadly with such vitally important subjects as wages, job security, benefit plans and productivity, the report also contains a balance sheet showing Quaker's income and expenditures for 1948-49.

Deduction of operating expenses and taxes from the company's gross income of $207 million left a total of $31.2 million. Payrolls took 73.7% of this sum, compared with 72.36% during the previous year. Dividends amounted to $4.9 million, and $3.3 million was reinvested in the company.

One page of the report is devoted to a picture summary of average yearly job "extras" for the hourly employee. A pile of coins representing the total of $463.63 is broken down to show the company's payment per employee for such items as profit-sharing, retirement annuities and Social Security, unemployment insurance, vacations and holidays, and group life insurance.

In a section on wages, the report summarizes that while living isn't cheap nowadays, Quaker earnings have always kept a step or two ahead of living costs, and that a job with Quaker provides the security of a strong company in a stable industry, because in good times or hard times, people still have to eat.

Like other Quaker benefits, the report states, a share of profits after every year which proves successful is a thing employees can count on. Last year that slice of profits amounted to $890,922 for the company as a whole.

Under the heading "Our Work is Productive," the employee statement compares household electrical and mechanical gadgets with the labor-saving tools which stockholders have put up more than $9,000 for each job with the company," continues the report.

"Quaker has been growing for more than 75 years," concludes the annual statement to employees, "and tomorrow's success depends on today's teamwork, as on improving production facilities, aggressively selling and advertising, and making first-rate products."

Would You Like To Tour Alaska?

ALL YOU NEED FOR THE TRIP IS A GOOD CAR AND PLENTY OF MONEY

EDMONTON, ALBERTA—Good cars and plenty of pocket money will be a "must" for travelers over the Alaska Highway from now on.

Too many "jalopies" have been breaking down and too many motorists have been going broke on the highway—four-fifths of which lies in Canada.

So the Canadian Government is enforcing new rules.

It will require cars to be 1940 or later models, and in good condition. If they are earlier models, a cash deposit or a $342 guarantee bond must be posted to insure that the car will leave Canada.

Travelers must have with them "a sufficient sum of money for the trip"—$500 being considered "sufficient." If they can prove they can obtain that much money while in Canada, that will do, too.

Cars under conditional sales contracts must be driven by their legal owners, or the driver must have written permission from the legal owner.

House trailers measuring 20 feet or longer must be towed by a truck of one-ton rating or more, or by a four-wheel-drive jeep; and must be covered by cash deposit or bond. All vehicles used to carry household effects, tools, or items of merchandise likewise must be covered by cash deposit or guarantee bond.

"The shortest distance from continental United States to Alaska by highway is 2,500 miles," a Canadian Government spokesman said. "Light automobiles can not handle large trailers over this route at the present time."

From the U.S. border to Edmonton, about 350 miles, the roads are good. North of Edmonton they are not first class, although service facilities are reasonably available as far as Dawson Creek, 450 miles farther, where the Alaska Highway begins.

For the remaining 1,523 miles to Fairbanks it is "pioneer" in type and service stations are distributed at long intervals—adequate only for the care of good cars with normal fuel capacity.

At the bottom of its decision to enforce the strict rules the Canadian Government says it has two aims: first, to protect the traveler who does not realize the hazards of travel through an almost completely uninhabited country; second, to protect various Canadian agencies which last year were put to great expense in rescuing tourists whose cars broke down at remote points.

TO TELL OF ETHIOPIA

Mrs. Earl Place will describe the life of her sister and husband during the twelve years which they spent in Ethiopia as missionaries, when she addresses the Ladies Union of the Baptist church, which will meet today (Thursday) at 2 p.m., at the home of Miss Edna Gamboe. Mrs. Burt Gray is in charge of devotions.

TO REVIEW BOOKS

Mrs. William Berkhof of Mt. Clemens will review several books at the meeting of the Tecumseh Wit and Wisdom Club, which will be held Monday evening, November 7, at the home of Mr. and Mrs. M. G. Partridge, with Mr. and Mrs. Glenn VanDenbergh as assisting host and hostess.

A&P Has Big Values All Week Long

Customers' Corner

Question: Does your A&P give you good food at low prices?

Answer: Yes, that is why millions of American families do all their food shopping at A&P.

Question: Is A&P a monopoly?

Answer: No, we do only a small share of the nation's food business — a smaller share than we did ten years ago.

Question: Does A&P drive competitors out of business?

Answer: No, we have more competitors today than we had ten years ago and many of our good competitors publicly advertised their willingness and ability to compete with us. Why then do the Anti Trust lawyers want to put your A&P out of business?

DESTROYER "CONSORT" TIED UP AT SHANGHAI DOCKYARDS . . . The British destroyer "Consort" tied up at the Shanghai dockyards and unloaded the casualties from her two-hour engagement with Communist shore batteries along the Yangtze river. An honor guard of United States sailors and marines stood at attention as the dead were brought ashore. American vessels in the area of the fighting sailed out of the Shanghai harbor and into the Yangtze in order to avoid involvement in the Chinese war which the Communist forces were winning.

Paul A. Wright

Arthur Lesow, president of the Wolverine Council, Boy Scouts of America, announces the hiring of Paul A. Wright as field scout executive for the Wolverine Council. Mr. Wright comes to the Council from DeKalb, Illinois. He is graduated from Northern Illinois State Teacher's College where he majored in social science. He will attend the 127th National Training School in New Jersey, and will assume his duties in this Council on November 10.

Mr. Wright is married and will be living at 456 S. Winter street in Adrian.

As a Boy Scout, Mr. Wright has earned all the awards, attaining the rank of Eagle Scout with bronze palm. His experience in the field of Scouting as a volunteer leader was in connection with the Chicago Council; having served as a leader in Cubbing, as a troop leader, as an assistant advisor in Air Scouting.

Mr. Wright's camping experience has been in connection with the Boy Scout camps in and about Chicago, and the Owassippee camps near Whitehall, Michigan, serving as a counselor and provisional troop leader.

Aid Found For Sick Headache

NEW DRUG OFFERS RELIEF TO SOME 12,000,000 MIGRAINE SUFFERERS.

Relief for sick headache for the 12 million Americans who suffer from it is here at last in the form of a little pill called Cafergone. Although this combination of two simple drugs will not prevent or cure migraine it does constrict the arteries of the head so as to reduce the agonizing throb, according to Morton Sontheimer. Writing in McCall's for November he describes the characteristics of migraine and points out that it attacks two and a half times as many women as men:

"Doctors think the tortures of migraine which afflict about one in every twelve of us, result from a surge of blood to the brain. During the migraine attack arteries in the head are distended and swollen. Efforts to relieve the resulting agony have aimed at constricting these arteries. Once they are reduced, the pain subsides.

"The two drugs which have been combined to do this are a derivative of ergot and caffeine. Ergit, a fungus that grows on rye, has been known to constrict the blood vessels, but it nauseated many patients and had to be injected for best results.

"Caffeine, the substance in coffee that gives you a lift, when it was injected into humans, always expanded instead of constricting the blood vessels. Scientists now know that when it is taken by mouth it works in harmony with the ergot to reduce the arteries with the least unpleasant effects. They have combined the two drugs in a pill called Cafergone.

"Dr. Bayard Horton of the Mayo Clinic says it has brought relief to 88 per cent of the patients he has tried it on. Other headache specialists report similar successes. Moreover, Cafergone takes effect within 15 to 30 minutes, not only relieving the agonizing pain, but appreciably reducing the accompanying nausea.

"The greatest hope of preventing attacks of 'sick headache' as it is known to most people, lies in avoiding difficult emotional situations, in reducing the inner tensions. In some cases a psychiatrist is needed to bare the fuse of the explosive emotions and extract it.

"More than three out of four patients have had other cases of migraine in their families and about half of them recall having had their first attacks before they were 15. The attacks are commonest between the ages of 20 to 40, but they can begin at any age.

"What happens in these explosions of migraine? First, consider the fact that the human brain, which makes up only one-fiftieth of the bodily weight, uses one-fifth of the blood the heart puts out. Under the pressure the migraine sufferer builds up, the arteries serving the brain grow tense and constricted. When they relax they become distended, allowing unrestricted quantities of blood to go pounding into the head. That is why migraine often strikes when the pressure goes off —on weekends and holidays, at parties."

NAVY TANKER RUNS AGROUND IN GOLDEN GATE . . . Tugs and coast guard vessels churn the waters beneath the Golden Gate bridge as they fight to free the huge navy tanker "Neeches" which went hard aground on sandy Presidio shoal. The vessel had strayed a half-mile off course on entering San Francisco bay. There were no casualties among the 120-man crew and navy spokesmen said damages to the ship were slight. Faulty steering machinery was cited as the probable cause of the accident, and the ship later was refloated on the flood tide. Experienced mariners said it is very unusual for a ship to run aground in San Francisco bay.

Settlers Shunned State's Interior For Many Years, Wayne Study Shows

On the shores of a lake in Oscoda County, near Mio, Michigan, Wayne students chart a late-settlement area, indicated by two squares on the map (Oscoda and Roscommon Counties).

Michigan's interior has been almost completely unoccupied by the white man more than half the time since 1668, when the first white settlements were made on its coasts.

This is one of the curious facts uncovered through geographic and historical research at Wayne University in Detroit where, with documents and field-trip data, the step-by-step advancement of settlement frontiers has been traced.

The earliest settlers refused to venture away from the shore line, for they had been told that the interior of the state was marshy, sandy, and unhealthful. In the face of the persistent myth, they remained on the coasts even when inland water routes made travel easy and the danger of Indian attack was slight.

The story of the State's settlement really begins with the French explorers and missionaries. In 1622, a French explorer, coming overland from Canada, is believed to have viewed the Michigan bank of the St. Mary's River at Sault Ste. Marie, and thus to have become the first white man to look at any part of Michigan.

With the passage of time, the Straits of Mackinaw became a thoroughfare for shore-line travel around the state, but the first actual settlement was Father Marquette's mission at Sault Ste. Marie, in 1668. The second was his chapel at St. Ignace in 1671, and the third was a fort at Port Huron, temporarily occupied from 1686 to 1688.

In about the year 1690, one settlement was actually established slightly inland from the coast, but in what is now a coastal county. This was a small, fortified community at Niles.

Settlements in the interior proper came only after a surprisingly long time. It was approximately 127 years after the Niles settlement before a community took root in an interior-county area. This was Rochester, in Oakland County, established in 1817 when a party made its way up the Clinton River from Lake St. Clair. The following year Pontiac was founded, and Tecumseh and Ypsilanti were settled a few years later.

The last interior area of the State's Lower Peninsula to receive settlers in any considerable numbers was Roscommon and Oscoda Counties, where settlements were established as late as 1910.

Northern Peninsula areas have continued to draw settlers to a relatively late date because of increasing evidence of mineral wealth and natural beauty.

The Youth Group of Macon were entertained by their leader Mrs. Gordon at a Hallowe'en party Monday evening.

Star Spangled Banner

The original title of the Star Spangled Banner was "The Defense of Fort McHenry." It was written in 1814 by Francis Scott Key, a lawyer of Frederick, Md., who as a visitor on board a British vessel in Baltimore had witnessed the British bombardment of Fort McHenry. The words, sung to the air of "Anacreon in Heaven," at once gained popularity as a national lyric. It was not officially made the national anthem until more than 100 years after it was written. On March 3, 1931, approval was given an act designated "the composition consisting of the words and music known as 'The Star Spangled Banner' as the national anthem of the United States of America." When the national anthem is played, all those present should stand and face toward the music; civilian men should stand at attention, removing their hats. Men in uniform should salute at the first note of the anthem, retaining this position until the last note is sounded.

Soybeans Retain Oil

Research by the U. S. department of agriculture on the oil content of soybeans in storage shows that no oil is lost from beans during their storage prior to processing, contrary to the commonly held belief that such oil content diminishes during storage. Research into both food and industrial uses of soybeans was undertaken for protection of farmers who would be subject to lower returns if their stored beans were purchased on the assumption that oil content had lessened during storage. There also was developed a paste containing pigments and driers so mixed that farmers can prepare a paint at relatively low cost by merely adding soybean oil to it. Another new process separates soybean oil into two fractions, each of which is better than the whole oil for certain purposes.

Stainless Steel

Stainless steel is a name which is broadly applied to a whole family of alloy steels possessing the ability to resist corrosion without the aid of a surface coating. Besides this advantage, some stainless steels are much harder than ordinary steel and other types are very much stronger. Some will resist strong acids. Others are valuable because they retain their strength at very high temperatures. Others will not tarnish under the most corrosive atmospheric conditions. One important type of stainless steel contains 18 per cent chromium and 8 per cent nickel. This steel has been widely used in building trains, buildings, food handling equipment and kitchenware.

AUXILIARY TO MEET

Miss Joy Schott Is Bride Of Douglas Hintz

The Britton Congregational church was the scene of a lovely candlelight wedding, Saturday, October 29, when Miss Joy Schott, daughter of Mr. and Mrs. Herbert J. Schott, became the bride of Douglas Hintz, son of Mr. and Mrs. Carl F. Hintz, all of Britton. The Rev. O. E. Priest of Macon officiated at the double ring service.

Mrs. Prudence Butterfield of Detroit played a half-hour prelude of traditional nuptial music. The soloist, Miss Carol Priest of Macon, sang "Oh Promise Me" and "Because" before the ceremony and "The Lord's Prayer," as the bride and bridegroom knelt at the altar.

The bride wore a gown of white satin with a high mandarin collar, short sleeves, fitted bodice and full hooped skirt ending in a train. The long white mitts extended to points over the hands. The veil of illusion was held in place by orange blossoms.

The bride asked her sister, Nancy, to be her maid of honor. The bridesmaids were Pattie Butterfield of Detroit and Patricia Johnson of Dearborn. Susan Jones of St. Claire Shores was the little flower girl and Janet Schott of Armada, dressed as a miniature bride, was ring bearer.

Jack Hintz served his cousin as best man. Harry Craig and Vaughn Schott were the ushers.

Immediately following the ceremony, a reception was held in the church parlor for some 200 relatives and friends. Guests attended from Tecumseh, Clinton, Manchester, Milan, Palmyra, Blissfield, Morenci, Jackson, St. Claire Shores, East Detroit, Mt. Clemens, Armada, Dearborn, Detroit and Britton, Mich., Toledo and Metamora, Ohio, and Pittsburgh, Pa.

Mrs. Hintz graduated from Britton high school in 1948 and is now employed at the United Savings Bank of Tecumseh. Mr. Hintz graduated in 1941 from Britton high school and is engaged in farming. The couple will be at home after November 6 on a farm north of Britton.

GOOD CHEER CLASS

The Good Cheer class of the Baptist Church School will meet Friday evening, November 4, at the home of its teacher, Miss Elizabeth Chase. All members are urged to attend.

REBEKAHS TO MEET

A regular meeting of the Rebekah lodge will be held Friday evening, November 4, at 8 p.m. There will be an initiation of candidates and lunch will be served honoring the November birthdays.

Ain't No Use Fittin', Fussin' And Fudin' Over Goin' When Yuh Kin Buy A Good Used Hoss What'll Git Yuh There

Funny thing—that is 'twas funny to us—hearin' a feller tell tother day about how his wife got into a fittin' and fussin' match cause she wanted to go to the lakes on an outing with the kids and he said the old car wasn't in kondishun to do it. Waal, as usual, she won the argumint and they got there, but it was the kumin home what caused the fussin'.

Like this, so he told us, they had about 10 more miles to kum and the kids were all tired out and Ma was disgusted like, cause one of 'em had fallen in—we mean in the lake—when the old jilopy jist quit wheezin. Of course, he told her that he'd told her twasn't safe and right back, quick like, she told him off. Guess the fists didn't get into akshun but man how those tongues did fly.

Waal, it was the next that he was tellin' us about it and he was down at our stabul to trade his old hoss off for a better used one. Course, we made the swap and we made him happy—and the family, too.

Moral is, don't hang onto the old buggy until it gets yuh into a family row or somethin'. Yuh kin jist as well trade her off for one of our better used jobs and save everybody's disposishun.

We got some good used Ford cars in our barn what wil give yuh miles and miles of care-free service. We'll pay you top dollar for your old job and, if yuh need it, we'll 'range for delayed payments if there's a balance.

Come in. It don't cost nothin' to look. Yuh know we heard 'tother day that men with cars is like men with wimmin. Men say wimmin ain't any older than they look, and men, waal, they ain't old till they stop lookin'.

Scout Leaders To Be Trained

SPECIAL CLASSES ARE ANNOUNCED BY THE GIRL SCOUT ASSOCIATION

Leaders' training classes in Girl Scout work will begin this (Thursday) evening in the high school at 7:30 o'clock, Mrs. George Wittrup, instructor, announced at a meeting of the Tecumseh Girl Scout Association, held last week Wednesday evening.

The course will consist of six three-hour sessions and is open to any woman over 18 years of age and is without charge. Upon the completion of the 18 hours of work, the Association will give certificates to those who have completed the work satisfactorily.

The topical headings of the sessions are: 1. Good Scouting—history, ceremonies, uniforms and troop meetings. 2. Troop Government—structure, committees, sponsors and finance. 3. Association Council—local and national policies, registration, supplies and make-up of. 4. What to teach and how to do it, according to each program. 5. Arts and Handicrafts. 6. Movies and summary.

At last week's meeting Mrs. Robert Manchester, registrar, reported that eleven troops are being registered. Two troops from last year are combining with other troops now. Troops three and five will be known as troop five; troops eight and nine will be known as troop eight. Troops two and seven are the only former troops discontinuing due to lack of interest from the scouts and inadequate leadership. Complete registrations must be in to Mrs. Manchester by November 18, the final deadline.

An invitation from the Golden Rule class of the Presbyterian church was read. It invited members of the Association to attend a lecture and demonstration by Edith Cotton on "Inexpensive Home Crafts and Decorations" at the church Fellowship Center, Wednesday, November 16, at 8 p.m.

zMrs. Hoyt Raymond, the Christmas bazaar chai ve a report on the progress of her committee. The candy booth will be directed by Jean Barton, committee woman of Troop 10. Candy will be contributed by Intermediate Scout mothers. Gladys Spangler, committee chairman for troop 10, will have charge of the bake sale and contributions to this booth may be made by Brownie mothers.

Committee women who wish to may contribute an apron to the apron booth headed by Marian Tucker of Troop one. The uniform exchange will be directed by Glyde Wittrup. At this booth outgrown used uniforms may be exchanged for ones more suited to the needs of the members. The refreshment snack bar sponsored by the Association will be headed by the co-leader of troop 1, Virginia Ross. Ruth Rentschler will be available in the equipment booth for Christmas orders of supplies and cookies. Mrs. Emma Partridge is bazaar treasurer and Edna Helzerman will handle publicity.

Troops are working diligently to insure the success of their third annual bazaar, which will be held December 3 from noon until 8 p.m., at the Methodist church. Drawings for the door prizes and the doll and her wardrobe will be at 7 p.m.

New leaders, Marie Greiman, Alta Thompson and Christine Meads, were introduced and welcomed by the Association president, Jane Duvall. The meeting was attended by some 19 members. Mrs. Duvall asked leaders to remind their committee men and women that they are members of the Association and their attendance at monthly association meetings is welcomed.

It was reported the five leaders attended the three-day handicraft workshop in Jackson. Katherine Cameron, Lelah Oliphant, Glyde Wittrup, Julia Tifley and Anna Mae Bowser gained much valuable information there.

Tecumseh Musicians To Take Part In Band Day

The Tecumseh high school band will participate in the annual Band Day at the University of Michigan, Saturday afternoon, November 12, appearing in a half-time program during the Michigan-Indiana football game, according to Clare Camburn, who received an acknowledgement of the band's acceptance to an invitation from William D. Revelli, leader of the University band, this week.

The day will be known as "John Philip Sousa Day" and the word "Sousa" will be spelled out on the field by all the bands participating. Mr. Revelli expressed his pleasure in the knowledge that the Tecumseh band will appear.

Indians Whip Bedford, 12-8

TECUMSEH GRIDMEN TO MEET BLISSFIELD, THERE, ON FRIDAY EVENING

(By Don VanCamp)

The Tecumseh Indians chalked up another victory, Friday evening, by defeating Bedford of Lambertville 12 to 8, at Recreation Center.

The Indians got off to a good start when Dick Whelan, who has been playing good ball all season, broke off tackle and went 80 yards for Tecumseh's first score. Henkel's kick for the extra point was no good and Tecumseh led 6ix to 0.

The best of the first half was played mostly by the defense teams. Both teams were forced to punt. VanWinkle kicked from his own 35 to Bedford's seven yard line, where the ball was downed by a Tecumseh player.

As the second half got under way, Bedford, who had showed little in offense the first half, started to roam the field. When Bedford got into Tecumseh territory the Indians started to hold, so quarterback Bolhman faded back and tossed a 30 yard pass to left end Caldwell for a Bedford touchdown.

In the fourth quarter the fans saw plenty of action. VanWinkle, back on his ten yard line to kick, got a bad pass from center. It went over his head and into the end zone where he fell on it, giving Bedford two points and the score was then eight to six.

The Indians didn't give up. About the last two minutes of the game Tecumseh pulled a sleeper. Fullback Dick Whelan passed to Norm Karsten and he went to the Bedford ten yard line. On the next play Tecumseh got a 15 yard penalty and it was first and 25. After another line play failed VanWinkle took the pigskin and passed to end Doug McDowell, who received it in the end zone.

Blissfield will meet the Indians at Blissfield tomorrow (Friday) evening, kickoff at 8 p.m.

The lineups for last week's game were as follows:

Bedford—Ends, Caldwell, Gregorie; tackles, Chattelear, Wilcox; guards, Smith, VanKirk; center, Oswald; backs, Bolhman, Gannon, Albrind, DuShane.

Tecumseh — Ends, McDowell, Karsten; tackles, Marsh, Woodrow; guards, Jackson, Judd; center, Campbell; backs, Breitenwischer, Whelan, Henkel, Van Winkle.

William F. Feldman, Former Resident, Dies

Funeral services were held Monday afternoon from the Earl Little Funeral Home in Monroe for William Frederick Feldman, 77, a former Tecumseh resident, who died Saturday morning at his home at 254 Orchard Drive, Frenchtown township, Monroe county, after suffering a heart attack. He had been in failing health for the past one and one-half years. Burial was in Woodland cemetery, Monroe.

Born, March 29, 1872, in Monroe, he was the son of the late Mr. and Mrs. Jacob Feldman. November 11, 1903, he married Carrie Blouch at Maybee and moved from Tecumseh to Monroe in 1922. Surviving are one son, Garold of Bold Harbor; one daughter, Mrs. Clyde Wagle of Frenchtown township; five brothers, Louis of Dearborn, Charles of Milan, George of Lansing, Nicholas of Independence, Kas., and Henry of Dundee; two sisters, Mrs. William Wittenburg of Lansing and Lee Matteson of Monroe; five grandchildren and two great-grandchildren.

F.F.A. Mothers Choose Officers

YOUNG FARMERS PLAN TRIP TO INTERNATIONAL EXPOSITION, CHICAGO

Mrs. Orrin Feight was elected president of the Mothers Club of the Future Farmers of America, which met recently. Mrs. Raymond Winsler was named vice president and Mrs. Ralph Young, secretary and treasurer. The members discussed methods of assisting the F. F. A. in carrying out the program planned for this year.

Last week Wednesday evening the F. F. A. boys were hosts to the Britton Agricultural Club, when some 22 boys and their instructor spent the time playing games and enjoying other contests. The Green Hand degree was presented for the visitors and six boys were admitted into the local chapter. They are Richard Young, Robert Kash, Dorman Mobley, Calvin Suydam, Gene Withrow and James Young.

A trip to Livestock International in Chicago is being planned and a bus has been engaged for transportation. Adults in the community are invited and all those who wish to attend are to contact David Locke or any member of the F. F. A., so that hotel reservations can be made. The cost of the transportation is $6 round trip and the bus will leave December 2, returning December 4.

While in Chicago, the boys will attend the Livestock International, the National Farm Show, Fields Museum, the Planetarium, Aquarium, Museum of Science and Industry, China town and the Grain pit, if time permits. Although this is the third year the local chapter has sponsored the trip, it is the first year the public has been invited to join with them.

Fred Feight and Jim Winzler have each purchased two steers for their fall feeding project. They were secured through the F. F. A. and 4H auction at Blissfield.

Deer Hunters Can Register For Messages

This year as in the past the Michigan State Police and the State Department of Conservation will cooperate in making available a free registration service for all deer hunters who desire to be reached in camp in the event of an emergency at home.

Hunters desiring to use this service should register at the State Police post or Conservation headquarters nearest their camp. They should also leave word at home of the station at which they will register.

If an emergency occurs those at home need only call their nearest State Police post or Conservation headquarters. The message will then be sent by radio to the proper registration station and will be delivered from there by an officer of either department.

The registration also makes it easier to inform persons at home if a hunter meets with an accident or is reported lost.

Only urgent messages will be handled and the service will not be offered where regular communication facilities can be used without delay.

Registration cards have been distributed to all State Police posts and Conservation headquarters. They will also be available on State ferries and may be handed to State Police officers stationed on the docks.

In the past thousands of hunters have used the service and many messages have been delivered.

An accompanying map shows the location of the registration stations.

HEADS LOCAL DRIVE FOR ALBION COLLEGE

Ellsworth Collins of Tecumseh is serving as church chairman in the Tecumseh area for the statewide campaign throughout Michigan Methodism for $1,000,000 for Albion College.

The campaign, which started on Sunday, October 30, will undertake to secure funds for needed scholarships and endowment for Albion College, as well as the erection of a chapel, science building and added dormitory space and dining facilities, according to Howard C. Lawrence of Grand Rapids, general campaign chairman and president of the board of trustees of Albion College.

ARMISTICE DINNER

An Armistice Day dinner and dance will be held by the American Legion and Auxiliary Friday, November 11, at the Legion Home. A potluck dinner will be served at 6:30, with roast beef, potatoes, rolls, butter and coffee furnished. Members are to bring their own table service and a dish to pass. Dancing will follow.

WINNERS IN CAMERA CLUB CONTEST NAMED AT MEETING ON MONDAY

The November meeting of the Indian Snappers Camera Club was held Monday night at the Tecumseh Camera Shop.

The new officers elected are: President, John Saling; vice president and program chairman, Mabel Lockwood; secretary, Clarence Tirb; treasurer, Harry Wirth.

The winners in the snapshot contest were selected by the judges, Lester Coller, Earl Wickwire and Walter Nichols. Twelve entries were made and the three best were: First prize, Ed Beale, $5; second prize, Harold Jeffers, $3; third prize, Mrs. Arlie LeBaron, $1.

The club decided to sponsor a print a month contest, giving points for the winners and for each entry, prizes to be awarded every six months. Entries next month can be on any subject desired, and should be 5 x 7 dull tone prints.

Any camera fans in town are cordially invited to the meetings of this club.

Rotarians Hear Talks By Scout Executives

Arthur Lesow, president of Wolverine Council, Boy Scouts of America, of Monroe, and Al Jones, also of Monroe, field man for the Council, were guests of Rotarians, Monday evening, and spoke briefly, explaining Scouting, at the Cabin in Elliott park. The Cabin inspection followed the Rotary dinner at Brees House.

E. M. Campbell, Rotary's chairman of Scouting activities here, was in charge of the meeting. He explained how the Cabin was built and financed and how it is now used not only by Boy but Girl Scouts. About 100 girls meet at the cabin weekly. There are at present 18 registered Boy Scouts, 23 that will graduate into scouting during the next 30 days and approximately 100 Cub scouts in Tecumseh.

Rotary sponsors the Boy Scout troops locally and both Mr. Lesow and Mr. Jones pledged the Council's full cooperation in the program.

Rotary also has pledged to aid in the Community Fund drive, which starts tomorrow, and several members agreed to assist in the solicitation of funds.

F. E. Hensen, Wife Married 25 Years

In celebration of their 25th wedding anniversary, Mr. and Mrs. F. E. Hensen were entertained at the home of her sister and brother-in-law, Mr. and Mrs. Merritt Chase of Clinton, Saturday evening. Some 40 guests received corsages as they assembled for an appropriate program.

A three-tiered cake, decorated with white rose buds, was topped with miniature silver candle holders, in which were inserted tiny white candles. Completing the attractive setting on the lace-covered refreshment table were tall, white apers in crystal holders tied with silver and white ribbon. Mrs. Chase was assisted in serving by Mrs. Lena Cox, Mrs. Edith Muhn, Mrs. Charles Hensen and Mr. and Mrs. Chester Hensen.

The honored guests received a set of silver and other silver gifts. Guests were from Holloway, Adrian, Tecumseh, Stanton, Lansing and Carson City.

Sunday, Mr. and Mrs. Hensen entertained at a family dinner. Guests included Mr. and Mrs. E. C. Hensen of Stanton, Mr. and Mrs. Merritt Chase and family of Clinton, Mr. and Mrs. Clifford Brigham of Lansing and Mr. and Mrs. James Mobbs of Carson City.

Volunteers Needed In Vets' Gift Shop

Volunteers are needed to work in the gift shop of the veterans hospital in Battle Creek, Tuesday, November 22, Mrs. Ned Rosacrans, president of the American Legion Auxiliary of Unit No. 34, announced at a regular meeting of that organization, Monday evening at the Legion Home, which was preceded by a potluck supper.

Every year at Christmas time gifts are purchased by each unit in the state and given to veterans hospitals. In turn each veteran has the privilege of selecting a gift for every member of his immediate family. The gifts are then gift wrapped and mailed. Those desiring transportation on November 22 are requested to call Mrs. Dale Tingley.

At Monday evening's meeting, year books, which had been prepared by the program committee, were distributed to the some 30 members in attendance. The program consisted of a plastics demonstration by Mrs. Ethel Schults of Ypsilanti.

School Names Honor Students

THIRTEEN IN JUNIOR AND SENIOR HIGH FIND NAMES ON THE "A" ROLL

Thirteen students in the junior and senior high schools in Tecumseh had their names on the all "A" honor roll for the first six weeks of the school year, James McDowell, principal, said today. "B" roll students also were named by the principal's office. He announced that the students on the "A" and "B" lists constituted about 33 per cent of the school's population and is considered an excellent record.

Students on the "A" roll are: Mary Glancy, David Green, Gerald Aebersold and William Morris, twelfth grade; Ramon Descaro, eleventh grade; Irma Broillier, Tom Naser, Sally Jo Rentschler, Marian Titley and Leslie Wisner, ninth grade; Grace Moore and Patsy Purcell, eighth grade; Sandra Judson, seventh grade.

The "B" honor students by grades are as follows:

New Hi School Ready By Xmas

THAT IS THE HOPE OF SUPERINTENDENT; CONSTRUCTION NEARLY DONE

Tecumseh's new $400,000 high school on North Maumee street, immediately east of the Recreation Center, may be in readiness for occupancy by January 1, Earl H. Place, superintendent, said today.

"I can't make a definite statement, but it is our hope to move into the new building during the Christmas vacation. We can do it at that time very conveniently and with the least possible interruption in our schedule. However, everything will depend upon how rapidly the building can be completed," Mr. Place said.

Construction work will be completely finished within three weeks, it was said today and then all that remains to be done is to install the furniture. That, officials said, will be a relatively short job.

Members of the board of education canvassed the school construction situation at a board meet-

Mrs. Sarah A. Kerr, 90, To Be Buried At Tipton

Funeral services will be conducted today (Thursday) at 2:30 p.m., from the Green Funeral Home for Mrs. Sarah Ann Kerr, aged 90 years, who died Monday at 5:45 p.m. at the home of her son, Earl, southwest of Tipton. The Rev. W. N. Taylor will officiate and burial was in Tipton cemetery.

Born in England, she had lived in the Tipton vicinity for some 70 years. Surviving are her son and a number of nieces and nephews.

Community Fund Drive Launched

COOPERATION OF SERVICE CLUBS PLEDGED; HARRIS IS OPTIMISTIC

Tecumseh's 1949 Community Fund drive will get under way tomorrow according to announcement from Rexald Harris, chairman of this year's Red Feather campaign.

The organization of the volunteer workers for the drive is rapidly shaping up, Mr. Harris reported. One of the gratifying aspects this year is the increased number of men who will give some of their time as solicitors.

"In recent years," Harris said, "all but a small handful of the workers have been women. The Community Fund is a community organization—not a women's organization, and there are a number of places where the efforts of men have been greatly needed.

"Both the Rotary Club and Exchange Club, as the leading men's service clubs have been approached for volunteer workers. The cordial response from these groups has been heartening, and we have high hopes of reaching our quota in record time."

Community Fund officials wish again to remind all volunteers and cotributors that the Fund is a "package." Fifteen groups are participating in the campaign. Their requests have been screened by the Fund board, and if the budget is reached Tecumseh people will be spared many of the drives that used to be necessary.

The Fund board met last week for final passage of the budget which had previously been tentatively established. With the exception of $100 additional for the Boy Scouts and $100 additional for the Cub Scouts, the official budget will remain the same. The final approved budget is as follows:

Tecumseh Hospital Auxiliary	$350
Cancer Society	350
Hallowe'en Party for Children	100
Christmas Party for Children	100
Girl Scout Association	500
Tecumseh Boy Scous	200
Tecumseh Cub Scouts	300
Tecumseh Recreation Center	500
Sister Kenny Fund	100
Salvation Army	300
Michigan Welfare League	10
Travelers Aid	10
Michigan Aid for the Blind	50
Health Education Committee	100
Tecumseh Child Study Club	100
Emergency Relief Fund	2,500
Total	$5,570

Music Machines To Be Licensed

OTHER AMUSEMENT DEVICES ALSO TO COME UNDER CONTROL OF VILLAGE

Two ordinances, one to license and regulate mechanical musical devices and the other to control the operation of mechanical amusement machines, were adopted by the village council in session, Monday evening. Both ordinances will become effective in 30 days after November 7.

The new ordinances provide for the licensing of the machines. For music boxes the license fee is $100 for the first machine and $5 for all additional machines owned by the same operator. Persons who permit the operation of an unlicensed machine in their place of business are equally liable with the machine's owner for violations. Persons guilty of violations are subject to fines of $100 or 90 days in jail.

The amusement machine ordinance is similar to the musical machine law except that it provides a license fee of $250 for the first machine and for additional machines by the same owner the fee is $5. The owner of only one privately owned device is $25. Similar fine or jail sentence are provided for violations.

The council listened to a petition from residents of North Union street, north of Brown street, asking for the hard surfacing of that street. The council has been considering such an improvement and took the petition unde advisement.

Residents of East Brown street, east of Mill, inquired into the village's plans for the improvement of that street. Council has, for some time, had under consideration an improvement program including the widening and straightening of the road bed.

Reports of committee and department heads were read and placed on file and current bills were audited and ordered paid.

AN HONEST PRICE LEVEL

Writing in Nation's Business, Jack B. Wallach discusses some of the current problems faced by retailing. "Retailers this year are making two or more sales bloom where only one flowered 12 months ago," he said, "and they are far from satisfied with the sales crop. Caught between price declines and expense rises, the die has been cast for them."

At the end of his article, he touches on the point which is of greatest interest to the consumer: "Merchants will not relax in their efforts to bring merchandise to their counters and racks at the lowest possible cost, and to get the greatest efficiency out of their store plants." He observes that everything possible is being done to boost volume and preserve some vestige of profit, and concludes, "Both stores and consumers will be the better off for the experience."

This illustrates the dramatic and far-reaching changes that have taken place in the last few years. The strong sellers' market, which was created by war-made shortages of practically everything, is gone. In its place we have a buyers' market, characterized by an abundance of goods, aggressive competition, the strongest kind of promotional effort, and a relentless war against waste and avoidable expense.

Under these conditions, it is futile to denounce high prices. Both manufacturing and retailing are going to extremes to keep prices as low as possible. The price level of today is an honest one, based on the economic realities.

BRITTON

The Britton Rebekah lodge held its last visitation of the year here last Wednesday evening with guests present from Adrian, Ann Arbor, Milan and Onsted. The Tecumseh lodge furnished the program with readings by Mrs. Donna Hyde, Mrs. Carmen Mathews and Wilford Allen. Mrs. Mary Ferguson led the group singing. A gift was presented to the Milan lodge for best attendance during visitation by Mrs. Lena Wilkie of Ann Arbor who is Junior Past District President. The lunch was served by Mrs. Mildred Smith and her committee.

A reception was held Friday evening in the Congregational church parlors for the new pastor and wife, Rev. and Mrs. Harry Rogers. A program was presented by Mrs. Jennie Smith and Mrs. Mildred Wiggins. Mrs. Mryle led the group singing. Willard Exelby sang a solo, Billy artt played several numbers on the saxophone and remarks were given by Rev. F. B. Clifford, Methodist pastor, Rev. Charles Bragg of Dundee, and George Beale, superintendent of Britton schools. A response was made by Rev. Rogers. Mrs. Frances Eberhardt and her committee served refreshments. On Sunday Rev. and Mrs. Rogers held Open House at their home and guests called from 3 to 6 o'clock. Refreshments were served by Mrs. Mabel Moore, assisted by Misses Joyce McCarbery, Poly Ann Eberhardt, Ardath Gripton and Alice Moore.

Mrs. Ollie McSeventy of Durand spent last week visiting here with relatives and friends.

The condition of Mrs. Smith Pocklington shows improvement but she is still confined to her bed.

Britton Woman's Club will hold a regular meeting next Tuesday at the town hall with Mrs. Ethelyn Claxton as program leader on "Library Day."

Mr. and Mrs. Clarence Cheever of Detroit were Saturday afternoon callers of Mr. and Mrs. Millard Cheever.

Rev. and Mrs. Harry Rogers, Mrs. Flora Exelby, Mrs. Harry Thornberry, Mrs. Edward Kanous, Mrs. Guy Siedel, Mrs. John Gittus and Mrs. Forrest Barrett attended World Community Day last Friday held at the Rae Methodist church and the event is sponsored by the Dundee Council of Church Women.

Dinner guests Sunday at the home of Mr. and Mrs. Glen Gripton were Mr. and Mrs. Edward Gripton and children, Mr. and Mrs. Ivan McCarbery and children and Mrs. Margaret Palmer of Dearborn, Mr. and Mrs. G. L. Gripton, Mrs. Flora Exelby and Ronald Frayer. The occasion honored birthday anniversary of Mrs. G. L. Gripton.

Methodist W.S.C.S. will meet next Wednesday at the home of Mrs. Mary Adams with potluck dinner at noon. Mrs. Alice Maschino program leader.

Sunday dinner guests of Mr. and Mrs. W. S. Niblack were Mr. and Mrs. Hersenes Milner and daughter and Mr. and Mrs. J. H. Milner of Hillsdale. Stewart Niblack of Hillsdale College and Marcella Niblack of Detroit Mercy College of Nursing were weekend guests in the same home.

Mr. and Mrs. Stanley Neal of Chelsea were Sunday evening callers of Mr. and Mrs. John Beal.

Mr. and Mrs. LaVern Russell attended the Purdue-Michigan football game in Ann Arbor, Saturday.

Mrs. Alice Benedict will be hostess to the L. and M. County Line Extension Club today, November 10, with a lesson on Glove Making, presented by leaders.

Mr. and Mrs. Roy Carothers and daughter of Detroit and Miss Maxine Painter of Ann Arbor were Sunday guests of Mr. and Mrs. Smith Pocklington.

HAPPY HOME BUILDERS HOLD REGULAR MEET

The Happy Home Builders class of the Baptist Church School met Monday evening at the parsonage with the Rev. and Mrs. B. Q. Bashore, for a potluck supper. During the business meeting it was voted to appropriate money for another folding screen for use in the primary room. The younger women of the church will cooperate with the older women in sponsoring a paper party at the church Friday evening, November 11, at 7:30 o'clock. Mrs. Cy Bailey is the new teacher for the class. Mr. and Mrs. Carl Fosbender were in charge of the program.

Mr. and Mrs. Cy Bailey will entertain the class next month, when there will be an exchange of gifts.

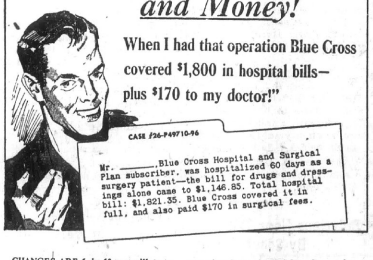
"Certainly saved me a lot of worry—
and Money!



When I had that operation Blue Cross covered $1,800 in hospital bills—plus $170 to my doctor!"

CASE #26-P497010-96

Mr. _____ Blue Cross Hospital and Surgical Plan subscriber, was hospitalized 60 days as a surgery patient—the bill for drugs and dressings alone came to $1,146.85. Total hospital bills: $1,821.35. Blue Cross covered it in full, and also paid $170 in surgical fees.

CHANCES ARE *1 in 10 you will go to a hospital this year!*

Crushing hospital and medical bills can wipe out hard-won savings. Knowing this, the mother of the family will often delay needed surgical care, fearing to strain the family budget. But with BLUE CROSS Protection, necessary surgical care and hospitalization can be had when needed without financial worry. That's a big reason why you and your family need BLUE CROSS—Michigan's non-profit, health-care plan—sponsored and directed by Michigan's doctors and hospitals themselves.

No other health-care plan offers so much for so little!

Because BLUE CROSS pays out in benefits an average of 85 cents out of *every* dollar received from subscribers, BLUE CROSS can offer such unique advantages as: the same benefits for enrolled dependents as for the subscriber . . . no physical examination or health statement . . . no age limit. And the cost to you is only a few cents per day!

Speak to your employer—ask him to find out how your company can make Blue Cross available to you!

More than 1,600,000 Michigan people are protected by BLUE CROSS against unexpected hospital and medical bills. If you would like to join BLUE CROSS, too, talk the matter over with your employer. Ask him to get all the facts about the BLUE CROSS Group Enrollment Plan. Or write or call BLUE CROSS, 234 State Street, Detroit 26 (WO 2-9610).

PARENTS OR RELATIVES OF YOUNGSTERS AT COLD WATER ASKED TO ASSIST

Organization of a special service group, composed of the parents and relatives of mentally handicapped children in the Coldwater State Home and Training School, is being undertaken throughout Michigan.

The organization will be devoted to providing extra recreational and draft equipment, toys, and other things useful in making the lives of the handicapped children as happy as possible.

Decision to form the special group arose from a meeting called recently in the office of Dr. E. J. Rennell, medical superintendent of the Coldwater school, and attended by parents of children in the school.

Invited to attend the meeting was a representative of the Lapeer Parents Association, a group made up of parents of Children in the Lapeer Home and Training School, also an institution for the mentally handicapped.

Persons attending the Coldwater meeting were told of the work of the Lapeer organization, which was started last January and is the first group of its kind in the State.

Lapeer association activities have included the raising of funds for equipment through bakes-ales, bazaars, etc., and the arranging of meetings at which institution staff members have explained training school problems and procedures to parents.

A resolution to form a Coldwater parents group patterned after the Lapeer parents organization was passed at the conclusion of the meeting in Coldwater.

Persons in Lenawee county who have children or relatives in the Coldwater Home and Training School are eligible for membership in the proposed new group.

All Lenawee persons interested may obtain information about the planned organization by writing to Harold J. McKercher of 336 E. Ann St., Ann Arbor, Michigan.

McKercher said today that as soon as sufficient interest is shown, local meetings will be called for the purpose of forming a permanent organization.

Not So Good

A young author was introduced to a Hollywood film critic. The writer's first picture had just been shown, and he asked the critic what his opinion was.

"It was refreshing," returned the critic. "Very refreshing."

"Say, that's swell," beamed the author. "Did you really find it so refreshing?"

"Absolutely," was the reply. "I felt like a new man when I woke up!"

PRICED LIKE A SIX!

PARDON us if we appear persistent on one point.

But we still find people who look over this new Buick SPECIAL, admire its style, its room, its handy but impressive size, and say:

"It's wonderful! Too bad it's too rich for my blood!"

That's our point—*How do you know?*

Have you gone to *see* this car—and learn how very much there is in it?

Have you got the *actual delivered price figures*—including the equipment you want—and matched them against others?

Have you worked out down payment, trade-in, monthly installments? Have you weighed this against the longer period of years you'll be happier with this Buick—and Buick's established high level of resale values?

Some surprising things show up when you do this.

You find you can raise your standard of car travel—step up to Buick levels of style, comfort, handling, ride, power—more easily than you think.

You may even discover you can start enjoying the velvety luxury of Dynaflow Drive* right now instead of waiting until this revolutionary new principle spreads to others, as it's sure to do!

That's why we keep pointing out—*this wonderful valve-in-head straight-eight, with all its standout looks and qualities, is priced like a six! Actually lower than many.*

So *do* something about it, will you? Take a sharp pencil, see your Buick dealer, replace guesses with facts—and we think you'll see the light and place that order!

Clam Chowder Can Be Dynamite!

If Smiley Roberts is a friend of yours, like he is mine, and if you want to keep his friendship, like I do, don't ever let him hear you say that good clam chowder can be made without cream.

In New England, where Smiley comes from, friendships have been broken over tomatoes versus cream in clam chowder. Experts say that south of Boston the tomato reigns supreme, but north of Boston it's cream—or else!

From where I sit, whether it should have cream or tomatoes is simply a matter of taste. This is plain to anyone who doesn't come from clam chowder country.

What a great world this would be if we could all see that most prejudices are matters of taste only. Some like hot coffee. Some like it iced. Some people like a temperate glass of beer. Others prefer ice-cold lemonade. My grandmother used to say, "Prejudice that sees only what it pleases, cannot see very plain."

Miss Martha Eunice Hewlett Bride Of Earl Nelson Baldwin

The country home of Mr. and Mrs. R. H. Hewlett was the scene of a lovely autumn wedding, at 7:45 o'clock Friday evening, November 4, when their daughter, Martha Eunice, became the bride of Earl Nelson Baldwin, son of Mr. and Mrs. Ned Baldwin. The Rev. Alvin C. Brazee read the double ring service before the fireplace, which was decorated with arrangements of chrysanthemums and red oak leaves. Burning tapers in candelabra at either side of the improvised altar added to the solemnity of the occasion.

Given in marriage by her father, the bride was attractive wearing a two-piece bronze satin dress with which she combined black accessories. Her bouquet was centered with cympedium orchids surrounded by sunburst roses and croton leaves.

Attending the bride as maid of honor was a former college roommate, blue taffeta with black accessories and carried a bouquet of rubrum lilies and bettertimes roses. Linda Baldwin, little sister of the groom, carried a colonial bouquet in which the rings were tied. She was dressed in dark green taffeta.

Dermont Poley assisted the bridegroom as best man.

For her daughter's wedding, Mrs. Hewlett selected a teal blue dress with which she wore black accessories and a corsage of pink butterfly orchids tied with silver ribbon. Mrs. Baldwin chose teal blue with cocoa brown accessories and a corsage of bronze butterfly orchids tied with gold ribbon. Mr. and Mrs. E. N. Baldwin of Howell, grandparents of the groom, attended the wedding and reception, and Mrs. Baldwin had a shower corsage of white roses.

At 8:30 o'clock some 150 guests were greeted by Mr. and Mrs. Arthur Williams, sister and brother-in-law of the bridegroom, and John Hewlett, brother of the bride. The three-tiered bride's cake was topped with roses and mums. The groom's cake was made by the bride's mother, Mrs. Mary Drake and Mrs. Otto Meier, sisters of the bride, and Mrs. Jack Brown served refreshments. Mrs. Earl Fetkenhier was in charge of the guest book.

Later the couple left for a weekend trip and will spend the week of November 14 deer hunting at South Branch, after which they will reside at the Baldwin home on West Chicago Blvd.

The bride graduated from Tecumseh high school in 1947 and attended Michigan State College for two years, where she was a member of Phi Gamma chapter of Delta Delta Delta sorority. She is employed as a secretary at the Clinton Machine Co. After graduating from Tecumseh high school in 1945 the groom served in the U.S. Navy for two years. He is now a clerk at the Baldwin Hardware Co.

How He Got It

"Ever heard of this one?" asked one of the group sitting around the camp fire: "A dog was tied to a rope 14 feet long. Twenty feet away was a fat juicy bone. How did the dog get to the bone?"

"Oh, that old one," answered another. "You want one of us to say 'I give it up,' and then you'll say 'That's what the dog did'."

"No; you're wrong, for the dog got the bone."

"Well, how did he get it?"

"The other end of the rope wasn't tied."

Isn't America A Wonderful Country!

All over the world today there are people teaching bitterness and hate.

Here in America we have learned to live together in friendship.

For us here at A&P, it has been a wonderful and thrilling experience to get from those with whom we compete day after day such astounding evidence of friendship and respect.

The things that have happened since the anti-trust lawyers from Washington brought suit to destroy A&P have amazed us.

While we sincerely believed that we had earned the friendship of millions of consumers for whom we have provided better food at lower prices, and the friendship of millions of farm families for whom we have provided a better market for their produce, we were not prepared for the avalanche of offers of support.

But most of all, we have to confess that we had underestimated the fine sportsmanship of many of our competitors all over the country.

Can anyone believe that these competitors would rush to our defense if, as the anti-trust lawyers allege, we had been trying to put them out of business?

We and they have fought hard for business.

There are nearly 350,000 individual grocers competing with us. They have a larger share of the nation's grocery business today than they had ten years ago or twenty years ago.

Many of them do as good a job as we do, and they make it plenty tough for us.

Now, day after day, these same competitors are letting us know that they are in our corner.

All we can say is, thank you from the bottom of our hearts.

Isn't America A Wonderful Country!

Who hollered for Uncle?

Who wants him to break up A&P?

COULD IT BE INDEPENDENT GROCERS? Doesn't seem likely. In ten years America's independent storekeepers almost tripled their business. In 1938 they did just under 5½ billion dollars worth of food business. Last year the independent storekeepers handled over 15 billion dollars worth of food.

WHOLESALE GROCERS? Hardly. For many of them are directly or indirectly engaged in or supporting some form of voluntary or cooperative chain to match chain economies.

THE EMPLOYEES? That would be funny — except that some folks probably believe it. Actually, less than 25 years ago many food chain stores could have paid all expenses — rent, heat, light, wages, etc. — out of the money a store manager alone gets paid now. And the store manager of 25 years ago would have been happy to get what a clerk gets today.

PRODUCERS? Well, take farmers. Certainly part of their prosperity must be attributed to the markets that big chains create for them. The big chains buy the entire pack of many a cannery. Those canneries pack the farmers' crops. What would the farmer do with his highly perishable crop if the food chains were eliminated as big volume buyers?

COMPETING CHAINS, MAYBE? No. Practically every chain in the grocery business had more sales last year than the year before. One chain that we know a lot about increased its food business 21% last year and is up 19% in the first eight months of this year.

THEN IT CERTAINLY MUST BE THE PEOPLE! Like fun. If the people hated food chain stores, would they have spent 9½ billion dollars in them last year? Folks like the low prices and high standards of chains — and the better the chains are run, the better folks like them.

Does This Sound as Though We Need Help?

Thorofare Super Markets came into existence 10 years ago. The food chains Thorofare replaced were doing about three million dollars worth of business a year. Housewives liked our policies well enough to boost their purchases in our 90 stores to about 30 million dollars a year.

We call that a vote of confidence. And we're going to keep right on proving that as long as we stick to good brands and better-than-average selections at rock-bottom prices, we can compete with anybody in the business. And keep right on growing, too!

★ ★ ★

We don't believe any chain will be punished for being efficient, or for pleasing housewives so well that it is forced to grow.

We, too, believe that it is a storekeeper's duty to bring the public the best food at the lowest possible prices, and hope to see the chain store way of doing business vindicated.

And as long as the producers, the employees, the customers, the wholesale grocers, the independents and the competing chains thrive so well, we will continue to think it's a good way to do business.

We Don't Want the A&P Put Out of Business

The owner of the undersigned store is an independent merchant in this community. We run our own store, set our own prices, maintain our own policy.

We consider the Great Atlantic & Pacific Tea Co. as a chain store. Because they are a chain they give us stiff competition.

The competition offered by the A&P keeps us on our toes.

The Department of Justice has brought a suit against the A&P claiming that the A&P is a monopoly.

Whether it is or not we are in no position to judge.

What we do know is that the A&P doesn't do all of the grocery business in this area. We are here and ready to serve local customers.

WE DON'T WANT TO SEE THE A&P PUT OUT OF BUSINESS.

The A&P is keeping food prices down. We in turn keep our prices down; and that helps us to sell more goods.

KUGLER'S
SUPER - FOOD MARKET
PHILADELPHIA, PA.

We Agree With A&P

Yes, we want our A&P competitors to stay in business on their present scale because we know what it would mean to the American people without them.

We are only one store and are striving to serve our community with good food at low prices, but the A&P is a nationwide organization serving the American people everywhere with good food at low prices.

Destroying the A&P would mean eliminating competition nationally in the food field which every poor man knows consumes the major portion of his salary.

We congratulate the A&P for a job well done. Keep up the fight.

We welcome any fair competition which helps us bring lower food prices to the consumer.

SCHWEGMANN BROTHERS

A COMPETITOR'S OPINION of The Great Atlantic & Pacific Tea Co.

The self-styled "trust busters" of the government recently made headlines as a result of a move to destroy the A&P.

Frankly, we don't like it.

A&P is charged with having control of SOME of the production and processing ends of the food business. As a result, they can offer foods at low prices.

So What . . .

And if monopoly of the food business is charged, that sure hands us a laff. We . . . at P.P.M. are growing like wildfire. Seems like we're able to sell better foods at better prices.

Your increasing patronage of our stores is positive proof that A&P has no monopoly on the food business.

Let's get down to good old American horse sense. A&P is doing a good job of serving the people of this country. They're no bogey men. We are for them 100% in this controversy.

I Welcome A&P Competition BECAUSE

• • • • like myself, many hundreds of independent grocers got their start with the TEA COMPANY.

• • • • The great A&P is not detrimental to the progress of the grocery business. On the contrary, A&P has always been beneficial to any open-minded businessman who believes in FREE ENTERPRISE. Founded on the principle of FAIR PLAY and FAIR PRICES, A&P developed from a humble start to its present commanding position in the field of retail merchandising.

• • • • My experience as a former employee of the TEA COMPANY has served me well. I attribute my success to the ideas and methods tried, tested and proven by the A&P stores—at a great cost.

• • • • A&P upholds the rights and privileges of a good worker. I know this from personal experience. A&P is ever on the lookout to promote sincere and ambitious employees to trustworthy and important positions and has never crossed the efforts of any employee to enter into business for himself. A&P helped me to start in business . . . IS THAT AN ACT OF A COMPANY MONOPOLIZING THE GROCERY BUSINESS? NO!

A&P taught me to serve the public BETTER—MORE ECONOMICAL and MORE EFFICIENT, thanks to the start given me by B. F. VINSON.

• • • • During the depression of the thirties, A&P paid higher wages than any other chain. A&P has striven to keep up the standard of living in this country. I shudder to think what would happen to its 110,000 employees if it was forced out of business.

• • • • I am not afraid of A&P competition—I welcome it. It's democratic—it's the American Way.

The Anti-Trust Suit Against The Atlantic & Pacific Tea Co.

This suit is another threat against our great American system of free enterprise. The A&P Co. has always been clean, above board competition and any successful independent merchant, if he is honest, will admit that they have taught him a great many things regarding merchandising, reducing overhead, better buying, etc., thus lowering food costs for the great American Public.

Braves Defeat Hudson, 20-12

ONLY SMALL CROWD ON HAND FOR GAME, WHICH MAY BE BRAVES LAST

By Max Brandt

The Tecumseh Braves played one of the greatest grid games of their career, last Sunday afternoon, when they threw a strong Hudson eleven for a loss at Recreation Center. It was the last game of the year for the Braves, and, unless they come up with a godfather before next season, it will be their last for a long time. An estimated crowd of 100 persons witnessed the battle in which Tecumseh rolled to their fourth victory of the year 20 to 12. The Braves have lost six games, all of which have been played against bigger and stronger teams. Coach Neville Hart's chargers have played very good ball against these larger teams and last Sunday when the local lads played a team in their own class, they beat their opponents decisively.

The Braves opened the scoring in the first quarter when they drove 44 yards nonstop. Colson set up the score with a 25 yard pass to end Walcutt, who was finally tackled on the Hudson 17. Baker and Colson alternated on line smashes with Baker going to paydirt from the two-yard line. The try for the extra point was stopped short.

The Hudson Tigers got back in the game for the time being when, after Baker's punt was blown out of bounds on the Tecumseh 37, the Tigers quarterback called the sleeper play and it was good for the 37 yards and six points. Fullback Spohr threw the pass to quarterback Hagen who outran the secondary to score. The Tigers conversion was blocked and the score stood at a six to six tie at half time.

The Tecumseh team came back in the third quarter to roll up 14 points in 10 minutes. Their second touchdown came after Walcutt had intercepted one of Spohr's passes on the Hudson 30 yard line and was finally chased out of bounds on the Tiger eight. Quarterback Baker used three plays to score and it was an end sweep with Don VanCamp carrying the pigskin. Colson passed to Sisson for the extra point.

Francis Tirb intercepted another Spohr pass five minutes later and from the Hudson 32, the Braves marched straight to the goal line. Behind the beautiful blocking of Tilton, Murphy and Kensler, Baker drove through the center to score from the one yard line. Again Colson passed, this time to Walcutt and the score was 20 to six.

Midway in the fourth quarter, Hudson fought back and scored on a 48 yard drive. Hudson capitalized on another windblown punt that stopped on the Braves 48. Spohr, Hudson's only threat, hit his receivers on three passes and moved to the Tecumseh 24. Quarterback Hazen directed his attack by using end runs and line bucks. Spohr crossed the double stripe from the two yard line. The conversion was blocked and the game ended as the Braves were on the march again. The final score: Tecumseh 20, Hudson 12.

The Braves line, led by Tilton, Kensler, Dinse and Williams, played its best of the year, while Baker, Colson and Osburn split the Hudson defenses wide open. Tirb, Purkey and Walcutt played a good game, too.

CHESS TOURNAMENT CONSIDERED LOCALLY

Chess, one of the most fascinating games ever developed, is winning new favor in Tecumseh, according to members of the recently formed Chess Club. William Morris, 624 N. Maumee street, is an enthusiast and some half a dozen other persons are playing regularly.

Players already active believe that there are many more persons in Tecumseh and neighboring townships who are interested in chess. They'd like to know who they are and, if possible, stage a tournament during the winter months.

Chess players not now in the club are urged to contact Mr. Morris that regular contests may be scheduled.

Start Early In Life To Prepare For Old Age, Club Speaker Advises

"Start early in life to prepare for old age," Withrow Hunter of the Bureau of Psychology of the University of Michigan stated when he addressed the Tecumseh Monday Club at the home of Mrs. Thomas O'Hara, this week, November 7. Mrs. Ed Aebersold, program leader, introduced the guest speaker.

Using as his topic "As We Grow Older," Mr. Hunter stressed the need to participate in community activities as long in life as possible. "For when we cease doing this," the speaker said, "our minds become inactive and we grow old."

After the address, Mrs. Winfred Waldron played a piano solo, "Sonata Pathepesque."

Mrs. Donald Goddard, president, opened the meeting with Mrs. Jay Morse giving a religious thought. During the business meeting Miss Bess Pulver and Mrs. Charles Ruthruff were reinstated in the club; Mrs. Robert McCoy and Mrs. Edward Boss were welcomed as new members, and Mrs. Ira Spencer was voted an honorary member. It was voted to give $5 to Town Hall and $5 to the Community Chest. A penny collection was taken for the art fund at Interlochen.

Mrs. Earl Wood poured tea for some 42 members and guests. The co-hostesses were Mrs. Lynn Hubbard, Miss Edith Ingersoll, Mrs. B. B. TurnBull, Mrs. R. S. Moore, Mrs. C. H. Williamson and Mrs. Elmer Linn.

Thurlow J. Pentecost Buried At Tipton

Funeral services were held Saturday afternoon from the Dunn Funeral Home in Onsted for Thurlow J. Pentecost, 68, who died suddenly last week Wednesday at his home in Manitou Beach after suffering a heart attack. The Rev. F. D. Hague officiated and burial was in the Tipton cemetery.

Born May 5, 1881, in Franklin township to the late Philip and Anna Pentecost, he attended Raisin Valley Seminary and Michigan Agricultural College at East Lansing. August 2, 1905, he married Lena Reinhart in Tecumseh.

Moving to Tipton in 1914 he built the Tipton Garage and Mrs. Pentecost operated a grocery store. Later they gave their full time to the grocery business and Mr. Pentecost was postmaster for 24 years. They moved to Manitou Beach six years ago.

Mr. Pentecost was a member of the Knights of Pythias lodge in Tipton, the Rollin Grange and the state and national grange.

Surviving besides the widow are a daughter, Mrs. Twila Lee of Clayton and four grandchildren. Two other children died in infancy.

Obligation Night Observed By O. E. S.

Obligation Night was observed by the Tecumseh chapter, Order of the Eastern Star, which met Thursday evening with the newly-installed officers in their stations. An impressive ceremony was held with all members present renewing their obligations.

Annual reports were given and the report of the Grand Chapter held recently at Grand Rapids, was given by Mrs. Chester Beach. Mrs. Kenton Hunt, worthy matron, announced her committees for the year. The Lenawee-Monroe county association meeting was held in Clinton, Tuesday, and Mrs. Charles Driffill, local conductress, acted as marshal. Mrs. Glenn Driscoll, local organist, has been named association organist for the year.

At the conclusion of last week's meeting, lunch was served by Mrs. Winthrop Winfield and her committee.

Women Earn Cash For Decorations At Club

The Tecumseh Country Club attracted some 30 women to its weekly Ladies Day luncheon and card games, Wednesday, November 2. Mrs. H. H. Hanna and Mrs. Jens Touborg were the hostesses. Top score at bridge went to Mrs. Edna Cameron, a guest of her daughter, Mrs. Ralph Hodges. Mrs. A. W. Porter won the honors at pinochle and Mrs. L. Jacokes won the door prize.

Mrs. F. C. Hanna reported that material for the banquet room draperies has been purchased with the proceeds from the White Elephant sale. The guests present voluntarily gave a sufficient sum to have the draperies made and they will soon be completed. The card tables, jardinieres and plants have been purchased with the proceeds from the weekly function.

Hostesses for November 16 are to be Mrs. Vincent Haight, phone 241R, and Mrs. C. O. Butler, 435M. Reservations should be made by Tuesday noon.

MONTHLY DANCES AT HI SCHOOL CONSIDERED

Monthly dances at Tecumseh high school, strictly for students, are now being considered and for the parties music will be furnished without charge through the courtesy of the Federation of Musicians, Local 387 of Jackson, by the Tecumseh Products Chieftains. The Chieftains furnished music for the Hallowe'en party at the school last week and a large crowd of students enjoyed dancing.

MACON

The bazaar and chicken-pie supper held at the Methodist church Friday evening was well attended. More than two hundred were served, country style, with fried chicken and apple pie made with delicious brand of Michigan apples. The booths were well patronized, especially the delicatessen booth.

Mr. and Mrs. William Goetz have sold the Macon grocery store which they bought from the Henry Ford Estate to Mr. and Mrs. John Socha of Albion who took possession Monday morning. Mr. and Mrs. Socha have two children, Richard, aged 7 years, and Joan, aged 2½ years.

Mrs. Melvin Travis and Mrs. Jerome Travis spent Sunday in Toledo with the former's sisters, May and Clara Baker. Other visitors in the home of the Baker sisters were Mrs. C. C. Steenrod of Maplewood, Ohio, Mr. and Mrs. George Fetzer of Columbus, Ohio, and Mr. and Mrs. Boston Baker and daughters, Eunice and Doris, with their families, all of Sidney, Ohio.

Walter Smith of Homer spent Sunday afternoon at the Mr. and Mrs. Leon Vealey home. Other guests in the same home have been Mr. and Mrs. Roy Ragan of Dickson, Tennessee.

Mr. and Mrs. Chester Jones of Monroe called Saturday evening on Miss E. L. Richart and also in the Mr. and Mrs. Ralph Mickel home. They were on their way home from visiting with his mother, a patient in the Ypsilanti State hospital since the first part of September.

Janice Hall, daughter of Mr. and Mrs. Douglas Hall, has returned home from the Saline hospital where she underwent a tonsillectomy.

S. A. Jeffries of South Bend, Ind., who with his wife frequently visits Mrs. Jeffries' sister and husband, Mr. and Mrs. Steven Hasted, is confined in the Leslie hospital where he has been a patient for two weeks.

Mr. and Mrs. Leon Vealey entertained at dinner Saturday, Mr. and Mrs. Jack Vealey and Mrs. Ted Root and family, all of Ann Arbor.

Mr. and Mrs. Steven Hasted and daughter, Patricia, were dinner guests Sunday in Pontiac of Mr. and Mrs. E. R. Mills.

Mr. and Mrs. Douglas Hall spent Sunday evening with Mr. and Mrs. Russell Hall of near Tecumseh.

GRANGE TO CELEBRATE

The 75th anniversary of the Onsted Grange will be celebrated, Saturday evening, November 12, at the hall. Bishop Marshall R. Reed of Detroit will be the guest speaker. All former members and Past Worthy Masters are invited to attend.

FRIENDS FAMILY NIGHT ATTRACTS LARGE CROWD

The second family night in connection with the six week's Sunday School attendance contest at the Friends church was well attended Wednesday evening. Two pictures were shown and a social hour enjoyed.

Last Sunday morning the attendance was 231, a gain of 31 over the first Sunday of the contest with Raisin Valley Friends Sunday School, putting Tecumseh way in the lead.

The Sunday School recently purchased 40 little folding chairs, and 60 big folding chairs and they arrived just in time to be used in this contest.

BRITTON

The Congregational Dorcas class will observe Friendly Service Day next Thursday at the church with a potluck dinner at noon. All ladies of the church are invited to attend.

The Methodist church is sponsoring a Harvest Donation of produce and canned goods for the Chelsea Home. Members and friends are to get their donation to the church before the services next Sunday.

A Perfect Gentleman

"What's your idea of a gentleman farmer?"

"He's a person," answered Farmer Corntossel, "who is so well fixed that he can waste profanity on a golf ball instead of on a mule."

RIDGEWAY

The Methodist Youth Fellowship will hold a box social at the church, Saturday, November 12, at 8 p.m. Everyone is welcome to attend.

Pooh, That?

Booth Tarkington was visiting Naples; he was present at an eruption of Vesuvius.

"You haven't anything like that in America, have you?" asked the Italian friend, with pride.

"No, we haven't," replied Mr. Tarkington. "But we have Niagara Falls—it would put that thing out in five minutes."

Mental Illness Is Increasing

ONE OUT OF SIX IN U. S. NOW SUFFERING FROM EMOTIONAL MALADJUSTMENT

Mental breakdowns are more common now than they have ever been before. Psychiatrists agree that our civilization is to blame for the fact that almost one in every six persons in the U. S. today is suffering from some kind of emotional maladjustment, says Arthur Gordon. Writing in Redbook Magazine for November, he tells you what the symptoms at the breaking point are and what to do about them:

"Some five million Americans are estimated to be suffering from psychoneurosis — that is, their everyday lives are impaired by emotional maladjustments. Psychiatrists generally agree that our civilization is to blame, but to get at the real trouble, why many of us feel adrift in the world, we probably have to dig deeper. Let us remember that:

"1. The average person today is dependent upon a job and a pay check. But his ancestors lived in the comparative security of a family farm.

"2. Today's wives are 'emancipated.' But a hundred years ago, the average mother was always at home, giving to her children a belief that she was always there to protect and love them.

"3. Finally, to be frank, few of us today live by a moral code which has real teeth in it.

"Occasional lapses do not mean the breaking point is near. Nuerosis is near only when certain mental troubles, repeated often, interfere with everyday living.

"One of the most frequent signs of neurosis is a growing feeling of inability to handle everyday problems. Other signs are irritability—flashes of rage out of proportion to the cause or, indeed, with no cause at all; worry over trifles, fits of depression that persist too long, loss of appetite, insomnia, bad dreams, fatigue without reason, headaches or other pains for which there are no physical causes, inability to concentrate, a haunting sense of guilt or fear.

"In the average person, unhappiness — or happiness — begins in childhood. Adults with serious mental trouble usually were badly treated as children. On this, Dr. Karen Horney says, 'The basic evil is invariably a lack of genuine warmth and affection (in childhood).'

"Remember that the early symptoms are only a warning. But if the symptoms persist, then there are certain things to do — and things not to do. First and foremost, do not ignore the symptoms. In the second place, do not try to cure yourself.

In the third place, do not consult your best friend. His or her viewpoint will be very close to your own. But if married partners can share all their problems, so much the better.

"Our first line of defense in most cases of emotional disturbance today is the clergyman. The second line of defense is the social worker with psychological training. Your doctor should be able to tell when the emotional condition of his patient needs specialized treatment.

"The last line of defense against mental disease is represented by the fully-trained psychiatrist. Private consultation with one of these [illegible] is [illegible] Apex. There are still less than 5,000 psychiatrists in the United States. Many of these work in clinics and mental hospitals, and, unfortunately, have no time for private patients."

Michigan Mirror

Non-Partisan News Letter

By Gene Alleman
(Special to The Herald)

A long-range legislative study of state government, patterned after the successful "Hoover commission" at Washington, is envisioned by some Republican legislative leaders. Loren Miller, research director, Detroit Bureau of Governmental Research and former aide to Governor Sigler, is favored for chairman. Governor Williams is cool to the idea, feeling that a state commission should be established, free from either legislative or executive office influences.

Frank Morris, Detroit Times Lansing correspondent, got an "exclusive" on this pipe-dream political conjecture: That Senator Arthur H. Vandenburg would like to make a deal with the Republican nominee for governor whereby Vandenburg would resign prior to expiration of his term in 1952 and his son, Arthur Vandenburg, Jr., would be appointed to succeed him.

The big "catch" in this: Michigan voters are notoriously critical of suspected political deals. Such conniving could hardly be a political asset to the Republican nominee in a race against Governor Williams. It certainly would not add any luster to the record of Vandenburg as a statesman.

The resignation - appointment idea recalls the deal among Republican aspirants for governor and lieutenant governor prior to the Republican primary in 1948. Running for governor were Sigler, Dr. Eugene C. Keyes and Judge Skillman. Candidates for lieutenant governor included Secretary of State Fred M. Alger and Keyes. On the promise that Keyes would run for governor, Judge Skillman withdrew. Then Alger pulled out, leaving Keyes without opposition.

What happened in November, 1948, is now political history. Dewey carried the state by 40,000 votes, while Sigler lost by 160,000. Evidently about 200,000 Republicans switched the ticket in protest against something. They elected G. Mennen Williams' governor of Michigan, for one thing.

Speaking of rumors, this one is very persistent: Dr. Keyes of Dearborn has a carefully mapped program to capture the Republican primary nomination for governor in 1950. He is definitely out to win this time, come what may. He has financial backing already pledged for a vigorous state-wide contest. We picked up this information from a reliable source in the Thumb recently, and it tallies fully with Lansing knowledge. No pun is intended, but — watch Keyes!

Lansing newspaper correspondents seem to agree that Governor Williams' star has been ascending steadily in recent months. "Don't write off Soapy Williams in 1950" is their judgment, one year before the election. This change of straws-in-the-wind opinion is based on the governor's successful bouts recently with Highway Commissioner Charles M. Ziegler and State Treasurer D. Hale Brake.

Effective publicists adhere to the theory that one good news story is worth two signed editorials. Hence the perpetual quest to present the client's side in the news. Some of the best propaganda stories, however, are purely accidental—just lucky breaks. An illustration of this overnight bounty was the news story from Tuscon, Arizona, about bankruptcy proceedings on the El Siglo Apartments. It seems that the state administration board invested $671,000 of the state employees' retirement fund in this property. In order to save the mortgage, Attorney General Stephen Roth now is trying to get a receiver appointed. Score another for Williams and Roth.

If you jump to the conclusion that this column has become partisan, then scan this item: Governor Williams has changed strategy in his 1949 campaign for re-election. No longer does he try to put Republicans on the defensive for an anticipated $50,000,000 treasury deficit. Inflation's return to 1949 economy, plus a June 30 surplus of $24,357,130 in the state treasury, have combined to scale down the expected deficit. Treasurer D. Hale Brake has even asked the governor to "repudiate" the 4 per cent corporation tax in view of the improved financial outlook.

The federal government's $5 billion deficit makes Michigan look like a piker. Even a $25,000,000 Lansing deficit by June 30, 1950 would be peanuts by comparison. Who's worried about the big bad wolf, anyway? Not us chickens!

CAN ALL COOK BOOKS BE WRONG?

In all the best cook books, recipes calling for white granulated sugar specify just "sugar." Not cane sugar. Not beet sugar. Not sugar from any particular plant.

Why?

Because all sugar for household use is sucrose, and *sugar is sugar* no matter whether it comes from sugar beets or sugar cane.

Leading Home Economists everywhere freely state that any supposed difference in pure sugars is simply a *figment of the mind.*

So it's smart shopping to *buy sugar for value.* Buy—

County of Lenawee. ss.
Probate Court for said County.

At a session of the probate court for the county of Lenawee, holden at the probate office, in the city of Adrian, on the 3rd day of November in the year one thousand nine hundred and forty-nine.

Present, HON. MAURICE E. TRIPP, Judge of Probate.

In the matter of the estate of SARAH ROSENBAUM, deceased.

On reading and filing the petition of Fay A. Wiggins, administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased, and the expenses of administration thus far incurred, have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this court shall seem proper.

It is ordered, That Monday, the 28th day of November next, at nine o'clock in the forenoon, be assigned for the hearing of said petition.

It is ordered, That a copy of this order be published in the Tecumseh Herald, a newspaper printed and circulating in said county of Lenawee, for three consecutive weeks, previous to said day of hearing.

MAURICE E. TRIPP,
Judge of Probate.

One Of These Mornin's Yur Kar'll Steam Like a Lokomotif

Unless Yon Get Her Anti-freezed and Made Ready for Winter

Yep, we know it and so do yuh, and yuh kant beat it. Dem dog blasted kars'll feez up and bust jist as sur a shootin' if yuh don't take kare of 'em. And when they freez and bust, man its 'spensive.

There jist ain't any reasin fur lettin' kars feez and costin' yuh a lot o money repairin' 'em. Yuh know and we know that cold weather's here and we also know jist what to expect. Then, please tell, why do we monkey 'roun.

Bring yur old nag or kar or whatever yuh call her down to our stabul for winterizin'. We'll drain her and put anti-freeze in her; be sure your hose connections are good, check the water pump, heater, etcetra, and make your old nag ready for winter gallupin. Don't kost but mighty little to do it now but, if yuh wait till yuh freeze her intestines, wahl, maybe a 'spensive operashun will be necessary. Batteries, too, need checkin this season of the year and the transmushun and diferintul needs thinner grease. All them things we do, too. Them's jist minor operashuns.

Now don't say we didn't tell yuh. If yuh kum in some mornin' all froze up and steam rollin out under the hood like a thrashin engin, wa'al, we'll be here to serve yuh. But honestly, we'd rather do it for it becomes a job that costs yuh money. In fact, we got a speshul on all this stuff and you can save a little money, too. Jist turn to page 4.

Anyhow, we've told yuh about it and now jist do as yuh please. We know yuh will, anyhow.

Fund Workers Are Organized

CAMPAIGN FOR TECUMSEH'S COMMUNITY CHEST BEGINS IN EARNEST

With organization practically complete, and with most of the key volunteers assigned to their territories, the 1949 Tecumseh Community Fund Drive is heading into its most intense aspects this week according to Ronald Harris, chairman of the drive.

"The securing of an adequate corps of volunteers properly spread around the community is the great time consuming task in preparation for the drive," Mr. Harris stated. "Captains for the various areas must be selected, and they in their turn have the task of securing volunteers in the various divisions of their area."

The growth of Tecumseh has made it necessary for some new divisions of the residential areas. Herrick Park is a division of its own this year, as is the area of new houses on Union street north of Brown and on Brown west of Union. Herrick Park last year was part of the Brownville division and the north Union area was formerly a part of the Northwest Division. In addition to these, the southwest division has been divided and a separate division has been created for the territory south of Chicago and west of Union. This further subdividing of the town was started last year and with new housing developing, further divid-

HARRIS SAYS THANKS FOR $40 FUND GIFT

Ronald Harris, chairman of the Community Fund drive, is consumed with curiosity as to the identity of an anonymous contributor to the 1949 drive.

A gentleman handed Wade L. Jones, village clerk, forty dollars to be turned over to the Fund. Moreover, the unidentified benefactor refused to accept a receipt or in anyway permit his name to be discovered.

"We hope the gentleman is a reader of The Herald," Harris said. "That is the only medium through which we can give him our official thanks."

ing has been carried out this year.

"It is too early to submit a report of progress to date," Harris said. "Many of our best workers cannot drop everything and start on the Fund drive immediately. Still others find that their work has been handicapped by the start of the deer hunting season.

"Nevertheless, we feel we have every reason to be encouraged. $280 was turned into campaign headquarters before the drive was even started. Thus, five per cent of our quota will not even need to be solicited.

"We also are encouraged by reports from other towns around the state relative to their drives which are already completed. Many towns which have been harder hit economically than Tecumseh have reported their drives as over the top. With the spirit that has always been shown in Tecumseh, we have every reason to believe that we also will report better than 100% success," the chairman said.

Blue Cross Plan Open To Public

NEW NON-GROUP ENROLLMENT MADE AVAILABLE TO COUNTRY RESIDENTS

A new non-group plan of Blue Cross hospital and surgical protection will be offered to all residents of Lenawee county, under age 65, who have been unable to obtain this non-profit service through employed or Farm Bureau groups.

The Blue Cross non-group plan will be made available during an area-wide community enrollment campaign, according to an announcement by T. P. Oliver, Hillsdale Blue Cross district manager.

Local residents must register for this non-group plan on or before December 2. They may do so at the participating hospitals in Adrian, Tecumseh, Morenci and Hudson, or they may obtain an inquiry form from any doctor in Lenawee county. Persons who register will receive a folder and an application card. The completed application will be accepted if mailed to Blue Cross on or before December 2.

A Blue Cross representative will be at the Tecumseh Hospital on Tuesday, November 29, to answer questions about the group or non-group plan.

Red Feather Fund Drive Gets Under Way

Active solicitation for funds in Tecumseh's Community Chest drive is now under way and Ronald Harris, chairman, hopes to exceed the quota by the end of this month. County W.C.T.U. Institute Here

ANNUAL ORGANIZATION MEETING HELD LAST WEEK AT FRIENDS CHURCH

The Lenawee county W .C. T. U. institute, held last week at the Friends church, was attended by a large number of members and guests. Mrs. Arloa Neuroth, the president, was in charge of the all-day meeting.

Songs used at the diamond jubilee convention of the national W. C. T. U. held recently in Philadelphia, opened the morning session. The devotional service was led by Mrs. Lucille Neuroth and discussions on literature and spiritual life were led by Mrs. Neuroth and Mrs. Jennie Porter. "Spiritual Education" was the subject of an address by Mrs. Pearl Powers of Adrian. A quartet, composed of Mrs. Mildred Nofsinger, Mrs. Lida Betz, Mrs. Helen Abling and Mrs. Bessie Cory, all of Blissfield, and accompanied by Mrs. Alice Eyebart at the piano, furnished special music.

During the afternoon session, the program included an address by Mrs. Edward Escolme on "What Think Ye of Christ," and Mrs. Parker Tagsold of Blissfield used for her topic "What Do Our Children Hear?" The color film, "Liquid Lore" was shown by the district president, Mrs. Gertrude Thompson of Ann Arbor.

Special music for the evening session was furnished by Mrs. Mildred Frye, Mrs. Lucille Judson, Mrs. Abling and Mrs. Alice Isley, all of Wellaville, accompanied by Mrs. Parker Tagsold at the piano. Mrs. Elizabeth Irwin of Detroit, second vice president of the Michigan W. C. T. U. delivered the address on the topic "Where Prayer and Purpose Meet," Guests were from Ogden, Blissfield, Adrian, Addison, Ann Arbor and Detroit.

INFANT BURIED

Burial services were held in Brookside cemetery, Tuesday afternoon, for the infant daughter of Mr. and Mrs. Gerald G. Foote, 306 East Pottawatamie, who died at birth at Tecumseh hospital, Saturday evening. The Rev. C. E. Stewart of Toledo officiated. Surviving besides the parents are two grandmothers, Mrs. Anna LaPointe of Toledo and Mrs. Emma Foote of Adrian, and several aunts, uncles and cousins.

Mrs. Abigail Snauble Is Buried At Macon

Funeral services were held Sunday afternoon from the Collins Funeral Home for Mrs. Abigail E. Snauble, aged 91 years, who died Thursday at 2:40 a.m., in Tecumseh hospital, where she had been a patient for 13 days. The Rev. O. E. Priest officiated and burial was in the Macon cemetery.

The bearers were Earl Lindsley, Ellsworth Lindsley, Max Collins, Walter Carven, Clare Runyon and Bruno Papadori. Friends and relatives attended the services from Lansing, Mason, Ann Arbor, Saline, Clinton, Macon, Britton, Tecumseh, Adrian, Dansville and New Hudson.

Born in Saline, May 11, 1858, Mrs. Snauble had resided at the farm home two miles northwest of Macon in Saline township until 1941, when she began making her home with her daughter, Mrs. Raynor Scudder of Saline township. She had lived there since. She was a member of the Saline Baptist church and several ladies organizations in the community.

Surviving are two daughters, Mrs. Scudder of Saline and Mrs. Carol Kuder of Clinton; one son, Fred of Saline; one grandson, Wade Scudder, several nieces and nephews, and one cousin, Miss Lottie Wallace. Her husband, Peter Snauble, whom she married September 9, 1881, preceded her in death on October 10, 1910.

TO OMIT LADIES DAY

D. A. R. Will Sponsor Poppy Brownie Troop

Some 35 members and guests of Abi Evans chapter, Daughters of the American Revolution, were entertained Friday afternoon, November 11, at the home of Mrs. Neville Hart.

During the business meeting at which Mrs. Louis Schneider, regent, presided, Mrs. O. W. Laidlaw reported that the chapter had sent two packages of clothing to the Cronor School, located in the South. Members are to bring cash donations to the December meeting and these will be given as a Christmas gift to a D. A. R. Approved School.

It was voted to sponsor the 12-member Poppy Brownie troop, of which Mrs. George Wittrup is leader. Reports from the regional meeting held recently in Jackson were given by Mrs. Hoyt Whelan, Mrs. Floyd Elliott and Mrs. Arthur Brown.

The program chairman, Mrs. R. T. Armstrong of Adrian, presented the guest speaker, Mrs. Earl Place, who spoke interestingly on the topic "Armistice Day, 1949."

Tea was served from a candlelighted table with Mrs. Lucy Terry and Mrs. R. S. Moore presiding at the urns. The December meeting will be Guest Day and will be held at the home of Mrs. Floyd Elliott.

CHILD STUDY CLUB ENTERTAINED, MONDAY

Mrs. Wallace Whiting entertained the Tecumseh Child Study Club, Monday evening, with Mrs. Mervyn Holtz, Mrs. Kenneth Johnston and Mrs. Richard Preston as co-hostesses.

During the business meeting it was voted to give $5 to Town Hall and $5 to Den 2 of Cub Scouts for handicraft material. Mrs. Earl Place and Mrs. Truman Rentschler presented a most interesting program on the topic "Boy Meets Girl."

In conclusion refreshments were served by the hostesses. The children's favors were paper turkeys filled with candies made by Mrs. W. N. Winfield, Mrs. Virginia Ross and Mrs. Hoyt Raymond.

VETS REMEMBERED

Some 30 members of Hall-Slater post, Veterans of Foreign Wars, met last week Wednesday evening in the post rooms for dinner, given by the Veterans Club. Dale Carpenter and Raymond Solarsky were admitted as new members of the post. During the business meeting it was voted to send ten dozen decks of playing cards to a veterans' hospital for use by patients.

YOU'D BETTER MEAN IT WHEN YOU SEND GREETINGS

Christmas Card Postage Is Higher This Year

Its going to cost you more money this year to mail your Christmas greeting cards.

F. E. N. Thatcher, acting postmaster in Tecumseh, warned today that holiday greeting cards carrying one-and-a-half cents postage stamps will go to the dead letter office. There's no other place for them to go under the new Post-office Department ruling.

The new postal law permits the mailing of greeting cards this year in unsealed envelopes at a rate of two cents each. If the envelope is sealed, the rate is three cents. The old one-and-a-half cent rate is gone with the New Deal.

In an unsealed envelope the sender may write his or her name on the card and he may, if he so desires, say "Merry Christmas," or "Season's Greetings," or something like that, but nothing more. There must be no personal message.

If a personal message is included on or with the card then it must bear a three cent stamp. Its a violation of the law to mail it with a two cent stamp. All relaed envelopes, oo, must bear a three cent opes, too, must bear a three cent

The two-cent stamp law was in effect at Valentine time, Mr. Thatcher said, and a number of local children mailed their greetings with one and a half cent stamps.

"A number of us here in the local postoffice felt sorry for the kiddies and we took up a collection and paid for half-cent stamps to be affixed to the cards so that delivery could be made," Thatcher said. "However, now we are warning patrons that there is a two-cent minimum, and if cards are mailed now with less than two cent postage they will go to the dead letter office."

Athletic Club May Be Formed

WOULD FURNISH SUPERVISED RECREATION FOR THE BOYS OF TECUMSEH

Organization meetings are now under way and in the near future, it is hoped, a new Athletic Club for all boys in Tecumseh will be opened on the third floor of the Lilley Building, it was announced today. The building is owned by C. F. Sage and he is donating the use of the rooms for the club, rent free.

While the formation of the club is still in tentative stages, it is the plan to make the new recreation rooms a place where the youth of the town may play athletic games under supervision. There will be boxing, wrestling, tumbling, basketball, volley ball, shuffle board and other games for amusement. It is hoped to make the club dues free and open to all boys who desire to participate.

Persons interested in the new project said today that at present there seems to be no place here where boys may play athletic games, particularly supervised sports. It is hoped that teams and contests may be organized, holding the interest of the club members.

A canvass of organizations and individuals interested in supporting the new club, financially, is now being made and is meeting with success, it is said. If it is found that sufficient funds are available for the project, and that there is sufficient interest among the boys, a meeting will be held and officers elected. Necessary equipment will then be purchased and the club opened daily under adult supervision.

UNION CHURCH SERVICE AT ST. PETER'S, NOV. 24, AT 10 A.M.

Tecumseh's Union Thanksgiving service will be held in St. Peter's Episcopal church, November 24 from 10 to 11 a.m., it was announced today by the Tecumseh Ministerial Association, sponsor of the annual event. The Rev. Norman MacNaughton, D. D., will deliver the sermon.

The Rev. Allan Ramsay, rector of St. Peter's, expressed the hope that the church would be filled for the service. There will be special music and the Rev. Mr. Ramsay, the Rev. Donald C. Wilson and the Rev. Edward Escolme will participate in the worship. The Baptist, Friends, Methodist, Presbyterian and Episcopal churches unite annually on Thanksgiving Day.

Thanksgiving Day services at the Grace Ev. Lutheran church will be held Thursday, November 24, at 10 a.m., with the pastor, the Rev. J. deRuiter preaching.

High School Band At U Stadium, Saturday

The Tecumseh high school band appeared with 28 other Michigan bands at the Band Day held at the University of Michigan, Saturday. The massed bands appeared during the half-time of the Michigan-Indiana football game and, under the direction of William D. Revelli, director of the University band, and Mr. Lee, assistant director spelled out the word "Band" followed by the word "Sousa." When the formations were complete the bands extended the entire width and length of the gridiron, creating a spectacle which thrilled thousands of fans.

Tecumseh, Blissfield and Adrian represented Lenawee county at the Band Day, which Mr. Revelli hopes will be an annual event.

New Ford Cars Here On Friday

1950 MODELS WILL BE DISPLAYED TOMORROW AT BUTLER MOTOR SALES

The 1950 Ford line of passenger cars, with scores of improvements, was made public today by the Ford Division of Ford Motor Company.

"The progress that has been made in performance, economy, safety, comfort and appearance will again mark the 1950 Ford as the car of the year," according to L. D. Crusoe, vice-president and general manager, Ford Division.

The new Fords will be on display in the show rooms of Butler Motor Sales tomorrow.

All improvements in the 1950 Fords have been geared to offer even greater quality than was offered in the high quality 1949 Ford cars.

The new features embody improvements throughout the entire car—in the engine, the body, the seats, doors, frame, trunk, fabrics, instrument panel, brakes, floors and elsewhere.

The '50 Fords will be offered in two lines—the Custome Deluxe and the lower-priced Deluxe series. A full range of body styles will be available, including station wagons and convertibles. Ford will continue to offer the choice of two engines—the 100-horsepower V-8 and the 95-horsepower Six.

Sugarboys Bow To Indians, 25-0

TECUMSEH PLAYS LAST GRID GAME OF SEASON AT BLISSFIELD PARK

(By Don VanCamp)

The Tecumseh Indians closed their 1949 football season, Friday evening, by defeating the Blissfield Sugarboys 25 to 0 at Blissfield. The Indians were slow getting started and the first quarter was mostly a defensive game, except for two long gains by halfback Ron Henkel, one good for 20 yards and the other for 25.

In the second quarter Tecumseh got started when fullback Dick Wheeler went over tackle five yards for Tecumseh's first touchdown. The Indians scored again in the second quarter when end VanVlekenburg fell on a Blissfield fumble on their own 25. From that point Tecumseh drove to the three where halfback Henkel drove his way through the line for the T. D. At halftime Tecumseh led 13-0. Henkel had passed to McDowell for the extra point.

When the second half got underway Tecumseh was stopped for a while. Henry kicked and a Blissfield back fumbled. Tecumseh recovered and drove to the one but got a five yard penalty before Dave VanWinkle took the ball for a touchdown. Henkel's pass for the extra point was no good.

COSTS CAN'T COME DOWN?

In reality, what the United States government is saying in its suit to dismember the Great Atlantic & Pacific Tea Company is this: "Prices must not come down."

Summing up that conclusion, a Massachusetts newspaper, editorially, recently put it this way: "Bigness, it seems, is so bad that it cannot be tolerated even if it brings blessings to the people in the form of low food prices."

Should the people, as a majority, go along with the government in this type of thinking—if this type of thinking should be generally accepted by Americans—we can, at that time, kiss our high standards of living good-bye. The day of free enterprise will be gone, and so will our freedom.

The reasons for the government's anti-trust suits against the chain can, perhaps, best be summed up in the U. S. attorney's own words: "The very heart of the government's complaint is, in effect," the lawyers said to the court, "that the company used the profits from what the government calls its non-retail operations to lower its retail prices. And the government contends by such practices the A. & P. made it difficult if not impossible for others to compete. Without these advantages which permit A. & P. to reduce gross profits, no competitor can hope to remain long in business."

To the average layman, the legal terms mean just this: Because a large corporation has discovered ways and means of reducing prices to the consumer it is a wicked corporation and should be torn apart.

And then the lawyers go further and say, in substance, that no one can meet the chain's competition. How untrue that statement really is everybody knows. In most communities where A. & P. operates there are dozens of other stores, some chain and some independent. All of them are doing well, in fact more food stores are being established. It has long been a true saying in America that competition is the spice of life, and any alert merchant will tell you that A. & P. competition is clean competition.

It is past time for America to decide which road it desires to travel, whether it will be the road to free competition, free enterprise, liberty and the right to pursue happiness or, whether corporation and individual alike must bow to the whims of some political office holder.

If we don't make our decision soon, it may be too late to make any decision at all.

Undulent Fever Is On Upgrade

HEALTH DEPARTMENT BELIEVES THERE ARE 640,000 CASES IN STATE

Undulant fever is a much greater problem in Michigan than most people even suspect, Dr. F. S. Leeder, director of the Division of Disease Control, Michigan Department of Health warned today.

There are probably 640,000 Michigan people who are infected with brucellosis (undulant fever), and 6,400 of these people are seriously ill of the infection, Dr. Leeder said.

How few of these people actually realize that they are sick or have been to their physicians for diagnosis is shown by records of the Department of Health which lists only 163 cases of the disease so far this year and only 998 cases in the previous five years.

Many people are ill of brucellosis who simply feel tired, worn out, depressed or uneasy. Symptoms may include headache, aching joints and muscles, chills and fever, listlessness, loss of appetite, sweating, sleeplessness and numbness in the arms and legs. In the acute stage of the disease fever may range from 101 to 104 degrees with a wavelike succession which gives the disease its common name.

Only a physician can diagnose and treat brucellosis and the earlier he is consulted the better. Recovery from the disease is slow, but new drugs and antibiotics offer promise.

Humans get brucellosis from infected animals or animal products. Most adults get the disease from handling the diseased animals or their carcasses. Children usually get the disease from drinking unpasteurized milk from infected cattle.

The disease in animals is called Bang's Disease or contagious abortion. In Michigan it is largely confined to cattle and swine, but goats horses, poultry and some other animals may be infected.

Best protection against the disease is the destruction of diseased animals, vaccination of calves, care in handling all animals or their carcasses and the use of pasteurized milk and milk products, Dr. Leeder pointed out.

A London scientist says the world will last 50,000,000 years longer. Yes, but the pedestrians won't.

What's YOUR price tag on happiness?

JUST what do you see in this handsome, tidy-sized Buick SPECIAL pictured here?

The smartest bit of automobile styling on the road today? The standout beauty of tapering fenders—the sturdy protection of a wholly new front-end design?

The prestige that's in the Buick name—the solid, road-wise steadiness Buick has always stood for?

Your chance to get in on the perfect smoothness of Dynaflow Drive*—this being the lowest-priced car on which that sensational new transmission is available?

*Optional at extra cost.

They're all there, every one of those things. And for a good reason that may go a bit beyond the usual idea in designing an automobile.

For, a long while ago, we graduated from the idea that a motorcar is merely a means of getting about.

The *way* you travel is pretty important too. The lift that's yours in knowing there's no prettier picture anywhere on the highways. The "kick" there is in a power plant that's lively and eager and always ready to get in on the fun.

The comfort that's found in all-coil springs, a husky, steady-traveling understructure, cushions that are deep and soft and wide enough to let you spread yourself a bit.

Even that extra swelling of the chest that comes from owning a car you know everyone respects and admires.

In a word—your happiness. It's never out of our mind in planning this car—nor in making very sure each dollar of cost gives you the greatest possible benefit.

That's why we rather proudly ask you to go see—and try—this Buick SPECIAL. It's priced like a six, in spite of the fact that like all Buicks, it's a big-powered Fireball valve-in-head straight-eight.

And we honestly believe that it puts a lower price tag on your motoring happiness than any other car you can buy today! See your Buick dealer and find out about that.

Trustee Driscoll moved adoption of an Ordinance to License and Regulate Mechanical Amusement Devices and to Provide a Penalty for the Violation thereof.

THE VILLAGE OF TECUMSEH ORDAINS:

ORDINANCE NO.

An Ordinance to License and Regulate Mechanical Amusement Devices and to Provide a Penalty for the Violation thereof.

THE VILLAGE OF TECUMSEH ORDAINS:

Section 1. **Definition:** A mechanical amusement device is hereby defined as a machine, which upon the insertion of a coin or slug, operates or may be operated for use as a game, contest or amusement of any description or which may be used for any such game, contest or amusement, and which contains no auromatic payoff device for the return of slugs, money, coin, tokens or merchandise. A mechanical amusement device shall also be deemed to include any game, contest or amusement in connection with which any mechanically operated device, which, upon the insertion of a coin or slug, may be used for the purpose of keeping score of such game, contest or amusement.

Section 2. No person, firm or corporation shall operate a mechanical amusement device as hereinbefore defined, nor permit the same to be operated in a restaurant, store or other public place under the control of such person, firm or corporation, without a license being first obtained for such amusement device.

Section 3. Each mechanical amusement device for which a license is sought, as hereinafter provided, shall first be approved by the Chief of Police of the Village of Tecumseh. Upon the approval of any such mechanical amusement device by the Chief of Police of the Village of Tecumseh, the owner of such device, or person having the same in charge, shall apply to the Village Clerk of the Village of Tecumseh for a license permitting the operation of any such mechanical amusement device, which application shall state that device will be operated for amusement only. The Village Clerk is hereby authorized to issue a license for the operation of any such mechanical amusement device upon the payment of an annual operator's license fee of Two Hundred Fifty ($250.00) Dollars for the first device and a fee of Five ($5.00) Dollars for each additional device owned by the same operator. The owner of more than one device shall be classed as an operator; for one privately owned device, a fee of Twenty-five ($25.00) Dollars per license year. Said license shall expire on March 31 of each year.

Section 4. Every amusement device so licensed shall contain suitable identification marks and numbers, which identification marks and numbers shall be written by the Village Clerk upon a license issued for such amusement device and such license shall be permanently affixed to such machine. A record of such licenses so issued shall also be kept by the Village Clerk.

Section 5. No person, firm or corporation being the owner of any such amusement device shall permit the same to be operated in the Village of Tecumseh without a license having been obtained for the same as herebefore provided.

Section 6. No person, firm or corporation shall permit such mechanical amusement device to be operated in any place of business owned by or under management and control of said person, firm or corporation in the Village of Tecumseh, without a license having been first obtained for such mechanical amusement device as herebefore provided.

Section 7. No person, firm or corporation shall operate any mechanical amusement device, nor permit the same to be operated in any establishment under the operation, management or control of such person, firm or corporation, which device shall be so constructed that the same may be converted into an automatic payoff device which shall discharge slugs, coins or other tokens.

Section 8. Any machine, apparatus, contrivance or device which shall be made use of in violation of the terms of this Ordinance may be seized and destroyed by the Police Department of the Village of Tecumseh, in compliance with the Statutes of the State of Michigan relative to gambling devices.

Section 9. Any person who shall operate such mechanical amusement device without first paying the annual license fee therefor, or who shall permit the same to be operated in any store, restaurant, establishment or other place under the control and management of such person, without a current license having been obtained and attached to said machine, as herebefore provided, or who shall otherwise violate the terms of this Ordinance, shall be punished by a fine not to exceed One Hundred ($100.00) Dollars, together with costs of prosecution, and in default in the payment thereof, by imprisonment not to exceed ninety (90) days in the Lenawee County Jail.

Section 9 (a). No person shall permit a mechanical amusement device under his control or management, or on premises under his control or management, to be operated by any person who shall not have attained the full age of seventeen (17) years. The Village Council may, upon satisfactory proof submitted to it that such a violation has occurred, revoke the license for all mechanical amusement devices on the premises where such violation occurred, and may prohibit the further operation of other mechanical amusement devices on such premises. Any person who shall violate any of the provisions of this section, or who shall permit the operation of any mechanical amusement device after the license therefor, has been revoked as aforesaid, or who shall permit the operation of any mechanical amusement device upon premises where such operation has been prohibited by the Village Council shall upon conviction be punished by a fine of not more than One Hundred ($100.00) Dollars, or by imprisonment for a term not exceeding Ninety (90) days, or by both fine and imprisonment in the discretion of the Court.

Section 10. This Ordinance shall take effect thirty (30) days from the date of its passage.

Trustee Driscoll moved adoption of an Ordinance to License and Regulate Mechanical Musical Devices and to Provide a Penalty for the Violation Thereof.

ORDINANCE NO.

An ordinance to License and Regulate Mechanical Musical Devices and to Provide a Penalty for the Violation Thereof.

THE VILLAGE OF TECUMSEH ORDAINS:

Section 1. **Definition.** A mechanical musical device is hereby defined as a machine which upon the insertion of a coin or slug, either in the machine or a slot connected with the machine, plays recorded or transcribed music.

Section 2. No person, firm or corporation shall operate a mechanical musical device as herebefore defined, nor permit the same to be operated in any restaurant, store or other public place, under the control of such person, firm or corporation, without a license being first obtained for such musical device.

Section 3. Any person, firm or corporation desiring to operate any such mechanical musical device in any of the places provided for in Section 2 shall apply to the Village Clerk of the Village of Tecumseh for a license permitting the operation of such mechanical musical device upon the payment of an annual license fee of One Hundred ($100.00) Dollars for the first device, and a license fee of Five ($5.00) Dollars for each additional device owned by such operator. The owner of more than one (1) device not operated in his own premises shall be classed as an operator provided: an owner's license shall be issued for privately owned devices operated in the premises of the owner of such devices upon the payment of a fee of Twenty-five ($25.00) Dollars for each such device per license year. Such license shall expire on March 31 of each year.

Section 4. Every musical device so licensed shall contain suitable identification marks and numbers, which identification marks and numbers shall be written by the Village Clerk upon a license issued for such musical device and such license shall be permanently affixed to such machine. A record of such licenses so issued shall be also kept by the Village Clerk. The license may be transferred from one musical device to another, to be placed in the same location.

Section 5. **No person, firm or** corporation being the owner of any such mechanical musical device shall permit the same to be operated in any of the places provided for in Section 2 without a license having been obtained for the same, as hereinbefore provided.

Section 6. No person, firm or corporation shall permit such mechanical musical device to be operated in any of the places defined in Section 2, owned by or under management and control of said person, firm or corporation in the Village of Tecumseh, without a license having been first obtained for such mechanical musical device, as hereinafter provided.

Section 7. Any person who shall operate such mechanical musical device without first paying the annual license fee therefor, or who shall permit the same to be operated in any store, restaurant, establishment or other place under the control or management of such person, without a current license having been obtained and attached to said machine, as hereinbefore provided, or who shall otherwise violate the terms of this Ordinance shall be punished by a fine not to exceed One Hundred ($100.00) Dollars, together with costs of prosecution, and in the default in payment thereof, by imprisonment not to exceed ninety (90) days in the Lenawee County Jail.

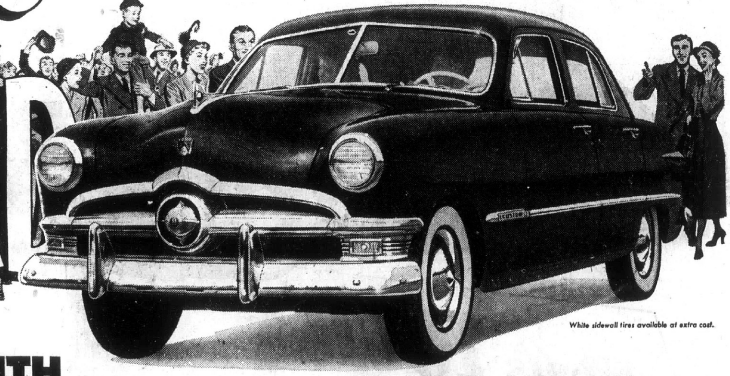
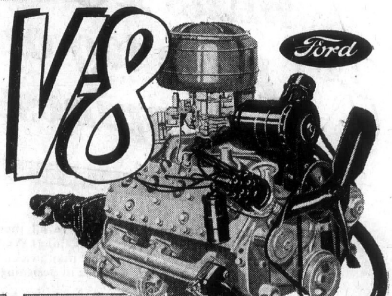
1950 FORD
IT'S HERE FRIDAY AND 50 WAYS NEW!



White sidewall tires available at extra cost.

WITH THE EXCLUSIVE NEW 100 H.P. FORD V-8



ITS QUIET WHISPERS QUALITY

It's the quiet of new super-fitted pistons, new "hushed" timing gear, new fan designed for better cooling at slower quieter speeds. And what power! There's a full 100 horsepower wrapped up in this V-8 design that makes you master of any road. It delivers more power than any other car anywhere near Ford's low price and sells for less than most conventional "sixes." And Ford offers a Six, too—an advanced Six with 95 horsepower.

NEW SOUND CONDITIONING

New "sound conditioning" in floor, doors and body panels insulates Ford's "Lifeguard" Body against road noises. More extensive body insulation and sealing in 41 areas give additional interior quietness and protection.

There's a Ford in your future ...with a future built in

NEW "HUSHED" RIDE

Ford's famous "Mid Ship" Ride is now so quiet you can talk in whispers while travelling at highway speeds. So smooth (with its great team of "Hydra-Coil" and "Para-Flex" Springs) that it virtually erases every bump.

NEW QUALITY FEATURES

New quality is easy to find in this 50-way-new Ford. You find it in the new push-button door handles, in the new rotary door latch that needs only a feather touch to open, yet glosses so securely. You find it in new sparkling upholstery colors.

NEW DRIVING COMFORT

Not only does the 1950 Ford offer you more hip and shoulder room than any other car in its field—it offers you the long-lived driving comfort of a new foam rubber front seat cushion over new non-sag seat springs. Arrive relaxed after hours of riding.

But see it for yourself. Drive it so you can feel and hear the difference. And price it and see how much less it costs than any other really fine car.

Obliging

A young subaltern joined a guard's depot, his upper lip as yet unadorned with even the suspicion of down. The adjutant sent for him.

"You must grow a mustache."

"Yes, sir."

"And not one of those Chaplin affairs—a proper mustache."

"Yes, sir."

The interview was finished, but the subaltern did not move, so the adjutant asked: "Well, what more do you want?"

"Any particular color, sir?"

NOW!

Michigan's most widely-used HEALTH PROTECTION Is offered to individuals and family groups!

Anyone under 65 now eligible for Blue Cross non-profit Hospital and Surgical Plans! No physical examination! No health statement!

MICHIGAN HOSPITALS' AND DOCTORS' OWN HEALTH PLAN

FOR A FEW CENTS PER DAY you can protect yourself and your entire family against crushing hospital and surgical costs, through the Blue Cross Plans.

Over 1,500,000 people in Michigan now have Blue Cross protection. Most of these enrolled through factory or office worker groups. Now, however, Michigan's hospitals and doctors own non-profit health plan is available to individual subscribers during the Community Enrollment Campaign.

Hospital Benefits

The Blue Cross Community Hospital Plan places *no cash limit* on a broad range of hospital extras, such as, the operating room, drugs (including penicillin and streptomycin), oxygen, laboratory services, etc . . . and, in addition, pays up to $7 per day toward *any* hospital room accommodations for as many as 30 days.

Surgical Benefits

The Blue Cross Community Surgical Plan—pays liberal amounts for operative and cutting procedures for the treatment of disease, injury, fractures and dislocations. (More than 370 surgical procedures.)

Anyone Under 65 May Enroll

Any person under 65 years of age, residing in this area, may enroll in Blue Cross Community Plans during the campaign. Once a member, you can keep Blue Cross even after you become 65, with no reduction in benefits. No physical examination—no medical history. (Benefits for chronic and pre-existing conditions and removal of children's tonsils and adenoids available after six months' membership.)

Non-Profit Means Low Rates

Rates for hospitalization and surgical protection under the non-profit Blue Cross Community Plans are as low as $2.35 per month for one person; and only $6.12 per month for husband, wife, and all unmarried children under 19 years old.

You Can Benefit Even More Under a Group Plan

For firms employing five or more people, special Blue Cross Group Plans offer even greater benefits, including a plan for payment of the doctor's hospital calls in non-surgical cases. Talk over with your employer how your company can arrange for this protection. Farmers can take advantage of Group Plan benefits by forming a group through the Grange or Farm Bureau.

Don't Delay! Act Now!

In the fourth quarter Tecumseh fans saw their Indians score again when VanWinkle tossed a 25-yard pass to end McDowell for Tecumseh's last tally. Henkel's pass for the extra point was no good.

The Indians had the Blissfield defense baffled throughout the game. Tecumseh scored two other touchdowns but both were called back on penalties. Halfback VanWinkle scored both of them. Coach Duvall started an all senior team except for quarterback and one guard. The outstanding players of Friday night's game were backs VanWinkle, Henkel, Whelan and linemen Judd, McDowell and VanValkenburg. Blissfield's outstanding player was halfback Dale Kastel, who picked up four of their five first downs. Tecumseh made 13 first downs.

The lineups were as follows: Tecumseh—Centers, Campbell, Eggleston; guards, Jackson, Judd; tackles, Goodacre, Withrow; ends, VanValkenburg, McDowell; backs, Henkel, VanWinkle, Whelan, Breitenwischer. Blissfield—Center, Roback; guards, Kastel, Simpson; tackles, Klump, Plotter; ends, Butts, Riddering; backs, Maloney, Dunbar, Kastel, Luce.

4-H Crop Show

(Continued from Page 1)

ed seed corn this past spring, are expected to exhibit a ten ear sample of each kind of hybrid in their plot. All other field corn members will exhibit a ten ear sample of one kind of corn. For other crops members, the following exhibit requirements will be followed: popcorn ten ears; potatoes, 32 tubers; wheat, oats, barley, soy beans, one peck each; sugar beets, three beets.

In order that ample time be given to the judges to complete their work, it is requested that exhibits arrive not later than 4 p.m. on Monday, November 21. As many exhibits as possible should arrive in the morning or early afternoon of that date. Unless exhibits are in place not later than the designated time, there will not be sufficient time for the judges to complete their work and announce the judging results as part of the evening program.

This event is for all vocational and 4-H club members in crops work, their parents, all 4-H local leaders and wives, vocational instructors and their wives, for all sponsors of the crops projects program and their families and all others interested in the Lenawee County Junior Project Crops Program.

As part of the evening program the judges will select the 10 or 12 best ten-ear samples of a corn to represent Lenawee County at the International Hay and Grain Show to be held in conjunction with the International Livestock Show in Chicago later this month. At the conclusion of the program entertaining movies will be shown.

MUSIC CLUB ENJOYS PROGRAM ON TUESDAY

The Tecumseh Music Club met Tuesday evening at the home of Mrs. Murray Day. During the business meeting, at which Mrs. May Packard Mulvaney presided, it was voted to give $5 to Town Hall and to sponsor the Golden Rule Brownie troop No. 14, of which Mrs. Thomas Gallant is leader.

Miss Edith Ingersoll presented the program of popular music as follows: Piano solo, "Rhapsody in Blue," (George Gershwin), Diane Dillon; vocal solo, "Ah, Sweet Mystery of Life," (Victor Herbert), Mrs. Day; piano solo, "Dixieland," (concert paraphrase), Mrs. Herbert Dillon; piano duet, "Stars and Stripes Forever," (Sousa), Mrs. Dillon and Mrs. Wilfred Waldron. Group singing of old familiar popular songs were enjoyed and Miss Ingersoll gave some interesting facts as to how several of the songs were written.

Refreshments were served at the conclusion by the hostess and her assistant, Mrs. Gibbs Barber.

LOCALS AND PERSONALS

Mr. and Mrs. Robert Manchester and daughter Mary spent Sunday evening in Dearborn.

Sunday dinner guests of Mr. and Mrs. Don Goddard were Mr. and Mrs. Frank Nedison, Mr. and Mrs. Lawrence Bloom and Mrs. Catherine Sewick, all of Detroit.

Robert Manchester and Jack Puffer spent from Monday to Wednesday in Chicago on business.

Mr. and Mrs. Don Goddard showed the movies of thei European trip at a joint meeting of civic clubs at Hudson, Tuesday evening.

PAST CHIEFS CLUB

The Past Chiefs Club will meet Friday, November 18, at the home of Mrs. S. N. Kring, 516 W. Pottawatamie St., at 8 p.m., with Mrs. Ed Swift as assisting hostess.

Pictured above is the 1950 Ford de luxe tudor sedan that goes on display here tomorrow at Butler Motor Sales. There are many new features incorporated in the new car for both comfort and safety.

Want To Feel Younger? Then Skate With Scouts

"If anyone over thirty would like to feel many years younger for a couple of hours—at the risk of aching muscles the next day—he should attend a roller skating party with Tecumseh's Cub Scouts of Pack 4," a spokesman for the pack said today. Saturday, November 12, seventy Cub Scouts, with their den mothers and interested parents attended a skating spree at the Sand Lake rink. Everyone had lots of fun and no broken bones have been reported, it was said.

Monday evening, November 21, the regular monthly pack meeting will be held at the high school auditorium at 7:30 o'clock. The meetings are usually held at the Baptist church but next week's meeting is to be held at the school.

After a program, to be conducted by the cubs on the theme of "Keep Strong," awards will be presented and a graduation ceremony will be held for fifteen boys whose cubbing activities will end by December 1. These boys are actively interested in Boy Scouting and will be welcomed into Tecumseh's troop by Scoutmaster Dean Briggs.

Paul Wright, new Scout Executive of the Lenawee area, will assist in the award ceremonies.

All parents and friends of Boy Scouts as well as Cubs are invited to attend.

HOLLOWAY

Harvey Lewis and Gail Austen left Monday morning for Harrison for a week of deer hunting.

Mr. and Mrs. Allen Schmid of East Lansing spent the weekend with her parents Mr. and Mrs. Harvey Lewis.

Mr. and Mrs. George Gehring of Toledo were dinner guests of Mr. and Mrs. George Henry, sr., recently. Sunday Mr. and Mrs. Henry were the house guests of Mr. and Mrs. R. Ritter of Clayton.

Mr. and Mrs. Guy Phipps and children of Jasper spent the weekend with Mr. and Mrs. Marshall Drouillard.

Mr. and Mrs. John Calhoun were in Toledo on Monday.

Larry Green celebrated his birthday Saturday afternoon when his mother Mrs. Elwyn Green asked eight boys in for refreshments and matinee at Adrian theatre. Larry received many gifts from the boys present.

Mrs. Ken Kopke is expected to return Monday evening after spending several days visiting relatives at Mattoon, Ill. Mr. and Mrs. Fred Kopke of Adrian accompanied her.

Leo Cheney of Toledo, Allen Blouch and Raymond Frost of Holloway left Saturday for Curtis to hunt deer.

Mr. and Mrs. J. D. Jaqua returned home Sunday evening after spending Saturday and Sunday touring through Ohio and into West Virginia.

The Ladies Aid of the Holloway Presbyterian church will hold their November meeting Thursday noon with Mrs. Howard Swift in her home. Final plans for the turkey dinner and bazaar will be made to be held December 8. There will also be an auction with each member furnishing an item to be sold. Mrs. Swift will be assisted by Mrs. Clark Sinclair as leader and devotions by Mrs. Irene Fairbanks. Dinner will be served co-operative promptly at noon on Thursday.

Dr. and Mrs. J. J. Canfield announce the marriage of their daughter Barbara June to Sidney Howard Sinclair, son of Mr. and Mrs. Clark Sinclair of Holloway at the First Methodist church of Middletown, Ohio, at 7:30 p.m., Sunday, November 13. After the ceremony the couple left for their honeymoon in Florida. Upon their return they will reside in Holloway. Mr. Sinclair will be employed at the Hurd Lock in Adrian after December 1. Those from Holloway who attended the wedding were Mr. and Mrs. Clark Sinclair and daughter Marilyn, who acted as bridesmaid to Miss Canfield.

Mrs. Irene Williams and Mr. and Mrs. Lawrence Williams and children visited Mrs. Bessie Tew who is a patient in the St. Joseph hospital in Ann Arbor and found her in a satisfactory condition after surgery last Wednesday. Mrs. Tew makes her home with Mr. and Mrs. L. Williams.

Mr. and Mrs. Elmer Struyk of Port Huron and Mrs. Ethel M. Haynes of Detroit were dinner guests Sunday of Mr. and Mrs. Edward Mitchell and family.

Mrs. Wilson Sawyer left Saturday to spend a few days with Mr. and Mrs. Edw. Hersher of Dearborn.

OFFICERS ARE NAMED

At the first meeting of the Young Married People of St. Peter's church held last Friday evening the following officers were elected: Mr. and Mrs. Herbert Farver, president; Mr. and Mrs. James Osburn, vice-president; Mr. and Mrs. Charles Manley, secretary and treasurer. The next meeting will be a Christmas party held at St. Peter's Youth Center on Friday, December 9, with Mr. and Mrs. Russell Cooper and Mr. and Mrs. Calvin Damon in charge.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. E. C. Heilman announce the engagement of their daughter, Sarah Jane, to Alfred R. Pope, son of Mrs. Ethel Pope of Adrian. No wedding date has been set.

About The Folk You Know

Tuesday, when the first snow fall of the season really happened—it didn't last long, it melted as rapidly as it came down—it was possible to hear all kinds of remarks about the weather. Of course, folk interested in deer hunting were happy. They wanted tracking snow in the north. Kids, with visions of snowballs, were praying for a packing snow. Older folk, some not too sure footed, wanted no snow at all and merchants, with a big stock of rubber footwear, were wishing for a wet snow about shoe-top deep. How true the words of Mark Twain: "Everybody talks about the weather but nobody does anything about it."

Mr. and Mrs. Wm. Wehr, former residents now basking in the California sunshine, seem to be enjoying the West, according to letters received by friends. "Bill" says that haircuts there are 75 cents, any style, and kids get in for a cut rate. Barbershops, too, are open on Sunday morning but on that day the rate changes. The price is $1.

Weather reports from northern Michigan indicate good hunting for the thousands of hunters who made the trek in quest of deer . . . Among the Tecumseh folk now in the north woods are Neil Pearson, Max Brandt, Clifford Curran and Sam Robinson of Clinton; Ray Puffer and Ted LaBounty, stationed at South Branch, as are Dr. and Mrs. R. F. Helzerman; Carl Thompson at Harrison; Clare Beland, Russell Hall and Douglas Hall, near Harrison; and Mr. and Mrs. William Fielder.

C. O. Butler, Dr. M. R. Blanden, Joseph Rohweder, Jens Touborg, C. M. Brown, Clarence Gilman, Robert H. Moore and Robert D. Moore are at the Lost Lake Woods Club; Frank Creger and Doc Logan and Claude Lawson of Deerfield are stationed near Houghton Lake; Mr. and Mrs. Earl Baldwin are at South Branch and James Barton is with a party from Stockbridge.

Jim Miller and son and Walter Wonderly of Britton are at Grayling . . . Last year two hours after the first shot rang out on opening day Mr. Wonderly had bagged his deer.

Flowers are still blooming, in spite of the killing frosts . . . Phillip Miller, grandson of Mr. and Mrs. Bert Miller, was overjoyed when he found a little pansy blooming in their yard . . . Forsythia has been blossoming out also.

George Wittrup is still picking those luscious strawberries from his garden, too.

Mrs. Grenval Spangler, assisted by Mrs. Elven Duvall, entertained at a party, Saturday evening, honoring the 19th birthday anniversaries of her twin sons, Richard and Robert Billow, who are now making their home here. Cards and games were enjoyed following by refreshments, which included two decorated birthday cakes, made by Mrs. Duvall. Each of the boys received a nice gift from their guests, who included Tommy Hamilton, Robert Rentschler, Doug Maves, David Murphy, Harlan Ruhl and Don Judd.

Mrs. Marvin Malady entertained at a cradle shower, Saturday afternoon, with her sister-in-law, Mrs. Henry Bailey of Jackson, as the honored guest. Some 12 guests from Jackson, Clinton, Britton and Tecumseh enjoyed a social afternoon followed by refreshments served by the hostess. Mrs. Bailey received many lovely gifts.

Families are busy making plans for gatherings on Thanksgiving Day—a day devoted neither to unbroken solemnity nor outright commercialism nor unbridled feasting and funmaking, but to a rather pleasant combination of all those things.

Blue Cross Plan

(Continued from Page 1)

The local campaign is a statewide program initiated by the Michigan State Medical Society and the Michigan Hospital Association to extend membership in their non-profit Blue Cross Plans to more people, Oliver said.

Blue Cross is a national program for pre-paid health care sponsored by 4,200 non-profit voluntary participating hospitals and members of the medical profession throughout the United States and Canada.

Blue Cross has a national membership of 35 million persons, 1,600,000 of which are enrolled in Michigan.

The Blue Cross plans in this state are Michigan Medical Service, a non-profit organization sponsored by the doctors of medicine through Michigan State Medical Society and Michigan Hospital Service, which is operated by Michigan's non-profit voluntary hospitals.

George Brablec To Be Buried At Milan

Funeral services will be held at 2:30 this afternoon from the Niblack Funeral Home in Britton for George Brablec, 65, well known Britton farmer, who died early Tuesday morning in Tecumseh Hospital. Burial will be in the Milan cemetery.

Mr. Brablec was admitted to the hospital on November 9, suffering from a severe heart ailment. His condition seemed improved and at 3 a.m., Tuesday morning, he was awake and talked with a nurse. At 5 a.m. his body was found by a nurse hanging in the bathroom that connected with his private room. The body was hanging from a door hinge with the sash of his bathrobe tied to his neck.

Coroner Paul Mott of Adrian, who was called by Clinton state police, ruled that the death was suicide and that no inquest was necessary.

Mr. Brablec was born in Chechoslovakia in 1885 and came to the United States when he was 21 years of age. In 1907 he was married to Mary Pribyl.

Surviving in addition to the widow are two sons, Carl of Roseville, Mich., former superintendent of the public schools at Britton, and George, Jr., of near Britton, a daughter, Mrs. Francis Micka of Monroe, seven grandchildren and two brothers, John of Detroit and Joe of Czechosolvakia. Preceding him in death was a sister, Sister Frances Hudik and a son, Frank.

High School Debaters Win Opening Meet

The Tecumseh high school debaters were entertained by Bedford high school at Lambertville, Friday, November 11, in their first meet of the season.

In the opening debate Tom Everlove and William Morris, first and second affirmative speakers, respectively, upheld this year's topic, "Resolved: That the President of the United States should be elected by the direct popular vote of the people." The Lambertville negative, failing to show that the present electoral college should be maintained, lost to Tecumseh.

In the second debate of the meet Bedford's affirmative met the Tecumseh negative team, Carl Freckelton and David Green. Dr. Hickerson of the University of Toledo Department of Education, again rendered the decision in favor of the affirmative team.

The Tecumseh debate team will meet three other schools in the next two months. After entertaining Grass Lake on November 29 Tecumseh will go to Homer in December and will conclude the season by acting as host to Litchfield, early in January. Duane Furbush is director of debate.

Vets Holiday Party Planned By Pythians

Some 75 members and guests of the Pythian Sisters enjoyed a pot-luck supper, preceding the annual roll call meeting and parcel post party, last week Wednesday evening. Forty members of Minnehaha temple of Tipton were the guests.

During the business meeting it was voted to send 12 decks of playing cards to the veterans' hospital in Battle Creek and to hold a joint Christmas party with the Knights, Nomads and D. O. K. K's. The party will be held for members only and each one attending will be admitted by a gift for either a veteran or nurse at the hospital. Mrs. Luther Wood was named chairman for the district convention to be held here in April. Reports were given and the total amount earned from the recent bazaar and supper was $161.33.

During the parcel post party, the parcels were auctioned off at a profit of $28.12.

A&P

Want to Save Money?

Then Come to A&P — Where Everyday Low Prices Mean

THRIFTIER VALUES!

Why will food prices go up if the anti-trust lawyers win their suit to put A&P out of business?

Here is just one of a number of reasons:

We manufacture many of the quality foods we sell in our stores, such as Bokar, Red Circle and Eight O'Clock coffees, Ann Page foods, White House Milk, and many others.

Because this saves us money we are able to pass along these savings to our customers in the form of lower prices.

The anti-trust lawyers have asked the court to order us to get rid of our manufacturing facilities, which would put an end to all these savings.

Make no mistake about it. If the anti-trust lawyers succeed in putting A&P out of business you will find your food bill is higher.

BRITTON

The Congregational church is holding its Friendly Service meeting of Women's Fellowship today in the church parlors with a pot-luck dinner to be served to the group. The afternoon program includes Rev. Harry Rogers as speaker. Clothing will be packed for displaced persons at this meeting.

Another 4-H Club was organized recently when Madalyn Downing entertained seven girls and officers elected were: president, Jo Ann Lemerand; vice president, Madalyn Downing; secretary, Geneva Kimerer; treasurer, Gene Kimerer, and reporter, Ethel Barron. The club chose the name of Busy Fingers and will meet the second and fourth Tuesday evenings of each month. The club girls chose sewing, girls' room and personal grooming as their projects. Mrs. Leland Downing to be local leader.

A large group of boys and girls from the upper rooms of Britton school went by bus to Ann Arbor, Saturday, for the football game. They were accompanied by Mr. and Mrs. Gene Mackey. Other teachers attending were Mr. and Mrs. George Beale and Thomas Culbert.

Raynor Benedict was in Jackson last week where he attended the District Meeting of Supervisors.

George DuBois of Detroit was a weekend guest of his parents, Rev. and Mrs. E. H. DuBois.

The Ladies Aid Society of the Lutheran church held their regular meeting last Thursday afternoon at the home of Mrs. Ernest Carothers with a large attendance. Plans were discussed for the annual Christmas party. The hostess served refreshments.

Mrs. Lucy Beal and children of South Lyons, and Mr. and Mrs. Rayburn Davis and son of Lincoln Park were Sunday dinner guests of Mr. and Mrs. Glen Gripton.

Dinner guests Sunday of Mrs. Viola Daisher were Mr. and Mrs. Richard Keller and daughter and Mr. and Mrs. Dick Poling of Ypsilanti.

Mrs. John Beal entertained a group of little girls in her home last Thursday evening in honor of her daughter Janet's eighth birthday anniversary. Games were played and honored guests received lovely gifts. Mrs. Beal served refreshments.

Rev. F. B. Clifford underwent surgery in the Tecumseh hospital last week and his condition is improving. He plans to be discharged later in the week.

George Brablec, sr., who was moved to Tecumseh hospital last week, seriously ill, is improving slightly.

Mrs. Clarence Schroeder entertained the Teachers' Club at her home north of town with supper served to the group at 7 o'clock Monday evening.

Mrs. Flora Exelby returned home Saturday from Columbus Grove, Ohio, where she visited Mr. and Mrs. E. L. McCrate several days.

The Britton P. T. A. will hold a regular meeting Monday, November 21, at the school gymnasium at 8 p.m. All members and friends are urged to attend.

The L. and M. County Line Extension Club met last Thursday at the home of Mrs. Alice Benedict with 100 per cent attendance and 5 visitors present. A potluck dinner was served at noon and the afternoon spent on the "Glove Lesson" which was given by leaders Mrs. Vera Bruce and Mrs. Dorothy Heiden.

P. E. O. TO MEET

Chapter AJ, P. E. O., will meet at the home of Mrs. Ellsworth Collins, Tuesday, November 22, at 6:15 p.m., for a potluck supper. The program following, in charge of Mrs. Collins, will consist of recordings of Tschaikowsky music.

Warn Motorists Monoxide Gas

42 PERSONS, MEN, WOMEN AND CHILDREN, DIED LAST YEAR OF POISONING

Get carbon monoxide conscious before you become carbon monoxide unconscious, the Michigan Department of Health counselled today.

Last fall and winter, 42 Michigan people—27 men and boys and 15 women and girls—were accidently and unnecessarily killed by carbon monoxide fumes in their cars, in their homes, in their garages or in tourist cabins.

Carbon monoxide is a colorless, tasteless and odorless gas. It cannot be seen, smelled or tasted, and it does not irritate the eyes, nose or throat. It has about the same density as air and readily mixes with air. It is caused by incomplete combustion of carbon compounds such as gasoline, fuel oil, heating gas, or coal.

When you sit in a parked car with its motor running, when you drive long distances in a completely closed car, when you fail to check the flues of your tourist cabin heater, gas burner or the water heater in your basement, when you warm up your car in a closed garage, when your furnace "smokes" or when you turn your damper too tight after putting fuel on for the night, you are in danger of becoming carbon monoxide unconscious — dead.

Do not sit in a parked car with the motor running unless a window is open. Just 8 parts of carbon monoxide to 10,000 parts of air during a two hour period can kill you. You may just snooze and, unless someone wakes you soon, you may sleep forever.

Drive with a window open. If you begin to feel drowsy, if your head starts to ache, if you feel dizzy or ill, stop the car and get out of it at once. Only 2 parts of carbon monoxide to 10,000 parts of air on a three-hour drive can put you to sleep, wreck your car and send you and others to the hospital.

Open the garage doors before you warm up your motor.

Remember, that when your furnace "smokes," carbon monoxide is escaping into your house. Remember, too, that there can be carbon monoxide in quantities sufficient to kill you and your sleeping family when there is no smoke or smell. Check your furnace for leaky pipes, worn and corroded parts, rusted out combustion chambers which let smoke and gas into the hot air system, clogged chimneys and poor dampers. Be sure the damper is not too tightly closed when you bank the furnace for the night or when you refuel.

A bird's nest or autumn leaves can cost you your life when they clog the vent on the gas heater in the tourist cabin you occupy or the vent on your gas, or oil water heater. Be sure that vents are clean, intact and open.

Open all the doors of a house, cabin or car thought to have carbon monoxide contaminated air. If a person is overcome, take him into fresh air, wrap him in blankets to keep him warm and give him artificial respiration until a physician and an inhalator or respirator arrive.

o

LOOK, THEN WALK

When a football player is hit from behind in the legs they call it "clipping." But when a pedestrian is hit from behind by a turning car at a street corner it is always a preventable accident. Either the pedestrian wasn't looking or the car was coming too fast—or both. In either case, had the pedestrian looked both ways, the accident wouldn't happen.

That's the theme of the November school safety lessons and posters which are being distributed in 9,000 copies by Automonle Club of Michigan to elementary schools throughout the state.

Suppose they came to YOUR front door!

What a strange group of visitors!

There's the lady in blue from the Visiting Nurses . . . and the Salvation Army lassie . . . the coach from the youth center . . . and many others.

You'd ask them in . . . of course . . . even though they filled your living room to overflowing. And then, one by one, they would tell you their stories.

One would tell you about the fight his organization is waging against disease and crippling illness . . . Another would touch your heart with the story of a homeless child or a lonely old man . . . A third would tell you how youth services curb juvenile delinquency in your town . . . Each one would separately ask your help.

And you'd want to help every one! But you'd wonder . . . "How much should I give to *this*? . . . How much to *that*?" And that is exactly why, in our community, we have a United Red Feather campaign. The needs of each service have been studied and considered by a group of our leading citizens.

To save YOUR time, only one volunteer solicitor will call on you. When that call comes, open your heart and your pocketbook. Remember that you are giving for ALL Red Feather services. So give enough for ALL. And give enough for a FULL YEAR. Thanks!

Everybody benefits . . . Everybody gives

OBITUARY

Sarah Ann Kerr

Sarah Ann Kerr was born September 23, 1859, the only daughter of John and Elizabeth Cook, of Sommersetshire, England. After the death of her mother, she came to America with her father, joining her two brothers who had come to this country several years before. She was united in marriage to Robert Kerr of Franklin township in 1881. To this union was born two children, a daughter, who lives on the farm where for Etta, who died in 1920, and Earl, many years he made a home for his mother. She passed to her reward November 7, 1949, after a long struggle for health which she realized could never be obtained. A stroke stopped forever her suffering. She leaves to mourn her passing one son Earl and several nieces and nephews. Her husband preceded her in death many years ago. Thus, the final chapter in another of the old residents of Franklin township has come to a close and the deeds and acts of a mortal life await the call of duty from the grave to eternal rewards. Funeral services were conducted by the Rev. W. N. Taylor, pastor of the Tipton Community church, on Thursday, November 10. Burial was made in the Tipton cemetery.

Love and Kisses

He—I always kiss the stamps on your letters, because I know that your lips have touched them.

She—You're wrong there. I moisten the stamp on Fido's nose. It's always wet.

TIPTON

Some 76 members from 11 extension clubs and several guests were entertained by the Franklin Extension Club at a tea, last week Wednesday at the K. of P. hall. Miss Helen Greenwood, the new home demonstration agent, was introduced and gave a short talk, after which a program was presented. Mrs. Doris Brittain was elected as the new member on the county board and will serve for two years.

The Past Chiefs Club met Wednesday evening at the home of Mrs. Earl Luce, assisted by Mrs. L. T. Dibble.

Mr. and Mrs. Howard Evans and Mr. and Mrs. Howard Mattis are deer hunting at West Branch.

Ordinances

ORDINANCE NO.

An Ordinance to License and Regulate Mechanical Amusement Devices and to Provide a Penalty for the Violation thereof.

THE VILLAGE OF TECUMSEH ORDAINS:

Section 1. **Definition:** A mechanical amusement device is hereby defined as a machine, which upon the insertion of a coin or slug, operates or may be operated for use as a game, contest or amusement of any description or which may be used for any such game, contest or amusement, and which contains no automatic payoff device for the return of slugs, money, coin, tokens or merchandise. A mechanical amusement device shall also be deemed to include any game, contest or amusement in connection with which any mechanically operated device, which upon the insertion of a coin or slug, may be used for the purpose of keeping score of such game, contest or amusement.

Section 2. No person, firm or corporation shall operate a mechanical amusement device as hereinbefore defined, nor permit the same to be operated in a restaurant, store or other public place under the control of such person, firm or corporation, without a license being first obtained for such amusement device.

Section 3. Each mechanical amusement device for which a license is sought, as hereinafter provided, shall first be approved by the Chief of Police of the Village of Tecumseh. Upon the approval of any such mechanical amusement device by the Chief of Police of the Village of Tecumseh, the owner of such device, or person having the same in charge, shall apply to the Village Clerk of the Village of Tecumseh for a license permitting the operation of any such mechanical amusement device, which application shall state that device will be operated for amusement only. The Village Clerk is hereby authorized to issue a license for the operation of any such mechanical amusement device upon the payment of an annual operator's license fee of Two Hundred Fifty ($250.00) Dollars for the first device and a fee of Five ($5.00) Dollars for each additional device owned by the same operator. The owner of more than one device shall be classed as an operator; for one privately owned device, a fee of Twenty-five ($25.00) Dollars per license year. Said license shall expire on March 31 of each year.

Section 4. Every amusement device so licensed shall contain suitable identification marks and numbers, which identification marks and numbers shall be written by the Village Clerk upon a license issued for such amusement device and such license shall be permanently affixed to such machine. A record of such licenses so issued shall also be kept by the Village Clerk.

Section 5. No person, firm or corporation being the owner of any such amusement device shall permit the same to be operated in the Village of Tecumseh without a license having been obtained for the same as herebefore provided.

Section 6. No person, firm or corporation shall permit such mechanical amusement device to be operated in any place of business owned by or under management and control of said person, firm or corporation in the Village of Tecumseh, without a license having been first obtained for such mechanical amusement device as herebefore provided.

Section 7. No person, firm or corporation shall operate any mechanical amusement device, nor permit the same to be operated in any establishment under the operation, management or control of such person, firm or corporation, which device shall be so constructed that the same may be converted into an automatic payoff device which shall discharge slugs, coins or other tokens.

Section 8. Any machine, apparatus, contrivance or device which shall be made use of in violation of the terms of this Ordinance may be seized and destroyed by the Police Department of the Village of Tecumseh, in compliance with the Statutes of the State of Michigan relative to gambling devices.

Section 9. Any person who shall operate such mechanical amusement device without first paying the annual license fee therefor, or who shall permit the same to be operated in any store, restaurant, establishment or other place under the control and management of such person, without a current license having been obtained and attached to said machine, as hereinbefore provided, or who shall otherwise violate the terms of this Ordinance, shall be punished by a fine not to exceed One Hundred ($100.00) Dollars, together with costs of prosecution, and in default in the payment thereof, by imprisonment not to exceed ninety (90) days in the Lenawee County Jail.

Section 9 (a). No person shall permit a mechanical amusement device under his control or management, or on premises under his control or management, to be operated by any person who shall not have attained the full age of seventeen (17) years. The Village Council may, upon satisfactory proof submitted to it that such a violation has occurred, revoke the license for all mechanical amusement devices on the premises where such violation occurred, and may prohibit the further operation of other mechanical amusement devices on such premises. Any person who shall violate any of the provisions of this section, or who shall permit the operation of any mechanical amusement device after the license therefor has been revoked as aforesaid, or who shall permit the operation of any mechanical amusement device upon premises where such operation has been prohibited by the Village Council shall upon conviction be punished by a fine of not more than One Hundred ($100.00) Dollars, or by imprisonment for a term not exceeding Ninety (90) days, or by both fine and imprisonment in the discretion of the Court.

Section 10. This Ordinance shall take effect thirty (30) days from the date of its passage.

MARVIN WATKINS,
President

Attest:
WADE L. JONES, Clerk.

Passed by unanimous vote of Council November 7, 1949.

ORDINANCE NO.

An ordinance to License and Regulate Mechanical Musical Devices and to Provide a Penalty for the Violation Thereof.

THE VILLAGE OF TECUMSEH ORDAINS:

Section 1. **Definition.** A mechanical musical device is hereby defined as a machine which upon the insertion of a coin or slug, either in the machine or a slot connected with the machine, plays recorded or transcribed music.

Section 2. No person, firm or corporation shall operate a mechanical musical device as herebefore defined, nor permit the same to be operated in any restaurant, store or other public place, under the control of such person, firm or corporation, without a license being first obtained for such musical device.

Section 3. Any person, firm or corporation desiring to operate any such mechanical musical device in any of the places provided for in Section 2 shall apply to the Village Clerk of the Village of Tecumseh for a license permitting the operation of such mechanical musical device upon the payment of an annual license fee of One Hundred ($100.00) Dollars for the first device, and a license fee of Five ($5.00) Dollars for each additional device owned by such operator. The owner of more than one (1) device not operated in his own premises shall be classed as an operator provided: an owner's license shall be issued for privately owned devices operated in the premises of the owner of such devices upon the payment of a fee of Twenty-five ($25.00) Dollars for each such device per license year. Such license shall expire on March 31 of each year.

Section 4. Every musical device so licensed shall contain suitable identification marks and numbers, which identification marks and numbers shall be written by the Village Clerk upon a license issued for such musical device and such license shall be permanently affixed to such machine. A record of such licenses so issued shall be also kept by the Village Clerk. The license may be transferred from one musical device to another, to be placed in the same location.

Section 5. No person, firm or corporation being the owner of any such mechanical musical device shall permit the same to be operated in any of the places provided for in Section 2 without a license having been obtained for the same, as hereinbefore provided.

Section 6. No person, firm or corporation shall permit such mechanical musical device to be operated in any of the places defined in Section 2, owned by or under management and control of said person, firm or corporation in the Village of Tecumseh, without a license having been first obtained for such mechanical musical device, as hereinafter provided.

Section 7. Any person who shall operate such mechanical musical device without first paying the annual license fee therefor, or who shall permit the same to be operated in any store, restaurant, establishment or other place under the control or management of such person, without a current license having been obtained and attached to said machine, as hereinbefore provided, or who shall otherwise violate the terms of this Ordinance shall be punished by a fine not to exceed One Hundred ($100.00) Dollars, together with costs of prosecution, and in the default in payment thereof, by imprisonment not to exceed ninety (90) days in the Lenawee County Jail.

Section 8. This ordinance shall take effect thirty (30) days from the date of its passage.

Chest Drive Is Moving Slowly

DEER HUNTING SEASON, HOLIDAYS BLAMED BUT HARRIS IS OPTIMISTIC

"A slow start, but not a poor start," characterizes the 1949 Community Fund Drive according to Ronald Harris, chairman of the campaign.

The lateness of the start of the campaign plus the time involved in setting up a volunteer organization threw the drive directly into the deer hunting and Thanksgiving seasons: "A number of our key workers will be unable to start their canvassing until after Thanksgiving," Mr. Harris reported "Several others are just now returning from their trips to the hunting camps. This leaves us with little to report thus far.

"This is by no means discouraging. Those persons who will not be able to donate their time until next week are thorough and conscientious workers, and we soon shall have substantial reports."

According to Fund reports, all signs seem to point to a successful campaign. Many organizations

FUND CONTRIBUTIONS INDICATE SUCCESS

A team of Rotarians, soliciting for the Red Feather Fund in the downtown district, Monday, met with genuine success, Ronald Harris, chairman of the drive, said today.

"While the team has not quite finished its area solicitation, I am happy to say that in all instances where contact was made contributions exceeded or equaled those of a year ago," Mr. Harris said. "If we can maintain that average the success of this year's drive seems assured."

§ § §

have sent in their 1949 contributions and in every case thus far these have equalled or surpassed their contribution of a year ago. Moreover, the local industrial outlook is much more cheerful than it was a few weeks ago and a similar picture appears assured for many months to come. The security and optimism of the people as a result makes the work of the volunteer more satisfying.

Meanwhile other communities continue to report successful drives. "A recent issue of a metropolitan newspaper spoke of Tecumseh as a town which had a reputation of 'doing practically everything it begins better than it has ever been done before.' We have every reason to believe that this will also hold true of our 1949 Community Fund Drive," Harris said.

The Chest budget for this year follows:

Tecumseh Hospital Auxiliary	$350
Cancer Society	350
Hallowe'en Party for Children	100
Christmas Party for Children	100
Girl Scout Association	500
Tecumseh Boy Scous	200

Christmas Seal Sale Launched

HOPE OF STAMPING OUT TB LIES IN EDUCATION, GOVERNOR DECLARES

LANSING—Urging every citizen to buy TB Christmas Seals and "help make that promise" of eventual freedom from TB become a "reality," Governor G. Mennen Williams Sunday proclaimed that "education of the people" is still the greatest need in the TB war.

"It is evident that pioneers in the war against TB found the answer to this disease when they proclaimed that "education of the people" was the greatest need," Governor Williams declared. "And it is to this basic task that a major share of Christmas Seal dollars are applied. For unless everyone understands the basic facts about TB and is able to use that information in the form of intelligent action, then all the modern case-finding,

Xmas Shopping Hours Announced By Stores

Tecumseh retailers are planning their Christmas store hours for the convenience of the shopping public it was announced today by Mrs. Ray Stuyter, chairman of the Retail Merchants Division of the Chamber of Commerce.

Following a spot check of several downtown merchants last week, it appeared that most stores would have their hours as follows: Open evenings starting Monday, December 19. Most stores plan to close as near as possible to 6 p.m. on Christmas Eve. Those stores closing all or part of Thursday will remain open Thursday the entire month of December. Stores will remain closed Monday, December 26.

Special Thanks Services Here

PROGRAM FOR FIVE CHURCHES AT ST. PETER'S; SPECIAL LUTHERAN SERVICE

A Union Thanksgiving Service in which five Tecumseh churches will participate will be held at St. Peter's Episcopal church on Thursday morning, November 24, beginning at 10 a.m., and continuing for one hour, it has been announced by the Tecumseh Ministerial Association. The sermon will be by Dr. Norman MacNaughton, pastor of the Methodist church.

Participating with Dr. MacNaughton will be the Rev. Allan Ramsay, Episcopal rector, the Rev. Donald C. Wilson of the Presbyterian church, the Rev. Edward Escolme of the Friends church, and the Rev. B. O. Bashore, pastor of the Baptist church. Special music for the service has been arranged.

The five-church union service in Tecumseh is an annual affair at the Thanksgiving season.

The Rev. J. deRuiter, pastor of the Grace Ev. Lutheran church, also has announced a special Thanksgiving Day service at his church for 10 o'clock, Thursday morning.

As is customary, the Christian Science church will have a special Thanksgiving service on Wednesday eve at 8 p.m. Following the usual order of service there will be a brief period in which members of the congregation may express their gratitude for healings and other help which they have received during the past year. The Golden Text from I Thessalonians (5:18) is appropriate for the occasion and reads: "In every thing give thanks: for this is the will of God in Christ Jesus concerning you."

500 Parents Took Part In Nat'l Education Week

According to final reports received by Earl H. Place, superintendent, some 500 parents visited Tecumseh schools during American Education Week, showing a marked increase over last year's observance. Many compliments have been received by school officials regarding the band and choruses of the schools, which participated in the program presented to a capacity audience, that week. "We Make The Flag," a playlet, proved the acting ability of the youngsters from the fourth, fifth and sixth grades.

$30,000 Loss In Locker Fire

PLANT IN JONESVILLE, OWNED BY WOLF BROTHERS, IS DESTROYED

A loss of $30,000 was suffered by Paul and Clifford Wolf of Tecumseh and their brother, Rex Wolf of Jonesville, in the disastrous fire which swept through three buildings in the main business block of Jonesville, early Saturday morning, doing an estimated damage of $200,000. A 600-unit locker plant owned by the brothers was located in one of the buildings destroyed by the fire.

The fire broke out in a shoe repair store, apparently when an oil stove exploded, and quickly spread to the locker plant adjoining on one side and an A & P store on the other. The three buildings were owned by a Mrs. Godfrey and were known as the Godfrey block. Rex Wolf was manager of the locker plant.

In the 600 lockers there was about $25,000 worth of food, each locker covered by the same amount of insurance. Seventy-five percent of the contents were salvaged and removed to plants in Litchfield and Waldron. It is believed that all of the food salvaged is in good shape and not damaged.

The $30,000 loss in equipment and fixtures is partially covered by insurance. Whether or not the owners will re-establish the business is not certain.

Brake To Speak To Local Clubs

STATE TREASURER TO ADDRESS JOINT MEETING OF ROTARY AND EXCHANGE

D. Hale Brake, treasurer of the State of Michigan, will be the guest speaker at a joint meeting of Rotary and Exchange clubs here next week Tuesday evening at the Grange Hall. The dinner preceding the program will be served at 6:30.

Mr. Brake's appearance here is being arranged by L. W. Larsen, chairman of Rotary's program committee, assisted by L. H. Titley. It is expected that Elmer Porter of Blissfield, state senator, and Rollo Conlin, Tipton, state representative, will be guests and that Circuit Judge G. Arthur Rathbun will act as toastmaster.

The regular dinner meeting of Rotary will be held this evening at Brees House with M. L. Daniells, sr., in charge of the program. The speaker will be I. Islam, a student at the University of Michigan whose home is in Pakistan.

TWO ADRIAN SENIORS WIN NATIONAL HONOR

Eleanor Cadmus and Al Schumm, Adrian College seniors, have been notified by the publication "Who's Who Among Students in American Universities and Colleges" that their nominations for recognition in the 1949-1950 edition has been accepted. Each will receive a certificate of recognition at graduation time.

Miss Cadmus and Mr. Schumm were selected by the college faculty and student body on the basis of scholarship, cooperation and leadership in academic and extra curricular activities; citizenship and service to the school and promise of future usefulness to business and society. Eleanor is the daughter of Percy Cadmus of near Tecumseh and Al is the son of Mr. and Mrs. George Schumm of 608 W. Chicago Blvd.

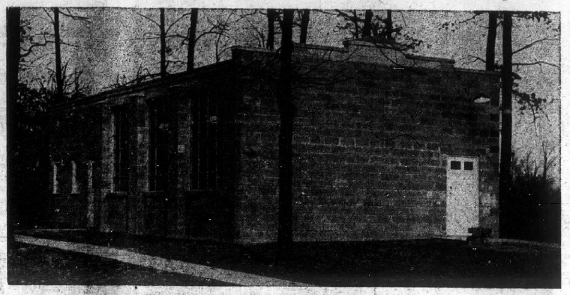
Adventists Operate Grade School for 25 Youngsters



Photo, top, shows the modern one-room school building about four miles southwest of here, built by the Seventh Day Adventist denomination, and which was placed in operation this fall. Twenty-five children attend school here daily, making the round trip by special bus. Lower photo shows the interior of the concrete and steel building which is ultra-modern in design and furnishings. The desks are of steel, the building is oil heated and a well furnishes ample water supply. Soon, hot noon-day lunches will be served as a part of the school's daily service.— (Herald Photo)

New Building Ultra-Modern

Within four miles of Tecumseh and approximately one-fourth mile east of the Ives' Gas Station on M-52 is located one of Michigan's newest and most modern one-room schools. It is ideally situated on an eight acre wooded plot and is unusual in many respects. It is a parochial school operated by the Seventh-day Adventist denomination and this year is attended by twenty-five students. These students are residents of Tecumseh, Waldron, Prattville, Morenci, Hudson and Adrian. Each day a special school bus makes a round-trip of one hundred forty miles to transport te children to and from school. The teacher, Miss Sadie Owen, of Detroit, teaches eight grades and finds plenty to keep her fully occupied. Miss Owen is a graduate of Emmanuel Missionary College and holds a Bachelor of Arts degree.

The concrete and steel school building which was completed just before the beginning of school this year was built according to plans which are considered as ideal by the Michigan Educational Department. A large drove well furnishes water for every need and the school is heated by a large oil burning furnace which is located outside the school building proper for further fire protection. Modern inside toilets are built in to the main school building and a utility room with electric range are other features. Hot lunches will be served in the near future to every student. The steel desks and other equipment in the school proper are of the finest available and a large American flag has a prominent place at the front of the room.

The Lenawee school was conceived by the church membership at the end of the 1949 school year and the entire project of purchasing a suitable location, erection and completion of the building was accomplished in a three month period. Much of the labor on the building was donated by members of the church and the entire project took on the appearance of an old-time "barn raising bee."

The school's designer and builder was Howard E. Benedict of Coopersville, who was fatally injured near the school in an automobile accident on the opening day of the term.

In addition to the regular course of study outlined by the Michigan Department of Education, the Bible is given considerable emphasis in this little country school. Every morning school is opened with prayer and each student spends the entire school day studying and playing close to nature in an environment which is ideal for the development of spirit, soul and body. It is interesting to witness the zeal of the student body and their teacher as they carry on with their educational program.

Five of the students at the school are from Tecumseh, five more are from Adrian and the others come from other communities.

There are two Adventist churches in the county, one at Adrian and the other at Morenci. The Rev. George Elstrom is pastor of both churches. He resides in Adrian.

Mrs. Fina B. Schultz Dies at Her Home Here

Mrs. Fina Bell Schultz, 58, died Monday at 7:45 p.m., at her home at 515 West Cummins. She had been in failing health for three months.

Born, October 5, 1891, in Bakersville, N. C., Mrs. Schults and her husband, Daniel, had been residents of Tecumseh for the past 17 years. She was a member of the Lower Light Mission of Tecumseh.

Surviving besides her husband are two daughters, Mrs. Daisy Cubberly of Springville and Mrs. Leona Cox of Tecumseh; one son, Earl Schults of Round Lake; two granddaughters, Mary Lee and Karen Sue Cox; two brothers, Walter Buchanan of Blissfield and John Buchanan of Erwin, Tenn.; two sisters, Mrs. George Cochran of Blissfield and Mrs. Hubert Hoss of Johnson City, Tenn., and several nieces, nephews and cousins.

Funeral services will be held Friday at 2:30 p.m., from the Collins Funeral Home with the Rev. William Spencer of Toledo officiating, assisted by William Thornberry of Tecumseh. Burial will be in Brookside cemetery.

My office will not be open the Friday and Saturday following Thanksgiving.

Singing Pastor Coming, Friday

WILL BE GUEST SPEAKER AT FRIENDS CHURCH ON "FAMILY NIGHT"

The third Family Night in connection with the Sunday school contest at the Friends church will be held Friday evening of this week at 7:45 p.m.

The guest speaker will be the Rev. Russell Ford, the "Singing Preacher" from Cadle Tabernacle in Indianapolis. The Rev. Mr. Ford presents a unique program of sermon, song and art. Many have heard him on the daily broadcasts and will be glad to have this opportunity to see him in person. The public is cordially invited to attend. A free will offering will be received to pay his expenses.

Next Sunday marks the fifth week of the contest with Raisin Valley Friends Sunday School. The attendance the first Sunday was 200, and has been over this number every week since.

The auditorium of the church and the prayer meeting room have just been redecorated and many of the things incident to getting a new building ready for full use are being done.

On the last Sunday of the contest December 5, Walter Hostetler Christian magician, from Detroit, will present a program which is different, and will be of interest to old and young alike.

GRANGE POTLUCK SUPPER ON FRIDAY

The Tecumseh Grange will meet Friday evening, November 25, for a potluck supper at 7 o'clock. The supper committee is composed of Mr. and Mrs. Lawrence Ash, Mr and Mrs. James Steele, Mrs. Leslie Calhoun, Mr. and Mrs. Roy Richards, Sam Rupp and Mr. and Mrs. Cohea. A fair and fried chicken supper is being planned for December 9 and members are asked to bring groceries for the baskets to this week's meeting.

Village Gets Aerial Photo

An aerial picture of Tecumseh, measuring five by eight feet, was presented to the Village of Tecumseh by Carl Wolf, city editor of the Toledo Blade, at the regular dinner meeting of the Tecumseh Exchange Club, Monday evening. The picture will be displayed in the village clerk's office.

Mr. Wolf gave an entertaining talk on the pleasures and headaches of being a news reporter. Thomas Oliver of Hillsdale, Michigan Hospital Service representative, spoke on Blue Cross Insurance, and announced that a representative would be at Tecumseh hospital November 28.

James Beardsley was a guest of John Saling and Clarence Wolf of Wayne was a guest of Al Meyers. Members of the village council were guests of the club.

There will be no Exchange meeting next Monday evening as the club has been invited to be guests of the Rotary Club, Tuesday evening at the Tecumseh Grange Hall at 6:30 p.m.

CARS ARE DAMAGED IN TRAFFIC MISHAP

Damage was estimated at $175 when two automobiles collided at an intersection, Friday at 3:30 p.m. The mishap occurred when a car driven by Ray Webb, traveling west on Pottawatamie street, stopped at the intersection at Evans street after which he pulled out into the line of traffic, colliding with an automobile being driven south on Evans St., by Mrs. Donald Beevers. Tecumseh police investigated.

Partridge Implement Co., To Get Telecast Programs

For the first time in history, main events of the International Livestock Exposition will be televised to this area direct from Chicago, Tuesday, November 29, at 2:30 p.m., EST. A television receiver will be set up at the Partridge Implement Co., for the convenience of those who want to watch the show. The telecast is a special feature of The National Farm and Home Hour.

Judging of the grand champion steer will be the outstanding feature of the show. Viewers here will have a ringside seat as the judge checks the entries point by point and makes his selection. Other events that will be seen are judging the Angus, Hereford and Shorthorn classes, sheep shearing and meat cutting demonstrations, and interviews with the farm champions in many departments of the great show.

Last year the show was telecast only to the Chicago and Milwaukee areas.

CARDINAL GIRL SCOUTS ELECT NEW OFFICERS

The Cardinal Girl Scout Troop No. 6 held its second meeting of the season at the Baptist church, Thursday afternoon, November 17. They elected the following officers: president, Brenda Porter; vice president, Shirley Palmer; secretary, Sally Miller; treasurer, Barbara Ousterhout; scribe, Elizabeth McKenzie. Leaders of the troop are Mrs. Arthur Bowser and Mrs. Winthrop.

The next meeting will be held Thursday, December 1, at which time final plans will be made for the bazaar to be held December 3.

WATCH YOUR WAISTLINE AT THIS YEAR'S HOLIDAY DINNER TABLE

Turkey, Cranberries, Pumpkin Pie Are Thanksgiving Favorites

Turkey with cranberry sauce and plenty of good old-fashioned dressing will be the center of attraction on a majority of the dinner tables here on Thursday and, according to a survey of local food markets, pumpkin pie — perhaps with a dab of whipped cream—will be the featured dessert.

One reason why turkeys — the traditional Thanksgiving birds — will be the featured art of Tecumseh's dinners this year is the low price, it was said. Plump turkeys are selling in the 40-cent bracket with the top price for the very choicest, tenderest birds at slightly over the half-dollar a pound mark. That is 10 cents a pound, approximately, less than the price of a year ago.

"And where there's turkey there must be pumpkin pie, that's traditional," one merchant said, discussing the pumpkin sale upswing.

Of course, there are those folk who enjoy only chicken and on their Thanksgiving table there'll be plenty of these roasted birds plus, perhaps, steaming bowls of biscuits and gravy and all of the other trimmings.

"But don't forget ham, lamb and roast beef as important meats for any holiday season," one merchant commented. "Men," he said, "like beef, and some of them insist upon it. Others enjoy their ham and still another grown-up wants lamb. Turkeys, of course, seem mighty important at Thanksgiving but, all in all, they run a close first with chicken, ham and beef."

In any event, regardless of what you serve on your Thanksgiving dinner table, this year's holiday promises to be as festive as any in the past with scores of parties and reunions scheduled over the long week-end holiday.

What about the weather? Well, the weather man, like the weather itself, is unpredictable. However, he says its going to be cold and maybe some rain or snow.

CRUSADES FOR ITALIAN "BOYS TOWN" . . . Italian pilot John Brondelle, 26, stands beside his plane, the "Santa Susana," in Lisbon, Portugal, in which he hoped to fly to the United States on the first leg of a western hemisphere journey to raise three million dollars for a national Italian "Boys Town" in Turin, Italy. Brondelle's first American destination was La Guardia Field, New York City. He planned to carry on an extensive campaign throughout the United States. He said he would fly into at least 66 cities in the United States, Canada, Central America and South America on his mission to help unfortunate boys of his native Italy.

THE SHOW WINDOWS

What does a retail store's window stand for?

First of all, of course, it is designed to interest you in buying goods. If you like what you see, and consider the price fair, you'll probably become a customer. If not, you'll move on to another store that meets your needs better.

Beyond that, however, the show window is about as good a visual example of how this country works as we can find. We pride ourselves, and justly, on our magnificent system of mass production, which has given us a vast abundance of goods of all kinds, which provides much of our employment, and which has helped raise our living standards far beyond that of any other major nation.

However, mass production would not be a success, or even a possibility without mass distribution. The goods from the factories must be moved, swiftly, efficiently, and economically, into the hands of the people who will use them. American retailing is superbly geared to perform that job. It believes that the sound way to do business is to turn over a large volume of merchandise at a small unit profit. And what keeps that principle always at work is aggressive competition between stores of all kinds and sizes.

Visitors from abroad, and especially the few who come here from the countries within the Soviet orbit, are always amazed and disbelieving when they see a typical American shopping center— whether it be Fifth Avenue or Main Street. They are so used to a subsistence standard of living, and an economy of scarcity at home, that they believe it to be a universal state of affairs. Free enterprise, as exemplified by the shop windows, shows them how wrong they are.

From where I sit ... by Joe Marsh

Watch Out For The Symptoms!

Laughed out loud when I heard Hoot Davis was down with Chicken Pox. A man of forty-five catching a kid's disease!

So I went to see him, armed with jokes about "second childhood" but forgot them fast when I got there. Hoot looked terrible and had quite a fever.

While we talked, I come to think of how Chicken Pox is a lot like other "diseases"—diseases of the character, such as intolerance, self-righteousness or just plain ignorance. They're excusable in children, but when they come out in adults they're ten times as bad—and can be mighty "contagious."

From where I sit, we should all watch out for the "symptoms"—little things like criticising a person's preference for a friendly glass of temperate beer or ale. We've seen personal freedom wither away in other countries, when individual intolerance was allowed to get out of hand and become a nation-wide epidemic.

STATE SOCIALISM AND INFLATION GO HAND IN HAND

Will America Sell Its Freedom For Politically-Promised Security?

Lansing—The present day craze of economic security for the individual, as typified by the $100 month pension plan granted recently by the Ford Motor Company of Dearborn, appears to be bringing further economic insecurity to employers of small business firms.

"Little business" is watching the outcome of the United States Steel Corporation tug-of-war over who is to pay for pensions and insurance.

Already the Bethlehem Steel Corporation has signed a contract whereby its 80,000 employees will be eligible for noncontributory pensions of a minimum of $100 a month after 25 years of service. This will cost the company 12½ cents an hour per employee. As to social insurance, the company and employees will pay 12½ cents an hour each in sharing the cost.

What will other Michigan automobile firms do? A reporter of the New York Times, writing a story from Flint, states: "It is generally agreed that the pension plan accepted by Ford will have to be adopted by other companies." The cost of such retirement income, if paid largely by the employer, will put new costs upon the automobile. All costs must be paid by the consumer — if at all.

It is interesting to note that the Ford-Bethlehem contracts for pensions includes federal social security benefits. These are financed equally by the employer and employee. If the Ford-Bethlehem idea becomes a general pattern for "big business," it is easy to see that the inevitable effect will be to encourage action by Congress to have more retirement benefits financed by social security and thus, in part, by the worker.

Whereas many industrial leaders have been traditionally cool to the principal of federal social security, as contrasted to private-financed social security with or without employee contributions, there is now a good chance that many of these persons will favor increased federal benefits. Such action would reduce the gap between security benefits and $100 a month. It would have the indirect effect of saving money for the employer.

If "big business" lines up for pensions and social insurance benefits, what will "little business" do about it?

The Detroit Free Press commented editorily the other day: "With new demands, added to high wage scales and tremendous tax obligations, it will not be surprising if many small firms either are forced out of business, or into mergers — a tendency toward bigness against which the Truman administration screams."

What affects small firms affect many, many Americans.

Last year (1948) about 35 percent of all workers were employed by companies having five or less employees. Almost two-thirds worked for firms of less than 300 employees.

The "compulsory contribution" (the government's phrase for payroll tax) would go from 1 to 1½ percent on Jan. 1, 1950; 2 percent by 1951; 2½ percent by 1960, and finally up to 3½ percent by 1970. Washington observers agree that the Senate is "certain" to act favorably in 1950 (an election year) on upward revision of social security benefits, now admittedly out of balance with today's inflated dollar.

The coming economic squeeze on "little business" illustrates why many thoughtful business men are genuinely concerned over the present steady drift toward the welfare state. If farmers are guaranteed ecoomnic security from cradle to grave, what will be the final outcome?

And if to oppose such new Utopian protection for the masses is to qualify a critic for the odious label of a "reactionary," then the business man may arrive at the philosophical fatalism recently expressed in "Trends," a journal of the National Association of Manufacturers:

"There has never in past history been any large state that controlled its citizens as completely as they are controlled in the Soviet Republic or even in modern England.

"It may be that the present tendencies toward centralization are too strong to be resisted until they have led to disaster, and that, as happened in the fifth century, the whole system must break down with all the inevitable results of anarchy and poverty before human beings can again acquire that degree of personal freedom without which life loses its savor."

State socialism and inflation go hand in hand.

It is high time that every American re-appraise he ultimate price of the inevitable outcome: Disaster for the nation and loss of freedom for the individual.

Home Builders Retain Houses for Lifetime

The fact that nearly 75 per cent of home builders occupy their houses for life indicates that home builders should take the time to plan homes carefully and also take a personal interest in construction details.

Among the details important to the lifetime enjoyment of a house is good plumbing and heating equipment. Quality materials and good workmanship are cheaper in the long run and are the best assurance of low maintenance cost during the life of the house.

The difference between a quality installation and a skimped installation is in the materials, in the experience of the contractor who takes the responsibility for the entire installation, and the skill of the journeymen employed by the contractor who makes the installation.

A quality plumbing installation has piping of adequate size to deliver the proper quantity of water at all fixtures, irrespective of the demands for water made in the building.

A quality heating system is draftless, durable, economical to operate and sufficiently flexible not to overheat in mild weather yet capable of providing an abundance of heat in severe weather. Preferably it should offer the advantages of radiant heat either by means of radiators, radiant baseboards, panels or convectors.

Strait of Dover Still Proves Swimmer's Skill

Challenge springs eternal at the English channel's Strait of Dover, recently conquered by a swimmer for the first time since 1939.

The challenge is found not only in the channel waters, but also in the air above and even in the earth under the strait, notes National Geographic society. A land bridge joined the British Isles and the continent of Europe until worn away in the Ice Age perhaps 10,000 years ago, geologists believe.

In the realm of swimming, the treacherous 20-mile strait has been successfully negotiated 25 times. Ten women share the honor with 14 men, one of the men having crossed once in each direction. The first swimmer crossed in 1875.

Where the swirling stream of the North sea meets the ebb and flow of the channel, cross currents, double tides and whirlpools are created. Slack tide is unknown; gales, fog and rough water prevail much of the year.

Men in ships have challenged the channel, in peace and in war, for centuries. Romans and Normans invaded Britain from the continent, while Spaniards, Germans and others were thwarted.

MEADOWRIDGE JERSEYS WIN GOLD STAR AWARD

COLUMBUS, O.—A Gold Star Herd award has been made to Meadowridge Jerseys of Ridgeway, Mihh., on his herd of registered Jerseys. The award went to the Meadowridge Jerseys herd after it had completed another year on official Herd Improvement Registry test. The Gold Star recognition is for unusually high production over a four year period.

Last year Meadowridge Jerseys' eighty-seven cows had an average production of 8,274 poonds of milk and 407 pounds of butterfat. Over the past four years they have had an average of fifty-eight cows in the herd producing 8,823 pounds of milk and 440 pounds of butterfat apiece. All tests on the herd have been checked by Michigan State College and The American Jersey Cattle Club. The Meadowridge Jerseys herd average is more than two times greater than that of the average dairy cow in the United States.

Detroit Had Time For Romance Even Before The Revolutionary War

ANN ARBOR—Detroit had time for romance, even in the months before the American Revolution when a British garrison of only 100 men was withstanding a siege by 2,000 hostile Indians under Chief Pontiac.

A diary kept during the siege in the year 1763 by an American Lieutenant with the British forces is now on exhibit in the Clements Library of the University of Michigan. This daily account of one of Michigan's early Indian wars is also being used as the basis of one of a series of Univerity radio dramas, broadcast each week over station WUOM and 21 other stations in Michigan, Indiana and Ohio. The series is entitled "Treasures Off the Shelf," and the story of the siege of Detroit will be told on November 24.

Lieutenant Jehu Hay, the diarist, wrote down not only the happenings of military importance but also recorded the progress of his romance with the daughter of a French settler, called Marie Reaume. The Indian war was really a continuation of the war between French and English which had ended with the English in possession of the Northwest Territory, including Detroit. The French settlers around Fort Detroit declared themselves neutral and took sides with neither Pontiac's braves nor the red coat regulars within the fortifications.

Lt. Hay rescued Marie—and her parents—from their cabin outside the fort when Pontiac threatened to kill all the French who refused to join with him against the British. Once inside the fort, she served as interpreter between the British and an Indian scout.

The siege of Fort Detroit was finally lifted by the arrival of reinforcements from Fort Niagara 86 days after the siege began. Despite the Indian destruction of several forts in the Northwest Territory, Lake Erie, the lifeline of Fort Detroit, had remained open. After the arrival of new British troops by the lake route, Pontiac's army began to break up and and the war was over.

And, just as it says in the stories, "so they were married." Lieutenant Hay and Marie continued to live at Fort Detroit after their marriage.

Hay's journal is the only complete record of the siege of Detroit—others wrote scattered reports, but his is the only day-by-day story of the long fight. The journal is a prized possession of the Clements Library at the University of Michigan. The book is a fragile one and has not often been publicly displayed, but it may be seen by visitors to the Library, November 24 - Dec. 1.

SEA TRAGEDY . . . Nine died, two were saved. Crewmen aboard coast guard patrol boat remove some of the bodies of nine persons who perished in marine tragedy when the 28-foot cabin cruiser, Constance, was swamped in rough seas off Nantucket Island, Mass. Two other persons survived, one of whom was the hero of the tragedy. He was Carl Palmer, who battled wild seas, riptides and bone-chilling, gale-lashed waters for more than 12 hours to swim to the shore for aid. Identities of the dead had not been made when this picture was taken nor was the mission of those on the Constance made known at the time.

CURRENTLY HONEYMOONING . . . When this picture was made, the Earl and Countess of Harewood were in the current of a canal in Venice, enjoying their wedding trip. The earl is a son of the British Princess Royal, and his bride, the former Marion Stein, former Austrian concert pianist. Although his bride is a commoner, the wedding was approved by the king and royal family and the greater part of the British royalty attended the wedding ceremonies.

A&P Brings You
WISE BUYS in FINE FOODS
For Thanksgiving Feasts!

Customers' Corner

Will A&P be put out of business if the anti-trust lawyers win their suit against this company?

Absolutely! And here's why:

A&P's retail stores will be broken up into seven groups and sold to new owners.

A&P's factories, which produce many of our fine foods, will be sold to still other new owners.

None of the stores and factories can be connected in any way, which will wipe out the savings you now enjoy on the foods A&P makes.

None of the present owners or management who have made A&P what it is today can have anything to do with either the stores or the factories.

So, while there may be a food store where your A&P is now located, it won't be your A&P store. It will be operated by different owners and under new management.

Make no mistake about it, if the anti-trust lawyers win their suit it will mean the end of A&P as you know it.

THIS YEAR
we have so much to thank you for . . .

THROUGHOUT this great country, people are taking time out from their labors to express thanks through prayer and thanksgiving.

And along with these personal expressions of gratitude, we would like to add a special message of thanks to all our friends, both old and new.

THANKS to all of you who have bought new Chevrolet cars and trucks from us. We appreciate your choice, and know you will find true driving enjoyment in the extra-value Chevrolet offers.

THANKS to those of you who have placed orders and are waiting delivery. Your patience and your loyalty to the Chevrolet standard will find a sure reward in the complete satisfaction your new Chevrolet will bring you. THANKS to our many service customers, for the confidence you have shown in our service methods. We are proud of the fact that you like the way we take care of your car. We are happy that you keep coming back to us when it needs attention, because we want your car to give you perfect satisfaction.

THANKS to everyone who has made this one of the greatest years in Chevrolet history . . . in new car sales, in new truck sales, in service. Your preference has proved again that Chevrolet is the car America likes best, and we thank you for it.

BRITTON

The Congregational church observed Friendly Service Day last Thursday with 43 women seated for a potluck dinner. The afternoon program opened with group singing, Mrs. Fay Wiggins led devotions and Rev. Harry Rogers gave an interesting and educational message on conditions in the South and work there. Mrs. Glen Gripton acted as chairman of the day. At the business session the following officers were elected: president, Mrs. Glen Gripton; secretary, Mrs. Raymond Seagert; treasurer, Mrs. Verna Meyers. A large quantity of clothing was collected at the meeting for displaced persons.

The Britton Woman's Club met last Tuesday at the town hall with a large attendance. Mrs. Nellie Barrett acted as hostess chairman. Mrs. Doris Forsyth, president, presided at the business meeting. A letter was read from the family in the Phillipines where the Club had sent clothing last spring and another box was to be sent out later, was discussed. Mrs. Ethelyn Claxton presented the program built around Library Day. Mrs. Delta Croll gave an interesting book review on "Three Came Home." Mrs. Velma Miller, local librarian, told of the progress in library. Refreshments were served by Mrs. Kathryn Thornberry and her committee. Mrs. Harmon Gamble of Hudson, the Lenawee Federation president, was present and gave brief response.

The Methodist W. S. C. S. met last Wednesday at the home of Mrs. Mary Adams with a potluck luncheon served at 1 o'clock. The afternoon devotions were led by Mrs. Edward Kanous, and program led by Mrs. Clay Croll. At the business session it was decided to hold family night December 21, at the church, with a program to follow.

Harold Luegge returned home last week from northern Michigan with his deer.

Mrs. Estella Tamblyn of Farmington and Mrs. Pearl Moffet of Detroit were visitors of relatives and friends here last week.

The Macon Extension Club will meet Friday afternoon at the home of Mrs. Edna Bortel.

The North East Britton Extension Club will meet Friday for an all-day meeting at the home of Mrs. Mildred Smith.

John Lorenz and sons Wilmer, Richard and David, Earl Smith and son Billy, Billy Shields and Joe Studenki returned home this week end from a hunting trip near Mio with just David Lorenz bringing home a deer.

Mr. and Mrs. Edward Kanous and daughters accompanied Mr. and Mrs. R. B. Kanous to Detroit Sunday where they visited Mr. and Mrs. Louis Allegrin.

Mr. and Mrs. Walter Prill and family were in Romulus, Sunday, as guests of Mr. and Mrs. Edwin Pichan.

J. V. Ferman returned home Sunday evening with a deer after hunting near Senea. The rest of the group remained for a longer hunting stay.

A weekend guest in the home of Mr. and Mrs. Robert Exelby was Mrs. Martha Brady of Ann Arbor.

Miss Thelma Parker of Detroit and Mr. and Mrs. Clifford Underwood and daughters attended Mrs. Underwood's sister's wedding in Jackson, Saturday. Guests Sunday in the Underwood home were Mr. and Mrs. Robert Wilson and family and Ellis Parker of Detroit.

Club Enacts Pact Signing

MONDAY CLUB PROGRAM DEPICTS HISTORIC EVENT AT MEETING THIS WEEK

The signing of the Atlantic Charter was enacted by several members of the Tecumseh Monday Club, which met this week, November 21, at the home of Mrs. Robert Fuller. Each of those participating was dressed in the clothes of the country she represented and carried a corresponding flag. Mrs. Thomas O'Hara announced the program.

Miss Edith Ingersoll was Father of Time; Mrs. Lynn Hubbard was History in the Making; Mrs. Herbert Murphy, Belgium; Mrs. Joe Rice, Canada; Mrs. Robert McCoy, Denmark; Mrs. Fay Whelan, France; Mrs. Earl Wood, Great Britain; Mrs. Jennie Temple, Luxembourg; Mrs. F. E. N. Thatcher, Iceland; Mrs. Clare Beland, Italy; Mrs. Truman Rentschler, Netherlands; Mrs. Ronald Harris, Norway; Mrs. R. H. Hewlett, Portugal; Mrs. O'Hara, United States. Mrs. O'Hara read the Peace Pact after which the national anthem was sung by the entire assembly.

Of current interest, the playlet was enlightening and entertaining. The Progressive Club of Adrian has asked the group to appear before it in January, and today, November 22, the playlet was presented before the Blissfield Woman's Club.

Some 50 members and guests were in attendance. Mrs. Donald Goddard, president, presided at the business meeting and read a religious thought which had been prepared by Mrs. Perry Hayden. Miss Edith Ingersoll gave the current events, after which Mrs. Guy Pocklington spoke briefly on legislation. Five dollars was voted to the Michigan Aid Society for Children and Mrs. Pocklington gave a report on the state federation convention. Mrs. Archie Porter was re-instated in the club.

At the close of the meeting tea was poured by Mrs. R. W. Herrick and Mrs. Porter. The co-hostesses were Mrs. Raymond Puffer, Jr., Mrs. Ted LaBounty, Mrs. L. C. Jacokes, Mrs. C. H. Glitner and Mrs. William Barnes.

Christmas Seal

treatment and rehabilitation facilities would be of little use.

The 1949 TB Christmas seal of the Michigan Tuberculosis Association and affiliates, on sale today pictures a white dove. Officiating as a symbolic "Carrier Pigeon Festival," on the front Capitol lawn Sunday afternoon, the Governor and his children, Nancy, Wendy and Gery, gave the 1949 Seal Sale a rousing send-off.

Against a background of martial music and flying flags, Lansing pigeon fanciers released hundreds of birds to fly back to home lofts.

Many veteran groups were represented and a girls' choir sang throughout the ceremony. The Governor committed the birds to "carry my best holiday greetings to the people of Michigan," and asked that "all citizens buy tuberculosis Christmas Seals—enabling the 'dove of hope' to bring his message home."

New Officers Named By Past Chiefs Club

Mrs. Henry Ehlinger was elected president of the Past Chiefs Club of the Pythian Sisters, which met Friday evening at the home of Mrs. Silas Kring, sr. Other officers named are as follows: first vice president, Mrs. Walter Hizer; second vice president, Mrs. Ed Swift; secretary, Mrs. Ervie Raymond; treasurer, Mrs. Kring; press correspondent, Mrs. Harry Schuch.

Games were played and prizes awarded to Mrs. Raymond, Mrs. Esther Beckman, Mrs. Lillie Gray, Mrs. Lynn Hubbard and Mrs. Hizer. The traveling hostess gift was won by Mrs. Hizer.

The December meeting will be a Christmas party, featuring a potluck supper. Mrs. Burlin Brees and Mrs. Beckman will be the hostesses.

$2,000,000 CONTEST ENDS NOVEMBER 30th

The opening ceremony was conducted by Den 2 under the direction of Mrs. Earl Place. The entertainment theme "Keeping Strong" was exemplified by Den 3 led by Mrs. Robert French; Den 7, led by Mrs. Max Smith; and Den 1, under the direction of Mrs. Harold Naser. The closing ceremony was conducted by the entire pack under the leadership of cub scout leader Laine Holden.

A business meeting, during which time James McDowell entertained the cubs in the gym, was conducted by chairman Clifford Deaner. Paul Wright and several members of the pack gave comments on Hanley Scout and Cub Scout movement in this community.

History of Asia Minor Shows Many Civilizations

Asia Minor, where many ancient civilizations rose and fell, was the home of the Hittite Empire which created an established civilization 13 centuries before Christ. The Turks are linked racially with the Hittites. They are said to belong to those Central Asiatic tribes which migrated westward from the Altai mountains.

Before settling in Asia Minor, toward the end of the sixth century A. D., the Sky Turks, as they called themselves (Gok Turkler) because they came from the high country, are known to have created an empire which extended from the Caspian sea to the sea of Japan.

Through the centuries which followed many Turkish tribesmen migrated into Asia Minor, there to take up their abode. Long accustomed to rule, they gradually dominated the earlier inhabitants.

The idea that the Turks came into Asia Minor in one great invading wave is wrong. It is more correct to say that their permanent establishment in their present homeland was achieved by a slow process of infiltration or penetration of peoples.

Streptomycin Drug Used In Tuberculous Sinuses

Streptomycin, the recently discovered bacteria fighter derived from a mould found in the soil, has proved effective when used in the treatment of draining tuberculous sinuses, according to a report to American Medical association.

Streptomycin has successfully attacked diseases not affected by either penicillin or the sulfonamides. It apparently checks the growth of germs rather than destroying them, and resistant strains of germs often develop if treatment is prolonged. Many investigators have concluded that it is most valuable in cases where temporary suppression of infection will give the patient's natural defenses a chance to rally and gain the ascendancy over the disease.

In 12 cases reported, 15 per cent of the 60 sinuses closed within one to four weeks, and after 12 weeks of streptomycin treatment 80 per cent had closed. After 20 weeks, all but one sinus had closed. In 11 out of the 12 cases the patients' appetites also improved, and they gained an average of 15 pounds.

Free Teen-Agers Dance At School, Friday Eve

The second free dance for teenagers, sponsored by the board of education, will be held Friday evening, November 25, in the Tecumseh high school gymnasium from nine to 12 o'clock, the music being furnished through the courtesy of the American Federation of Musicians Recording and Transcription Fund and played by members of the local 387, the Tecumseh Products Chieftains, of which Kenneth Herrick is manager.

The dance is free to all teenagers who wish to attend and is chaperoned by persons selected by James McDowell, principal. The first dance was held in October and was well attended. Free dances are being planned for the following dates: December 9, December 16, which is the annual Christmas party; January 6 and 20, February 10 and 24.

WORLD WIDE GUILD

The World Wide Guild of the Baptist church will meet Monday evening, November 28, at the home of Miss Helen Furgason at 7 o'clock.

About The Folk You Know

"The time has come," the Walrus said, "to think or many things," and the time has come, Santa says, to do his Christmas shopping . . . and what gift could be more welcome to those away from home than a subscription to The Herald . . . a gift which would be a weekly reminder of "you" . . . The Herald is now reaching the homes of former residents and friends in 29 states of the Union, as well as the District of Columbia, where it is read by, among others, a Congressman and an ambassador . . . The Herald follows Mrs. S. W. Boyce, Mr. and Mrs. L. E. Derby, Clarence Gilmore, A. W. Pocklington and many others to Florida every winter . . . The Herald reaches the boys in the service, Herbert Russell, Clyde Smith, Darrell Coover, Richard Hall, Floyd Guy and others . . . They all like the home town paper and look forward to it . . . and, what is more, it costs no more to have it mailed to California or any other state than to the homes of loyal folk.

Eight cheer leaders of Tecumseh high school received some good pointers from those of the University of Michigan at the cheer leaders clinic held at Blissfield, Thursday evening. Among those from here who attended were Marlys and Evelyn Arnold, Janet Erhart, Beverly McCaugh, Joyce Poley, Shirley Fosbender, Shirley Finnegan and Bonnie Beasley, as well as several junior cheer leaders.

OIL MAY BE CAUSE OF TASTE IN WATER

If your well water supply or the water supply in your new home develops a foul taste and odor, it may be due to the oil used in cutting the galvanized pipe, the Michigan Department of Health said today.

Many Michigan residents have reported that water from their new well or the pipes in their new homes tastes of petroleum or some chemical. The same situation has been reported from many other states.

This week the American Water Works Association reported the cause. A national manufacturer of galvanized pipe for a period of time used a cutting oil which left a residue in the pipe which resulted in unpleasant taste and odor in water passing through the pipe.

The unpleasant taste and odor of the water do not make it unsafe for drinking, the department said. The only known way to remove the oil residue from the pipes is to flush it out with hot water or steam.

Non-Partisan News Letter

By Gene Alleman
(Special to The Herald)

The Upper Peninsula was invaded again last week.

The invading army consisted of friendly hunters, colorfully clad in bright red and many hued sport garments, bound for the "north country" on an annual deer hunting expedition.

The automobile congestion at the Straits of Mackinac, the transportation bottleneck between the two peninsulas, again brought into focus increased demand for some immediate solution to this traffic problem. The 1949 legislature set aside an appropriation of 14½ million dollars for a new ferry boat to speed up transport of tourists and automobiles across the straits. Now difficulties have developed as to suitable dockage at St. Ignace, and additional cost of over one million dollars may have to be incurred before the new boat could be put into practical use upon its completion.

Invariably the Straits bridge idea is revived during an election campaign, and 1950 may see new political agitation in favor of a bridge or tunnel to be financed in part by government money or self-liquidating bonds.

The Upper Peninsula always welcomes the arrival of sportsmen and summer tourists. Recreation has become big business in this vast area stretching more than 360 miles from Ironwood at the west to Sault Ste. Marie at the east. To the north of the "Sault" lies the vast wilderness in Canada.

The Upper Peninsula is the region of by-gone glory in lumbering and a recent decline in copper and iron mining. In the "copper country" the copper mines have reached depths at which copper mining can be maintained only by a very protective high price, such as has prevailed during wars, or through federal subsidy. Michigan copper mines cannot compete profitably with low-priced copper from other regions of the United States and the world.

As for the future of Michigan iron mines a traveler in the Lake Superior region is always impressed with the vast potentials of low-grade iron ore. While reserves of high-grade ore are sufficiently adequate to accomodate needs of steel makers for many years to come, the four billion four hundred million capital investment of the Great Lakes steel industry is such that steelmen are looking ahead for a substitute supply of ore when present high-grade is depleted.

Demands of World War I and World War II depleted the Michigan and Minnesota ranges of many millions of tons of high-grade iron ore.

A recent issue of Business Week pointed out that production in the Gogebic Range has been slipping since 1942, that the lower part of the Menominee Range which straddles the Michigan-Wisconsin state line, is well exhausted; and that the Marquette Range contains mostly underground ore of which high production is needed to operate mines economically. Business Week puts an expectancy on the Mesabi Range of 27 years; Marquette Range, 25; Menominee Range, 30; and the Gogebic Range, 15 years.

Utilization of the low-grade taconite iron ore is the future hope of the Michigan iron country.

EYES OF TEXAS ARE UPON HER . . . Clyde Harris, Amarillo, Texas, meets his wife, the former Princess Cecilia Victoria Zita Thyra Odelheid Von Hohenzollern, granddaughter of the late Kaiser Wilhelm, on her arrival in New York aboard the Queen Elizabeth. MEADOWRIDGE BULL QUALIFIES AS SIRE

COLUMBUS, O.—The registered Jersey bull, Thomas Valiant Jack Sparrow, owned by Meadowridge Jersey's Inc. of Ridgeway, Mich., is announced by The American Jersey Cattle Club from its national headquarters in Columbus, O., as having qualified as a tested sire whose daughters average more than two times the butterfat production of the average dairy cow in the United States. Thomas Valiant Jack Sparrow's ten tested daughters produced an average of 9,089 pounds of milk, testing 5.1 per cent butterfat and averaging 467 pounds fat each. All records were made under official supervision of Michigan State College and The American Jersey Cattle Club, and the production is computed on a 305 day twice daily milking mature basis.

Thomas Valiant Jack Sparrow has been officially classified for type by the club with a high rating of very good, equivalent to a score of 85.0 per cent or better when compared to the breed's type score card allotting 100 points to a perfect animal.

This sire was bred by Thomas Jersey Farms, Inc., of Hartford, Mich., purchased as a calf by Frank K. and Catherine B. Brown of Tecumseh, Mich. in 1941 and sold to the Meadowridge Jersey s Inc. in 1947.

Not So Good

A young author was introduced to a Hollywood film critic. The writer's first picture had just been shown, and he asked the critic what his opinion was.

"It was refreshing," returned the critic. "Very refreshing."

"Say, that's swell," beamed the author. "Did you really find it so refreshing?"

"Absolutely," was the reply. "I felt like a new man when I woke up!"

LO, THE POOR POSTMAN! . . . A giant-sized letter calls for a giant-sized pen, says Beverly Long in Chicago, who also needed a giant supply of ink when he wrote to President Harry Truman urging that he endorse national letter writing week. It might take a week to write a letter if the stationery and the pen used were this size. However, more letters promote world peace and understanding. Beverly figures.

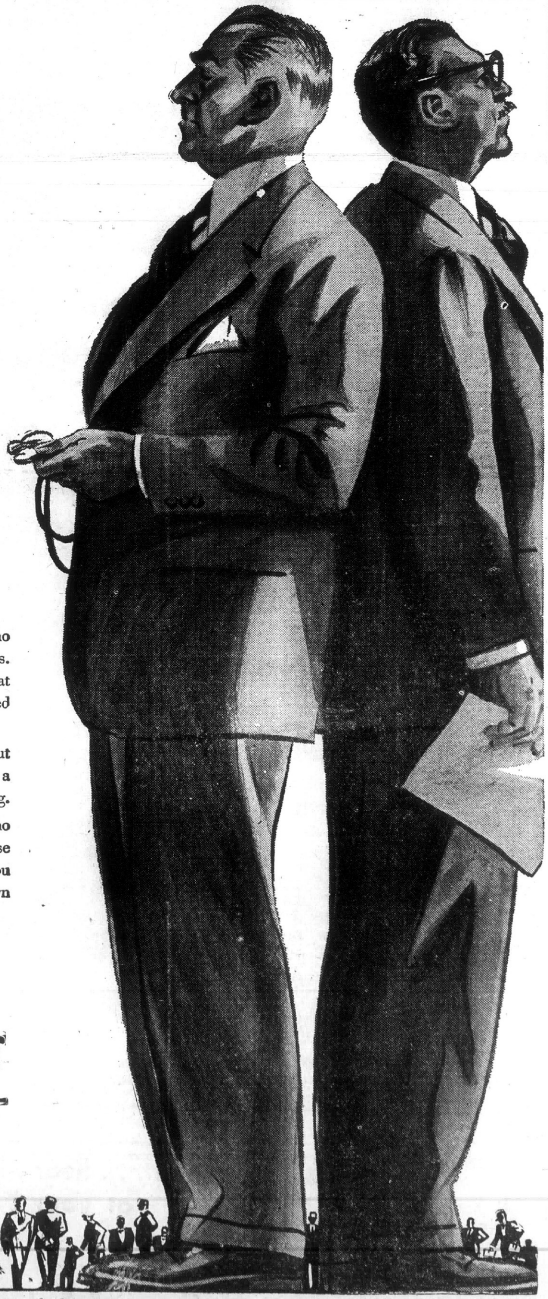
They're two of the biggest men in town!



And one of them is you. The other one is a man who is giving a lot of his own time to help his neighbors. He's giving his energy, too — out calling on people at their homes and offices, telling people about the Red Feather services of our Community Chest.

It really isn't his job alone. It's everybody's job. But he is a Red Feather volunteer, asking for money for a cause that shouldn't require any begging or groveling.

Where do *you* come in? Why, *you* are the man who doesn't flinch or duck or hide behind a lame excuse when the first chap says "Red Feather." Instead, you smile and make him feel welcome. Then you dig down deep for all you can afford to give.

That brings your size up to his!

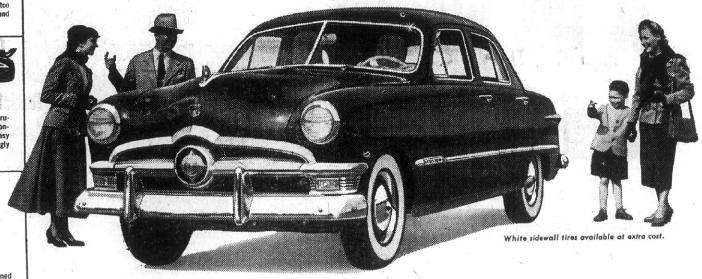
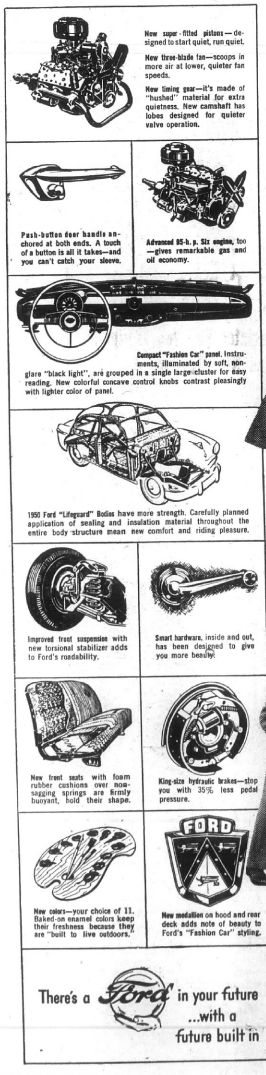
50 WAYS NEW FORD for '50

The one fine car in the low-price field



White sidewall tires available at extra cost.



New super-fitted pistons—designed to start quiet, run quiet.

New three-blade fan—scoops in more air at lower, quieter fan speeds.

New timing gear—it's made of "hushed" material for extra quietness. New camshaft has lobes designed for quieter valve operation.

Push-button door handle anchored at both ends. A touch of a button is all it takes—and you can't catch your sleeve.

Advanced 95-h.p. Six engine, too—gives remarkable gas and oil economy.

Compact "Fashion Car" panel. Instruments, illuminated by soft, non-glare "black light", are grouped in a single large cluster for easy reading. New colorful concave control knobs contrast pleasingly with lighter color of panel.

1950 Ford "Lifeguard" Bodies have more strength. Carefully planned application of sealing and insulation material throughout the entire body structure mean new comfort and riding pleasure.

Improved front suspension with new torsional stabilizer adds to Ford's roadability.

Smart hardware, inside and out, has been designed to give you more beauty.

New front seats with foam rubber cushions over non-sagging springs are firmly buoyant, hold their shape.

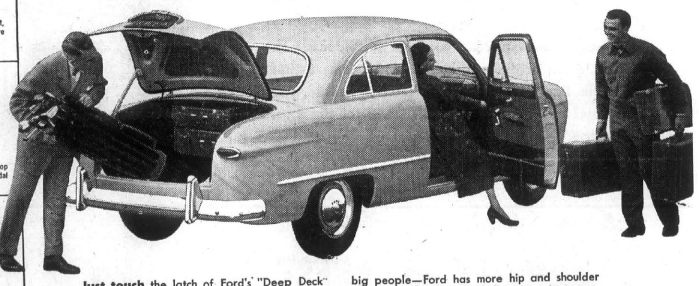
King-size hydraulic brakes—stop you with 35% less pedal pressure.

New colors—your choice of 11. Baked-on enamel colors keep their freshness because they are "built to live outdoors."

New medallion on hood and rear deck adds note of beauty to Ford's "Fashion Car" styling.

There's a Ford in your future ...with a future built in

The 1950 Ford is 50 ways new and finer . . . from new heavier gauge steel frame and 13 way stronger "Lifeguard" Body to new designed ceiling and seating for greater head room. New comfortable foam rubber front seat cushions, over new special non-sagging springs. New richly colored upholstery fabrics. New push button door handles, new rotary secure door latches. Dust and water seals at 41 places. Eleven brand-new baked-on enamel colors that keep their freshness because they're "built to live outdoors."



Just touch the latch of Ford's "Deep Deck" Luggage Locker—22.9 cu. ft. of usable space awaits any load you can muster. Just sit in the '50 Ford's luxurious new interior that seats six big people—Ford has more hip and shoulder room than any car in its class. For an even bigger thrill drive this '50 Ford. Take the wheel and you'll agree . . . it's the *fine* car in its field.

BRIDGE ON COUNTY ROAD (BENNER ROAD) CROSSING STONEY CREEK 4 MILES EAST AND 2½ MILES SOUTH OF CLAYTON, LENAWEE COUNTY PROJECT: CS B2 of 46-6-21, C2, (S-564 (1)).

Net classification required for this project is 1½-Fa.

Sealed proposals for the construction of this project located in Dover Twp., Lenawee County, will be received from contractors having 1949 Michigan State Highway Department prequalifications, in the Veterans' Memorial Bldg., 213 South Capitol Avenue, Lansing, Michigan, until 11:00 A.M., Eastern Standard Time on Thursday, December 8, 1949, and will then and there be publicly opened and read. Proposals may be mailed to Room 424, State Office Building, Lansing, Michigan.

The work will consist of the removal of the existing structure, the construction of a new bridge and approaches and work incidental thereto.

Completion date for entire project July 1, 1950.

The Department's Standard Specifications (1942 Edition), its current Soils Manual, the plans for this project, the special provisions governing subletting and assigning the contract and the employment and use of labor, and the proposal blanks (all of which are essential parts of the contract) may be examined at the district office of the Department at Redford, Michigan; at the County Road Commission, Adrian, Michigan, and at the Michigan Road Builders Association, Lansing, Michigan, but may be obtained only at the office of the Contract-Estimate Engineer, Room 424, State Office Building, Lansing, Michigan, up to 5 P.M. of the day preceding the opening of bids. A fee of three dollars will be charged for furnishing plans or proposal blanks, which will not be refunded.

Full cooperation in carrying out the special provisions will be required. Minimum wage paid to labor employed on this contract shall be as follows: Skilled labor $0.95 per hour. Intermediate labor $0.85 per hour. Unskilled labor $0.75 per hour.

A certified or cashier's check on an open, solvent bank, in the sum of $750.00, payable to Charles M. Ziegler, State Highway Commissioner, must accompany each proposal. All such checks will be returned promptly after the bidding, except that those of the two lowest bidders will not be returned until execution and delivery of the contract to the State Highway Department.

The right is reserved to reject any or all proposals.

First Cars Were Fair Targets for Farmers

When the motor car first made its appearance on the open roads some decades ago farmers in many sections of the country viewed their advent with bitterness and carried on an intensive fight to protect their families and farm stock from accidents and to make it rough riding for "those heathen."

As a result, there was organized the Farmers' Anti-Automobile society whose guiding principles can't help but seem weird today—even to farmers. That the society didn't get very far in having the communities accept these principles is beside the point. The fact is the society wanted—

"The driver of a car to quickly take it apart and hide it in the nearby bushes if a horse should become stubborn and refuse to pass the car on the road."

"Ten-dollar fines should be imposed for every mile a driver went over the speed limit—and the speed limit should be kept secret."

"Drivers should stop and send up a rocket every mile at night—and should proceed only after waiting 10 minutes, and then only after shooting off Roman candles."

Faithful society members were asked to spend Sundays chasing automobiles, shooting at drivers and generally making it discouraging for auto touring.

Booth Tarkington was visiting Naples; he was present at an eruption of Vesuvius.

"You haven't anything like that in America, have you?" asked the Italian friend, with pride.

"No, we haven't," replied Mr Tarkington. "But we have Niagara Falls—it would put that thing out in five minutes."

Michigan's most widely-used

HEALTH PROTECTION

Is offered to individuals and family groups!

Anyone under 65 now eligible for Blue Cross non-profit Hospital and Surgical Plans! No physical examination! No health statement!

MICHIGAN HOSPITALS' AND DOCTORS' OWN HEALTH PLAN

FOR A FEW CENTS PER DAY you can protect yourself and your entire family against crushing hospital and surgical costs, through the Blue Cross Plans.

Over 1,500,000 people in Michigan now have Blue Cross protection. Most of these enrolled through factory or office worker groups. Now, however, Michigan's hospitals and doctors own non-profit health plan is available to individual subscribers during the Community Enrollment Campaign.

Hospital Benefits

The Blue Cross Community Hospital Plan places *no cash limit* on a broad range of hospital extras, such as, the operating room, drugs (including penicillin and streptomycin), oxygen, laboratory services, etc . . . and, in addition, pays up to $7 per day toward *any* hospital room accommodations for as many as 30 days.

Surgical Benefits

The Blue Cross Community Surgical Plan—pays liberal amounts for operative and cutting procedures for the treatment of disease, injury, fractures and dislocations. (More than 370 surgical procedures.)

Anyone Under 65 May Enroll

Any person under 65 years of age, residing in this area, may enroll in Blue Cross Community Plans during the campaign. Once a member, you can keep Blue Cross even after you become 65, with no reduction in benefits. No physical examination—no medical history. (Benefits for chronic and pre-existing conditions and removal of children's tonsils and adenoids available after six months' membership.)

Non-Profit Means Low Rates

Rates for hospitalization and surgical protection under the non-profit Blue Cross Community Plans are as low as $2.35 per month for one person; and only $6.12 per month for husband, wife, and all unmarried children under 19 years old.

You Can Benefit Even More Under a Group Plan

For firms employing five or more people, special Blue Cross Group Plans offer even greater benefits, including a plan for payment of the doctor's hospital calls in non-surgical cases. Talk over with your employer how your company can arrange for this protection. Farmers can take advantage of Group Plan benefits by forming a group through the Grange or Farm Bureau.

NINETY-NINTH YEAR—NUMBER NINE | TECUMSEH, MICHIGAN, DECEMBER 1, 1949 | FIVE CENTS A COPY

Chest Pledges Very Generous

ONE-FOURTH OF QUOTA SUBSCRIBED; HARRIS IS VERY OPTIMISTIC

Tecumseh's 1949 Red Feather Drive is now at its most intense stage it was reported today by Ronald Harris, chairman of this year's campaign. The hunting season and the Thanksgiving holiday are over and all volunteer workers are hurrying to get their canvassing completed before they get too deeply involved in their Christmas preparations.

"All volunteer workers are asked to make a report this week even though they may have uncompleted cells to make," Mr. Harris said. "We are highly encouraged by the reports thus far, but it is dangerous to assume that everyone else will be able to equal the pattern to date."

Only two divisions have been able to complete their canvassing except for the inevitable few callbacks. In both of these divisions contributions have exceeded those of a year ago.

Anticipating a reasonable response from a few concerns which must be seen later, the Outlying Business Division will exceed the sum raised in 1948. This group is already at the amount of a year ago. The first of the downtown business teams has reported and is at present 13% over the same area for a year ago with three or four call-backs to make.

"We are particularly anxious to get our reports from the residential areas," Harris said. "This division produced 22% of the total of the 1948 drive. A recent bit of unemployment may affect our total there, although very scattered reports thus far show us again equaling or exceeding last year's subscriptions in the same areas. Since this division takes by far the most workers and the most time, we are eager to get all reports from them as quickly as possible.

"On Tuesday of this week," Harris continued, "we had about a quarter of our quota reached with, so far from a quarter of the reports in. This leads us to believe that we shall not only reach our quota, but also that we shall reach it without having to call back for additional donations.

"Our quota is slightly larger this year, but it is not too large for a town of Tecumseh's standing and reputation. In a very few days we expect to know where we stand on the 1949 drive."

Voters' Apathy Is Hit By Brake

SAYS DEMOCRATIC GOVERNMENT CANNOT ENDURE WITH MINORITY IN CONTROL

A democratic form government cannot long endure with a minority in control, D. Hale Brake, state treasurer, warned here Tuesday, pointing out that in the last national elections, and for the first time in the nation's history, less than 50 per cent of the registered voters cast their ballots.

"In Hitler's Germany and in Russia you have seen minority governments in operation. Less than half of the Russians are Communistic, but a strong minority group controls. Here in the United States in the 1896 national election, 87 per cent of the electorate cast their ballots. At each subsequent election that number has steadily decreased until in the last national election it reached 49 plus."

Mr. Brake, speaking to a joint meeting of the Rotary and Exchange Clubs following dinner at the Grange Hall, declared that what the United States needs at the present time is more interest in government by all of its people. "Its time that business and professional men gave some serious thought to their government if we are to continue to maintain our freedom," the speaker declared.

The American people can kick until they are blue in the face about the steady increase in taxes but until they say to their state and national officers that some of the services they expect from state and national governments must be reduced instead of increased, taxes will continue to go up, the treasurer warned. "Today," Brake said, "we try to get everything we can from government and we are considered foolish if we don't get it."

Brake favors home control of money raised by taxation, pointing out that it is false economy to send money to Lansing or Washington to be returned to states, counties and townships. "You don't get it all back," he said. "It costs money for administration."

The total tax bill for every man, woman and child in Michigan this year is about $430, he said.

Mrs. Ida VanValkenburg Buried On Wednesday

Funeral services were held Wednesday afternoon from the Green Funeral Home for Mrs. Ida B. VanValkenburg, aged 78 years, who died Saturday night at the home of her son, Russell, in Macon township. The Rev. Edward Escolme officiated and burial was in Macon cemetery.

Born in Macon, she was the daughter of the late Mr. and Mrs. Isaac Hendershot. Six months ago she returned to Macon after residing in Ann Arbor for a number of years.

Mrs. VanValkenburg was a member of the Ann Arbor Methodist church and the Pythian Sisters there.

Surviving are two sons, Russell of Macon and Cecil of Belleville, Mich., two daughters, Mrs. Marjorie Hylan and Mrs. Zoanna Phillips of Waynesville, La., and 18 grandchildren. She was preceded in death by her husband, a daughter Geraldine, two sisters, Mrs. Etta Collins and Clara Hendershot and a brother, Charles Hendershot.

Scout Bazaar Here, Saturday

WILL BE ASSOCIATION'S MAJOR EVENT OF YEAR; REGULAR MEETING, DECEMBER 7

The third annual Girl Scout bazaar, sponsored by the Tecumseh Girl Scout Association, will be held Saturday, December 3, in the Methodist church from noon until seven p. m. The bazaar is the Association's major event of the year to provide funds to sponsor activities of the Girl Scouts throughout the year.

The mothers of Brownie Scouts are supplying the bake booth and the mothers of intermediate Scouts the candy sale. Committee women will have beautiful selections of aprons and the association will have a snack bar where patrons may purchase refreshments. There will be a uniform exchange where serviceable used uniforms may be purchased at a reduced rate, a comic book exchange and the ever popular fish pond.

The biggest attractions are always the handicrafts made by the Scouts themselves. These include Santa Claus suckers, moccasins for children, wall plaques, winter garden scenes, tea towels, Christmas decorations, Christmas wreaths, baby clothes, luncheon cloths, knitting, etched glasses, waste baskets and a variety of other projects.

Troop 10 has donated a doll with a complete wardrobe made by Mrs. Sarah Wick. The doll will be given away at 7 p.m. to one of the customers purchasing candy sticks from Mrs. Wick's troops' booth. "Mary's Little Lamb" cake on a tray, donated by Mrs. Ralph Helzerman, will be given away as the door prize.

Association To Meet

The Tecumseh Girl Scout Association will hold its monthly meeting, Wednesday, December 7, in the high school at 8:30 p.m. Reports will be given by Reva Raymond, Christmas bazaar chairman; Emma Partridge, bazaar treasurer; Anna Mae Bowser, trainer; Elizabeth Manchester, registrar; and Ruth Rentschler, revisions.

Also on the agenda will be discussion on a uniform fund and a Juliette Lowe scholarship for Senior Scouts. Plans will be made for the decorating of the Scout cabin for the holiday season.

The third session of the Leaders' training will be held this (Thursday) evening at 7:30, in the high school. This session is entitled "The Girl Scout Council-Association." Mrs. Elven Duvall, association president, will discuss the various association offices and their services to the leaders as well as the association. The registrar and secretary of supplies, Mrs. Robert Manchester and Mrs. Truman Rentschler, will conduct discussions of their special services to leaders. Mrs. Duvall will also explain association and troop financing, national and local policies and special requirements of the association.

The remaining two sessions will explain what leaders should teach and how to teach it in each age program.

PLAN YULE PARTY

The Pythian Sisters met last week Wednesday evening at the hall and made plans for the annual Christmas party to be held December 10 with the Knights of Pythias, D. O. K. K.'s and Nomads. Admission to the party is a gift of $1 value for a veteran patient or nurse. During the business meeting it was voted to give $5 to the TB Association and $5 to the Community Fund. Games were played.

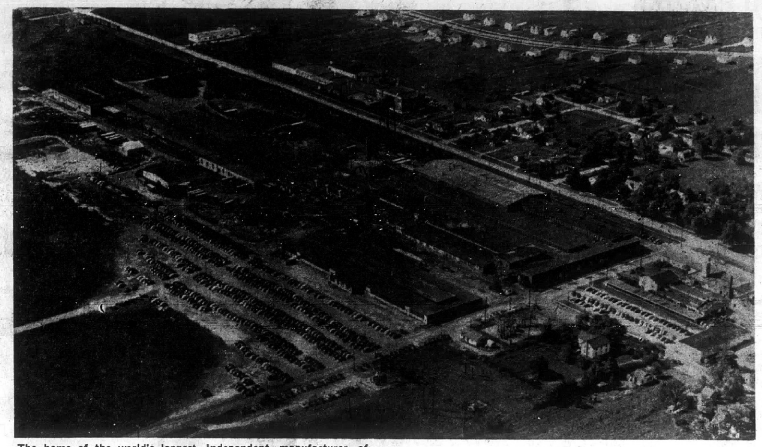
World's Largest Refrigeration Factory From The Air



The home of the world's largest independent manufacturer of electrical refrigeration is shown in the aerial photograph above, taken three weeks ago from a plane over Tecumseh Products Company. The factory now covers acreage that was farm land before Products moved to Tecumseh fifteen years ago. In the upper right part of the photo, some of the houses in the so-called Quaker Oats Addition can be seen and in the lower left a few of the hundreds of cars that are parked daily at the plant by employees.

Jackson Host To Youth Meet

REGION TWO OF CONFERENCE ON YOUTH HAS FULL-DAY PROGRAM ARRANGED

A conference on Children and Youth will be held by Region two at the Hotel Hayes in Jackson, tomorrow, December 2, as a follow-up of the 1948 Governor's Conference. It is designed to provide "grass root" suggestions for a forthcoming State Conference in preparation for the 1950 Midcentury White House Conference.

Region two includes eleven counties, including Lenawee. Those from Tecumseh who are expected to attend are Earl H. Place, Mrs. Donald F. Wright, Mrs. Vera Bruce and Mrs. Myrtle Taylor.

Registration for tomorrow's conference will take place at 9:30 a.m., in the lobby of the hotel. The morning session beginning at 10 a.m., will be presided over by Karl F. Zeisler of Monroe and will include two addresses. Ralph P. Bridgman, chairman of Family Life education, Merrill-Palmer School, Detroit, will speak on "Family Life—Foundation for the Welfare of Children and Youth." Dr. Paul Jordan, psychiatrist of the Flint Child Guidance Center, will use as his subject "How Can the Community, the State, and the Nation Safeguard the Welfare of Children and Youth."

Edwin C. Reynolds of Jackson will preside over the afternoon session. Mrs. Hickman Price of Ann Arbor, chairman of the Governor's Youth Committee, will speak on "The Midcentury White House Conference." There will be county group discussions to itemize local needs on Child and Youth Welfare with the aid of consultants, a chairman and a recorder, after which a panel discussion on the topic "Youth Looks at Tomorrow" will be conducted by the high school youth of the area, with John Aillson, counselor of Ann Arbor high school, as moderator.

The remainder of the afternoon will include reports and a summarization of the day.

Mrs. Ella Pennington Is Buried At Macor

Funeral services were held Tuesday afternoon from the Collins Funeral Home for Mrs. Ella S. Pennington, aged 89, who died at her home in Macon Sunday at 2:15 a.m. The Rev. O. E. Priest officiated and burial was in Macon cemetery.

The bearers were Guy Collins, Vern Pennington, Charles Gorton, Earl Pennington, Earl Lindsley and Perry Satterthwaite. Friends and relatives attended from Adrian, Saline, Britton, Ridgeway, Clinton, Macon and Tecumseh.

Born May, 28, 1860, in Macon township, she was the daughter of the late Mr. and Mrs. Richard Clarkston. Her husband J. Mark, preceded her in death April 1928. She had been in failing health for several years.

Mrs. Pennington was a member of the Macon Presbyterian church, which is no longer in existence, the Macon Woman's Club and the Macon Community Club.

Surviving are one son, Richard, two granddaughters, Mrs. Virginia Hall and Mrs. Margaret Horvath, two great-grandchildren, and several nieces, nephews and cousins.

PARKING METERS TO BE IN USE, MONDAY

If you park your car in the downtown district, beginning Monday, you'd better put some money in the parking meter slot or be prepared to pay a fine. That was the warning issued today by Chief of Police Earl Bowen.

For several weeks the parking meters have not been in use because of repairs to the curbs and gutters in the downtown area. That project is finished and now the meters will go back into operation.

New Postoffice Still Far Away

CONGRESS MUST FIRST AUTHORIZE FUNDS BEFORE BUILDING CAN START

While Congress has approved a project for building a postoffice on the site it acquired here some 10 years ago, it first must find the money with which to pay the cost of erecting the building, if and when one is built. Reports from Washington on Wednesday said that the Tecumseh project had been approved, along with a similar one in Milan.

Congressman Earl C. Michener, vacationing in Adrian, said yesterday that while Congress had approved the building program here it first must appropriate funds before construction can start.

"The government is in the red now and if Congress should authorize construction in Tecumseh it would first have to borrow the money by selling bonds and paying interest," Mr. Michener said. The Congressman said that the project now must clear through the appropriations committee which will meet at some later date. He was not too optimistic as to the nearness of the realization of Tecumseh's dream for a new postoffice building.

The government has owned the site on South Pearl street for a new postoffice here for many years. Authorization of a building has been once before approved by Congress but to date, the allocation of funds for the construction has not cleared the sub-committee.

The new building, as planned some years back, was to cost between $80,000 and $90,000.

SNAPPERS TO MEET

The Indian Snappers Club will meet Monday evening, December 5 in the Tecumseh Camera Shop Print-of-the-Month entries, 5 by 7 dull tone pictures on any subject, are to be brought to the meeting and will be judged. Points will be awarded each month for six months and at the end of the period prizes will be awarded. An interesting program has been arranged for Monday evening's meeting.

LODGE TO MEET

The Rebekah Lodge will meet Friday evening, December 2, for a regular meeting and election of officers.

Products Company Observes 15th Anniversary In Tecumseh

The Tecumseh Products Company is observing its 15th anniversary in Tecumseh.

As the world's largest independent manufacturer of electrical refrigeration—an honor which Products has won in the fifteen years that it has been here—its factory now spreads over acreage that formerly was farm land and its plant has grown from 30,000 square feet in 1934 to approximately 500,000 square feet at the present time.

R. W. Herrick, president, in a review of the company's growth in the 15-year-period, points out many interesting facts in an article published in the current issue of the "TP Broadcast," the shop news paper.

"The past 15 years have gone by very rapidly and a lot of things have happened, and as a result we have seen the Products family grow from 200 employees in 1934 to a peak of 2,659 in the year of 1948.

"We have seen the payroll grow from approximately $250,000 in 1934 to $5,500,000 in 1948. We have seen sales of approximately $300,000 in the year of 1934 grow to a total of $44,000,000 in 1948, and our plant expanded from 30,000 square feet in 1934 to approximately 500,000 square feet in 1948."

Getting away from figures, Mr Herrick continues: "I think the happiest thoughts are those that have to do with the part we have had in trying to make the lives of our family of employees a little happier, and fuller of the spirit of a real American family.

"Where else in this whole world can such a family growth happen except in these great United States of America?" he asks. "It happened among free people, who are free to worship their God in their own way; free to work and have their own Union; free to come and go as they wish, and above all a free enterprise that is not controlled or dictated to by government cartels or philosophies. I very humbly thank our God that we are a free people and live in a free country."

Herrick continues by expressing his appreciation to the Union for its cooperation, declaring that with management and Union working together it has been possible to attain one of the highest labor earnings of any refrigeration plant in America. Products was among the first factories in the country to establish hospital benefits for employees and to set up "other measures, having in mind always consideration for the safety of our family." "We can truthfully say that whatever expansion there has been of plant, equipment and sales we have always tried to give to all greater returns for their efforts," Herrick declares.

In concluding the article in the "Broadcast," Herrick writes: "In closing may we say to each and every one, many, many thanks for your loyalty and efforts in making this progress a reality, and please believe us when we say this could only have happened in America—the greatest land of opportunity, freedom and privilege. May God bless each and every employee and their families."

Santa Claus And His Reindeer To Visit Here On December 17

Santa Claus is coming to town! Yes, the merry old gentleman and his eight reindeer are scheduled to make their initial 1949 appearance in Tecumseh on the evening of Saturday, December 17, at 7:30, Ronald E. Harris, secretary of the Chamber of Commerce, said today.

"I've been in communication with Santa and the seventeenth is the earliest possible time that he could come here, if we wanted him to bring his sleigh and reindeer," Mr. Harris said. "He probably will visit some other communities earlier, but I doubt that he'll have his deer with him."

Harris said that it would be recalled that Santa paid Tecumseh a visit last year and brought his deer and he felt that he should not come again this year without them.

Mr. Claus' visit on the 17th will be a gala occasion for the youngsters. He'll have a gift with him for each child that he sees and, what is more, if it can be arranged, he'll remain in Tecumseh's downtown district during the week before Christmas when stores will be open daily and evenings.

Tecumseh will be in gala dress for the holidays long before Santa's visit. Scores of evergreens are already being placed on the ornamental lamp posts in the downtown district and there will be a large evergreen tree at each end of the boulevard in the business district. A third tree will be on the lawn at Tecumseh Hospital. Hundreds of multi-colored twinkling lights will be arranged in the trees and these probably will be lighted by Saturday of this week. In addition, metal wreaths also will be placed on each lamp post.

"We anticipate that our holiday decorations this year will be even more beautiful than they were a year ago when Tecumseh won round after round of compliments," Harris said. "We also plan to have Christmas carols over a loud speaker in the downtown district, but this part of the program will not start until the night of Santa's arrival."

COLLEGE GROUP WILL SERENADE, TECUMSEH

Tecumseh will be serenaded some evening during the Christmas season by Cecilian Choristers from Siena Heights College at Adrian it was announced today by the Chamber of Commerce.

This group of over fifty voices under the direction of Sister Thilomena has been singing carols in sections of Adrian for a number of years. This year at the suggestion of Robert Hayes of Adrian and Mrs. Frank K. Smith of Tecumseh, the organization felt it would like to make a gesture to this community.

They will sing some carols in the business district, in some of the residential districts and at the hospital it was announced by Ronald Harris, secretary of the Chamber of Commerce. The exact evening of their appearance and the places at which they will give some of their numbers will be announced in next week's edition of The Herald.

Bids Sought On Tax Notes

SHORT-TERM FINANCING TO MAKE POSSIBLE FINAL PAYMENT ON SCHOOL

The board of education will receive bids at the high school here on Tuesday, December 13, for the sale of $22,300 worth of tax notes, to be issued in anticipation of the collection of the 1949 school district sinking fund. The money obtained from the sale of the notes will be used to complete the contract payments on Tecumseh's new $400,000 high school building, now nearing completion and which, it is hoped, will be ready for occupancy early in January.

The reason for the tax note sale, it was explained, is the board's desire to meet its obligations to the contractor promptly, when the building is finished. Some $22,600 will be collected in taxes in the school building sinking fund but this money will not be available to the district until March 10. The board, therefore, has received state approval to borrow in anticipation of the tax collection, and for a three months' period, at an interest rate not to exceed two per cent. The transaction, it was said, will cost the district about $185 but, it was pointed out, it will make it possible for the district to meet its obligations promptly.

Property owners in the district will pay the final instalment of the five mill sinking fund tax when they pay their taxes beginning December 10. The five mill tax was authorized by voters five years ago. This sinking fund which, over the five year period, has amounted to about $80,000, plus $180,000 in bonds and the gift of $140,000 from Tecumseh Products Co., its president, R. W. Herrick and associates, has made possible the building of the new high school.

Already, from money from the sinking fund, the district has retired $22,000 worth of the $180,000 block of bonds that were issued, leaving a bonded indebtedness of $158,000 against the building. These bonds will be retired over a five year period as follows: $23,000 in 1950; $45,000 in 1951, '52 and '53. Another mill tax to make possible the retirement of the bonds was voted by property owners before the obligation notes were issued.

"Everything is moving along on schedule in the building program, and we are very hopeful of moving into the new high school building early in January," Earl H. Place, superintendent, said today. "Of course, when we make this move, all classes and meeting in churches and at the library will be discontinued."

Mr. Place said that it was a bit too early to name the exact date that the move into the new building would be made but he was very hopeful that his prediction of early January would be fulfilled.

Products Cage Team To Play Blissfield

The Tecumseh Products basketball team, coached by Fred Oberlin, will play host to the Blissfield Handi-Packs, next Wednesday, December 7, at 7:30 p.m., in the Tecumseh high school gymnasium. Monday evening the Products team defeated Napoleon by the overwhelming score of 48 to 12, in a game played in the Tecumseh Intermediate Junior high school in Jackson.

A member of the Jackson City Recreation Basketball League this year, Products is playing at Jackson every Monday evening. Home games are played here on Wednesday evenings. December 14, Monroe will travel here to meet Products.

TAXES WHICH DEPRESS BUSINESS

Collier's recently ran an editorial advocating repeal of the so-called "luxury taxes" which were enacted purely as a war measure, yet are still on the books. In part, it said: "When a working girl who has scrimped for a $250 coat finds that the government has tacked an extra $50 on the price tag she's likely to think twice and maybe give the whole idea up. For that $60 would buy a lot of other things she needs . . .

"We can't feel that money gained from taxes which depress business, cause unemployment and increase relief payments is much of an asset. Nor do we think that a 20 per cent levy on baby oil and movie tickets is necessary to keep the country solvent . . . It's time that emergency war taxes were lifted."

These taxes fall on a long list of articles which, in the view of millions of people, are necessities in a country which prides itself on a high standard of living. In the same category, and equally reprehensible, are the special taxes on railroad, plane and bus tickets, which were passed during the war largely to discourage travel at a time when transportation facilities were strained. There isn't a shadow of an excuse for continuing them.

Those who favor repeal of the special taxes constitute an extremely impressive array. Included are retailers, manufacturers, and labor and farm organizations. The last Congress adjourned before a measure providing for repeal could be brought to a vote. The next Congress should act without delay—in the interest of the consumer, industry and government.

TO MEET DEC. 5

The Happy Home Builders class of the Baptist Church School will meet Monday evening, December 5, at the home of their teacher, Mrs. Cy Bailey, and Mr. Bailey, for a potluck supper at 6:30. There will be an exchange of gifts.

W. H. Hostetler

Waldo H. Hostetler, well known gospel illustrator of Detroit, will show by magical demonstrations some of the Biblical truths which have a profound interest to both young and old alike when he speaks at the Friends church here next Sunday morning during the Sunday school hour at 11:15. Sunday marks the closing of a contest between the Sunday schools of the local church and the Raisin Valley Friends church. An attendance of 205 is needed to break the thermometer which has been used to mark the rise in attendance over the past six weeks.

Mr. Hostetler is an experienced Sunday school teacher and superintendent with a 30-year record of appearances before groups in both the United States and Canada.

Every member of the Friends Sunday school is urged to be present next Sunday and those who are not members may feel free to attend.

Hostetler also will speak at the church Sunday evening at 7:30. To this service the public is invited.

St. Augustine, Florida is the oldest city in the United States.

Don't Let Anybody Fool You!

These Things Will Happen If The Anti-Trust Lawyers Have Their Way

When the anti-trust lawyers from Washington filed their suit against A&P, we told the American people, our customers, our suppliers and our employees how this attack would affect them.

We said that this attack, if successful, would mean the end of A&P as you know it.

We said that it would mean higher food prices for American consumers.

We said that if they succeed in destroying A&P the way would be cleared for the destruction of other efficient large-scale retailers.

We thought the American people were entitled to know about this threat to their welfare and standard of living.

Since that time, however, the anti-trust lawyers have been making speeches, talking over the radio, writing letters and giving stories to the newspapers, in which they say we are all wrong.

They say that this suit will not close a single A&P store; and that instead of raising food prices it will lower them.

And they have tried to give the impression that nobody will be hurt by this decision except the present owners of A&P.

We don't think that the American people want to be confused by these statements. We know that when they have the facts, they will understand that this case can affect the living standards and the way of life of every American citizen.

Here are the facts:

It Will Destroy A&P

The anti-trust lawyers have repeatedly stated that "the suit will not result in the closing of a single A&P store", and that "the purpose of the suit is to enjoin A&P from continuing activity which has been held to violate the law."

The fact is that the suit is designed not only to enjoin A&P from alleged illegal activities, but actually to destroy the company.

Here is what they have asked the court to do:

Break up A&P's retail stores into seven groups, each of which must be sold to different owners, and operated under new management.

Order us to sell A&P's factories, which produce many of the fine foods you find in our stores, to still other new owners.

Prevent any of the seven groups of stores from operating any of the factories.

None of the present owners, who have made A&P what it is today, can have anything to do with either the stores or the factories.

The first A&P store was opened 90 years ago. For the past 50 years the company has been managed by George L. Hartford and John A. Hartford.

These are the men who have pioneered the policy of low-cost, low-profit, low-price food retailing which has won A&P the patronage of millions of American families and given them more good food for their money.

If the anti-trust lawyers have their way, these men and other company executives will be completely out of the picture. No one can predict what the policies of the new owners of the various parts of A&P will be.

No one can predict that they will sell the same quality food at the same low prices, or that they will keep the same employees, or give them the same high wages, short hours, pensions and security.

Nor, despite the anti-trust lawyers' statement, can anyone tell how many A&P stores will remain open or will be closed.

So, while there may be a food store where your A&P is now located, it won't be your A&P store.

Make no mistake about it. If the anti-trust lawyers win their suit it will mean the end of A&P as you know it.

Your Food Will Cost More

The anti-trust lawyers have repeatedly stated that the suit will not increase, but should decrease, grocery prices.

Anybody who has ever shopped in an A&P store, or has ever taken a high-school course in economics, knows better than that.

Everyone knows that A&P's policy has always been to keep costs and profits at a minimum so that it can sell good food cheap.

The very heart of the anti-trust lawyers' case is that A&P's methods, which they claim are illegal, have enabled the company to undersell competitors.

How can anyone possibly say that you will get lower food prices by eliminating the company that has done so much to bring them down?

Actually, there is no question that this suit, if successful, will mean higher food prices for A&P customers.

Here is just one of a number of reasons:

We manufacture many of the quality foods we sell in our stores, such as Bokar, Red Circle and Eight O'Clock coffees, Ann Page foods, White House milk, and many others.

The anti-trust lawyers admit that we pass along these manufacturing savings to our customers in the form of lower prices.

But, the anti-trust lawyers have asked the court to order us to get rid of our manufacturing facilities, which would put an end to all these savings.

This means that if these A&P brands continued to be manufactured, you would have to pay higher prices for them wherever you found them.

The anti-trust lawyers say that food prices would go down in other stores. They claim that food manufacturers would be able to sell cheaper to other grocers because they would not have to make up *alleged* losses they now incur in selling to A&P.

This, of course, is pure nonsense. The suppliers who voluntarily seek our business and are now rushing to our defense obviously find it profitable to deal with A&P. Actually, their sales to this company enable them to build up their volume, reduce their costs, and sell more cheaply to all grocers.

The elimination of A&P from the picture would tend to increase, rather than decrease, the wholesale cost of food; and this, in turn, will be reflected in increases in retail prices.

Make no mistake about it. If the anti-trust lawyers succeed in putting A&P out of business you will find your food bill is higher.

Others Will Be Hurt

The anti-trust lawyers have insisted that this suit will not affect other distributors, "nor will it destroy any efficiencies of mass distribution."

The fact is that the anti-trust lawyers ask the court to break up the company, make it get rid of its admittedly legal manufacturing operations and in general destroy many of the efficiencies which have enabled it to sell food cheaper.

If such an attack is successful, it immediately raises the likelihood of similar attacks on other chain stores.

The anti-trust lawyers are saying that they "do not contemplate any other suits of this nature *at this time*."

But that does not mean that they cannot undertake such suits at any future time if they win this case.

As a matter of fact, the anti-trust lawyers made practically the same allegations against two of our largest competitors that they are making against us.

And it can also be used as the basis for an attack against other grocers and merchants in other lines.

There are today literally thousands of chain stores, voluntary groups and individual merchants operating with the same methods and in the same pattern here under attack.

If A&P is destroyed, no businessman could safely pursue an aggressive sales policy designed to lower prices and give his customers a better deal if by so doing he takes business away from any competitor.

Even if the anti-trust lawyers have no intention now of prosecuting other suits, a decision against A&P will establish a precedent that could be used by the present anti-trust lawyers, or any future anti-trust lawyers, to destroy any efficient business that buys cheaply, sells cheaply, and grows big in the process.

Such a decision would mean the end of the vigorous, healthy price competition which has given this country the highest standard of living ever enjoyed by any people anywhere in the history of the world.

The anti-trust lawyers are trying to give a new interpretation to the anti-trust laws that, instead of preserving competition, will reduce competition.

They are trying, by court decision, to impose a new kind of economic policy on the people of this country.

Make no mistake about it. If they succeed in destroying A&P they will be destroying the method of distribution that has helped make the American standard of living the envy of the world.

New Windshields Will Shed Frost

GLASS WILL BE ELECTRIFIED WITHOUT INJURING DRIVER VISABILITY

A combination of sex hormones has proved outstanding successful so far in experiments with the treatment of arthritis, and most encouraging of all—the drugs involved are all readily available. You can re-web your own chairs with a new home repair kit which is complete to tacks and needles. Windshields will be able to defog and defrost themselves soon, thanks to a new way of electrifying them without impairing visibility. These and other aids to better health and easier living are reported in McCall's National Newsletter for December:

"Norman, Okla. reports that the very latest arthritis therapy is a combination of sex hormones. The doctors who worked out the treatment report that only three out of 90 cases failed to respond. They've still got to do more work on it before it can be generally applied. Encouraging note: the drugs used are all readily available.

"News from Chicago, Ill. says that an inexpensive electric cable with thermostat controls will protect exposed waterpipes against freezing and can be left on the job at home if you go away during the winter months.

"Word from New York, N. Y. promises that home repairs for a spring-type chair become a simple matter with a re-web kit which contains the wherewithal down to and including tacks, needles and a stretch of black cambric with which to dustproof the job.

"According to Bethesda, Md., L-amino acids which can be fed directly into the bloodstream will be available in mass quantities soon as a result of new production techniques which will make them abundant and inexpensive. Intravenous feeding has been confined largely to sugars because proteins could not be broken down into the amino acids — or predigested proteins — which the body could safely absorb. The new process will meet an urgent need in the treatment of many diseases and also be a boost to cancer researchers.

"Fort Collins, Colo. sends word that potatoes now can be infallibly divided into good bakers, good boilers or good fryers by an adaptation of a principle used in mining. They are floated across a tank of salt water. Fryers are lightest, boilers next, the bakers are heaviest and sink first. The process is for growers and handlers of potatoes, not for you.

"Boston, Mass. expects hope for epileptics from two new drugs being tested here at the Seizure Unit of Children's Hospital. Paradione, already available on a doctor's prescription, helps prevent petit mal seizures. Phenurone, effective on all types of epilepsy, is not necessarily better than other anti-epileptic drugs, but it has relieved cases which have not responded to the others.

"News from Toledo, O. says that electrified windshields which defrost and defog themselves are a possibility, now that a way has been found to laminate a thin transparent oxide film to sheets of glass and to feed electricity into the composition."

Miss Barbara L. Kerby Weds Kenneth Dawson

The marriage of Barbara Louise Kerby and Kenneth Dawson was solemnized Saturday evening in the First Presbyterian church, with the Rev. Donald C. Wilson performing the ceremony at seven o'clock, before the altar banked with white roses and greens.

As the guests were seated in the church, which was lighted entirely by candles, Mrs. Fred C. Dickinson presented a program of organ music. Included in her selections were "Intermezzo," by Provost; "Claire De Lune," by Debussey; and the opening theme from "Romeo and Juliet," by Tschakowski. Under the direction of Mrs. Neville Hart, St. Andrews choir sang "Perfect Love," by Barnby.

The bride, who is the daughter of Mr. and Mrs. Yale H. Kerby of Tecumseh, chose white velvet for her wedding attire. The short trained gown of her own design was picturesquely fashioned along Puritan lines with snug fitting bodice softly shirring over the hips, a pointed collar, and long sleeves ending in stand-up cuffs trimmed with tiny ermine tails. Matching white velvet was used for her petite veil-less poke bonnet, also with ermine trim. Her flowers were white Killarney roses and English violets framed by ermine tails on a dainty white velvet muff which she carried.

The maid of honor, Miss Sigrid Nelson of Berkley, Mich., wore a white featheroy gown made with full gathered skirt, long sleeves and a roll back collar. Her Priscilla Alden cap was a silver lame. A matching silver muff bearing a caseade bouquet of red carnations and natural holly greens made vivid contrast.

The bridesmaids, Misses Gloria Hunter of Chicago, Joanne Pullon of Kalamazoo and Nancy Notnagle of Toledo, wore white gowns identical to that of the maid of honor. Their matching caps and muffs of white were trimmed with crisp natural holly sprays, a gift to the bride from friends in Portland, Ore.

Mr. Dawson, who is the son of Mr. and Mrs. Frank Dawson of Arlington, Va., was attended by Allen Wise of Mishawaka, Ind., as best man. Arthur Koblish of Chicage, Robert King of Lafayette, Ind., and Yale Leland Kerby, brother of the bride, were the ushers.

The Tecumseh Country Club was the scene of the reception, with the Kerbys as hosts, after the ceremony. The bridal table, which continued the Yuletide motif, was gaily decorated with holly and Christmas greens. The four-tiered bride's cake was topped with a fresh floral arrangement of garnet rosebuds and gardenias. The Misses Edith Andrew and Lois Raul, sorority sisters of the bride, and Betty Sauer of St. Joseph assisted at the reception. Greeting the guests were Mr. and Mrs. Harvey Wilson. Miss MarLou Gilman of Tecumseh and Roger Ely of Montpelier, Ohio. Mrs. Seymour Barritt carried the guest book. Guests were from Dallas, Texas, Washington, D. C., Huntington, W. Va., Chicago, Ill., Birmingham, Grosse Pointe, Kerby and Owosso, Mich.

Mrs. Kerby, for her daughter's wedding, chose a dinner suit of antique gold satin and a tiny pleated white hat. Her flowers were a corsage of orchids attached to her gold purse. Mrs. Dawson wore a light blue crepe dinner dress with lace trim, and a single red DuPont orchid in her hair.

For traveling the bride chose a blue velvet dressmaker suit with a corsage of white rosebuds. To complete the ensemble, she wore a blue velvet cloche, matching velvet shoes and carried a blue velvet muff.

The bride is a graduate of Sullins Junior College for women located at Bristol, Va., and received her Bachelor of Arts degree from the University of Michigan where she was a member of Alpha Chi Omega sorority. Mr. Dawson graduated from Purdue University with a master's degree in civil engineering. He resumed his studies there after a three years' interval of service in the Army Air Corps during World War II, being discharged with the rank of captain. At Purdue Mr. Dawson was a member of the Reamers, an all-campus scholastic and activities honorary fraternity. He is now employed as village engineer by the village of Tecumseh.

On their return from a two weeks' trip, a gift from Mr. Dawson's parents, to Nassau, Bahama Islands, Mr. and Mrs. Dawson will reside at 215 East Pottawatamie Street.

BABY BLACKETEER . . . Irwin Slater, New York lawyer, was arraigned on a charge of bringing babies from Florida to New York and selling them for adoption fees ranging up to $2,000. Slater was arrested in his Times Square office as result of investigation by Catholic Charities Bureau, Miami.

About The Folk You Know

With Thanksgiving festivities just pleasant memories, local folk are preparing for Christmas and the downtown area will soon be bustling with activity . . . Mr. and Mrs. Harold Wilson entertained Mrs. Glen Wilson and Mr. and Mrs. Harry Faling and sons of Petersburg. Their daughter, Louise, was home from State Normal, Ypsilanti.

Guests of the Floyd Bryans were the Fred Bryan family of Britton, the Carl Kempfs and Mrs. Lillian Owen . . . Mr. and Mrs. Loren Kuhn of Cleveland returned Monday after a five-day vacation spent with her mother, Mrs. Naomi Sallows.

Guests at the L. W. Larsen home over the holiday weekend were Miss Margaret Deuel and Mrs. A. R. McLain of Chicago, and Dr. and Mrs. Peter McGee and Dr. and Mrs. Robert Larsen and son, all of Detroit. Mrs. Harold McGee of Oberlin, Ohio, was an additional guest Thanksgiving Day. Mrs. Larsen's mother, Mrs. H. W. Deuel of Chicago, is spending several weeks here.

Miss Millicent Jan of Detroit was the guest of her niece, Mrs. Reginald Dixon, and Mr. Dixon, for Thanksgiving Day and the weekend.

Mrs. Jessie Brown entertained her daughters, Mr. and Mrs. E. L. Martin and family of Jackson and Mr. and Mrs. Howard Everhart.

Mr. and Mrs. Chris Anderson and daughter of Pontiac, Mr. and Mrs. Vaughn Curtis and daughter of Adrian and Mr. and Mrs. David Curtis of Detroit were guests of Mr. and Mrs. Fred Sheldon.

Dinner guests of the Perry Hayden family were the Ralph Comfort and Edward Escolme families.

The M. Fosters of Adrian and the Henry Ehlingers spent the day with the Vern Manwaring family.

Mr. and Mrs. W. G. Barker were in Hillsdale to help his parents, Mr. and Mrs. A. G. Barker, celebrate their 62nd wedding anniversary. The elder Barkers were the third or fourth couple to be issued a marriage license in Hillsdale county.

Mrs. Vevia Anderson spent Wednesday night with her son, John E. Anderson and family, and Thursday all enjoyed dinner with Mr. and Mrs. William Merrill and family of Detroit . . . The George Heeman family were guests of Mr. and Mrs. George Heeman, sr., of Deerfield.

Mr. and Mrs. Thomas Gallant and daughters, Sharon and Brenda, and Mrs. John Wilson were guests of Mr. and Mrs. Jack Wilson of Toledo . . . The Glenn Driscolls, the Gerald Driscolls and the Harry Crosby family were entertained by the Ray Waters at Antwerp, Ohio.

Mr. and Mrs. Charles Morris and Mr. and Mrs. Harry Morris were the guests of the James Parkers in Toledo. In the evening they attended the Holiday Ice Show at the Sports Arena.

The Rev. and Mrs. B. O. Bashore and children spent from Wednesday to Friday in Chicago with her sister and husband, Mr. and Mrs. Richard Jorgensen.

Jane Hanna and her roommate at Albion College, Miss Nora Riesco of Lima, Peru, spent the holiday weekend with her parents, the H. H. Hannas. Others home from Albion were Maureen McLain, Jeanet Ehinger and Mary Brown. Mary and her parents, Dr. and Mrs. A. H. Brown, spent the weekend in Chicago.

Home from Michigan State College, East Lansing, were Miss Patricia Hammack and Jack Whelan. Louise Bowen was a Thanksgiving Day guest of Ray Bandemer and his parents at Grosse Pointe and the two spent the remainder of the weekend at the home of her parents, the Percy Bowens. Dorothy Bowen was also home from Birmingham.

Marilyn VanWinkle and her house guest, Dick Moore of Holt, both students at State, spent the long weekend with her parents, the A. L. VanWinkles.

Michigan State Normal College students about town were Dermont Peley, Shirlie Moore and Beverly Hadsell . . . Elizabeth Mary Escolme was here from Baldwin-Wallace, Berea, Ohio.

Barbara Hall was 15 years old Sunday, November 27, and in celebration her parents, Mr. and Mrs. Russell Hall entertained a group of young people, Saturday evening. Dancing was enjoyed in the basement which was decorated for the occasion and refreshments of ice cream, cake and punch were enjoyed. Out of town guests included Mr. and Mrs. Deming, son Bezere and daughter Wilma, Harley Rhoades and Richard Sunderland of Adrian.

Those faces of many shapes and sizes on the Baptist church building and on trees in the yard were made by the third grade pupils of Mrs. Sam Sisson who attend school there. The pictures are judged by the children, too. The idea is a good one as it teaches the children to be creative and at the same time is a lot of fun for them.

Stamp collectors in this area will be glad to know that Cardinal Spellman's personal stamp collection will be on public display on Saturday afternoon and evening, December 10, and Sunday afternoon, December 11, on the first floor of the Metropolitan Building, 132 N. Saginaw street, in Flint. This is about the third time that the Cardinal's stamp collection has been shown publicly. Other nationally famous stamp and coin exhibits also will be on display.

Al Schumm and Stuart Costigan are two of 36 Adrian College seniors who have begun practice teaching at Adrian high school. Individual interviews were given to each student by the principal and they were introduced to critic teachers in their respective fields. Both Al and 'Stu'—next door neighbors on West Chicago Blvd.—are teaching physical education.

Church School teachers are preparing the Christmas programs for their respective churches to be presented the week before Christmas. The schedule has been arranged by the Tecumseh Ministerial Association as follows: Methodist, Sunday, December 18; St. Peter's Episcopal, Monday, December 19; Baptist, Wednesday, December 21; Friends, Thursday, December 22; Presbyterian, Friday, December 23. The high school chorus and some 60 boys from the fourth, fifth and sixth grades have been practicing for weeks on the program of Christmas carols which will be presented in the auditorium, Tuesday, December 20, free to the public. The P. T. A. Christmas program will be held Thursday, December 15.

Only 20 more shopping days till Christmas, and more and more out of town folk are finding Tecumseh is the best place for Christmas shopping. Mothers will be interested to know the Indian Acres play school has a few openings left during the weeks of December 5 to 9 and 12 to 16 for tots from three and one half to five years. The hours are 9 to 11:30 a.m., and also Wednesday afternoon. After the 16th the school will close for two weeks for the holidays after which it will operate only four days a week.

The girls of Red Rose Brownie Troop No. 1 were pleased when representatives of their sponsor, the Tecumseh Garden Club, attended their last meeting and presented each one with a house plant to care for. The spokesmen for the club, Mrs. Clarence Beach, the troop's committee woman, and Mrs. H. E. Kenrick, president, also gave a plant for each room where the girls attend school. Mrs. A. L. VanWinkle is leader of the troop.

B. & P. W. Club Is Entertained On Monday

"Sunshine and Shadows" was the title of the program presented for the enjoyment of the Tecumseh Business and Professional Woman's Club, which met Monday evening in the Presbyterian Fellowship Center. Some 44 members were served a delicious dinner by the younger women of the church after Miss Arlene Gibson had offered devotions.

As chairman of the program Miss Jane Partee entertained with her puppet and recited a poem, "Just Before Christmas." Russell Hubbard played a piano solo "Hungarian Rhapsody." The audience responded heartily to the laugh-provoking shadow play entitled "The Operation." Mrs. Ogland Lay was the patient, Mrs. Harry Staniffer the nurse and Miss Partee was the doctor. "The Spinning Song" was played by Russell after which a shadow poem play entitled "A Courtin'" was enacted by the three young women.

During the business meeting Mrs. Myra Parrett was welcomed as a new member. It was voted to give $5 to Town Hall and $5 to the Community Fund. A box of used clothing will be sent to a family in Greece and members are to take their donations to the public library, the Nation Wide store or Consumers Power Co. by December 5. The committee in charge of packing and sending the box is composed of Miss Ruth Harding, Mrs. Duaine Service and Mrs. George French.

The Tecumseh Wit and Wisdom Club will meet for a Christmas dinner Monday, December 5, at 6:30 p.m. at the home of Mr. and Mrs. C. D. Branigin, with Mrs. M. G. Partridge, Mrs. O. W. Laidlaw and Mrs. Glenn L. VanDenbergh assisting. Members are to make dinner reservations with one of the above committee. Each member is to bring a grab bag gift, the cost to be limited to 50c.

Voters' Apathy

(Continued from page 1)

"The time to complain about high taxes," Brake said, "is not when you pay them but before they are created." When the American people begin to expect less from government then, and only then, will taxes go down." The trouble is, he said, that no one wants these government services reduced. They want them increased.

Brake was introduced by Circuit Judge G. Arthur Rathbun. State Senator Elmer Porter of Bilasfield, was a guest. R. G. Coulin, state representative, expected to attend but was in New York for a conference with Governor Dewey. Brake's appearance here was arranged by Le Roy Titley, township supervisor.

Miss Evelyn M. Binns Bride Of Jesse R. Gray

Evelyn M. Binns and Jesse R. Gray were united in marriage Sunday afternoon in the home of the bride's parents, Mr. and Mrs. W. Hal Marshall, by the Rev. Donald C. Wilson, minister of the Presbyterian church. The single ring ceremony took place beneath a large floral arch of huckleberry sprays interwoven with yellow bebe chrysanthemums. On either side of the arch were placed large baskets of bronze and yellow chrysanthemums and pom pons tied with pale green satin ribbon. Mrs. B. E. Gray is the mother of the groom.

Given in marriage by her father the bride chose a daytime length dress of taupe silk crepe. An all over design in bronze beads accentuated the low dipping neckline and the petal shaped folds of the skirt. She wore a Roman gold bracelet worn by her grandmother at her wedding 40 years ago and also by the bride's mother at her wedding. A two-strand necklace of bronze beads with matching earrings completed her accessories. She wore a single white orchid.

As maid of honor Miss Joanne Rae Hart wore taupe satin styled with a high neckline, small collar and bustle back. Her accessories were a two strand pearl necklace with matching earrings and a corsage of white gardenias.

Attending Mr. Gray was Pfc. Harold B. Anderson of the U. S. Marines. Robert C. Binns, brother of the bride, and James Fielder were the ushers.

For her daughter's wedding, Mrs. Marshall was attired in navy blue crepe with a corsage of pink rosebuds. Mrs. C. T. McKee, grand mother of the bride, wore brown crepe with a corsage of yellow rosebuds. Mrs. Gray chose raspberry crepe with a corsage of white carnations.

After the ceremony a reception for some 40 relatives and friends was held in the living room in the Marshall home where refreshments were served by Mrs. L. P. Williamson, Mrs. Charles Kempf and Miss Ruth Koehnlein. The two wedding cakes, one a three-tiered white bride's cake topped with a miniature bride and bridegroom and the other a heart shaped dark cake for the bridegroom, were baked and decorated by Mrs. Harold A. Alfrey, aunt of the bride. Out of town guests were from Morenci, Toledo, Clinton, Wolf Lake and Adrian.

On their return from a motor trip into Canada, Mr. and Mrs. Gray will reside at 110 North Van-Buren street, Tecumseh.

Both the bride and groom attended Tecumseh high school. Mrs. Gray is a member of St. Andrews choir of the Presbyterian church and Mr. Gray was recently discharged from the air corps, after three years service. He is now employed by the Dodge Motor Co., in Detroit.

NOTICE OF SALE

$22,300.00

School District No. 7, Tecumseh Township Lenawee County, Michigan

Notes

Sealed bids for the purchase of tax anticipation notes of School District No. 7, Tecumseh Township, Lenawee County, Michigan, of the face amount of $22,300.00 will be received by the undersigned at the office of the Superintendent of Schools, Tecumseh High School, in the Village of Tecumseh, Michigan, until Tuesday, December 13, 1949 at 8 o'clock P.M., Eastern Standard Time at which time and place they will be publicly opened, read and considered by the Board of Education.

The notes shall be dated November 15, 1949 and shall mature March 15, 1950 and shall bear interest at a rate not exceeding 2% per annum. Both principal and interest shall be payable at the United Savings Bank in Tecumseh, Michigan. Denominations and form of note to be at the option of the purchaser.

The notes shall be awarded to the bidder whose bid produces the lowest interest cost to the District after deducting the premium offered, if any. Interest on premium shall not be considered as deductible in determining the net interest cost, and interest shall be computed from December 13, 1949 to the maturity date.

No proposal for less than all of the notes will be considered.

The loan is in anticipation of the 1949 Building and Site Sinking Fund tax.

Envelopes containing the bids should be plainly marked "Proposal for Notes."

A certified check in the amount of 2% of the total par value of the notes, drawn upon an incorporated bank or trust company and payable to the order of the Treasurer of the District must accompany each bid as a guarantee of good faith on the part of the bidder. No interest shall be allowed on the good faith checks.

Bids shall be conditioned upon the unqualified opinion of the purchaser's attorney approving the legality of the notes. The cost of such opinion and the cost of printing the notes shall be paid by the purchaser.

The right is reserved to reject any and all bids.

State's First Lady Can Make Apple Pie At Cost Of 17 Cents

How much do you think it really costs to make an apple pie with choice Michigan apples? 20c . . 30c . . 50??

Mrs. G. Mennen Williams, wife of Michigan's governor, and Mrs. F. G. Sanderson, Chairman of the Home Economics Department at Wayne University, recently combined their mathematical and baking abilities to discover for us the exact cost of making America' sfavorite pie.

Mrs. Williams and Mrs. Sanderson were as careful and as thorough as they possibly could be They measured the exact amount of each ingredient used, and figured baking expenses to the fraction of a cent.

The results of "Operation Michigan Apple," as the ladies designated their experiment, were pleasantly surprising.

It was found that an apple pie, made with homemade pie crust and ohr incomparable Michigan apples, costs not 50c, not 30c, but only 17c. Imagine that!

In other words, you can make six delicious servings of America's favorite dessert for less than 3c a serving.

If you make your apple pie with a ready-mixed pie crust, the cost is an additional 5c, for a total of only 22c.

With Michigan apples at peak flavor and in greater abundance than ever before, this is indeed good news for economy-minded housewives.

Listed below is the cent-by-cent breakdown of apple pie expenses as compiled by Mrs. Williams and Mrs. Sanderson, on the basis of prices in Detroit stores on October 8:

Pastry, two-crust, homemade	
1½ cups of flour (5 lbs. @ 40c)	3c
½ cup hydrogenated fat (3 lbs. @ 75c) (or ½ cup lard, 1 lb. @ 20c)	5c
¼ cup water	
½ teaspoon salt	
Total	8c
Filling.	8c
1 lb. Michigan apples (6 lbs. @ 29c)	5c
¾ cup sugar (5 lbs. @ 44c)	3c
2 tablespoons corn starch	¼c
¾ teaspoons cinnamon	¼c
½ tablespoon butter	½c
Total	8⅜ or 9c
Total cost of pie with homemade pie crust	17c
Pastry, two-crust, ready mixed crust	
Ready-mixed Pie Crust	13c
Filling	9c
Total cost of pie with ready mixed pie crust	22c

Even if you are the type of apple pie lover who insists on "stuffing" the pie to the uttermost limit, you can add another pound of apples and still keep the cost far below any other of the popular fruit pies.

Non-Partisan News Letter

By Gene Alleman
(Special to The Herald)

What is the Michigan farmer thinking about these days?

The Michigan Farm Bureau and the Michigan State Grange held annual conventions in recent weeks.

These state-wide organizations wield a powerful influence among farm people. When the leaders speak and resolutions are finally adopted, the result is somewhat of a Gallup poll taken at the Grass Roots on a representative basis.

While approving present federal support program for agricultural commodity prices, the Farm Bureau delegates were highly critical of federal subsidies. Generally speaking, the farmer would like to see these abandoned. He fears the ultimate result of a regimented farm economy under the Brannan Plan.

On state issues Farm Bureau delegates urged a two-cent a gallon increase in the present three-cent gasoline tax to finance better roads. They urged Governor Williams to include a road plan program in the forthcoming special session early in 1950.

Construction of toll superhighways, state financing of pre-strike votes by unions, socialized medicine, colored oleomargarine, billboard construction on highways, and dual control over state fairgrounds all were opposed by Bureau delegates. President of the Michigan Farm Bureau is Carl E. Buskirk of Paw Paw, re-elected to serve his fifth consecutive term.

W. G. Armstrong, master of the Michigan State Grange, sounded the keynote before the Grange annual convention recently when he declared that constitutional diversion of Sales Tax revenue back to home governments left the state of Michigan with one of three choices: To shift some of the cost of public services back to home governments, to cut sharply into state of Michigan services such as for colleges and hospitals, and to levy new taxes to avert an inevitable deficit.

The levying of a new state tax would be a further step towards inflation by adding further cost to commodities and surpluses. Economists are already pointing out that the grant of company-paid pensions by the U. S. Steel Corporation, Ford Motor Company and other big industrial concerns will have the equivilent effect of another round of wage increases as far as production costs are concerned.

City consumers may be complaining about food prices. They know that farm prices have dropped 13 percent for the first nine months of 1949 compared with the same period last year.

While non-farm income was up approximately one billion dollars in September, farm income was down one billion six hundred million.

The Michigan farmer knows that farmers generally have shouldered nearly all the price decline so far, while wages to store help and other middleman agencies have continued to go up. Farmers get only 48 cents of the consumer food dollar today as compared with a high of 95 cents 18 months ago.

Before the war the farm share of the food dollar was around 40 cents. In the low depression years farmers received only 32 cents.

The economic squeeze facing the farmer is that the cost of farm operation is apt to remain steady and possibly increase during the next few years, while prices for farm commodities steadily decline. Lower profits thus appear to be inevitable.

You can't blame the Michigan farmer for wondering what is ahead and perhaps favoring some kind of government planning and controls whereby the postwar slump in farm economy, following World War I, may still be averted.

The Michigan farmer also is concerned over our steady path to inflation through constant deficit financing. This apprehension may be summed up by the following illustration:

If the 3,900,000 farmers who own and operate their own farms were to convert their land, livestock and equipment into cash, the net result would be 25 billion dollars cash, only enough to operate the United States government for seven months!

That doesn't make sense to a man close to the ground as a dirt farmer.

NOW!

Michigan's most widely-used
HEALTH PROTECTION
Is offered to individuals and family groups!

Anyone under 65 now eligible for Blue Cross non-profit Hospital and Surgical Plans! No physical examination! No health statement!

MICHIGAN HOSPITALS' AND DOCTORS' OWN HEALTH PLAN

FOR A FEW CENTS PER DAY you can protect yourself and your entire family against crushing hospital and surgical costs, through the Blue Cross Plans.

Over 1,500,000 people in Michigan now have Blue Cross protection. Most of these enrolled through factory or office worker groups. Now, however, Michigan's hospitals and doctors own non-profit health plan is available to individual subscribers during the Community Enrollment Campaign.

Hospital Benefits

The Blue Cross Community Hospital Plan places *no cash limit* on a broad range of hospital extras, such as, the operating room, drugs (including penicillin and streptomycin), oxygen, laboratory services, etc . . . and, in addition, pays up to $7 per day toward *any* hospital room accommodations for as many as 30 days.

Surgical Benefits

The Blue Cross Community Surgical Plan—pays liberal amounts for operative and cutting procedures for the treatment of disease, injury, fractures and dislocations. (More than 370 surgical procedures.)

Anyone Under 65 May Enroll

Any person under 65 years of age, residing in this area, may enroll in Blue Cross Community Plans during the campaign. Once a member, you can keep Blue Cross even after you become 65, with no reduction in benefits. No physical examination—no medical history. (Benefits for chronic and pre-existing conditions and removal of children's tonsils and adenoids available after six months' membership.)

Non-Profit Means Low Rates

Rates for hospitalization and surgical protection under the non-profit Blue Cross Community Plans are as low as $2.35 per month for one person; and only $6.12 per month for husband, wife, and all unmarried children under 19 years old.

You Can Benefit Even More Under a Group Plan

For firms employing five or more people, special Blue Cross Group Plans offer even greater benefits, including a plan for payment of the doctor's hospital calls in non-surgical cases. Talk over with your employer how your company can arrange for this protection. Farmers can take advantage of Group Plan benefits by forming a group through the Grange or Farm Bureau.

Don't Delay! Act Now!

Maybe Hoss-shoein' Was Diffurnt in the 90's

But Who Wants't Live in the 90's, We Says Right Quick

Right smart-tongued cowhand kum to our stabul tother day and tried to razz us a wee bit 'bout the diffurence between hoss-shoein' in the 90's and the modern stabul, such as we operate.

"Waal," he says, "back in them 'er days, when yuh brot yur hoss to the stabul for shoein', the smithy couldn't find a dozen other things on the old animul what needed tinkerin." And then he laffed.

He thot that was a right smart joke—and maybe it was for a feller living in the 90's, but not so today. But the joke did remind us of sumpin:

Christmas is jist around the korner. A lot of cowhands wouldn't mind findin' somethin' little extra fur their nag under the Christmas tree. Sumpin', we says, like spot lites, seat kovers, rear vision mirrors, back-up lites, batteries, and a dozen and one other things we keep in stock at our hoss tradin' post.

Don't buy a good cowhand somepin' he don't kare a dern about this Christmas. Be prakitul, buy him sumpin' fur his hoss and, of course, buy it from us.

NINETY-NINTH YEAR—NUMBER TEN | TECUMSEH, MICHIGAN, DECEMBER 8, 1949 | FIVE CENTS A COPY

Santa's Visit Now Is Assured

WILL COME WITH REINDEER ON DEC. 17; TOWN IS IN HOLIDAY DRESS

With hundreds of multi-colored lights, winkin' and blinkin' from secluded spots in snow-covered Christmas trees in Tecumseh's business district, and with final preparations completed for Santa Claus' visit here on Saturday evening, December 17, this community is in gala dress for the holiday season. Village workmen have completed the installation of two huge Yule trees at each end of the Boulevard in the downtown district, and a third tree has been placed on the lawn at Tecumseh Hospital. To each of the ornamental lamp posts in the business area, two 6-foot trees have been attached, and all of the trees are ablaze with holiday lights.

"I feel that Tecumseh has the most beautiful Christmas decorations to be found in Southern Michigan," Ronald Harris, Chamber of Commerce secretary, said today. "We won many compliments on our decorations a year ago, but I feel that this year's program excells."

Mr. Harris said that he had completed plans for Santa's arrival at 7:30 next week Saturday evening. "He will be here with his eight reindeer, and he will have a gift for every youngster he sees," Mr. Harris said. Santa will make his initial appearance at the corner of the Boulevard and Evans street, and may remain in town all of the following week.

Winter Tax Is Slightly Lower

RATE THIS YEAR IS $28.90 PER $1,000 AS AGAINST $29.30 YEAR AGO

Tecumseh township's tax rate, in school district No. 7 including the village, is slightly less than it was a year ago but property owners in the township, due to improvements, increased property values, etc., will pay about $15,000 more in taxes, it was learned today as Lawrence Mohr, treasurer, prepared to begin the collection.

The tax rate this year in District No. 7 is $28.90 per $1,000 assessed valuation as compared to $29.30 a year ago. However, last year, the township's total assessed value was $4,733,010 as compared to $5,294,100 this year, an increase of more than half a million dollars. There are eight school districts in the township, it was explained, and the rate varies in these districts. In reality, however, the slightly lower rate is due to the equalization of values by the supervisor's committee.

This year, the township will

Indian Cagers To Play Addison

TO MEET VISITORS ON LOCAL COURT FRIDAY EVE; PITTSFORD DOWNED

After whipping the Pittsford high school basketball team, Friday evening, on the Pittsford court, Tecumseh high school will play host to Addison tomorrow evening, December 9.

The final score of Friday's game, 51-44, began piling up early in the game, when Tecumseh racked up 11 points before the hosts could score once. Leading the scoring for Coach Elven Duvall's charges with 15 points, forward Doug McDowell was also feeding the ball to his teammates. Lee Phibbs also played a good game by picking up 11 points.

HAVE YOU WRITTEN YOUR NOTE TO SANTA?

Have you written your letter to Santa?

Scores and scores of letters to St. Nicholas already have been deposited in the miniature letter box, stationed in front of the United Savings Bank by the Chamber of Commerce.

The letter box, fashioned after the real one built by the government, is attractive in green and red coloring with Santa's picture prominently displayed.

Any youngster desiring to tell Santa just what he wants for Christmas is invited by the Chamber to deposit his letter in the box. No postage, of course, is required.

It is the job of Ronald Harris, C. of C. secretary, to see that Mr. Santa receives all of the letters.

Candlelight Service, Dec. 18

ANNUAL PROGRAM WILL BE PRESENTED AT 5 P.M., AT PRESBYTERIAN CHURCH

The annual Christmas candlelight service will be held at the First Presbyterian church Sunday, December 18, at five o'clock, under the direction of Mrs. Neville Hart and Mrs. Sam Sisson, with Mrs. F. C. Dickinson as organist.

The junior choir, made up of 35 voices, directed by Mrs. Sisson, will present a program of Christmas carols. Special parts will be taken by James Place, Glenn Williams, Charles Hendershot, Suzanna Rohweder, Marilyn Heiserman, Sherrie Tucker, Richard Ramsey, Graham Morden, Gary Abner, Jerry Butler and Julia Boyce.

The 42-voice St. Andrews choir, directed by Mrs. Hart, will present the cantata "The Song of Christmas," an arrangement by Ringwald which is comprised of original music and selected excerpts from 20 songs and carols appropriate to the Christmas season, and verses from the Holy Scriptures. The original "Song of Christmas" was performed by Fred Waring and his Pennsylvanians on NBC.

Special parts will be taken by Garth Hall, Albert Williams, Robert Hanna, Mrs. C. B. O'Neill, Mrs. Carl Stevens, Mrs. Albert Merz, Mrs. Earl Place, Mrs. Charles Stephenson, Mrs. Bob Robison, Mrs. Nina Heath, Mrs. Bart Aluto, and Miss Ruby Preston. The Rev. Donald C. Wilson will be the narrator.

Evening School To Begin, Jan. 9

REGISTRATION TO BE IN NEW HIGH SCHOOL; SCHEDULE READY SOON

The Tecumseh Public Evening School, a non-profit institution sponsored by the Tecumseh Board of Education, will again this year offer to residents of this village another opportunity to have "fun while learning" at night school.

The Evening School will get under way with enrollment at 7:30 p.m., on January 9 in the new high school building on North Maumee street. The enrollment fee is only $2 and those who register are entitled to take as many courses as they wish. The fee does not increase, regardless of the number of subjects studied, but a material fee is charged in certain courses

DO YOU HAVE THE TIME TO HELP TRAIN YOUTH?

Boy Scouting In Tecumseh Is Lacking Leadership

If Tecumseh is to operate its Boy Scout program effectively it must have leadership.

Fifteen young boys have recently been graduated from Cub Scouts to Boy Scouts but they cannot progress unless suitable leadership is obtained.

At the present time, one man—and only one man—is acting in the capacity of Scoutmaster in Tecumseh. At least three or four are needed.

What is the answer to the problem?

Some of the folk—and many of them are women—who are vitally interested in Scouting here are seeking an answer to the serious problem. They do not want to see scouting "die by the wayside." They believe that there is plenty of leadership in Tecumseh if it can be awakened to the immediate need for leadership.

There are nearly 100 Cub scouts enrolled at the present time in Tecumseh. As they progress they will be graduated into the Boy Scout organization—if there is leadership for them.

Scouting regulations provide that troops must not include more than 30 boys. There are more than 30 Scouts in Tecumseh at the present time but there is only one troop—because there is only one man who has volunteered leadership.

Persons—men who would be willing to give an evening a week of their time for Scouting are urged to report immediately to E. M. Campbell, who heads the Scouting program in Tecumseh. If interested leadership can be found soon, Boy Scouting in Tecumseh will progress. If such leadership is lacking, then boys who would be "good Scouts" must be denied these privileges.

Its up to Tecumseh.

To Present Christmas Program, Monday

Pictured above are 13 of the 55 Cecilian Choristers from Siena Heights College, Adrian, who will sing in Tecumseh, next Monday evening at the high school, a free program to which the public is invited.

Left to right they are: Mary Lammers of Leipsic, Ohio; Joanne Jaminet of Detroit; Marie Obey, Newberry; Mary Ann Legos, St. Joseph; Virginia Ernst, Sandusky, Ohio; Ann Mitchell, Grosse Pointe, (Accompanist); Elizabeth Youngb'ood, Sawyer; Eleanor Katulsky, Detroit; Maryanna Konarz, Twining; Lois Villemure, Newberry; Rosemary Gieckler, Delta, Ohio; Sylvia Moburg, Toledo, Ohio; Dorothy Kramer, Coldwater, Ohio.

Yule Decorating Prizes Offered By Monday Club

ORGANIZATION REVIVES PLAN FOR DECORATION OF HOUSES IN TECUMSEH

Tecumseh's downtown area—in gala dress for the Christmas season—is likely to vie with the residential sections for honors when the house decorating contest, sponsored by the Tecumseh Monday Club, gets under way in the near future. Mrs. Don Goddard, president of the club, announced the plan this week, adding that judging for the contest will be done after Christmas when decorations will be at the peak.

The first prize will be $10; second prize $5 and there will be an honorable mention. The judges will be Mrs. Archie Porter, chairman, Mrs. Earl Place, Mrs. Joe Rice, Earl L. Wickwire, Ellsworth A. Collins and Ronald E. Harris. Judging will be done from the outside.

At one time the contest was an annual event in Tecumseh but was discontinued in later years. Since it is being revived again it is hoped there will be much interest in it.

Two New Ordinances Delayed In Operation

Tecumseh's newly adopted ordinances governing the operation of mechanical musical devices and mechanical amusement devices will not become effective until January 1, the council, in session Monday evening, decreed. In all probability, it was said, some change in the amount of license fee for the operation of the machines will be made.

These amusement and musical machines generally are owned by out-of-community persons and are placed in restaurants and beer parlors on a percentage basis. The village is demanding $250 for the first of such amusement devices so operated and $5 for each additional machine, $100 for the first musical device and $5 for additional machines, unless ownership is vested in the place where the machine operates, and then the fee is $25.

The council listened to an appeal from Thos. O'Hara, village assessor in 1947-48, asking for added compensation for his services. Mr. O'Hara requested $400. The council, after discussion, authorized an added payment of $50.

Charles Fay, treasurer, reported that 98 percent of Tecumseh's village taxes have been paid. The total collection amounted to $58,365.

Father Of R. W. Herrick Is Buried At Holland

Funeral services were held on Monday afternoon from the Nebelink & Notier Funeral Home in Holland for Benjamin G. Herrick, 82, father of Ray W. Herrick, president of Tecumseh Products Co., who died on Friday after a two-and-a-half weeks illness. The Rev. Mr. Hoffmaster of the Methodist church of Holland officiated and burial was in the family lot in the cemetery of that city.

Mr. Herrick had been a resident of Holland for 44 years. Surviving are the son, Ray W., and three grandchildren, Mrs. Donald Cobb, and Kenneth Herrick of Tecumseh, and Miss Jean Marie Herrick of New York City. Mrs. Benjamin Herrick died nine years ago.

The bearers at the funeral service in Holland were Clyde Giltner, C. F. Sage, Paul Ammer and Lloyd Rhein of Tecumseh, Louis Yunkers of Toledo and Verlin C. Forney of Grand Rapids.

Among those attending from Tecumseh were Mr. and Mrs. Ray Herrick, Mr. and Mrs. Kenneth Herrick, Mr. and Mrs. Donald Cobb, Mrs. and Mrs. Paul Ammer, Mr. and Mrs. Clyde Giltner, Mr. and Mrs. Lloyd Rhein, Mr. and Mrs. C. F. Sage, Mr. and Mrs. Robert Fuller and Mr. and Mrs. Paul Breitenwischer.

Attendance Contest Is Won By Friends Here

The attendance contest, which has caused a great deal of interest and enthusiasm at the Friends church the past six weeks, closed last Sunday. The total attendance for the entire period was 1,216, or an average of 202. The peak was reached the second Sunday when 231 were present.

The Raisin Valley Friends Sunday School were the losers, and therefore must be the entertainers. Plans will be announced later regarding the award to the winners.

Last Sunday "Waldo" Hostetler of Detroit, made a real hit when he presented a program of magic during the Sunday school hour. Not only the youngsters, but the oldsters were trying to figure out some of the mystifying things he did. For instance, it would be so helpful in financing the program of the Sunday School if it were possible to pick money off the flowers and out of the air as he did. The lessons in magic he taught will not be forgotten for a long time. The church was well filled again in the evening and his program was thoroughly enjoyed.

1,800 Customers Get Kroger Birthday Cake

The Kroger Grocery & Baking Co., observed its first anniversary in its new store on East Chicago Boulevard here, Friday, by serving ice cream and cake to its customers. On Saturday, cartons of Coca-Cola were given to purchasers.

The Kroger birthday cake, believed to have been the largest ever cut on such an occasion in Tecumseh, weighed more than 700 pounds, and there was 305 pounds of frosting. The beautifully decorated cake was cut by Earl L. Wickwire, publisher of The Herald who, a year ago, as president of the Chamber of Commerce, participated in the store's formal opening. Mr. Wickwire served the first piece of cake to Ernest C. Peters, store manager. Throughout the day, 1,800 customers were served pieces of the cake and ice cream.

Assisting in the birthday party were Carl Fuller, Kroger branch manager of Toledo, Leonard Thompson, general district manager, Toledo, and Burdette Kizer, district manager, Tecumseh.

College Group To Sing Carols Here on Monday

SIENA HEIGHTS TO BRING 55 VOICES HERE FOR PLEASURE OF COMMUNITY

The Cecilian Choristers of Siena Heights College at Adrian will present a Christmas concert at Tecumseh High School under the auspices of the Chamber of Commerce, Monday evening, December 12, at 8:15. The concert is free to the public.

Beginning with candle-light processional the 55 carolers will open the evening's program with the old favorite, Gruber's "Stille Nacht."

In keeping with the introductory script as prepared by Lois Villemure, the subject of Monday evening's concert is "Let Us Return To Bethlehem," while scripture texts bridge the varied selections depicting the age old theme.

Early traditional carols are interspersed among classical titles of Bach, Gounod, Castelnuova-Tedesco, and Tschaikowsky.

Varied in their presentation, some numbers will be sung in two, others in three and four parts. A few selections will be offered "A Capella." Others will be accompanied by Virginia Ernst of Sandusky, Ohio. Soloist with the chorus is Rosemarie Zaglanczny of Detroit.

Listed among the evening's offerings are: Reading's "Adeste Fidelis," Neldinger's "The Birthday of a King," and Protherol's "O Little Town of Bethlehem." The pro-

Friends S. S. Class To Observe Anniversary

The Welcome Class of the Friends Church, composed of the young married folk, will celebrate its fourth anniversary, Sunday, December 11, with a potluck dinner following Sunday school. A feature of the dinner will be a beautiful four-tiered birthday cake, to be made by one of the members of the class.

From a small beginning the class has grown to be the largest in the school and the teacher, Miss Mabel Lockwood, is glad to have the pleasant room in the new addition where from 30 to 40 members meet each week.

Included in the program will be group singing led by Mrs. Gordon Gove; a review of the accomplishments of the past four years by Mrs. Raynor VanValkenburg; some special music and a reading. The guest speaker will be the Rev. Alvin Brazee, who taught most of the members of the class in high school.

It is hoped that every charter member of the class will be present and all members and their families are given an invitation to attend the dinner.

Chorus And Choir To Give Program Dec. 20

The Tecumseh high school chorus of 35 voices and the Boy's Choir, composed of selected boys from the fourth, fifth and sixth grades, will present a program of Christmas carols, free to the public in the high school auditorium, Tuesday evening, December 20, at 8 o'clock. Mrs. Philip A. Gentile is director and Miss Cynthia Spafford is the accompanist.

Tecumseh Acres Grows Steadily

FIFTEEN FAMILIES ARE SETTLED IN THEIR NEW HOMES IN SUBDIVISION

Tecumseh Acres subdivision, farm land only this Spring, is now a fast-growing residential section, with fifteen families settled in their homes there. Contruction in the division is progressing to the north.

Property owners in the subdivision, which was before its purchase known as the Green Acres farm, are permanent residents of the new addition, Glenn H. Kohler, agent, explained. The majority of the buyers have lived or have been employed in this community for years previous to owning a home in Tecumseh Acres, he said.

Charles A. Caffee, Robert S. Rutherford, Richard Beaubien, Hugh Schultz and Robert Heavener are all employed by the Tecumseh Products Co., 12, eight, seven, three and two years respectively. Two other buyers, Everett E. Fielder and Richard F. Witt have been employees of the Products for five years each. Other residents are Russell L. Kasik, radiotrician of Tecumseh Electric Supply; Harold L. Warren, custodian of V.F.W. post 4187; Gilbert J. Nighswander, plant man of the Michigan Associated Telephone Co.; John S. Krzyzaniak, employee of Ford Motor Co., plant of Manchester for nine years; Wayne W. Helms of the Helms Furniture store; the Rev. Albert S. Dimbat, pastor of Tecumseh Gospel Tabernacle; Lynn E. Yancer of Clarks Service Station, Brownville; and Harry R. Reidy, a mechanic at Beach's Service Station.

Pupils Plan Yule Program

CHRISTMAS MUSIC TO BE FEATURE OF PARENT-TEACHER MEET, DEC. 15

The pupils of Tecumseh's grade schools will present a program of Christmas music Thursday evening, December 15, in the high school auditorium, at 8 p.m., under the direction of Mrs. Philip A. Gentile and sponsored by the Parent-Teacher Association.

The program will include the following: First grades, "A Cradle Carol," "Christmas Holly," "Our Christmas Pie;" second grades, "Christmas Carol," "The First Christmas," "Merry Christmas;" third grades, "Christmas Bells," "Shepherds Watching," "A Candle;"- fourth grades, "Bring A Torch," "Kolyada," "Three Kings;" fifth grades, "Carol of the Creatures," "December Treasures," "Old

Quaker Wins Safety Honor 2 Years In Row

The Quaker Oats Company, Tecumseh, Michigan, has been awarded a trophy for winning first place in the Food Section of the National Safety Contest. There were 80 companies competing in the Prepared Foods Group in which the local Quaker plant was winner with the safety record of no lost time accidents during the contest period July 1, 1948, through June 30, 1949.

This is the second successive year that the Tecumseh Quaker Oats Plant has received a first place award for no lost time accidents.

SHERIFF'S OFFICERS PROBE FIRE IN CHURCH SCHOOL

You Might Hate School, But Don't Burn Building

Wishing that the school house might burn down—especially at examination time—is a desire that probably has occurred to many, many youngsters but, to put the thought into action—well, that's another story.

However, sheriff's officers are investigating a near-fire at the First Baptist church here, Monday afternoon about 3:20, that is believed to have been started by a 9-year-old third grade lad who attends classes in the building. The church is being used for school purposes until the new high school building has been completed.

According to the Rev. B. O. Bashore, Baptist pastor, he was hurriedly summoned to the church by the teacher, Mrs. Sam Sisson, after the building had started to fill with smoke. The Rev. Mr. Bashore at first believed that something had gone wrong with the heating system but a checkup proved to the contrary.

An investigation showed that an attempt had been made to start a fire in the church basement by igniting discarded Sunday School leaflets. They had been twisted together and thrown under some portable steps. The fact that the papers were tightly twisted made them a bit difficult to burn and the fire went out. Otherwise, Mr. Bashore said, it might have been a different story.

Sheriff's officers have been notified and they were here on Tuesday conducting an investigation.

There was no damage to the building and school sessions are in progress as usual.

Town Hall Will Begin, Jan. 24

FOUR PROGRAMS, THE LAST ON APRIL 11, SCHEDULED BY DIRECTOR

Tecumseh's Town Hall programs for the year of 1950 have been announced by Neville Hart, director.

The schedule calls for the opening of Town Hall on Tuesday evening, January 24, when Prof. Russell H. Fifield of the University of Michigan Political Science Department, will discuss: "The European Situation." Dr. Fifield will give some of his observations on his recent visit to Italy, France and England. He toured these countries during the past summer.

On February 21, the Hon. D. Hale Brake, treasurer of the State of Michigan, will be the speaker. Mr. Brake's topic will be, "Problems of State Government." Mr. Brake recently spoke to a joint meeting of Rotary and Exchange Clubs here, and his talk was most interesting.

Harris Hopeful In Chest Drive

SOLICITOR'S REPORT INDICATE SUCCESS BUT CAMPAIGN IS MOVING SLOWLY

"If what is still to be reported will only live up to the pace set by those solicitors reporting thus far, we shall reach our goal for this year's Red Feather campaign," was the statement today of Ronald E. Harris, chairman of the 1949 drive.

"We are attempting to gauge our progress according to the contributions obtained in similar areas in previous years," Mr. Harris said. "This, of course, is not a perfect yardstick, but is probably as accurate as any we could devise without comparing individual receipts from year to year.

"On such a basis we seem to be doing all right. Two residential areas have nearly completed their reports. In one instance there has been some redividing. By adding the divisions, the area exceeds the sum obtained a year ago. Another area fell short of its last year's total by less than five dollars. The success of the remaining residential areas can only be shown when more complete reports are in. Telephone reports sound encouraging, but we are trying to be careful to measure our success only by reports actually turned in to the office.

"Two of the business areas have completed their reports with the

THE TECUMSEH HERALD

EARL L. WICKWIRE
Editor and Publisher

The oldest newspaper in Lenawee county. Established in 1850.

Published Every Thursday Morning. Offices at 127 W. Chicago Boulevard, Tecumseh, Michigan Telephone 476.

Entered at the Post Office at Tecumseh, Michigan, as second-class matter. Subscription Rates, $2.00 per year, payable in advance. Advertising Rates furnished on application.

YOUR FOOD BUDGET

"Last year, the average family spent 27.7 per cent of its disposable income on food," says U. S. News & World Report.

"This year, cuts already made in the price of food mean that the same family is spending only 26.3 per cent of its net income on its food budget. That's a saving of $2,700,000,000 under what would be spent by U. S. families if last year's rate were continued.

"Next year, prospects are that food will cost the average family about 25 per cent of its net income. In that event, spending for food will be another $2,600,000,000 less than it would be if the present proportion carried through. It means that more will be left over for other things the family needs and for luxuries it cannot now afford."

Many factors enter into the changing state of food prices. One of them is given small recognition by multitudes of consumers, and that is the very high level of economy and efficiency attained by retail food merchants — the people who run the chain or independent grocery store where you fill your market basket. The margin of profit they earn on each item they sell is unbelievably small—so small that it hardly affects your budget. And in recent years, due to increasing competition and production, that profit has tended to decline.

As a matter of fact, almost all forms of merchandising these days work on the principle of small individual profits and big volume. Every merchant knows that high prices are the worst obstacle to sales. He does what he can to hold them down.

2 Life Certificates Granted By O. E. S.

A regular meeting of Tecumseh chapter, Order of the Eastern Star, was held Thursday evening, during which time Miss Ruth Harding was admitted to the order and life certificates were granted to Mrs. Grant Schreder and Mrs. Clyde Barber.

At the conclusion of the business session Leon Willnow of Adrian showed color slides of various activities of the Villa and many other interesting scenes throughout the state.

Lunch was served by Mrs. Bert Klappich and her committee in the dining room, which was attractively decorated for the Christmas season. Guests were present from Adrian and Fowlerville.

Initiation will be held at the next meeting, January 5.

Adrian Pastor Named To Alma College Post

The appointment of the Rev. John P. Emig, pastor of the First Presbyterian Church at Adrian, as assistant to the president, succeeding the late Ernest vanden Bosch, effective as of January 1, 1950, was announced on December first by President Welch.

Mr. Emig will represent the college in the Detroit area in the general field of public relations and financial promotion. The college has the interest of hundreds of alumni and thousands of Presbyterians in this area and Mr. Emig will contact these people from time to time in connection with the work of the college.

In announcing this appointment President Welch said, "The college considers itself fortunate in the appointment of Mr. Emig to represent us in the Detroit area. He is a native of Detroit, a graduate of the Detroit Institute of Technology and of McCormick Theological Seminary, and is a product of the Highland Park Presbyterian Church. He will bring to his task fine training, youthful vigor, and superior preaching ability. I am sure that he will be heard with interest and profit by the many splendid congregations in the Detroit Presbytery."

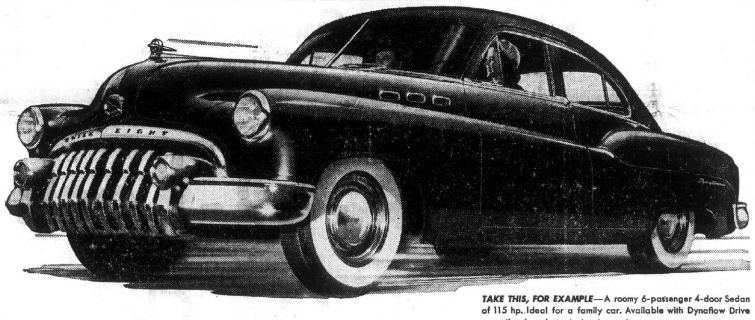
THAT'S YOUR BUDGET NUDGING YOU



TAKE THIS, FOR EXAMPLE—A roomy 6-passenger 4-door Sedan of 115 hp. Ideal for a family car. Available with Dynaflow Drive as optional equipment at extra cost.

LOOK this tidy Buick over—and you may hear a still small voice saying "go ahead—*get it!*"

If so, don't think it's mere ambition urging you to splurge.

The simple fact is that this lively fashion setter is not only a car straight from your rosiest dreams, but a *brawny straight-eight Buick that practically any budget can handle!*

Match prices—and you'll find that many a six costs you more than this does.

Boil it down to costs per pound—and poundage in a car often means more durability and longer life as well as smoother riding—and you'll find this one right down among the so-called lowest priced cars.

Figure your investment over the extra years you'll be happy in a Buick—check the used-car listings and see how Buicks hang onto their resale value—and you'll see the wisdom in buying a better car to begin with.

And just figure how much *more automobile* you're getting here.

The extra value of Buick's own Fireball valve-in-head straight-eight power.

The bump-smothering gentleness of soft coil springs on all wheels, both fore and aft.

The roominess of Buick's king-size interiors—the lightness of Buick controls—the new parking and garaging ease of traffic-handy size—

And that completely different and distinguished look of Buick's tapered fenders, sleek jet-plane lines and the sturdy, shock-deflecting protection of that bold new front-end design.

So go ahead and listen to that still small voice. It's your budget, nudging you to go get the actual figures and replace guesses with facts.

The place to go is your Buick dealer's—and if you want to travel like fortune's favorite, the time to sign on the dotted line is *now!*

Got A Stiff Neck? New Spray Is Cure

MEDICAL SCIENCE CONTINUES TO FIND NEW CURES FOR OLD ILLNESSES

Stiff-neck sufferers may get relief by a spray of ethyl chloride gas applied to the skin in rhythmic sweeps. A new drug, bacytracin, has been found to be very successful in ointment form for skin infections, according to Dr. Martin Gumpert, who reports these and other advances in the medical field in Redbook Magazine for December:

"Most child specialists believe that shoes are not needed until baby is standing and walking on hard surfaces. While learning to walk on grass or a play-pen pad, a child could be barefoot. First walking shoes should be firm-soled, give adequate support to the arches and should be high-topped, to provide ankle support. After a child has learned to walk, either high shoes or Oxfords are acceptable.

"The painful muscular spasm which cause a stiff neck may be completely relaxed by a spray of ethyl chloride gas applied to the skin in rhythmic sweeps. During the treatment, the painful muscles are gently stretched until all pain and tenderness disappear. A doctor reports that in nine out of twelve cases only one such treatment was necessary. A physician or trained nurse should administer this treatment.

"Veterans Administration psychiatrists have found sports helpful in relieving anxiety, lessening inhibitions, and resolving inferiority feelings among their patients. For example, swimming has a calming effect on hyperactive cases, stimulates persons suffering from depression, and is beneficial in cases of hysteria.

"A new drug, bacytracin, applied as an ointment, has been found to be outstandingly successful in treating infections of the skin. Both superficial and deep infections respond to the drug, according to a recent report. In 288 patients treated, the response was rapid and effective, and there was only one case of hypersensitivity. Treatment, of course, must be under the supervision of a physician."

seminar, workshop discussions were held on the four commissions, namely: worship, missions, community service and recreation. These were under the capable leadership of Dr. Leonard and students from Adrian College. The groups reassembled for an evaluation of the discussions.

At six o'clock a light supper was served by the local group with Nita Spangler, Carol Harper and Audrey Cook in charge. Thirty minutes of planned recreation was enjoyed by all before they assembled again in sanctuary for devotions led by the county officers and the Adrian Youth Fellowship. Dr. Vernon S. Mumbulo of the Nardin Park Methodist church in Detroit was the guest speaker and presented a real challenge to the youth as well as giving them encouragement and inspiration.

Dr. George S. Woomer of Blissfield is counsellor for the county Youth Fellowship. Virginia Snyder is president of the local group. Others who assisted her throughout the meeting were Beverly and Duane Hay, who registered the guests; Donna Burleson, Ileen Beach and Joyce Gray, who acted as hostesses and Sally Reutschler, who arranged the worship center. All of the local arrangements were made under the guidance of Aden Mead.

exception of only one or two callbacks. In both cases they equal or exceed last year's total.

"Factory and outlying business contributions are also in excess of a year ago," Harris continued. "Club and fraternal donations are at present below the 1948 figures, although we have had unofficial reports of various sums being set aside for the campaign that have not as yet been turned in. The special gift division has reported unofficially and we believe that we shall equal last year's amount in that division.

"The success of the drive will depend a great deal upon our 'fine-tooth' tenique," Harris said, finally. "In this connection the people of the community can be of great help. Our volunteer workers have had to inconvenience themselves greatly to help us out. In most instances they have had to make several calls to many places in order to find the proprietor or householder at home. A number of persons who have been missed have brought their contributions in to the headquarters at the Chamber of Commerce office. In each case the volunteer worker for that area has received credit for the contribution. Remember that your volunteer workers are giving time as well as money. If you have been missed you may bring your contribution to headquarters and by giving your address, the volunteer assigned to your area will be given full credit for having taken the donation."

TO ENJOY POTLUCK

The Florence Weld Mission Guild of the Presbyterian church will meet Tuesday, December 13, at the home of Miss Edith Ingersoll for a potluck supper at 6:30 p.m.

Mrs. Edith Cotton Smith will present a Christmas program and Mrs. Jennie Satterlee is in charge of devotions. Members are asked to bring inexpensive gifts for an exchange and to also bring gifts to send to the children at Edisto Island.

Local Folk Attend Legion-Auxiliary Meet

Mrs. Charles Howe, Mr. and Mrs. Louis Schneider, Mr. and Mrs. Laine Holden, Mr. and Mrs. Vern Manwaring, Mrs. Dale Tingley, Jerry DuFour and Mrs. John Snyder attended the mid-winter conference of the American Legion and Auxiliary at Lansing December 2, 3 and 4 at the Hotel Olds.

The national president of the Auxiliary gave a splendid talk, stressing religion to combat communism. Earl Cocke, jr., of Georgia, chairman of the Legion's national security commission, said that war with Russia is almost inevitable and urged concentration on an adequate and immediate civil defense structure that will enable communities and their people to minimize the initial attack of any aggressor nation.

R. Gerald Barr, state commander, also addressed both the Legion and Auxiliary and hoped that the conference would help provide an inspiration and incentive to continue the great work being carried out by the two organizations.

students from the University of Michigan, known as "The Michigan Singers," will present a program of religious, classical, semi-classical and modern music on Tuesday evening, March 14.

The final program of the year will be on Tuesday evening, April 11, when C. Ferrel Heady, jr., professor of political science at the University of Michigan, will be the speaker. Dr. Heady will discuss the federal executive reorganization and the work of the Hoover Commission.

All meetings begin promptly at 8 p.m.

This is the fourth year of Town Hall in Tecumseh. The organization is under the direction of the public schools with most of the clubs and organizations of Tecumseh cooperating financially. Admission to all of the programs is without cost.

7,160 Gallons Of Gas Burned

TANK TRUCK DESTROYED IN ICY PAVEMENT ACCIDENT WEST OF BILLINGTON'S

Early Saturday morning 7,160 gallons of gasoline went up in flames and the tank truck in which it was being hauled was completely destroyed, when the trailer of the truck overturned at 2:30 a.m. on M-50 one-half mile west of Billington's Corners. Dallas D. Lape of Jackson, the driver, leaped to safety.

Headed west on M-50 the truck struck a patch of ice. The trailer skidded and overturned but the truck remained upright on the pavement. Gushing from the tank, the gasoline immediately caught fire and blazed throughout the morning hours. An area of about 75 yards square, including guard rails, was burned out. The pavement was badly damaged by the intense heat.

The Tecumseh fire department answered the call at 2:45 and stood by. State police of the Clinton post were called and traffic was re-routed to US112.

DE RUITER RESIGNS PASTORATE HERE

The Rev. J. deRuiter has resigned as pastor of the Grace Evangelical Lutheran church to accept a call to the Evangelical Lutheran Church of Our Savior in Detroit, where he will be installed January 15. Having completed six years of service to Grace church, the Rev. Mr. deRuiter will preach his farewell sermon January 8.

PRODUCTS CAGE TEAM IN FIRST PLACE TIE

The Tecumseh Products cage team won again Monday evening in the Jackson City League defeating the Meade and Carringer Drugs on the Jackson court by a score of 48 to 27. Gunder, Schmid, Heininger and Costigan were high scoring men.

The Products cagers are tied for first place in the league with Shores of Jackson. Products has won two games in a row.

HAPPY HOME BUILDERS

Mr. and Mrs. Cy Bailey entertained the Happy Home Builders class of the Baptist Church School at a potluck supper, Monday evening. After the supper, Christmas carols were sung, followed by an exchange of gifts. Games appropriate to the Christmas season were enjoyed. During the business meeting it was voted to cooperate with the older women at the bake sale, Saturday morning.

The next meeting will be held January 9 at the home of Mr. and Mrs. Richard Carter of Tipton.

Santa's Visit

(Continued from page 1)

Siena Heights College, Adrian, will pay Tecumseh a visit next Monday evening and after singing carols at the hospital and in the downtown district, will present a special program at the high school, beginning at 8:15. Admission to this program is free.

"We are very grateful to Siena for the appearance of this choral and I know that a large crowd will be on hand to hear them at the school."

The Chamber, cooperating with Forest Abner of Tecumseh Electric Supply, also is arranging to broadcast music from churches in and near Tecumseh during the week preceding Christmas. The policy of broadcasting carols over a loud speaker system was inaugurated here two years ago.

"It is our plan this year, with Mr. Abner's cooperation," Harris said, "to make recordings of organ music from the Episcopal, Friends, Baptist, Presbyterian, Methodist, Lutheran and Catholic churches in Tecumseh, and from churches in Macon, Britton, Ridgeway, Holloway and Tipton. These recordings will be played back to the public over the loud speaker system starting on December 19. In next week's Herald we hope to be able to tell the public on just what evenings the recordings will be played." In addition to the church music, Harris said, other carol records would be used.

Winter Tax

(Continued from Page 1)

raise a total of $142,732.39 in taxes. Of this total amount, $110,497.10 will go to the schools and the public library leaving $31,764.66 as the amount of county tax to be raised. Breaking down the total to the schools the books show that $40,578.66 goes for school operating expense; $22,797 to the school sinking fund; $36,475.20 to the school's bond retirement fund, and $4,559.40 to the public library.

A breakdown in dollars of the $25.90 rate follows: $6 for county tax; $8.90 for school operating tax; $5 to the school sinking fund; $8 to the school bond retirement fund; $1 to the public library.

Last year, the township paid $127,691.85 in taxes of which amount $98,456.41 went to the schools and the public library.

The township treasurer is now preparing his tax roll and in all probability, the collection will begin here within a week or 10 days.

LANSING LAWYER IS ROTARY CLUB SPEAKER

An increase in gift and inheritance taxes, both national and state, is likely in the future unless some pressure is brought to bear upon legislators was the warning Tuesday evening by Cyril E. Hellemann, Lansing attorney, when he addressed members of the Rotary Club here. Mr. Hellemann, the guest of H. H. Hanna, spoke following the dinner meeting at Brees House.

Hellemann, formerly with the U. S. Treasury Department, told his audience something about the tax program state and nationally. Taxes, he said, are something to think about before they are created, not when they are paid. The attorney's talk was very educational and most interesting.

SENIOR CLASS TO GIVE PLAY, TONIGHT

The senior class of Tecumseh high school will present a three-act comedy entitled "Love Is Too Much Trouble," this (Thursday) evening and Saturday evening in the high school auditorium, at 8 p.m.

The comedy relates the trials and tribulations of a group of Ivy Gate college students who have troubles. The play is enacted by an experienced cast and is directed by Miss Joyce Creger.

CHILD STUDY CLUB TO MEET, MONDAY

Mrs. Willis Porter will entertain the Tecumseh Child Study Club, Monday evening, December 12, at 8:30 o'clock, for the annual Christmas party and bazaar, of which Mrs. Keith Barron is in charge. The assisting hostesses are Mrs. A. A. Musch, Mrs. David Dick and Mrs. George McCombs. The committee in charge of childrens favors are Mrs. Musch, Mrs. Wallace Whiting and Mrs. Gerald Osworth.

CLUB LUNCHEON

The next weekly Ladies Day luncheon at the Tecumseh Country Club, December 14, will be in charge of Mrs. R. H. Moore, phone 284, and Mrs. Ralph Hodges, phone 101M. This will be the last meeting until after the holidays. Reservations should be made by Tuesday noon.

CHRISTMAS PARTY

A Christmas party for members of Hall-Slater post, Veterans of Foreign Wars, its auxiliary and their families will be held Thursday, December 22. A potluck supper will be served at 6:30 p.m.

Find New Danger From Auto Fumes

CAR AHEAD, IF ITS CLOSE ENOUGH, MAY FEED MONOXIDE INTO HEATER

Watch out for carbon monoxide from the car ahead of you, especially if you are driving a new model car, the Michigan Department of Health warned today.

Make sure that the exhaust system of your own car does not endanger you, and then give some thought to exhaust from the car ahead.

In some new model cars, the fresh air intake for the air conditioned heater is located in the front fender or grille, directly in line with the exhaust pipe of the preceding car. This intake can and may draw in enough exhaust fumes to endanger occupants of the car, according to the Department's Division of Industrial Health, which said some manufacturers have taken or are taking steps to eliminate the danger.

In congested traffic, when you are within less than eight feet from the car ahead or when you are parked behind a car with its motor running, close the vents completely.

Carbon monoxide has no odor, taste or color. It does not irritate the nose or throat. But less than one cubic foot of carbon monoxide in a closed car can kill the occupants in less than 15 minutes.

That car ahead of you may put out of its exhaust pipe as much as ten cubic feet of carbon monoxide every minute, depending on the condition of its motor.

If this carbon monoxide is drawn into your car, your body will absorb it before it absorbs the oxygen in your car. The smaller the person, the more quickly he is affected. Your child may become seriously ill of carbon monoxide poisoning before you can feel it. The poison is especially dangerous to people with heart ailments.

Symptoms of carbon monoxide poisoning are: drowziness, headache, dizziness, and nausea.

If you suspect carbon monoxide poisoning, take the person into fresh air at once. If he is overcome by the poison, wrap him in blankets to keep him warm, and give him artificial respiration until a physician and an inhalator or respirator arrives.

Proper Use Of Credit Is An Aid To Business

Many families in Tecumseh are going without the "trimmings" of a merry Christmas needlessly, according to J. M. Artman, manager of the Tecumseh Credit Bureau. Nineteen forty-nine's total sales volume at present lags behind 1948, and Mr. Artman says that much of this decline in Christmas buying could be corrected by more information on the proper value and use of consumer credit.

"Two types of customers in particular need more information about retail credit," says Artman. These are the "timid" customer and the "wary" customer. Given a proper introduction to charge account buying, these people would realize they can probably buy most of the things they want and need this Christmas—on credit.

The "timid" customer is one who hesitates to ask for credit. He is afraid he will be turned down — perhaps he even feels sure he will. He thinks he has never bought anything "on credit" before, or he thinks his income is not large enough to interest a credit granter. Or maybe he is a stranger in Tecumseh, and thinks he couldn't get credit privileges, since no one knows him.

However, Artman points out there are very few people who have not bought something or credit: Laundry charges, cleaning bills, dairy products, newspaper bills, charges at the neighborhood grocery or gas station—all these are credit purchases, and serve as references for your credit application.

And, even if you are that rare person, the customer without a credit record, most of Tecumseh's credit granters will be glad to approve a limited account for you if you have a job. Being a stranger in town is no bar to credit buying, if you have had accounts in good shape at your previous residence. The Tecumseh Credit Bureau has ready access to the files of 1500 communities in North America, through its membership in the Associated Credit Bureaus of America.

As for the "wary" customer, he has been needlessly frightened away from charge accounts and views the whole system incorrectly. Perhaps this type has known someone who got in over his head, with unpleasant consequences. The "wary" customer doesn't realize that such incidents are the exception rather than the rule, that stores don't want to alienate customers and their friends by harsh collection practices—except in the most unusual cases.

"Unusual cases is right" says the Credit Bureau. "Most people know the value of a good credit record. They like the convenience of charge accounts, and pay promptly to have these privileges constantly available."

WELCOME CLASS HAS ITS CHRISTMAS PARTY

The Welcome Class of the Friends Sunday School held its Christmas party at the church, Tuesday evening, at which time mystery sisters were revealed and new ones drawn for the coming year.

A potluck supper was served from tables gay with holiday decorations. Mrs. Richard Woodcox, chairman, announced the following program: Group singing of carols: "There's A Song in the Air," sung by Mrs. Edward Escolme, Mrs. Harry Creger, Mrs. Leon Johnson and Miss Mabel Lockwood; playlet, "Ma Makes Merry," Mrs. Escolme, Mrs. Charles Herring, Mrs. Melvin Muhn and Mrs. Emma Day; vocal solo, "Peace On Earth, Good Will Toward Men," Mrs. Merritt Chase; reading, "The Messiah," Mrs. Day; vocal solo, "Star of the East," Mrs. Delia Wilson; talk, "Looking Into 1950," Mrs. Ralph Comfort.

An exchange of gifts was held in conclusion.

MEN'S BIBLE CLASS TO ENTERTAIN LADIES

The Men's Bible Class of the Friends Sunday School will entertain the ladies Welcome Class at supper, Monday, December 12, at the church. Mac Powell is chairman of the event.

The reception at 6:30 will precede the supper at 7 p.m. Oscar Meads, president of the class, will give the welcome and Perry Hayden will act as master of ceremonies. The following committees have been announced: tables, Melvin Muhn; reception, Everett Hensen and Merritt Chase; favors, Rueben VanWinkle, Mrs. Raynor VanValkenburg heads the committee from the Welcome Class who will assist in serving.

Motion pictures will be shown with Ralph Comfort in charge.

WIT, WISDOM CLUB

Some 44 members of the Tecumseh Wit and Wisdom Club enjoyed a Christmas dinner at the home of Mr. and Mrs. C. D. Branigin, Monday evening. Mrs. M. G. Partridge, Mrs. O. W. Laidlaw and Mrs. Glenn VanDenbergh were the assisting hostesses.

The program consisted of Christmas music and a toy grab bag.

After a holiday recess the club will resume its bi-monthly meetings January 16, when Mr. and Mrs. Ellsworth Collins will entertain, assisted by Mr. and Mrs. Faye VanValkenburg.

LEAGUE TO MEET

The Baptist Junior League will meet Tuesday evening, December 13, at the home of Mrs. Jesse Nichols with Mrs. Charles Beland assisting. Mrs. Gilbert Nighswander is program chairman and Mrs. Richard Carter will have devotions.

Annual Xmas Party Planned By Auxiliary

The December meeting of the American Legion Auxiliary, Unit No. 34, was held at the Legion Home, Monday evening, with some 30 members in attendance.

Mrs. Laine Holden, first vice president, presided at the business meeting due to the illness of the president, Mrs. Ned Rosacrans. It was voted to give $25 to the Community Chest and $5 to Town Hall. Plans were made for the annual Christmas party for all veterans' children to be held at the Home December 17. Mrs. Bill Partee was named chairman of the event.

Reports were given by Mrs. Laine Holden and Mrs. Dale Tingley, delegates to the mid-winter conference held at Lansing December 2, 3 and 4. Mrs. Vern Manwaring gave a report on the gift shop at Battle Creek, and also on rehabilitation, December being Rehabilitation Month.

Refreshments were served by Mrs. Margaret Aebersold and her committee.

GOOD CHEER CLASS

The Good Cheer class of the Baptist Church School met Friday at the home of Mr. and Mrs. Dean VanValkenburg for a potluck supper. During the business meeting plans were discussed for Christmas treats for the children. The class is sponsoring a bake sale, Saturday morning, at Hanna's Insurance Agency.

A&P CANNED FOODS

CUSTOMER'S CORNER

The anti-trust laweyrs who want to put A&P out of business don't like our low price policy. They say we use it to drive competitors out of business.

Actually, as every customer knows, our low price policy is designed to do just one thing: Give you more good food for your money.

Here are the facts about our low price policy:

1. We keep our profits at a minimum. They average less than 1½ cents on each dollar of sales during the past five years.
2. We have for years had a strict policy against below-cost selling.
3. We do not have any "week-end specials" but feature low prices the whole week long.
4. We charge the lowest practical prices everywhere we operate.

That is why we say, regardless of where you live, you will save money week in and week out by doing all your shopping at A&P.

Indian Snappers See Land Camera At Work

The Indian Snappers met Monday evening at the Tecumseh Camera Shop, with a good attendance.

During the business session conducted by John Saling, president, further plans regarding the print-of-the-month contest were made. Five entries were made for December, and the winners selected by the members. Mabel Lockwood was given the first and third prize and Lester Tucker the second prize. An interesting discussion followed on why these selections were made, and how the pictures could have been improved.

One member brought some movies which were faulty and this problem was discussed at some length. Mr. Saling took some pictures with a Land camera, and in just one minute the finished picture was ready for criticism.

Entries for the contest for January may be on any subject, and as many 5 x 7 dull tone prints as desired can be submitted by each member. Points will be given for each winner and for each entry.

Nobel Prize Winners Are Monday Club Topic

A round table discussion on the topic "The Contribution of Nobel Peace Prize Winners to World Brotherhood" proved instructive to some 50 members of the Tecumseh Monday Club, when they met this week, December 5, at the home of Mrs. Roscoe Hewlett. Mrs. Earl Place, program leader, Mrs. Ronald Harris, Miss Edith Ingersoll and Mrs. B. O. Bashore participated in the discussion.

Mrs. Don Goddard, president, opened the meeting. The religious thought, prepared by Mrs. Perry Hayden, was given by Mrs. Ellsworth Collins. Current events were given by Mrs. W. H. Mast and Mrs. Guy Pocklington spoke briefly on legislation. Mrs. Mills Swick was accepted as a member of the club. The club is sponsoring a community house-decorating contest for Christmas and plans for it were made. Mrs. Goddard read a communication from the state president.

The program committee for the next meeting is composed of Mrs. Wilfred Waldron, Mrs. R. S. Moore, Mrs. Robert J. McCoy and Mrs. Floyd Bryan.

In conclusion tea was poured by Mrs. Bashore and Mrs. Collins.

Walter C. Shutes, 46, Is Buried At Clinton

Funeral services were conducted Thursday afternoon from the Braun Funeral Home in Adrian for Walter Clair Shutes, 46, of Adrian, who died suddenly November 29, while working at the foundry where he was employed as assistant chemist. Seth Hoisington officiated and burial was in Riverside cemetery, Clinton.

Mr. Shutes was a brother of Mrs. Albert Bagshaw of Tecumseh. He was born in Adrian February 2, 1903, and spent his entire life there, graduating from Adrian high school and Adrian College. He was a member of the Adrian Technical Club and of the First Baptist church.

July 16, 1935, he married Hazel Guest, who survives with two sons, Gary and Lawrence, at home; two sisters, Mrs. Bagshaw and Mrs. Don May of Adrian, and a brother, Donald Shutes of Adrian. His parents and a sister, Mrs. Rollo Thielan of Tipton, preceded him in death.

Mrs. Earl Pocklington Is Buried At Adrian

Funeral services were held Wednesday afternoon from the Braun Funeral Home in Adrian for Mrs. Estella M. Pocklington, 62, a former Ridgeway resident, who died Sunday night at her home in Adrian after suffering a heart attack. Burial was in Oakwood cemetery.

Born in Ridgeway township, November 3, 1887, Mrs. Pocklington was the daughter of the late Henry and Eleanore Clark. She spent her early life in Ridgeway, a few years in Ann Arbor, and the last 30 in Adrian.

In addition to her husband, Earl Pocklington, she is survived by one daughter, Mrs. Geraldine Aldridge, two grandchildren, Wayne Myers and Mrs. Joyce Elaine Luthy, all of Monroe, and one sister, Mrs. Bernice Dibble of Holloway.

Non-Partisan News Letter

By Gene Alleman
(Special to The Herald)

Tuition fees and other charges paid by students at the University of Michigan and Michigan State College have doubled in recent years. Whereas students paid 20 percent of the U of M operating cost in 1929, students today pay double that amount—40 percent, said Dr. Alexander G. Ruthven, president of the University of Michigan, in a conference with Governor G. Mennen Williams at Lansing. Dr. John A. Hannah, head of MSC, pointed out that Michigan colleges are now competing with other agencies for state aid in a way which did not exist a few years ago. The result is that state legislatures have been increasingly reluctant to appropriate funds for colleges in amounts needed to finance higher education adequately. If college fees are increased further, only privileged groups will have advantages of higher education, the two college presidents warned.

One of the best things to hit the Michigan conservation movement in many years is the state park work program performed by inmates from Michigan prisons. A ski run and winter sports improvements are being completed at the Porcupine Mountain State Park near Ontonagon. Construction work is being pushed also at the Tahquamenon State Park in the Upper Peninsula. Two state recreation areas are being benefited by work programs: Pontiac Lake area and Waterloo recreational area, both in southern Michigan.

Kim Sigler, still carefree and an aviation enthusiast, is not a possible candidate for republican nomination of governor in 1950. Interviewed recently by reporters, Sigler replied: "Why should I run for public office? I'm 55, having a good time and free to take any law case I want or fly my plane where I want, when I want." Sigler recommended that republicans make an issue of the C.I.O. "control" of the state democratic party.

Michigan farmers have completed in recent weeks the largest harvest of corn, oats and barley—all feed grains—on record in the state. The farm crop was 26 percent above 1948 and 21 percent higher than the previous record crop in 1942. October harvesting weather was nearly perfect.

It will cost you 12½ percent more to travel on eastern railroads as result of a rate increase granted at Washington. This increase has been necessary because of higher wages and other operating costs, it is explained.

The Michigan 1949 apple crop is 72 percent above average with an estimated production of 11,735,000 bushels. All fruit production was 46 percent above a 10 year average.

Louis M. Nims, Commissioner of the State Department of Revenue, announces that state revenue collection for October 1949, brought an increase of $1,982,015.07 over October, 1948. The retail sales tax increase was over $300,000. The utilities tax brought an increase of $1,500,000. The total tax collected by the department for the current fiscal year shows an increase of $302,220.19 over the same period in 1948.

"Forced saving plan"—such is the verdict of C. E. Wilson, President of General Motors Corporation, with reference to company-paid pensions won by C.I.O. from Ford Motor Company, U. S. Steel Corporation, and other big business concerns. Wilson calls for an end to "shotgun bargaining methods" and favored "adequate federal pensions operated on a sound basis."

State department heads have requested legislative appropriations in 1950 of nearly $100,000,000, above amounts appropriated for the current fiscal year ending June 30, 1950. Comment by Governor G. Mennen Williams: "We will unquestionably need new revenues to operate at present levels." Robert F. Steadman, State Controller, has been asked to wield a sharp ax on budget requests for more money.

More self-reliance by farm people to solve their own health problems on a local community basis was recommended by panel speakers at the Third Michigan Rural Health Conference sponsored by the Michigan State Medical Society. Authorities agreed that "there is too much reliance placed on the federal government" to remedy rural health conditions.

Reflecting the jittery thinking of many citizens about atomic warfare was a recent news report that salt mines beneath Detroit offered an ideal refuge for munition plants; a recent article in Colliers that Detroit was the number one target for atomic bomb attack if and when war developed with Russia. What next?

HE'LL BRING HIS SLEIGH AND EIGHT REINDEER

Santa Claus Party, Saturday, 7:30

"Tell all of the boys and girls in Tecumseh and its trading area that I will be in Tecumseh next Saturday evening, December 17, at " o'clock. I'll bring my sleigh and reindeer, and I'll have a gift for every youngster."

Signed: "Santa Claus."

The above telegram was received late yesterday from the North Pole by Ronald E. Harris, secretary of the Chamber of Commerce, and definitely confirms other messages from Mr. Santa to the effect that he was planning a visit to Tecumseh this week-end.

"There's no doubt about it now," Mr. Harris said. "Santa is coming, and he will spend all of Saturday evening in Tecumseh, and also a part of every day and evening during the week before Christmas. My office has been flooded with calls regarding Santa's arrival, seeking a definite date and time. Now we know, and we'll be expecting boys and girls not only from this village but from neighboring areas as well to be on hand to greet St. Nick."

Harris said that previous North Pole letters were to the effect that Santa would bring his reindeer and sleigh, as he did a year ago. It was a week before Christmas in 1948 that, he said, Santa made his first appearance here with his reindeer, much to the joy of both young and old alike.

"I think that the community remembers Santa's sleigh and reindeer and everyone knows that Tecumseh's Christmas party for the youngsters is an event no child should miss," Harris said. "This year, as in the past, Santa will have a gift for each child that he sees, and he'll also be happy to talk with the youngsters and learn from them, first hand, just what they desire for Christmas."

This year's Santa party will be held at the main intersection of the village—Chicago Boulevard and Evans street.

Big Crowd Hears College Chorus

CECILIAN CHORISTERS OF SIENA HEIGHTS COLLEGE PRESENT PROGRAM HERE

An appreciative audience that filled to near capacity the high school auditorium here, Monday evening heard the Cecilian Choristers of Siena Heights College, Adrian, present a Christmas concert under the auspices of the Chamber of Commerce. Earlier in the evening, the chorus sang carols at Tecumseh Hospital and in the downtown section.

The high school program, in which 52 of the Choristers participated, began with a candle-light processional with the girls singing the old favorite, Gruber's "Stille Nacht." The entire hour-long concert was built around the theme, "Let Us Return to Bethlehem," and scripture texts bridged the varied selections.

The members of the chorus were brought to Tecumseh in cars loaned by Adrian business men. After the concert, refreshments were served in the dining rooms of St. Elizabeth's church, under the auspices of the Altar Society.

To Occupy New School, Jan. 3

The board of education, meeting Tuesday evening, approved plans for the occupancy of Tecumseh's new $400,000 high school with the beginning of classes following the holiday recess, January 3. Earl Place, superintendent, said that the building would be in readiness at that time.

"We will place the new furniture and move furniture necessary from the old building to the new one during the recess," Mr. Place said.

Tax notes, issued against the present sinking fund tax collection, were sold to the United Savings Bank of Tecumseh by the board. The $22,300 issue, due next March 15, carry an interest rate of only one-half of one per cent. The board desired to get the money prior to March 1 in order to meet its obligation promptly to the contractors.

Place told the board that the district had received its quota of foods from the Surplus Commodities Corp., to be used in the school cafeteria. The district's quota included: 60 bushels of apples, a ton of potatoes, 172 pounds of butter, 170 pounds of cheese, 90 pounds each of honey, raisins and figs, 110 pounds of dried eggs and 168 cans of peaches.

Each month the district receives a foods shipment from the corporation.

STORES OPEN EVENINGS BEGINNING TOMORROW

Starting this week Friday evening, a majority of the stores in the business district will remain open and will continue to be open evenings throughout next week, it was announced today by the Chamber of Commerce.

"The evening opening will permit busy shoppers to do their buying after working hours and will reduce the heavy shopping load in the stores during the daytime period before Christmas," Ronald Harris, secretary, said.

Traffic in Tecumseh's stores has been exceptionally heavy for several days but a survey shows that stocks are still complete and selections are excellent.

Will Broadcast Church Programs

MUSIC FROM TECUMSEH AND NEIGHBORING TOWNS TO BE HEARD ON AIR

A highly unique Christmas music program will be presented next week over a public address system in the business district. Forest Abner, of Tecumseh Electric Supply, who has arranged the public music program for the Chamber of Commerce, has made arrangements with Tecumseh and neighboring churches to have special Christmas music by their own organists and on their own organs recorded for the downtown broadcasts.

Mr. Abner has been busy for over a week contacting the various churches and taking his recording equipment to them to prepare the presentations. It is anticipated that this feature of the Christmas promotion will prove very popular. Abner has arranged the schedule so that persons who wish to hear certain features repeated will have an opportunity to do so calling the Chamber of Commerce or the Tecumseh Electric Supply.

Following is the schedule of evening hours for the various churches:

Monday, December 19, 7:00-7:30 St. Peter's Episcopal Church; 7:45-8:15 Tecumseh Methodist Church; 8:30-9:00 Ridgeway Christian Church.

Tuesday, December 20, 7:00-7:30 Tecumseh Presbyterian Church; 7:45-8:15 Tecumseh Baptist Church; 8:30-9:00 Holloway Presbyterian Church.

Wednesday, December 21, 7:00-7:30 Tecumseh Friends Church; 7:45-8:15 Grace Ev. Lutheran Church; 8:30-9:00 Ridge Road Lutheran Church.

Thursday, December 22, 7:00-7:30 Special Requests (Notify the Chamber of Commerce or Abner's Electric). 7:45-8:15 St. Elizabeth Catholic Church; 8:30-9:00 Special request.

Friday, December 23, 7:00-9:00 Special requests.

Starting at 10 a.m. on Saturday, December 24, the entire church programs of the preceding week will be repeated on the following schedule:

10:00-10:30	St. Peter's Episcopal
10:45-11:15	Tecumseh Methodist church
11:30-12:00	Ridgeway Christian church
12:15- 1:00	Tecumseh Presbyterian church
1:15- 1:45	Tecumseh Baptist church
2:00- 2:30	Holloway Presbyterian church
2:45- 3:15	Tecumseh Friends church
3:30- 4:00	Grace Ev. Lutheran church
4:15- 4:45	Ridge Road Lutheran church
5:00- 5:30	St. Elizabeth Catholic church
5:45- 6:15	Special request

Persons who wish to see the recordings and amplifiers in operation may see them at the Tecumseh Electric Supply any time during the presentation of the programs.

INJURED IN ACCIDENT

Mrs. R. F. Helzerman sustained minor injuries when the automobile she was driving north on Democratic street collided with one being driven west on Logan by Mrs. Gertrude Schneider, Thursday. After the impact the Helzerman car slid on the icy pavement and struck a telephone pole. Both cars were damaged considerably.

I am in my office as usual. Evenings by appointment only.

Traffic Victim Is Identified

FINGERPRINTS REVEAL NAME OF MAN STRUCK ON US-112 ON FRIDAY

State police of the Clinton post have identified the victim of a traffic accident on US-112 last Friday evening as Joe Lescterski, 51, of Brownsville, Pa., and efforts are being made to contact relatives or friends.

Lescterski was killed instantly at 6:20 p.m., Friday, when he was struck by an automobile driven by Herschell O. Figgins, 50, of Jonesville. Mr. Figgins told officers that he was driving east and was blinded temporarily by lights of two approaching trucks. He said that the accident happened so quickly that he was unable to stop or to note in which direction the pedestrian was walking.

Figgins was not held. Coroner Paul Mott of Adrian investigated and said there would be no inquest.

A search of the victim's clothing revealed nothing that might lead to identification. His personal effects included three cents, cigarette papers, a pair of old shears, some thread and match folders.

Clinton officers ordered the body removed to the Collins Funeral Home here and took fingerprints which were forwarded to Lansing. The state officers say that the victim had a long record of arrests in Kalamazoo, Dearborn, Ypsilanti, Ann Arbor and the F. B. I. He gave at least six different names when taken into custody, but always his address as Pennsylvania.

State police are now checking with Pennsylvania authorities in an effort to learn whether the man has friends or relatives there who might desire to claim the body.

Country Club Dressed In Holiday Costume

In its first Christmas dress, the Tecumseh Country Club is extending a warm welcome to its holiday guests. Many volunteers had responded to the call of Mrs. Orville Laidlaw to decorate the lounge with lighted Christmas trees, red candles and holly wreaths, furnished by the generosity of members of the club.

Some 25 ladies attended the weekly luncheon at the club, Wednesday, December 7, and participated in the games which followed. Mrs. Joe Rohweder and Mrs. C. M. Brown, hostesses for the afternoon, announced that Mrs. Laidlaw and Mrs. F. C. Hanna won the honors at bridge and Mrs. Robert Fuller, Mrs. William Furrey and Mrs. Jens Touborg were the winners at canasta.

Regular meetings will be resumed after the holidays.

NOTICE

I will be at the United Savings Bank on Saturday, December 17, and each Saturday thereafter until further notice, for the collection of Tecumseh township taxes, dog taxes and fire insurance. I will also accept payments by check or money order, mailed to my residence, 211 West Brown Street, Tecumseh, Mich. (Signed) Lawrence Mohr, township treasurer.

Brownie Scouts Hold Investiture Service

A joint investiture ceremony for twenty-eight Brownie Scouts of Sunflower troop No. 7 and Poppy troop No. 9 was held at the Scout cabin last week Wednesday afternoon, December 7. Mothers of the Brownies and their room teachers, Miss Bertha LaPointe and Mrs. Helen Robinson were guests at the service.

The girls received their Brownie pins, troop numerals and crests, after which the Brownie Smile Song was sung by the group. Mrs. Duncan Oliphant and Mrs. John Cameron are leaders of the Sunflower troop and Mrs. George Wittrup is leader of the Poppy troop.

Refreshments of ice cream and cookies were served to the members and their guests and each Scout was given a Christmas favor.

Tecumseh, Ont., To Get Unique Holiday Card

SISTER VILLAGE IN CANADA TO BE REMEMBERED BY LOCAL OFFICIALS

A unique "Christmas Card," five feet wide by three feet high, will be delivered tonight to officials of Tecumseh, Ontario, Canada, by members of the common council of Tecumseh, Michigan.

The "card" is on white sign enamel and its red and green wording with holly trimming reads as follows: "Holiday Greetings to the citizens of Tecumseh, Ontario, from their good friends in Tecumseh, Michigan."

The visitation of 1,300 Canadians as a salute to Tecumseh, Michigan, during its 125th Anniversary celebration last summer gave local officials the problem of giving an adequate Christmas greeting which might reach all the citizens of the Ontario community. It is expected that the sign will be placed prominently where all the people of the Canadian sister town will be able to see it during the holiday season.

The unique "card" was designed and decorated by Earl Bryan who also donated the material for the sign. Among the local persons making the trip to Canada to present the greeting are Village President Marvin Watkins; councilmen George McCombs, A. W. Porter, and Clarence Beach; and Ronald Harris, secretary of the Chamber of Commerce.

MASONS WILL BE GUESTS OF BAPTISTS

Members and their families of Tecumseh lodge No. 69, Free and Accepted Masons, will be guests of the Baptist church during the morning service, Sunday, December 11, at 11 o'clock. The Rev. B. O. Bashore, pastor, will base his sermon on the topic "Building By The Square."

HARMONY HOME MAKERS

The Harmony Home Makers will meet Wednesday, December 21, at the home of Mrs. Roscoe Hewlett, for a potluck dinner. Members are requested to be there promptly at 12 noon. There will be an exchange of 50c gifts. The assisting hostesses will be Mrs. Wade Hendershot and Mrs. Richard Sherman.

Grade Students Program Tonight

SPONSORED BY PARENT-TEACHER ASS'N; CHOIR PROGRAM DECEMBER 20

An interesting program of Christmas music will be presented by the grade students of Tecumseh schools, this (Thursday) evening, at 8 p.m., in the high school auditorium, under the direction of Mrs. Philip Gentile. It is the annual Christmas program, sponsored by the Parent-Teacher Association, and a capacity audience of parents and friends is expected.

Each class from the first to sixth grades will sing several selections and the music classes of the seventh and eighth grades will present special numbers. Miss Cynthia Spafford is the accompanist.

Darwin Smith, grade school principal, has prepared the stage decorations.

Choir Program, December 20

The newly-organized Boy's Choir, composed of some 25 fourth, fifth and sixth grade boys, will make its debut, Tuesday evening, December 20, at 8 p.m., when a concert of Christmas carols will be presented in the auditorium of Tecumseh high school, under the direction of Mrs. Philip Gentile. Also participating in the program, which is free to the public, will be the high school chorus of 35 voices.

When first organized the Boy's Choir had some 70 members, but through elimination this number decreased to about 25. The one-hour concert promises an evening of enjoyment for those attending. Miss Cynthia Spafford is the accompanist.

The annual Christmas party for high school students and alumni will be staged Wednesday evening, December 21, with dancing from 10 p.m., to 1 a.m. The Tecumseh Products orchestra is furnishing the music. The gymnasium is being decorated now for the occasion.

School will close at the end of the day on Wednesday, December 21, for a two-week holiday vacation. Lessons will be resumed Tuesday, January 3.

TALKS TO ROTARIANS

George Parsons, a member of the staff of Michigan State College and a former agricultural instructor in the high school here, was the guest speaker at the regular dinner meeting of the Rotary Club, Tuesday evening at Brees House. Mr. Parsons, now a member of the school of animal husbandry, spoke on the artificial breeding of cattle, an important subject among dairymen in Michigan and nationally.

CHILDREN'S PARTY

The American Legion Auxiliary will hold its annual Christmas party for children of veterans, Saturday afternoon at 2 p.m., at the Legion home.

Due to my recent disability, I will not be in my office until after January 3. During my convalescense, Dr. R. A. Reed of Ann Arbor will be in my office to meet my scheduled appointments.

Thieves Are Driven From Office By Tear Gas

Thieves, sometime last Friday night, entered the Hayden Fuel & Supply Company's offices, South Evans street, and escaped with $16.77 in cash before tear gas, escaping from a safe they attempted to open, drove them from the building.

Police say that the robbers entered the offices by breaking a lock off a rear door. Once inside, they scooped up cash that was on the desk of Perry Satterthwaite, owner, and then knocked the dial off the office safe which is equipped with tear gas. Once the dial had been damaged the gas began to escape and the thieves left. Some $2 in the cash drawer was not taken.

Officers are investigating the robbery with the assistance of state police who were called in in an effort to obtain fingerprints.

Success Seen In Fund Drive

RED FEATHER CAMPAIGN LOCALLY IS WELL OVER HALF-WAY MARK

Success of the 1949 Community Fund Drive seems not too far away according to the totals arrived at Wednesday. The amount of money contributed or pledged at that time was $3,257.95. While this is considerable short of the ultimate goal of $5,570, Ronald Harris, chairman, feels optimistic of the outcome.

"By the time The Herald is published Thursday, we hope to have a very different set of figures," Mr. Harris stated. He said that some key solicitations will determine "where we stand and what we may have to do." The special, advance, and miscellaneous division had made only a partial report up until Tuesday and this division's report is always eagerly awaited by the workers striving toward a quota. Moreover, only a few of the other divisions have had all their workers report.

"We are still using last year's divisional reports as our yardstick," Harris stated. "With but a few exceptions, these equal or exceed those of a year ago and our hopes are that the final reports from uncompleted divisions will make nearly all of them exceed their reports of a year ago."

A comparison of 1949 figures with 1948 figures in some of the divisions shows the following: Southwest business division this year, $140 as compared with $126 a year ago. Northwest business, $479 over $373. Southeast division, $240 over $173. Northeast division,

Beverly J. Shaw, 43, Buried Here, Saturday

Funeral services were held Saturday afternoon from the Collins Funeral Home for Beverly J. Shaw, 43, who died at his home last week Wednesday, at 11:30 p.m. The Rev. Allan L. Ramsay officiated and burial was in Brookside cemetery, where a military service was held by members of Hall-Slater post, Veterans of Foreign Wars.

The bearers were Robert French, Lyman Curtiss, Glenn Kohler, Perry Satterthwaite, Earl Timm and Harry Crosby. Friends and relatives attended the services from Lincoln Park, Fort Wayne, Plainwell, New Boston, Petersburg, Jackson, Deerfield, Blissfield, Dundee, Adrian and Tecumseh.

A war veteran of three and one-half years, Mr. Shaw was found in the basement of his home with a bullet wound in his head. Robert L. French acted as coroner and pronounced the death suicide. Officers could find no reason for Mr. Shaw's action.

Mr. Shaw served three and one-half years in World War II in the Third Army under General Patton. Stationed in Germany, France and Scotland, he was also in the Battle of the Bulge. He was a member of the Hall-Slater post, Veterans of Foreign Wars. Graduating from Tecumseh high school in 1926, he was employed by the Tecumseh Products Co.

Surviving are his wife, Edna, one sister, Mrs. Awald Tonneberger of Blissfield, three brothers, Maurice of Ft. Wayne, Ind., Robert of Detroit and Irving of Tecumseh, and several aunts, uncles and cousins.

CAR STOLEN

An automobile belonging to Robert Hamilton was stolen Monday evening from its parking place near the corner of Evans street and Chicago Boulevard. Police say that Mr. Hamilton had left the car keys in the ignition lock.

LIFE IN RUSSIA

The Saturday Evening Post recently published a series of revealing articles by Lieutenant General Walter Bedell Smith dealing with his experiences when he was U. S. Ambassador to Russia. One of them concerns "Housekeeping Headaches in a Police State," and it provides an authoritative and amusing commentary on living conditions in that nation.

When General Smith first arrived, the Soviet government was running a food store for diplomats only, which offered a fairly adequate supply of rationed goods at reasonable prices. Subsequently, rationing was abandoned and this store was closed, so the embassy had to buy either from the government-operated commercial stores, or in the open market where peasants were allowed to sell for whatever they could get any excess products they had after meeting their state quota.

The state stores were the cheapest. Even so, the prices charged were shocking by American standards. Here are a few from a long list cited by General Smith, on the basis of the price per kilo, which equals 2.2 pounds: Butter, $8.50 and up; poultry, as much as $6.25; ham, over $8.00; apples $2.25; prunes $4.12; macaroni, $1.87. On top of such prices, many items which are commonplace in the American diet were in very short supply.

General Smith found that the embassy could save money by operating a commissary which bought goods from America, even though transportation and insurance charges were very high and there was much loss through pilferage. However, the Russians soon cracked down on this scheme, and forced the Americans to buy food locally.

In the matter of other commodities, General Smith quotes from a guide made up for future appointees to the Moscow post. It reads: "Two general ideas should govern what is brought to the Soviet Union: (1) NOTHING is obtainable there, and (2) it is cold, both indoors and out, a good deal of the year." This same report lists dozens of articles which are unobtainable in Moscow, including radios and other electrical equipment; fountain pens, lighter fluid, moth balls, bulbs and seeds, clothes hangers, etc., etc. As the General puts it, "Americans with their corner drugstores, supermarkets and five-and-ten-cent stores can hardly imagine the life of foreigners in Moscow."

The point is, of course, that Russian consumer industry is unbelievably small for a country of its size, population, and natural resources. The masses of the Russian people live on a subsistence level that would be intolerable to us.

CLINTON

Mr. and Mrs. Edward Taylor of Detroit was a guest of her aunt, Mrs. John Turk, Thursday, and they also visited Mr. Turk at St. Joseph's hospital in Ann Arbor.

Mrs. Bernice Mahrle was elected oracle of the Clara Camp, Royal Neighbors, which met Thursday evening at the home of Mrs. Mahrle. From where I sit ... *by* Joe Marsh

Now Hospitals Are "Banks," Too!

Doc Simpson was saying, "Hospitals are building up 'bone banks' that work just like blood banks. When bone is needed, the surgeon takes one from a refrigerator, cuts it to the right shape and simply splices it in."

"You doctors are sure making progress," I says, "but tell me, are any of the patients fussy about *whose* bone they're getting?"

"No sir!" replies Doc. "No more than they worry about whose blood they get. No one yet asked for a bone from a man who went to the same school or church he did."

From where I sit, it would be a better world if we were half as willing to accept other people's ideas and tastes, as we seem to be willing to accept their bone and blood. There'll always be differences. Some like buttermilk, others would rather have a sparkling glass of temperate beer. But underneath we're pretty much the same—deserving each other's respect and tolerance!

DO YOU REMEMBER?

1879

A heavy thunder storm December 9.

Ed Merritt has begun work in his new location, occupying the old stand of D. Jones & Son as a cigar and tobacco store.

Married Dec. 8 in Macon, Matthew Boyd and Melvina Doolittle, both of Macon.

1889

Rainy weather with lots of mud.

The weather prophets predicted a very severe winter. That accounts for the mild weather.

A. E. Kennedy still holds forth at the post office where he has been a fixture so long. We doubt if any establishment in Tecumseh is making more money with the same amount of capital.

John Temple is enlarging and remodeling his family residence.

A six table billiard hall is being fitted up by Keyser & Kennedy.

The frame of the new Methodist parsonage is being placed this week.

Married December 10, at the M. E. parsonage in Tipton, Clarence Merritt of Dundee and Agnes Pawson of Tipton.

1899

Tecumseh Telephone Co. has extended its line west to Franklin. The company has installed 38 phones since November 1.

Bessie Winans and Carl Fisher were married Dec. 6 in Toledo.

Some call this the finest weather they ever saw for this time of year. In 1876 there was no sign of winter until Nov. 27; in 1875 there was no sleighing; in 1878 stock fed in the fields until Dec. 4, remaining out at night.

Apples and other winter supplies are not keeping well due to the warm temperature the past six weeks.

The first sleighing of the season this morning.

1919

The coal strike is over, but there is little fuel on hand.

Passenger trains will be returned to the Dundee branch of the New York Central by December 22.

A government census is to be taken of all grain, machinery, stock or anything of value.

Richard Boyce of Franklin has purchased the Sarah Avery property in Brownville.

R. K. Anderson is the new commander of the local American Legion.

The Tecumseh Lake Ice Co. is cutting 10 inch ice this week.

1929

Dr. and Mrs. P. B. Hardy will leave Dec. 16 on a trip to Presidio on the Rio Grande.

Born Dec. 6, to Mr. and Mrs. Glen Hines of Ridgeway, a daughter.

Born Dec. 7, to Mr. and Mrs. Kenneth Ensign, a daughter.

Born Dec. 14, to Mr. and Mrs. Lawrence Galloway, a daughter.

The Sager restaurant has been completely redecorated.

Born Dec. 14, to Mr. and Mrs. Theodore Gritzmaker, a son.

1939

A site for Tecumseh's proposed new $70,000 postoffice and federal building is now being sought by the U. S. Commissioner of Public Buildings.

Arthur Brady has opened a poultry market in the rear of Glancy's garage on North Evans street.

Hayden Flour Mills, Inc., is paying $1.01 for No. 2 white wheat, the highest figure in 10 years.

Miss Dorothy Miller of Tipton and Dwight Horn of Adrian were married Saturday in Adrian.

Mr. and Mrs. L. W. Larsen have moved from Chicago to the Rosacrans house on West Shawnee street.

Born, Friday, to Mr. and Mrs. John Adrion of Clinton, a daughter.

Born, Wednesday, to Mr. and Mrs. Arthur Sweet, a son.

Mr. and Mrs. Dave Boyd observed their 52nd wedding anniversary, December 18.

Reference Service Is Inaugurated By Lawyers

LANSING — The lawyers of Michigan inaugurated a Lawyer Reference Service and a statewide legal aid program at a meeting held in East Lansing, December 10, according to Carl H. Smith, Bay City, President of the State Bar of Michigan.

Sponsored by the State Bar, the Lawyer Reference Plan, according to Mr. Smith, calls for its establishment by local bar associations. It is a means by which a member of the general public can be referred to a competent and reliable lawyer who for a fixed, moderate fee will be willing to give a consultation on a legal problem and then render additional legal service for a moderate fee if further legal services seems desirable and necessary. The second project, a statewide legal aid program, will make legal advice available to those who may not be able to pay part or all of the cost of a lawyer's services.

Mr. Smith pointed out that Michigan has tried the Lawyer Reference Plan experimentally in Grand Rapids and that its success encouraged the statewide development of the idea.

Legal aid is based on the concept that "it is a fundamental duty of the bar to see to it that all persons requiring legal advice are able to obtain it, regardless of their economic status," according to Mr. Smith.

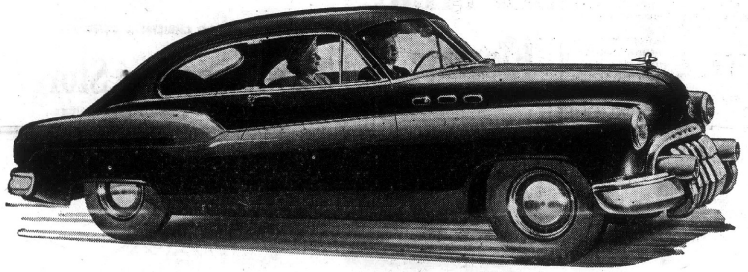
It's ALL BUICK—



and only $1835.00

ON some cars, it might not be such standout news.

But when you read the price tags on this smart and sizable Buick SPECIAL of 1950—

When you listen to the throaty baritone of the big Fireball valve-in-head straight-eight engine that fills its bonnet—

When you feel its lift and surge on the road, sample the soft smoothness that's yours with coil springs on *all four* wheels (and wide Safety-Ride rims as well)—

When you see how neatly this beauty slips into pocket-size parking places, avoids "locked-horn" tangles, and threads its way through traffic—

When you take in its roominess, see its wide outlook, picture yourself traveling in the sleek, taper-fender styling that calls the turn on the smartest fashions for 1950—

When you hear some of the miles-per-gallon figures happy owners of this beauty are reporting—

Man alive, this stands out as a bargain that says "Grab me quick!"

Actually, dealers have trouble keeping this particular model of the 1950 SPECIAL on hand. Quick action may be able to nail one for you — or a six-passenger model in 2-door or 4-door body-type.

Why not see your dealer now—and start the New Year as a Buick owner at a cost that's less than for some sixes?

This stunning, fresh-lined 3-passenger 1950 SPECIAL Coupe delivers as shown for **$1835.00**

O-JIB-WA BITTERS HELPS MECHANICS RHEUMATISM

No matter what your position in life or what type of job you have, you can't do your best work while suffering with agonizing pains.

If you suffer with Rheumatism and Arthritis and find that it continues to get worse, and are afraid that someday you will be an arthritis cripple, heed the words of Mr. George Ruleau, 50 years a resident of 206 N. Cedar Street, Manistique, who also had this fear before he discovered O-JIB-WA BITTERS and its wonderful benefits.

Geo. Ruleau

Couldn't Even Hold a Hammer

"The fear of being completely crippled with Rheumatism and Arthritis, is one that I have experienced for I was in such bad shape that I didn't know what to do. I was afraid I was going down completely. I am a mechanic and steam shovel operator, and as you know this is hard work. When Rheumatism settled into my hands, knees and back, it was almost impossible for me to do my work. My hands were so weak and crippled I couldn't even hold a hammer, and many are the times after working under a car, my back and knees would stiffen up, and I just couldn't get up without help. In spite of the fact that I had all my teeth pulled, and tried many other medicines, I didn't get any better. Terrible gas, indigestion and weak kidneys added to my miseries, and the thought was always present that it wouldn't be long before I couldn't work at all."

Now Completely Better

"I read about other peoples experience with O-JIB-WA BITTERS in my local paper, and decided to try it as I had little to lose, and am sure glad that I did. By the time I had taken O-JIB-WA a week, I was encouraged as I noticed a little improvement. I continued to get better, and although it has taken five months, now I am completely free of all pain and stiffness. I am able to do my work without difficulty. O-JIB-WA has changed my health completely, as I don't suffer anymore from indigestion or gas and can eat anything without distress. I personally know many other enthusiastic users of O-JIB-WA BITTERS and like myself, they are glad to recommend this great medicine."

HERE ARE THE FACTS!

No medicine being sold today for Rheumatism and Arthritis has received such public acclaim and enthusiastic recommendation by its users than O-JIB-WA BITTERS. The reason for this is because O-JIB-WA is not just a plain deodorizer as are so many tablets on the market today, containing primarily aspirin and salicylates. O-JIB-WA works through the blood stream and loosens stiff joints to relieve the distressing pain, even when the stiffness has become deep seated. O-JIB-WA BITTERS has a tonic effect on the stomach, liver, kidneys and nervous system. O-JIB-WA is quick in action and in most cases aids in correcting the cause of these horrible agonies. Regardless of what you have tried without results, you owe it to yourself to try this great all herb medicine. Don't give up hope. Don't put off. Give O-JIB-WA BITTERS a chance to help you. Mrs. F. Verre Roberts, Onsted Resident, Dies

Funeral services were conducted Sunday afternoon from the Onsted Gospel church for Mrs. F. Verre Roberts, 57, who died Thursday at 7:25 p.m., in her Onsted home after an extended illness. The Rev. F. D. Hague officiated and burial was in Maple Shade cemetery.

The daughter of Mrs. Susan Bryan of Springville and the late R. Frank Bryan, she moved with her parents to Lenawee county in 1909 at the age of seven. She married Melvin G. Laur July 19, 1911 and he died in 1915. Her marriage to Harlie Roberts of Clayton took place March 8, 1917.

Active in business and civic affairs, Mrs. Roberts was appointed postmaster during two intervals, resigning two years ago because of illness. She was chairman of the Red Cross organization in Cambridge township, a past matron of Cambridge chapter, Order of the Eastern Star, a past president of the Onsted Woman's Club, a member of the Missionary Society, the Art Club and the Parent-Teacher Association.

Surviving besides her husband and mother are two sisters, Mrs. Gertrude Hager of Adrian and Mrs. Roxie Large of Lansing, two brothers, John Bryan of Springville and Kenneth of Lowell, two nieces, seven nephews, one great-niece, a great-nephew and a number of other relatives. She was preceded in death by her father and two brothers, Ross and Gerald Bryan.

PLAN REHEARSAL

All members of the Baptist church primary department are urged to be present at the church Saturday afternoon, December 17, at 2 o'clock, for the only practice of the Christmas program.

LIVE BETTER FOR LESS

Everybody Benefits

Perhaps you have noticed during recent weeks that your Kroger store has been featuring pork and apples. There's a reason. Farmers were threatened with a serious surplus of these foods and below-cost-of-production prices. Increased sales at lower prices help prevent disastrous losses to producers and give consumers a better value. Everybody benefits.

Sunday morning, December 18, beginning at 11:15, the children of St. Peter's Episcopal church will present their program opening with Christmas carols. The remainder of the program is as follows: Action songs, nursery school; "Welcome, Jesus," first primary class; "Grandmothers Story," Sarah Wright and primary class; recitation, Ross Hadley; Bible verses and song, Junior classes; recitation, Bobby Rutherford; Christmas verses, intermediate class; recitation, Barry Brock; playlet, "One Christmas," St. Peter's junior helpers. The ushers and readers will be members of the senior boys class.

A part of the morning worship will be the giving of gifts by each child to be sent to a mission station to assure gifts for less fortunate children. The gifts received this Sunday are to go to Harsen's Island, near Algonac, where the children are under the supervision of Deaconness Olive Robinson who visited St. Peter's church last fall. Parents and friends of the children of St. Peter's church will be present to witness the service.

At 8:30 a.m. the Brotherhood of St. Andrew chapter will take part in a corporate communion service and have invited the other men and boys of St. Peter's to join with them. Breakfast will be served in the parish house following the service.

Monday at 4:30 p.m., the small children of St. Peter's will gather at the church for entertainment and at 5:30 o'clock the entire Sunday School will be served a chicken dinner. Santa Claus will appear at 6:30 with gifts and candy for everyone. The little folk may leave at 7:00 and the older children will remain for entertainment.

The officers of the Methodist Sunday School are planning a program for the children and parents for Sunday evening, December 18, at 7:30. There will be Christmas music and a visit from Santa Claus, the main feature being a Christmas movie.

To impress upon youngsters and parents alike the true Christmas spirit, the Baptist church school program on Wednesday evening, December 21, will begin with the entire congregation placing gifts wrapped in white at the feet of the Saviour. All those attending are asked to bring white-wrapped gifts of food, toys or clothing for children for welfare boxes to be distributed to needy families in this community. Those who do not expect to attend Wednesday evening may bring their gifts to the church service, Sunday morning, December 18.

Mrs. B. O. Bashore will read the Christmas story from the Bible and after the ceremony the Rev. Mr. Bashore will dedicate the gifts. The remainder of the program will include the following: "Welcome," Nancy Beland; pantomime, first grade primary; song, second grade primary; recitation, Jimmy Brandt; recitations, second grade beginners; recitation, Nancy Nighswander; song, Janet Bilby; pantomime, third grade primary; Christmas hymns, junior department. The appearance of Santa Claus will conclude the program. A family night potluck supper at 6:45 p.m., will precede the evening's activities.

The service at the Friends church will be held Thursday, December 22, at 7:30 p.m. Mrs. George Meads, chairman, has announced the following program: "A Prayer," Leola Gove; "Just A Smile," Mary Sue Gordon; "Don't Forget," Kenneth Beevers; "Christmas Speech," Brenda Hanna; "Away In A Manger," primary department; "Laugh and Smile," Barbara Wallace; recitation, Paul Gove; "Don't Forget," Ann Kempf; "Christmas Guest," Sharon Muhn; "Candle In the Window," Marjory Chase. The "Goodnite" will be said by Sharon Martin.

The program at the Presbyterian church will be held Friday, December 23, at 7:30 p.m., and will include the beginner, primary and junior departments. Three recitations will be given by the beginners, "Merry Christmas," Gregg Smith; "If You're Good," Earla Beth Place; "Thank You," Bobby LaPrad; a song, "Away In A Manger," and the rhythm band playing "Jingle Bells." The primary department will sing "There Is No Cradle Ready;" recitation, "Not Lettn' On," Gary Abner; "The Christmas Star," Marilyn Helzerman; song, "The Friendly Beasts." The junior department will sing a program of carols after which Santa Claus is expected with gifts and candy for all.

The Christmas Eve service at the Grace Ev. Lutheran church will begin at 8 p.m. Entitled "The Christ Child," the program will include recitations, singing, etc. At the Christmas Day service at 10 am., Holy Communion will be celebrated.

100 Attend Turkey Dinner Here, Saturday

About 100 persons were seated for a turkey dinner at the annual Christmas party sponsored by the Knights of Pythias, Pythian Sisters, D. O. K. K.'s and Nomads, Saturday evening. The tables were attractively trimmed in keeping with the holiday season. Mrs. Albert Todd, Mrs. Frank Ehlinger and Mrs. Fred Whelan were the committee in charge.

Mrs. Whelan welcomed the guests and introduced the heads of each of the cooperating organizations, Mrs. Clark Vincent, Carl Kempf, and Graham Conrad and Al Augustus of Ypsilanti.

Mr. Augustus spoke briefly on gifts appropriate for patients at the veterans' hospitals. He asked for playing cards and particularly books, adding that one 25c book gave 280 hours of pleasure passed from one section of the hospital to another. Admission to the party was a gift for a veteran.

After dinner tables were arranged for cards and dancing. Music was furnished by Ed Harper.

BROWNIES WILL SING CAROLS HERE, DEC. 20

Goldenrod Brownie Scout troop No. 14 will sing Christmas carols throughout Tecumseh, including the hospital, Tuesday, December 20. Any shut-in who desires caroling is requested to call the leader, Mrs. Thomas Gallant, phone 3814M.

The troop of 10 girls has been invited to sing on station WABJ Wednesday morning, December 21, at 9:30 a.m., on the Tecumseh Town Crier program.

PLAN ICE ARENA

"The Pit," the recreation spot at the southwest village limits so popular in summer with swimmers, may soon become popular with skaters, if King Winter produces the ice. A program is now being planned to operate "The Pit" as an ice arena, with flood lights, snack bar and heated dressing rooms. Of course, all will depend upon the weather because the ice first must form in sufficient thickness to protect the skaters.

TURKEY DINNER

St. Peter's Guild enjoyed a Christmas turkey dinner Tuesday evening at the parish house, with the officers in charge. Mrs. Elmo Barber and Mrs. Cecile Smith presented an appropriate program and there was an exchange of gifts.

HOLIDAY PROGRAM

The Woman's Association of the Presbyterian church will meet December 21 at 8 p.m., in the church for its regular Christmas program.

$225 over $222.50.

The breakdown of the residential divisions is more difficult to compare because the growth of the town made further subdividing advisable this year. By using the same dividing lines the following comparisons are reached: Northwest, including North Union area, $383.50 as compared with $590.70 a year ago. Southwest, $214.50 as compared with $330.10. Northeast, including Brownville and Herrick Park, $174.15 over $82.85. Southeast, $196.75 as compared with $289.55. Township, $145.05 in 1949 as compared with $162.00 a year ago. Outlying shops and business $535 in 1949 over $409 a year ago. Club and fraternal to date, $200 compared with $231.90 last year.

"We must remember in looking at these figures," Harris stated, "that the 1948 figures represent the total for the drive. Most of the above figures for 1949 will be augmented as reports continue to be received. "Our ambition is to achieve our quota without having to organize a 'torpedo squad.' However, we shall not consider the 1949 drive complete until the full quota is met."

Guest Day Observed By D. A. R. On Friday

Mrs. J. Floyd Elliott entertained Abl Evans chapter, Daughters of the American Revolution, Friday afternoon, in observance of Guest Day. Some 28 members and guests were in attendance.

Mrs. Louis Schneider, regent, presided. A cash donation was sent by the chapter as a Christmas gift to the Kate Duncan Smith school. Mrs. F. C. Dickinson, chairman of the Good Citizenship Girl contest, announced girls from Tecumseh, Clinton and Britton high schools had not been named as yet but would be announced next week. The chapter will present the three girls with pins. It was voted to give $10 to the Community Chest and $5 to Town Hall.

The program leader, Mrs. C. D. Branigin, read an interesting paper on "Colonial Cooking." Mrs. George Wittrup invited her Poppy Brownie troop, sponsored by the chapter, to the meeting and they repeated the Brownie promise and sang three Christmas carols led by Mrs. R. S. Moore. Each Brownie brought a wrapped Christmas gift to be sent to a southern D. A. R. school.

Tea was served from a Christmas decorated table, with Mrs. Ellsworth Robinson and Mrs. Robert Laidlaw pouring.

Men's Bible Class Is Host To Ladies At Party

The Men's Bible Class of the Tecumseh Friends church was host to the ladies Friendly Class at a Christmas party in the church basement, Monday evening. Volunteers from the Welcome Class assisted in serving the 50 persons in attendance.

Merritt Chase and Everett Hensen greeted the guests as they arrived. Oscar Mead, president of the class, asked Mr. Chase for the opening devotions. Mac Powell presented Perry Hayden as master of ceremonies, who in turn introduced Mrs. Melvin Muhn who responded to Mr. Mead's welcome. Readings were given by Merle Trout of Macon and Mrs. Emma Day.

Several persons told of their most interesting Christmas experiences. Ralph Comfort showed two reels of film after which the Rev. Edward Escolme spoke briefly and conducted the closing devotions.

Cub Scouts To Enjoy Holiday Party, Monday

The Tecumseh Cub Scouts will celebrate the Christmas season at their regular pack meeting, Monday evening, December 19, at 7:30 in the Baptist church.

The boys in Den No. 1, directed by Mrs. Harold Naser, and Den No. 7, directed by Mrs. Max Smith, have been making favors to be used by the hospital on the Christmas dinner trays. Den No. 4, directed by Mrs. Gerald Baker, have made favors to be used by the two local nursing homes on their Christmas trays. The other dens have been busy with Christmas tree decorations to be placed on the tree at the pack meeting.

There will be jolly and congenial Santa Claus in attendance with gifts for all the children there. The pack committee urges all parents and friends to come and make the party a gala occasion.

Awards will be presented to the Cubs who have recently completed their requirements for advancement.

Friends Welcome Class Observes Anniversary

Celebrating their fourth anniversary as a class, some 91 members and families of the Welcome class of the Tecumseh Friends church, were seated for a potluck dinner in the basement of the church, following Sunday School, Sunday. Miss Mabel Lockwood is teacher of the young married people's class, which boasts of its large membership grown from a humble beginning.

Sprigs of evergreen, multi-colored tree decorations and decorative candles were used on the tables. A feature of the dinner was the four-tiered decorated cake made by Mrs. Robert Baird.

Mrs. Marvin Johnson, president, presided and announced the program. Mrs. Gordon Gove led in group singing after which her daughter, Leola, gave a welcome reading and song. Mrs. Raynor VanValkenburg spoke of the accomplishments of the class during its four years of existence, including the support of a girl in India, purchase of the outside bulletin board and other things.

Paul Gove gave a reading "The Impolite Cat," after which the pastor, the Rev. Edward Escolme, spoke briefly. A vocal quartet, composed of Mrs. Wilma Randolph, Mrs. Margaret Wiemer, Mrs. Pauline VanValkenburg and Mrs. Christine Meads entertained with a selection.

The Rev. Alvin Brazee, the guest speaker, was much enjoyed by the audience. Miss Lockwood made several closing remarks and Mrs. Escolme gave the benediction.

About The Folk You Know

The Herald is in receipt of a card from Bill and Mary Wehr who formerly operated Wehr's Pharmacy here and who now are permanent residents of California. They have purchased a four-family apartment just a block from the ocean at 126 Bennett Avenue, Long Beach 3, Calif. "It is very pleasant and right now the roses, poinsetta and lilies are blooming in profusion in our garden," they write. "We also have lemon, orange, grapefruit and avocado trees, but they are young." Bill and Mary would be glad to see any of their Tecumseh friends who might be traveling in the West.

Carol and Donna, twin daughters of the Grenval Spanglers, celebrated their ninth birthday anniversaries, Saturday afternoon, with a party from two to five o'clock. Refreshments were served by candlelight. The twins received many nice gifts from their guests, who were Joyce and Janet Broiller, Alice Wick, Judy Baxter, Joyce Hadsell, Sandra Sue Stout, Sandra Ross, Nancy Dinse, Yvonne Morningstar, Joan Johnston, Arlene LeBaron and Patty Fielder.

Celebrating his seventh birthday, Saturday afternoon, Ralph, son of Dr. and Mrs. R. F. Helzerman, and 14 of his school chums, enjoyed games, followed by movies shown by John Saling in the recreation room. The refreshment table was gaily decorated in keeping with the Christmas season, including Santa Claus and his tree. Ralph was presented with many useful gifts and as his guests departed, he gave each of them a favor from the Christmas tree.

Miss Sally Hellman, a bride-elect of January 6, was the guest of honor at a Sunday evening supper and miscellaneous shower at the F. E. N. Thatcher home, with Mrs. Thatcher and her daughter, Mrs. William A. Wright, as the hostesses. Some 25 guests, including Mrs. Dorothy Page of Sand Lake and Mrs. Ethel Pope of Adrian gathered in the home which was decorated throughout in the yule-tide theme. Miss Hellman received many attractive gifts.

From twelve noon to twelve midnight a clock's minute hand passes the hour hand ten times.

T. H. S. Debate Teams Win Over Homer Group

Monday evening, the Tecumseh Four, high school debate teams, met and won over both the affirmative and negative teams of Homer high school at Homer. Mrs. Highlund, debate coach at Homer, and her teams arranged to run both debates at the same time and provided two judges for this purpose. This cut the evening's total debate time in half.

On the Tecumseh affirmative are Tom Everlove, first, and Bill Morris, second. The first negative is Marilyn Lindsley and Dave Green is second negative.

Tecumseh has won five out of six debates against the following high schools: Lambertville-Bedford, 1; Grass Lake, 2; and Homer, 2. In order to qualify for the elimination meets in open state-wide competition, the debaters must win six out of eight debates.

Tecumseh will entertain Litchfield here for the final two debates on or before January 6, 1950.

BRITTON

Mrs. Lawrence Hoagland entertained recently in her home at a cradle shower honoring Larry Edward, infant son of Mr. and Mrs. Lawrence Ash. Thirty women enjoyed an evening of games. Little Larry received an array of lovely gifts from the group. Mrs. Hoagland served refreshments, assisted by Mrs. Henry Brown, Mrs. Donald Curry and Mrs. Elwood Lucker.

At the regular meeting of the Rebekah lodge last week the following officers were elected: Noble grand, Mrs. Viola Grady; vice grand, Mrs. Ann Fairbanks; recording secretary, Mrs. Ethel Kanous; financial secretary, Mrs. Sylvia Weichner; treasurer, Mrs. Anna McCarbery; and degree captain, Mrs. Lucille Cross.

The Britton Woman's Club met Tuesday afternoon at the Congregational church with Mrs. Nina Taylor as hostess chairman. Mrs. Florence Gibson presented the program with Rev. H. Rogers as speaker of the afternoon. Refreshments were served by Mrs. Ruby Kniffin and her committee. A large quantity of clothing was collected for the family the club has assisted in the Philippine Islands.

Mr. and Mrs. Theodore Zarnow will be hosts to the Past Noble Grand Club tonight with a potluck holiday supper served the members and their families.

The Methodist church will hold their annual Christmas family night next Monday evening with potluck supper at 6:30 in the church dining room. A program is planned and an exchange of gifts will be enjoyed.

The Dorcas class will meet today in the church with a potluck dinner served by Mrs. Nina Taylor and her committee. The afternoon program was presented by Mrs. Mildred Wiggins. The hostesses of the day were Mrs. Jennie Smith and Mrs. Anna Smith.

The Komedy Kings, a colored professional basketball team of Toledo, played the Britton Independents Wednesday evening with the proceeds of the evening going for under-privileged children's work in local community.

A potluck supper was served in the Congregational church Wednesday evening observing Christmas Family Night. A program was enjoyed and each child received a gift.

Sunday dinner guests of Mr. and Mrs. Guy Siedel and Barbara were Mr. and Mrs. John Root and children of Lasalle.

MUSIC CLUB TO MEET

The Christmas meeting of the Tecumseh Music Club will meet Tuesday, December 20, at the home of Mrs. Thomas Gallant, instead of Mrs. Joe Rice as previously announced. The meeting will begin with a potluck supper at 6 p.m. The Brownie Scout troop No. 14, which the club sponsors, has been invited. There will be a dollar gift exchange and each member is to bring table service, sandwiches and a dish to pass.

New stretches of highway, improved road marking and few detours will make this year's drive to Florida the easiest in the past decade, says Auto Club Travel Manager Harry N. Rogan. Several of the detours shown on the map will be eliminated by holiday time. The five Michigan "entrances" to the two main Florida routes can be reached from any place in the state. They are Niles, Coldwater, Sturgis, Adrian and Detroit.

WED SATURDAY

Roman McKenzie of 229 East Cummings street and Arlene Townsend of Adrian were married Saturday, December 10, at the Baptist parsonage by the Rev. B. O. Bashore. Mr. and Mrs. William B. Speller of Adrian attended the couple.

Diamonds, sapphires, emeralds rubies and opals are the five recognised precious stones.

Florida Winter Will Cost Less

MEAL PRICES, ESPECIALLY, SHOW DROP; NEW TRAVEL ROUTES OPEN

DETROIT—"Throw away your Florida-route maps." That's the advice Automobile Club of Michigan's travel manager Harry N. Rogan is giving Michigan motorists now planning a Florida winter.

For this year's Florida-goer will find new roads and new route numbers galore. Detour signs will be few and far between—good news indeed. For dodging road construction gangs has been a regular feature of the southland trek for the past decade. This year most bottlenecks will be cleared out by Christmas holidays.

"Starting in January at the height of the season, and continuing throughout the winter," says Rogan, "our two main links to Florida will be easier to drive than at any time in the past ten years."

Postwar hotel, motel and restaurant construction in Florida has been moving ahead fast. The 1950 AAA Accommodations Directory lists 786 approved places to stay this year, against 662 last year. Within the five states along the Michigan-to-Florida route, (Kentucky, Tennessee, Georgia, Alabama and Florida) approved places to stay have risen from 1,165 to 1,331.

"Because AAA has dropped a number of previously approved places since last year, these figures show only part of the increase in available hotels, motels, tourist courts and resorts," says Rogan.

Don't look for much of a dip in prices this season. The "shopping" 1950 Florida-goer might force operators to cut prices a little to meet competition. The lucrative 1949 summer season in Florida was a result of reduced rates, and that factor could also be an important one in easing the cost of a 1950 Florida winter a little. But don't plan on it.

Hotel rates enroute will run about $6 to $10 per night, with first class motor courts costing from $3.50 to $8. Meals will average from $3 to $5 per day per person, depending on the appetite. That's a noticeable drop from last year's bill of fare.

This year there are two "best" routes to Florida.

The direct route, which includes some mountainous roads, can be covered in three days of "through" driving. The easier-to-cover western route, from 20 to 100 miles longer depending on Michigan departure point, is free of mountain driving and major construction activity.

The direct Florida connection runs through Cincinnati, Ohio; Lexington, Ky.; Chattanooga, Tenn.; Atlanta, Ga.; and Lake City, Fla. A network of good roads radiates from Lake City to all points in the sunshine state.

The western route is becoming more popular each winter, says Rogan. It requires only a few miles of extra driving per day, allowing more comfortable travel all the way. Leaving Michigan, the route goes to Louisville, Kentucky; then through Nashville, Tenn.; Lewisburg, Tenn.; Fayetteville, Tenn.; Huntsville, Ala.; through Gadsden, Anniston and Opelika, Ala.; to Columbus, Ga.; and Lake City, Fla.

Michigan vacationers should watch their speedometers carefully while driving through both Georgia and Florida, particularly within the limits of cities, Rogan advised. Both states allow open-range grazing.

Non-Partisan News Letter

By Gene Alleman
(Special to The Herald)

"Governor G. Mennen Williams is running for re-election; I am not." Such was the reply from Charles M. Ziegler, state highway commissioner, to recent criticisms voiced by Governor Williams of the commissioner's administration of the State Highway Department. In a talk before southern Michigan road commissioners, Ziegler declared: "Williams wants to regain control of the department and has used every maneuver possible to again make it political." The commissioner, who was re-elected in 1949, said the proposal to build a bridge at the Straits of Mackinac should be re-studied by experts and hence taken out of the "realm of politics."

A bridge across the Straits of Mackinac? "No!" declare three geology experts of the University of Michigan. Professor Kenneth A. Landes and two associates made a study of the geology of the straits region for the State Department of Conservation. Soft shale rock in the straits would not be adequate for foundations to hold bridge piers, concludes Landes.

The Michigan Department of Economic Development announces that Michigan ranks second in population increase for the period April, 1940 to July, 1948. California was first. Michigan's present population: 6,209,000.

Wholesale prices have declined about 7½ percent during the past 12 months and now are around 10 percent under the postwar peak reached in September, 1948. The Bureau of Labor Statistics reports a 12.7 percent decline in farm prices; 8.9 percent drop in food prices during the past 12 month period.

Among the present problems which promise to result in requests for more state spending is that of the postwar rise of sex crimes in Michigan. Governor Williams has asked the State Mental Health Commission to make a search for an immediate solution. A Detroit daily newspaper sponsored an independent study of eight sex murders in Detroit and other cities in recent years, and the survey came to the conclusion that additional state facilities were urgently needed. Prospect is new demands for state aid.

Auditor General Murl K. Aten reports that the state collected and returned to local governments three dollars for every dollar retained by the state for state services during the past fiscal year. Total of state aid payments was $309,863,726, as compared to state cost of institutions, departments and maintenance of highways and building amounting to $102,925,073.

Aten points out that expenditures for the past year were over 18 million dollars higher than revenues. He makes this prediction: "Under the present financial structure, if and when sales tax revenues take a nose-dive, the inevitable result will be financial chaos in the general fund."

Governor Williams is said to still hold the firm conviction that new taxes will be needed in 1950 because of postwar inflation and constitutional diversion of sales tax revenues back to local governments.

If further inflation in 1950 results in higher prices and continued high consumer spending, it is entirely possible that the threatened treasury deficit may be delayed or at least kept to a low amount. Republican legislative leaders appear to be gambling that no deficit will develop or, if at all, the deficit will be nominal. To impose new taxes in an election year is not popular with many legislators.

Building facilities at the Michigan State Fair are wholly inadequate for present needs, declares James D. Friel, general manager, in a report to Governor Williams. Since the coliseum was constructed in 1921, "no major building" has been erected at the fair grounds. Friel concludes that Michigan lags far behind Indiana, Wisconsin, Ohio and Minnesota in the State Fair facilities. While it is unlikely that anyone will dispute the judgment of Mr. Friel, it is equally unlikely that the legislature will grant new funds for needed State Fair improvements, especially in view of the financial situation confronting the state and the local governments.

Former Governor Harry F. Kelly is said to be cool to urgent appeals that he announce his candidacy for governor in competition with State Treasurer D. Hale Brake and Secretary of State Fred M. Alger, Jr.

ONSTED

Elwyn Onsted was elected worshipful master of Onsted Lodge, F. & A. M., at the annual communication last week, following a turkey dinner. Other officers elected and installed were: Orville Chatfield, senior warden; Lawrence Pawson, junior warden; George Boydston, senior deacon; Lloyd Kurtz, junior deacon; Ralph Morris, secretary; Ray Turner, treasurer; Max Johncox, chaplain; marshall, Alfred Lapham; Alton Brooks, Willis Swicker, Donald Blum and Leo Smith, stewards; Jesse Hoddinott, tyler; Ward Bradish, pianist. A life membership was granted to Ray G. Turner.

Recent guests of Mr. and Mrs Ray Shugars were Mrs. Harold Howe and son Robert of Royal Oak.

MACON

The December meeting of the Macon W. S. C. S. met recently at the home of Mrs. Charles Bigelow. The program was in charge of Mrs. Ralph Halladay who gave a talk on the fine results achieved in India by the collection of old spectacles collected in this country and distributed among the people there. Assisting Mrs. Halladay on the program were Mrs. Jean Callahan of Clinton, Mrs. Lois Jordan, Mrs. Ruby Bigelow and Mrs. Winnie Sarvey of Macon. A fine dinner was enjoyed as well as music by Mrs. Halladay.

At a session of the Probate Court for said county, held at the Probate Office, in the City of Adrian, on the 6th day of December, in the year one thousand nine hundred and forty-nine.

Present, HON. MAURICE E. TRIPP, Judge of Probate.

In the matter of the estate of LUCIUS LILLEY, Deceased.

On reading and filing the petition duly verified, of John R. Thompson, trustee of said estate alleging that he is ready to render his eighth trusteeship account and praying for the approval and allowance thereof, and for such other order or decree as to the court shall seem proper;

It Is Ordered, That Tuesday, the 3rd day of January next, at nine o'clock in the forenoon, be assigned for the hearing of said petition.

It Is Further Ordered, That a copy of this order be published in The Tecumseh Herald, a newspaper printed and circulating in said County of Lenawee for three consecutive weeks previous to said day of hearing.

MAURICE E. TRIPP,
Judge of Probate.

Didja Know That December's a Dangirous Month!

Wa'at Jist Use Yur Haid and Help Reduce the Aksident Toll

Yep, folk, its true. December, accordin'to state statikists, is the most dangerous month of all of 'em. Reason is, of kourse, that we're all in a hurry, trying to git ready for Christmas. Waal, 'taint wurth it!

Now don't git us wrong, we ain't again' Christmas, but we are again' this hurrin' stuff. We furget to be kirteous, we try to drive two kars where only one kin go, and we don't give the feller what's walking a chanc' fur his lif.

Why don't we all slow down this month and take it easy? And, why don't we all take a look at our kars and see if they're in kondishun to serve us safely? We've known o' plenty o' crack-ups what kud'a bin avoided if the kar had been in kondishun.

Why don't yuh bring in your old kritter and let us make sure its safe fur holiday drivin'. We don't wanta havto kum and git yuh with th' recker. Maybe, besides the recker, we'd need to bring an ambulince, too, and that ain't good.

Anyhow, whether yuh let us safetyize yur kar or not, we says, be karful. Don't mar this Christmas fur yurself or anybody else.

Christmas time is not the time for aksidunts. Don't be a smart alec!

More Than 4,000 Persons Attend Santa Claus Party

More than 4,000 persons attended Tecumseh's Santa Claus party, Saturday evening. Above, Santa and his reindeer pose for The Herald's candid camera with the high school band in the foreground.

Santa Claus Greets 4,000

A crowd of more than 4,000 persons saw Santa Claus and his reindeer in Tecumseh, last Saturday evening, and participated in what the Chamber of Commerce declares to have been "the finest Christmas party" in the village's history.

"Santa gave nearly 2,000 sacks of candy and goodies to the youngsters," Ronald Harris, Chamber secretary said, "and I know that for every youngster at the party there was one or more adults. The crowd estimate of more than 4,000 is an accurate one."

Santa, in an old-fashioned cutter to which was attached his "eight tiny reindeer," arrived in the business district at promptly 7:30, preceded by the high school band. Downtown streets were crowded with people awaiting his arrival. The sleigh and reindeer were mounted on a large platform truck, which was beautifully illuminated.

After making a brief tour of the shopping district, Santa's truck halted at the corner of Evans street and the Boulevard, where a group of Rotarians and Exchangeites assisted Mr. Claus in distributing his gifts. This program took the better part of 90 minutes.

"I'm glad that so many youngsters came out to see me," Santa said to a Herald reporter. "I got a big kick out of talking to the kids and learning just what they want for Christmas. I'm very happy to have come here before the holiday and, in the future, Tecumseh is definitely on my list for a pre-Christmas visit."

Santa will remain in Tecumseh until Christmas and with his deer may be seen on the streets each afternoon and evening. Sometime this week he is scheduled to make a surprise visit at Tecumseh Hospital.

Tecumseh is in gala dress for the holidays. Its streets are decorated with evergreen trees and there are hundreds and hundreds of twinkling multi-colored lights.

Through the cooperation of Forest Abner of Tecumseh Electric Supply, recorded Christmas music from Tecumseh churches and churches in this trading area is being broadcast over a loud speaker system, each afternoon and evening.

A few of the hundreds and hundreds attending the party at which Mr. Claus presented every youngster he met with a gift may be seen above. The little girl in Santa's arms appears happy, but a bit amazed that she should have the good fortune to be held by St. Nick himself. Nobody was watching The Herald's candid camera. All eyes were on Santa.

Home Decorations May Win $10 Prize

MONDAY CLUB OFFERING PRIZES FOR OUT-OF-DOOR LIGHTING THIS YEAR

Little time remains until Christmas, so if you are planning to participate in the house decorating contest it's time to put your ideas into effect. This was the advice of Mrs. Donald Goddard, president of the Tecumseh Monday Club, which is sponsoring the contest this year.

"There is no set of rules to follow and there is to be no classification as to small and large houses," Mrs. Goddard said. "Creativeness and individuality will be the basis for the judging," she explained. "The smallest house may be a prize winner if enough individuality is shown in the decorations."

The club is leaving it up to each individual as to whether or not to enter the contest. Judging will be done a day or two after Christmas by Mrs. Archie Porter, Mrs. Earl Place, Mrs. Joe Rice, Earl L. Wickwire, Ellsworth A. Collins and Ronald E. Harris. The first prize is $10, the second prize $5 and there will be several honorable mentions.

At one time the contest was an annual event in Tecumseh but was dropped during recent years.

Don't Let Death Mar The Holiday

STATE POLICE APPEAL TO DRIVERS AND PEDESTRIANS TO USE UNUSUAL CARE

With Christmas at hand, Sgt. Carl M. Miller, of the Clinton post of the Michigan State Police, is urging drivers and pedestrians alike to be unusually careful and not let death take their holiday.

Pointing out that last year 21 persons were killed in traffic accidents in Michigan on the day before Christmas, Sgt. Miller said that "December, the merriest month of the year, is also the most deadly."

"We are now in the most dangerous period of the month," he continued. "Last December there was an average of more than six traffic deaths a day, or a total of 195 for the month. But of this total, 117 were killed during the last 15 days, an average of eight each day, and 76 of these lost their lives during the last eight days, an average of nearly 10 each day. The peak was reached with the tragic toll of 21 on the day before Christmas."

Sgt. Miller said State Police records show that last winter the accident rate increased nearly 45 per cent and the death rate 50 per cent. These increases were due largely to added hazards such as slippery streets and highways, more hours of darkness, driving too fast for conditions, and vehicles with defective equipment.

Three-fourths of last winter's traffic fatalities occurred after dark, nearly half when roads were wet, snowy or icy, and 20 per cent when vision was obscured by sleet More than half of the drivers were violating a traffic law.

One-third of all those killed were pedestrians.

"The accident rate goes up during the holidays because there is more traffic, people are in a hurry and become careless, and sometimes they celebrate too much," he stated. "With a little extra care and caution December, instead of being the most deadly month, could be made the safest and then, indeed, it would be a merry Christmas."

Robert J. Collins, Former Resident, Dies

Funeral services were held in Detroit, Saturday afternoon, for Robert J. Collins, 45, a former Tecumseh resident who died suddenly Thursday at 1 a.m., in Detroit, where he had resided for the last 22 years. Burial was at Milan.

The son of Mrs. Mabel Collins of Tecumseh and the late James Collins, who died 11 years ago, he was stricken Thursday while walking from a train to his automobile at the Wabash Railway where he was employed as a railway postal clerk. Mr. Collins graduated from Tecumseh high school in 1923 and was a graduate of Michigan State Normal College.

Surviving are his mother, his widow, Paulene; a son Richard, a daughter Patricia, a brother Louis Collins of Milan and two sisters, Mrs. Minnie Haynes of Detroit and Mrs. Cora Pfaus of Tecumseh.

OVERHEATED FURNACE

The Tecumseh fire department was summoned to the Andrew McWilliams farm, one-half mile north of Holloway, Monday at 8:30 a.m., when an over-heated furnace threatened. There was no damage.

Mothers Guests, Grade Program

CHRISTMAS ENTERTAINMENT PRESENTED BY STUDENTS AT WEST BRANCH

The second grade of the West Branch school presented a program at the school for their mothers, Tuesday afternoon. Miss Bertha LaPointe is the teacher.

The following program was presented: "A Welcome," Charles Baird; "In Storage," Todd Herrick; "Not Perfect," Richard Holdridge; "A Good Plan," Judith Truesdale and Harriett Blanden; song, choir, Janett Buehrer, Mary Roberts, Mary Colgrove, Alice Titley, Charles Revolt, Ralph Helzerman, Richard Stephenson and Judith Moynihan; "Dear Santa," James Creger; "Santa's Pilot," Jerry Irelan; "Something," Jean Ann Wagner; "Two Nice Things About Christmas," Patricia Helsler and Ralph Helzerman.

Mrs. Anna Hildebrand, Former Resident, Dies

Funeral services were held Tuesday afternoon in Saginaw for Mrs. Anna Hildebrand, who died Friday at her home at 1239 Brown St., in that city. Burial was in Byron.

Mrs. Hildebrand and her husband, the Rev. E. F. Hildebrand, left Tecumseh about eight years ago and since that time made their home in Saginaw. While here the Rev. Mr. Hildebrand was pastor of the Tecumseh Methodist church for several years.

Survivors are the husband, four sons and one daughter.

Community Fund Goal Is In Sight

JUST $300 MORE IS NEEDED TO PUT CHEST DRIVE "OVER THE TOP"

Just $300.00 more and the success of the 1949 Community Fund campaign is assured, it was announced today by Ronald Harris, drive chairman.

The announcement is spurring volunteer workers to get their call backs completed and their final reports in. "These volunteers cannot be thanked too much," Mr. Harris stated. "The drive this year coincided with the busiest time for private and business affairs. We feel guilty about asking these people for more of their time, but we also know that they, too, are eager for success."

Meantime Tecumseh citizens can help greatly, it was announced. No one is ever purposely omitted in a campaign such as this. Nevertheless, Community Fund officials feel that there are probably a number of places and persons that were missed. Persons who were not solicited or who can do a bit more than their original gift, may make additional contributions to any of the volunteer workers or to the campaign headquarters at the Chamber of Commerce.

"We know that this is an expensive and busy time of the year," Harris stated. "But $300 should not be too much for this community to add to its response. Next week we wish to announce the 1949 campaign completed and a success."

New Assessment Form To Be Used

VILLAGE AND COUNTY SEEK TO GET PERSONAL VALUES ON UNIFORM BASIS

A new form will be used in the Village of Tecumseh and throughout Lenawee county in the New Year for the purpose of assessing personal property taxes. In Tecumseh, the form will be mailed to taxpayers soon after the first of January and it must be returned to the assessor not later than January 31, it was said.

John Saling, Tecumseh assessor, explained that the use of the form now is the law of Michigan. Owners of personal property, who will receive the form, must list stocks, equipment and other items of value in inventory form, and the statement must be sworn to before a notary public. It then will be used in establishing personal property taxes.

The procedure locally is entirely new. Heretofore, the assessor has visited all personal property taxpayers, established a value on their property and levied the assessment accordingly. It is the hope of officials that under the new plan a more uniform assessment may be made. No effort will be made, it was said, to assess personal property in homes where the law permits a $3,000 exemption.

In the county, the board of supervisors has adopted the use of a

Stores Open Nightly Until The Holiday

With only two days remaining before Christmas, stores in Tecumseh are staying open evenings until 9 o'clock to accommodate last minute shoppers, of which there are plenty, the Chamber of Commerce said today.

"There seems to be an unusual amount of late Christmas buying, and some of the gifts being purchased run up into three figures," Ronald Harris, Chamber secretary, said. "However, stocks in Tecumseh stores are very complete, and buyers are not having any trouble in filling their gift lists."

All of the stores will be open tonight and again tomorrow night until 9. Saturday evening, some of the stores may close a bit earlier because it is Christmas eve and clerks and owners alike are anxious to get home to their families.

An International Greeting Card

Tecumseh, Ontario Gets Big Greeting Card From Tecumseh

FRIENDSHIPS MADE LAST JULY ARE RENEWED DURING VISIT LAST WEEK

Pleasure and surprise were expressed by officials of Tecumseh, Ontario, Canada, when they were presented last week with a "greeting card" five feet wide by three feet high from the village of Tecumseh, Michigan.

The unique card, gaily lettered and decorated in seasonal coloring, was presented last Thursday to the sister town in Canada by a delegation of officials from the Michigan town headed by village president, Marvin Watkins.

Mayor T. C. Scott, of the Canadian town, headed a reception group made up of the town council and the public utilities department. Both Mayor Scott and Mayor Watkins spoke of the warm friendships that had developed as a result of the salute of 1,300 Canadians to Tecumseh, Michigan, on the occasion of its 125th anniversary last July.

"We were most cordially received and entertained," Mayor Scott stated. "Many of our citizens recall the affair as the highlight of the year."

Meantime the Canadian town is getting ready to make plans for a return visit from Tecumseh, Michigan. "The exact date will be known in a short time," Mayor Scott said. "We are hoping that your town will come over in force and enjoy yourselves as we did in Michigan last July."

The Michigan delegation promised that full cooperation would be forthcoming. "Your amazing showing last summer presents a real challenge to us," stated one of the Michigan councilmen. "Believe us when we say that we shall leave no stone unturned to show our Canadian friends that we, too, can leave our other affairs for a day to pay them a visit."

The delegation which presented the greeting in addition to Mayor Watkins was composed of Councilmen George McCombs, Clarence Beach, A. W. Porter and Chamber of Commerce secretary Ronald Harris.

In a telephone conversation with the Chamber of Commerce the next day, W. V. Bouteiller, clerk of the Ontarion town, reported that the sign had been placed on the four corners of the town where every resident would be sure to see it.

Tons Of Turkeys

EMPLOYEES OF TECUMSEH PRODUCTS TO RECEIVE GIFTS ON FRIDAY

Turkeys by the ton and fruit and candy by the basket will be distributed on Friday to employees of the Tecumseh Products Company in keeping with a policy established by that organization several years ago.

This year, it was said, 1,725 turkeys and 325 baskets of fruit will go to the Products personnel. Every employee whose withholding tax card shows a dependent will receive a turkey. Those without dependents will receive the fruit.

The distribution will take place at Gate No. 1 at the plant on Friday, December 23, beginning at 11 a.m., and will continue until 3:30.

SCHOOL'S OUT

Yes, school's out for more than 1,000 youngsters and teachers in the Tecumseh public schools, the holiday recess having gone into effect last night. Classes will not be resumed until Tuesday, January 3, 1950.

Club Members At Yule Program

MONDAY CLUB MEMBERS, GUESTS ENJOY "PICTURES OF LIVING MADONNAS"

Assembled in the American Legion Home, some 125 members and guests of the Tecumseh Monday Club, enjoyed a program of "Living Madonnas," this week, with Mrs. Wilfred Waldron as chairman. Several famous Madonna paintings were posed by selected women and children in the large frame arranged by Wilfred Waldron and Wilfred Waldron, Jr. Vocal and piano solos accompanied each picture.

Mrs. R. S. Moore as leader announced the musical numbers and Mrs. Robert J. McCoy announced the cast of characters. First was "The Annunciation," by Fra Angelico, with Miss Martha Hayden as Mary and Miss Diane Dillon as the angel. Mrs. Murray Day sang "The Annunciation." "Madonna and Infant," by Dolcio, was portrayed by Mrs. Jack Osburn and daughter Sherrie, and Mrs. Gibbs Barber sang "Sleep My Little One."

"Sistine Madonna," by Raphael was represented by Mrs. William Powell and son Bobbie as Mrs. Lyle Grigg rendered "When I View the Mother Holding." "Madonna and Baby Jesus and Cousin St. John," by Corrigio, was portrayed by Mrs. Murray Day, Sherrie Osburn and Ann Drake. Miss Hayden accompanied the picture by singing "There's A Song In the Air."

"Madonna of the Chair," by Raphael, was represented by Mrs. William Mitchell and two sons Dennis and Gary Lee. Miss Hayden sang Schubert's "Ave Maria." "Chinese Madonna of the Moon Gate," by Luke Chen Hsu, portrayed by Mrs. Bart Aiuto and daughter Susan and Sarah Wright, was accompanied by Mrs. Herbert Dillon, who played a piano solo "Chinese Lullaby."

"Madonna, Infant Jesus and St. John," by Bourgereuau included

V. F. W. Yule Party Scheduled For Tonight

The Christmas party for members of Hall-Slater post, Veterans of Foreign Wars, its Auxiliary and their families, will be held this (Thursday) evening, beginning with a potluck supper at 6:30 p.m. Meat, rolls and beverages will be furnished and those attending are asked to bring a dish to pass and table service. Members of the Auxiliary are reminded to bring a can of food for a Christmas basket for a needy family.

After the dinner Max Rudock will act as master of ceremonies. Six members of the St. Elizabeth church choir will sing, followed by a duet by Jerry Butler and Richard French. The women's quartet composed of Mrs. Carl Kempf, Mrs. Harold Warren, Mrs. Jean Sisty and Mrs. Max Brandt will entertain, followed by humorous readings by Mrs. Pauline Kopka. Group singing will conclude the program, after which Santa Claus will arrive for a visit with the children.

I will be at the United Savings Bank on Saturday, December 17, and each Saturday thereafter until further notice, for the collection of Tecumseh township taxes, dog taxes and fire insurance. I will also accept payments by check or money order, mailed to my residence, 211 West Brown Street, Tecumseh, Mich. (Signed) Lawrence Mohr, township treasurer.

DOWN THE ROAD TO STATISM

James F. Byrnes, who was formerly Secretary of State, and has long held a high place in the councils of the Democratic Party, recently said, "We are going down the road to statism, where we will wind up no one can tell. But if some of the new programs seriously proposed should be adopted, there is danger that the individual —whether farmer, worker, manufacturer, lawyer, or doctor—will soon be an economic slave, pulling an oar in the galley of the state."

That same idea, in different words, has been expressed time and time again by other American leaders, of all political and economic views and affiliations.

More important, that idea is based solidly upon a rock of fact The whole industry of the modern world supports it. That history is a black and dreary record of steady loss of individual liberty under the crushing force of all-powerful government.

We see it in its extreme form in the communist countries, where tactics of terror unknown since medieval days are used to crush dissent and frighten the people into line. We see it in a much modified version in present-day England, where the forms of Anglo-Saxon law are still followed and the structure of representative government still stand. But the difference is one of detail and degree, not of principle.

It may be that the greatest danger is short-sightedness. The man who runs a store may feel, for instance, that government ownership of some great industry, such as electric power, is of small moment to him. The man who works in a factory may see no personal menace in a law that would give the government broad control over doctors. A labor leader may welcome more and more governmental domination of industrial leaders with whom he has differences. This is the way dictatorship comes about. One group is taken over at a time, while the other groups stand by and argue that it's no affair of theirs. Then, when it is too late, we find to our horror that we're all in the same boat.

In modern times, no nation which has lost its freedom has ever regained it. The totalitarian victories are permanent. On the other hand, the victories of those who still believe in freedom and justice are temporary. The battle must be fought again and again, year after year, on front after front. And each must be won.

The road to statism is marked with cheerful sings—human welfare, a better life for the masses of people, security against everything. But when the end is reached the people are always in chains.

MACON

Mrs. Clarence Hall and her class of Sunday school girls entertained Chas. Gorton and his class of boys at her home on Friday night. A chicken pie supper was served at 7 o'clock. The evening was spent in playing games, singing Christmas carols and exchange of gifts.

On Sunday evening, December 18, the Sunday school held their Christmas program. It consisted of recitations and songs by the primary and intermediate departments and a number of solos and choruses by the Young People's Class. They were accompanied by Mrs. Carl Thomas. Boxes of candy were distributed to all the children.

DECEMBER IS MOST DANGEROUS MONTH IN THE YEAR

A Little Care May Keep Your Christmas Cheerful

Use a little care to keep your Christmas cheerful!

December is the most dangerous month in the year; don't let accident or death take your holiday, the Michigan Department of Health said today in its annual reminder of pre-holiday and holiday hazards.

More than one-tenth of Michigan's 1948 accidental deaths occurred during December. Thousands of people were injured in accidents during the month.

There were 404 accidental deaths in December last year. Of these 114 were caused in the home, 191 in traffic and 77 in public places.

Among the accidental deaths in homes, 62 were from falls and 26 from fire, burns, and explosions.

The majority of home falls were over toys, furniture or equipment out of their usual places. Some icy steps, or from boxes or chairs used in place of a stepladder.

Home fires were caused by shorts in tree lights, by candles or open fires, by discarded wrapping paper, by overheated furnaces or by smoking in bed. Don't go to bed with tree lights or candles left on or when the furnace is unchecked. Don't leave your children at home alone when you step out for holiday parties.

Make several small shopping trips rather than one or two big harried ones. Use the handrails on stairs and escalators and watch for ice on the sidewalk. Falls in public places took 47 lives last December.

Quit shopping when you are tired or irritated. It is the weary, preoccupied person or the one who has just had a couple of cocktails to freshen up, to whom an accident occurs.

Don't load yourself to the eyebrows and then try to make your way across busy streets. There were 87 pedestrains killed in preholiday and holiday traffic last year.

Drive slowly and allow plenty of time to see and stop so you won't hit other shoppers. Slow down well in advance of intersections and be ready to give the other fellow your right of way. Be sure your car windows, front, rear and side, are defrosted and clear. Last December 124 Michigan people were killed in automobile crashes.

Don't leave your children in your car when you shop.

Take time to be careful. It will help to keep your Christmas cheerful.

DAUGHTER TO WED

Mr. and Mrs. Frank Zimmerman of Dundee announce the engagement of their daughter, Joyce, to Raynor Spreeman, son of Mr. and Mrs. Charles Spreeman of Tecumseh. No wedding date has been set.

Michigan Mirror
Non-Partisan News Letter

By Gene Alleman
(Special to The Herald)

Saving of tax funds to the extent of several million dollars is proposed by a special committee of Michigan State Senate headed by Senator Colin L. Smith, Republican of Big Rapids.

The committee has asked Governor G. Mennen Williams to submit a series of recommended welfare law changes to the legislature in the forthcoming special session tentatively scheduled for March, 1950.

In Detroit alone a survey disclosed that 1,862 welfare chislers were illegally receiving public funds. The saving in Detroit alone for the coming fiscal year will be approximately $2,000,000.

This committee has recommended adoption of uniform relief policies in all 83 counties of the state. Relief clients would be required to pay back money to the state when financially able; resident requirements would be tightened; and other changes made to increase liability of relatives for supporting kin while on public relief.

The mounting spending of public funds for welfare purposes during the current period of postwar prosperity has perplexed a number of legislators. As the State of Michigan watches welfare spending in each county, this field of public service has become big business. If Governor Williams declines to present this issue to the special session in 1950, the report of the committee will wait one year until the general legislative session in 1951.

Former President Herbert Hoover declared at Washington before the National Reorganization Conference that federal, state and local government expenditures were "more than 30 percent of the national income."

The Congressional Quarterly, an independent research publication at Washington, reports that the 81st congress appropriated $46,485,597,921 and also obligated the federal government to an additional outlay of $4,497,413,298 in contract authority. During 16 of 18 years federal government has incurred an annual deficit.

Laurin B. Miller, director of the Bureau of Governmental Research, states that the cost of state and local government in Michigan has risen to the second highest per capita rate in the nation. The Michigan per capita expenditure was $108.47 last year. The Michigan total was unusually high due to the fact that many local government functions are financed to a large degree by money collected by the State of Michigan and sent to local governments in form of state aid. Thus when an announcement is made that the cost of state government has soared to unreasonable heights, it is easy to criticize spending at Lansing, and to do so unfairly.

Auditor General Murl K. Aten pointed out in an October report, covering the past fiscal year ending June 30, 1949, that state monies distributed for the benefit of local governments totaled $309,000,000 whereas the cost of operating state institutions and state departments including maintenance of highways and buildings totaled only $102,000,000.

As this column has pointed out repeatedly in the past, more than 78 percent of the state sales tax revenues are distributed back to local governments by Lansing.

Out of the total of $309,000,000 distributed by the state to local governments during the 1949 fiscal year (ending last June 30), state aid for public relief totaled $9,650,156.17; aid to dependent children, $22,700,250; and old age assistance $46,493,287.

State aid for county highway systems total $6,550,000; state aid to local school districts, $83,798,678 and sales tax distributions to local governments $64,864,354.

It is significant when a citizen is called upon to weigh the cost of government to note that state aid to local governments constituted 58.5 percent of the total amount collected from taxpayers in one form or other.

The general problem has been greatly aggravated by the fact that a 1939 dollar was only worth 59 cents in 1949 and that all public services have had inflated dollars which bought less than heretofore.

Postwar inflation, like a silent thief in the night, has robbed everyone of 41 cents of a 1939-saved dollar. Deficit spending causes the dollar to buy less and less; public services have less and less purchasing power in dollar appropriations. It is a vicious cycle: More spending, more inflation, more dollars needed as purchasing power declines so more spending.

PAST CHIEFS CLUB

Mrs. Burlin Brees entertained the Past Chiefs Club, at her home, Thursday evening, assisted by Mrs. Esther Beckman.

Following a short business meeting gifts were exchanged. Games were enjoyed and prizes won by Mrs. Earl Betser, Mrs. Edwin Swift and Mrs. Silas Kring, sr. The traveling hostess gift was awarded to Mrs. Frank Bates. Lunch was served by the hostesses.

The January meeting will be held at the home of Mrs. Duncan Oliphant with Mrs. Anna Hardenburgh assisting.

RIDGEWAY

Mrs. Daniel Linn entertained at a dinner Sunday honoring her husband's birthday. A large birthday cake centered the table.

A Perfect Gentleman

"What's your idea of a gentleman farmer?"

"He's a person," answered Farmer Cornatossel, "who is so well fixed that he can waste profanity on a golf ball instead of on a mule."

60 Families Act As Guinea Pigs

DOCTORS IN CLEVELAND SEEK TO FIND OUT HOW DISEASE SPREADS IN HOMES

Doctors have turned 60 homes in suburban Cleveland into laboratory cages where whole families voluntarily act as guinea pigs. This is part of a ten year group study designed to find out the part the family plays in the spread of disease — especially the common cold, mumps, and influenza. Figures for the first year of the experiment already reveal new diseases and others that could not be diagnosed specifically, says Margaret O'Brien Marshall, one of the mothers taking part in the project. Writing in McCall's for November, she describes the work of the study group and the duties of the participating families:

"Six doctors, a nurse, two statisticians, fourteen technicians and three secretaries keep us under constant surveillance. If one of us develops a degree of fever, a slight rash, a sore throat, if a small boy skips three meals in a row, these 26 people will know about it. Our past histories are in their books, our chest X-rays are in their files, vials of our blood are stored in their refrigerator. They chart graphs of the course of the commonest of colds through our collective noses.

"We are one of 60 families chosen for ten years of observation by the family study project of the department of preventive medicine in the medical school of Cleveland's Western Reserve University. The study group is an outgrowth of a project started at Fort Bragg, N. C., by a team of young doctors during World War II, and is now turning its attention to the role of the family in the spread of disease, respiratory and otherwise.

"Twice a year the boys are given a complete physical examination, including a chest X-ray, urinalysis and blood count, as well as a thorough going over. At this time 10 cubic centimters of blood (approximately two and a half teaspoonfuls) are drawn for future study. Once a year my husband and I are examined, and 20 cubic centimeters of our blood are taken semiannually.

"Every week a nurse comes to our house to take swabs of our throats (my husband takes his own and leaves it in the icebox before he goes to the office). Back in the laboratory these cultures are injected into mice to see if they contain pneumococci, pneumonia germs, and are checked in a culture media for the strepococci which can cause strep throat or scarlet fever.

Since their primary concern is with the 140 children in the study, the doctors have perfected techniques for dealing with them. Dollies and stuffed animals get their throats swabbed regularly. The doctors get their ears examined almost as often as they look into their little patients'. Last spring a baby lamb came along to call on several of the younger members of the study.

"There was the possibility that with all this medical attention we would end up with a tribe of little hypochrondriacs. But we have been successful in avoiding it, and I have learned to be completely casual with them about the whole thing.'

"Of the 1,391 illnesses the families had in 1948, 75 per cent were respiratory. The doctors were surprised at the high illness rate in families in good physical condition. But the figures that have given all of us pause came in the breakdown on respiratory ailments: Only 1 in 67 illnesses was from known causes: the rest could not be diagnosed specifically.

"Attempting to classify our respiratory troubles, the doctors have isolated what they believe to be a new disease, which they are calling 'nonstreptococcal sore throat.' The symptoms included a sore throat, swollen glands and high fever. Sulfa and penicillin did not touch it. It acted like a strep throat, but this was eliminated by the laboratory. Naturally it is due for intensive future study."

Yule Musical Program Enjoyed By B. & P. W. C.

A Christmas musical program was enjoyed by 38 members and guests of the Tecumseh Business and Professional Woman's Club, Monday evening, after a delicious turkey dinner in the Presbyterian church Fellowship Center was served by members of the Golden Rule Circle. For devotions before dinner the group sang "O Come All Ye Faithful."

Mrs. Frederick Biddix announced the program, which was prepared by her and Mrs. Dale Tingley. It was as follows: Group singing, "The First Nowell" and "Hark, The Herald Angels Sing;" piano solo, "Chimes," Miss Lulu Waldron; vocal solo, "Sleep, O Holy Babe," Mrs. Gibbs Barber; reading of the Christmas story, Mrs. Biddix; vocal solo, "O Holy Night," Mrs. J. M. Mulvaney; a piano medley of Christmas songs, Miss Waldron; group singing, "It Came Upon The Midnight Clear" and "O Little Town of Bethlehem." Miss Ruth Harding explained how each of the carols was written before it was sung by the audience.

During the business meeting, at which the president, Mrs. George French, presided, it was announced that three boxes of used clothing were sent to a Grecian family. The committee in charge of packing the boxes were Mrs. Duaine Service, Mrs. Dale Tingley and Mrs. French.

For the occasion the church was decorated with a snow-covered Christmas tree, greens, and burning tapers in candelabra. The tables were centered with varied holiday arrangements. Included in the hostesses were Miss Alice Seeger and Mrs. Purnell Osburn.

Cub Scouts Hold Christmas Pack Meet

A large group of Cub Scouts, parents and friends met Monday night in the Baptist church to celebrate the Christmas season.

Five dens of Cubs trimmed the Christmas tree using colorful and clever decorations they had made at their meetings. While this was being done the remainder of the audience sang Christmas carols. The singing was led by Perry Hayden with Mrs. Ray Sluyter at the piano.

Gifts made by the Cubs were distributed to the parents and gifts were exchanged by the junior members of the pack.

Work done by Mrs. Charles Kempf's Den No. 10 was on display in the church.

The opening ceremony was conducted by Mrs. Robert French's Den No. 3 led by Den Chief Russell McKenzie. The closing was conducted by Den No. 1, under the direction of Mrs. Harold Naser. These ceremonies were designed to portray the spirit of the Christmas season. Anita Dickinson, sister of one of the Cubs exemplified Mary in the manger scene.

The next regular pack meeting will be held January 30.

Next Thursday, December 28, a den mothers meeting will be held at the library at 1:30 p.m. There will be no Cub meeting next week.

Mrs. Mary Drake, son Tommy and daughter Ann. Miss Hayden sang "Ave Maria," by Bach Gounod. "Virgin of the Grape," by Minard, was portrayed by Mrs. Merle Hendricks and daughter Karen with the soloists, Mrs. Maynard Mulvaney, singing "Jesu Bombino."

The accompanists were Mrs. Herbert Dillon, Mrs. Kennard Wise and Mrs. Waldron.

Guests included members of the Clinton, Britton and Macon Women's Clubs and five county federation officers, namely, Mrs. Harmon Gamble of Hudson, president; Mrs. Truman Rentschler of Tecumseh, first vice president; Mrs. Lyle Pickford, of Adrian, second vice president; Mrs. W. W. Cook of Clayton, treasurer; and Mrs. G. J. Johnson of Hudson, corresponding secretary.

Gifts were left underneath the Christmas tree for patients at the county infirmary.

Tea was poured by Mrs. Perry Hayden and Mrs. E. T. Armstrong from the table attractive with seasonal decorations.

Mrs. Herbert Murphy was chairman of the hostess committee and was assisted by Mrs. Ray Herrick, Mrs. T. Rentschler, Mrs. Veva Connor, Mrs. L. W. Larsen, Mrs. William Mitchell, Mrs. Wilfred Waldron, Mrs. E. D. Brown, Mrs. E. T. Armstrong and Mrs. Glen Williams.

Special Yule Service At Methodist Church

The Methodist church announces that it will have a combined service Christmas Day at 10:30 o'clock in the morning. The entire Church School will be in the sanctuary for the opening of the worship service, which will include special music by the choirs, under the direction of Glen Gould, who is a graduate of music from the University of Southern California.

The choirs will form a processional to the sanctuary where they will sing the "Christmas Hymn" (from the 17th Century arranged by Hugo Junst). This particular anthem is unique in that it has the echo effects.

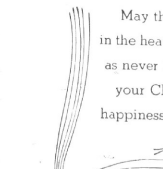
The children will also sing a number of their own and throughout the singing of the hymns and Christmas carols the descants will be heard by the choirs. Dr. Norman MacNaughton has chosen as his sermon topic "Heaven Comes Down to Earth."

This change in time is made to accommodate the many who will have family dinners at noon.

Hospital Auxiliary To Hold Holiday Ball

Plans for a Holiday Ball were completed by the Tecumseh Hospital Auxiliary, which met last week at the home of Mrs. William Beardsley in Macon, with Mrs. L. W. Larsen assisting. The dance will be held Thursday, December 29, from 10 p.m., to 1 a.m., in the American Legion Home with Ken Edwards and his orchestra furnishing the music.

Mrs. C. O. Butler and Miss Ruth Keyser are co-chairmen of the refreshment committee for the dance; Mrs. H. H. Hanna is decorating chairman and Mrs. Paul Ammer is ticket chairman. Tickets may be purchased at the door for those who have not secured them.



May the stars

735,125 Man Hours Without Lost Time Mishap

Photo shows R. C. Murtagh of the Liberty Mutual Insurance Co., presenting the Safety Certificate of Merit to R. W. Herrick, president of Tecumseh Products Co. The insurance company presented the award after the company had operated for 735,125 man hours without a single lost-time mishap.

Over-Capacity Crowd At School Xmas Program

A Christmas program of an unusual nature with 539 children participating was enjoyed by an over-capacity audience of parents and friends, Thursday evening, in the high school auditorium. The hour-long program, "Carols of the World," was directed by Mrs. Philip Gentile. With people standing in the auditorium and balcony it is thought to have been the largest crowd ever to have assembled at the school for a similar program.

With each grade from the first through the sixth singing several selections, it was interesting to note the progress in the development of the voices and the children's ability to learn more difficult numbers in each succeeding grade. The largest class on the stage at one time was the first with some 123 children. Two lighted Christmas trees decorated the platform.

The program was sponsored by the Tecumseh Parent-Teacher Association.

New Officers Named By Pythian Sisters

New officers were elected by the Pythian Sisters, which met last week, Wednesday evening, with 27 members in attendance.

The officers were named as follows: Most excellent chief, Mrs. Velma Miller; excellent senior, Mrs. Carmen Mathews; excellent junior, Mrs. Mable Kash; manager, Mrs. Buelah Todd; secretary, Mrs. Glyde Wittrup; treasurer, Mrs. Alfa Thompson; protector, Mrs. Eileen Hizer; guard, Mrs. Elizabeth Freer; installing officer, Mrs. Kuth Vincent; captain of degree staff, Mrs. Rella Kring; press correspondent, Mrs. Leila Wood; pianist, Mrs. Catherine Wilson; delegate to grand temple, Mrs. Vincent; alternate to grand temple, Mrs. Lillie Gray; visitor to grand temple, Mrs. Kring; delegate to district convention, Mrs. Miller; alternate delegate to district convention, Mrs. Mathews; three year trustee, Mrs. Vincent.

Presbyterian Church Has Busy Schedule

The silhouettes of the manger scene at the First Presbyterian church is attracting considerable attention. A glowing red light shining up at the high windows in which the figures are placed makes it an impressive sight.

The church has a busy schedule for the holiday season. Tomorrow (Friday) evening the children's Christmas program will be held at 7:30 p.m. Christmas Eve communion service will be held Saturday at 11 p.m. On Christmas Day there will be no church school, but during the morning worship at 11 a.m., Henry VanDyke's "Story of the Other Wise Man" will be told by the Rev. Donald C. Wilson.

New Year's Eve at 12:30 a.m. a Watchnight service will be held following the youth party in the Fellowship Center. A college-age reception will be held by the Session New Year's Day at 3 p.m., in the Center.

EXCHANGE CLUB HEARS OF LIVESTOCK SHOW

Some 60 members of the Tecumseh Exchange Club heard several members of the Tecumseh F. F. A. describe their recent trip to the Livestock Exposition at Chicago, following dinner, Monday evening. D. G. Locke, ag instructor, spoke briefly and introduced the following boys who spoke: James Young, Charles Young, Charles Bishop, Robert Rupert, Fred Feight and Lawrence Young.

Earl Roe was a guest of Russell Carno. Christmas gifts were presented to Mrs. Bert Warren and her committee who serves the dinners in the V. F. W. post rooms, and to Mrs. C. A. Staulter, club pianist.

The club recessed for the holidays and will resume regular meetings January 9.

Faneuil Hall in Boston was erected with lottery money.

The Tecumseh Products Company, last week was presented with an award from the Liberty Mutual Insurance Company for conspicuous achievement in accident prevention in the factory from August, 1949, to September, 1949. During that period, and in the 735,125 man hours there was not a single lost time accident.

R. C. Murtagh represented the Liberty company and presented the certificate of merit to R. W. Herrick, president of Products.

The Products' safety program is in the hands of a safety committee which meets regularly and discusses ways and means of making the factory a better place in which to work.

Officers Are Installed By Masonic Lodge

William H. Butler was installed as worshipful master of Tecumseh Lodge, No. 69, Free and Accepted Masons, at a semi-public installation service held in the Masonic Temple, Friday evening. Earl Lindley was installing officer and George McCombs, installing marshal.

Other officers installed are as follows: Ralph Westgate, senior warden; Ray Schlegel, junior warden; the Rev. B. O. Bashore, chaplain; K. D. Hall, treasurer; F. C. Dickinson, secretary; Howard Wilson, senior deacon; Gibbs Barber, junior deacon; John H. Smith, tyler; Ernest Green and James Gabler, stewards.

Judge G. A. Rathbun spoke to the group preceding the installation service. Carl Freckelton entertained with a piano solo. In conclusion lunch was served.

"Good Citizen" Girls Sponsored By D. A. R.

Abi Evans chapter, Daughters of the American Revolution, is again sponsoring the selection of three "Good Citizenship Girls," based on dependability, service, leadership, and patriotism. Clinton high school has selected Miss Athena Carisianos; Britton, Miss Nancy Schott, and Tecumseh, Miss Shirley Teske.

Each girl will receive a gold pin from Abi Evans chapter and be entitled to attend the Pilgrimage luncheon at the time of the State Conference. The National Board will award the State's "good citizen" with a $100 bond. The winner of this prize is selected on the basis of answers to a questionnaire sent to each girl.

Candlelight Service Is Attended By 300

An impressive Christmas candlelight service in the First Presbyterian church, Sunday from five to six o'clock was enjoyed by over 300 persons. Christmas trees and green boughs were used about the sanctuary and the only illumination throughout the service came from the candles which members of the junior choir and St. Andrews choir carried. Behind the choir loft a light shone on a painting of Jesus.

A program of Christmas music was presented by the junior choir under the direction of Mrs. Sam Sisson. The cantata, "The Song of Christmas," was presented by St. Andrew's choir, directed by Mrs. Neville Hart. The Westminster Junior League is sponsor of the annual service.

Christmas Eve Service At St. Peter's Church

A program of Christmas carols will be presented by the choir of St. Peter's Episcopal church, Christmas Eve, at 10:30 p.m., in the church, followed by the celebration of Holy communion at 11 p.m.

Included in the selections of traditional Christmas music there will be special anthems, solo numbers, etc. Glenn Driscoll is choir director and Rose Mary Gilmore is organist.

Christmas Day at 10 a.m., Holy Communion will be held. There will be no Sunday School December 25 or January 1, regular classes being resumed January 8.

About The Folk You Know

In spite of the drizzling rain and fog which seems to have settled over this community, folk are busy with last minute shopping, partying and planning for the holidays . . . The weatherman says "Snow for Christmas," and if the white stuff on Schneider Bros. showroom windows is a drawing card for it there will be plenty. Behind the snow-covered windows at Schneider's there is Santa Claus in his toy-filled truck being drawn thru the air by his reindeer. It's quite unique and at night it looks much like the real thing.

Mrs. George Wittrup entertained her Poppy Brownie troop No. 9 at a Christmas dinner, Monday evening. Miniature Santa Clauses surrounded the candlelighted centerpiece and nut cups and place cards made by the girls completed the table decorations. The girls exchanged gifts and each one was presented with a popcorn ball, candy cane and Santa favors. They also wrapped gifts for their mothers and fathers and made favors to be used on the Christmas dinner trays at the Parrett Nursing Home.

Some 30 children enjoyed a Christmas party sponsored by the Auxiliary of Hall-Slater post, V. F. W., in the post rooms, Saturday afternoon. Santa Claus arrived and presented each child with a filled stocking after which refreshments of ice cream and Christmas cookies were served. Those responsible for the party were Mrs. William Partee, Mrs. Charles Osburn, Mrs. Vern Manwaring, Mrs. Kenneth Herrick and Mrs. Lyman Curtiss.

Dorothy Brandt, daughter of the E. C. Brandts; Louise Wilson, daughter of the Harold Wilsons; Dermont Poley, Shirlie Moore, daughter of the R. H. Moores, and Beverly Hadsell, daughter of the Paul Hadsells are here from Ypsilanti Normal . . . Franklin Rumler is home from Cleary's College.

A Central Michigan College student, Tom Judd, is home, too. Gwen Treby, daughter of the Harold Trebys, is here from Toledo University. Martha Hayden, daughter of the Perry Haydens, is home from Asbury College; Elizabeth Escolme, daughter of the Rev. and Mrs. Edward Escolme, from Baldwin-Wallace, Berea, Ohio, and Jack Gillon from Manchester College, North Manchester, Ind.

University of Michigan students home include Marian E. Aebersold, George J. Baibak, son of Mrs. Anastasia Baibak; John C. Cameron, son of the John Camerons; John L. Guests were from Okemos, Lansing, Cleveland, Metamora, Detroit, Adrian, Addison, Stockbridge, Haslett, Mason, Jackson, Perry, Tecumseh, Tipton, Manchester, Ann Arbor, Brooklyn, Toledo, Michigan Center, Blissfield and the Onsted vicinity.

Mrs. Genevieve Maske, Ridgeway Resident, Dies

Mrs. Genevieve Maske, 31, died Monday at 2:30 p.m., at her home in Ridgeway after a long illness. She had been a patient in Tecumseh hospital for 39 weeks.

Surviving are her husband, Louis; two daughters Karrol and Diana, one son Earl, at home; her parents, Mr. and Mrs. Fred Frolich of Adrian; three brothers, Donald, Eugene and Frederick of Adrian; four sisters, Miss Bernadine Frolich of Adrian, Mrs. Marie Kershyer of Clinton, Mrs. Rosemary Gurtzweiler of Sand Lake and Mrs. Lucile Kasno of Tecumseh; a grandmother, Mrs. Rose Herman of Jackson and several uncles and aunts.

The rosary was recited last evening at 8 p.m., at the Niblack Funeral Home in Britton. Funeral services will be held today (Thursday) at St. Elizabeth Catholic church in Tecumseh at 10 a.m.

CLINTON PASTOR IS ROTARY CLUB SPEAKER

Communism and Christianity was the subject of an interesting talk, Tuesday evening, by the Rev. C. F. Riggio of Clinton, when he spoke to members of the Rotary Club here, following dinner at Brees House. The Rev. Mr. Riggio is pastor of the Clinton and Macon Methodist churches. During the war he served as chaplain in the South Pacific and previously he did settlement work in both the United States and Europe.

Communism, the speaker said, is as old as time. It has as one of its purposes the destruction of Christianity, which purpose never will succeed. As civilizations progress, he believes, the best will be salvaged and carried along by coming civilizations.

Mr. Riggio was the guest of Vance Ogden of Clinton, a member of the club.

Height of the Rock of Gibralter is almost 1,500 feet.

New Assessment

(Continued from page 1)

similar form on the recommendation of the Lenawee Equalization Committee of the board. The form will be used in all townships and in all instances the property owner will establish his personal property value.

In addition to the form, a schedule or table of values of farm property is to be used by the rural resident filling out the blank. This will be the "yard-stick" on which values will be judged.

Horses, sheep, pigs, cattle, bees and poultry are listed. A 10% discount is to be allowed on farm machinery for each year used until a 30% discount is reached. Farm livestock is to be listed at 100% of assessed valuation. Commercial, industrial and retail valuations are to be listed at 80% of valuation.

The "yard-stick of values" is necessary, according to members of the equalization committee, to have equal taxation throughout the county. The new form was prepared by the committee of which Geo. Kunze, supervisor of Madison township, is chairman.

Similar forms have been used in the City of Adrian for some time and with satisfaction, members of the board of supervisors were told.

Betty June Mottor Weds Dwight V. Knauss

The Christian Congregational church of Britton was the scene of a beautiful candlelight wedding, Saturday evening at eight o'clock, when Betty June Mottor, daughter of Mr. and Mrs. Clifford Underwood, became the bride of Dwight V. Knauss, son of Mr. and Mrs. Orange Knauss, sr., of Clayton. The vows were spoken before the altar decorated with white Christmas trees with blue lights, white poinsetta, and burning tapers in candelabra. The Rev. Harry Rogers performed the ceremony.

The bride, given in marriage by her father, was lovely in her gown of white slipper satin, styled along princess lines with a sweetheart neckline and insertions of Chantilly lace extending the full length of the gown and around the train. Seed pearls also trimmed the gown. Her fingertip veil of illusion, edged in lace, was caught to a crown of orange blossoms and lillies of the valley. She carried a white orchid on a white Bible and her only jewelry was a sapphire necklace, a gift of the bridegroom.

Miss Velma Parker, cousin of the bride, as maid of honor, wore a dusty rose gown of taffeta trimmed in lace. The gown was fashioned with a net yoke and small bertha collar. She wore a headdress of matching taffeta and her bouquet was pale pink roses centered with yellow carnations. The bridesmaids, Miss Karlene Underwood, sister of the bride, and Miss Doris Langley, wore identical gowns of yellow and blue respectively with matching headdresses. Both were styled like the honor maid's. Yellow and blue carnations made up their bouquets.

Sharon Watkins, cousin of the bride, was flower girl and wore a floor length white organdy dress with headdress to match. She dropped rose petals in the path of the bride.

Orange Knauss, jr., brother of the bridegroom, was best man. The ushers were Harold and Jerry Sears, both nephews of the bridegroom.

As the guests were being seated, Mrs. Myrtle Taylor played nuptial music and as the bride entered the church, the traditional Wedding March by Lohengrin. Preceding the ceremony Robert Morse, cousin of the bride, sang "Always" and "I Love You Truly."

The bride's mother chose black crepe with pink accessories and Mrs. Knauss selected a light grey print with black accessories. Both wore corsages of carnations.

After the ceremony, a reception was held in the church parlors for about 200 guests. A beautiful five-tiered wedding cake, baked by the bride's mother, was topped with a bride and groom, and served by Mrs. Vivian Sears, of Lakeland, Fla., sister of the bridegroom. Mrs. Harry Foster and Mrs. Robert Morse, cousins of the bride, poured and Miss Marian Rieve presided at the punch bowl.

The bride and groom left later in the evening for a two weeks trip to Florida. For traveling the bride chose a Kelly green ensemble with black accessories and her bridal orchid. On their return, Mr. and Mrs. Knauss will reside in their newly furnished apartment at 305 East Chicago Blvd., Tecumseh.

The bride is a graduate of the Britton high school, class of 1945, and of the Lenawee County Beauty College. She is now employed by the Michigan Associated Telephone Co., in Tecumseh.

The bridegroom graduated from Clayton high school and is a veteran of World War II, having served overseas. He is now employed by the Simplex Paper Co., in Adrian.

Guests were from Adrian, Britton, Clayton, Detroit, Oak Park, Highland Park, Ferndale, Jackson, Spring Harbor, Toledo, Sylvania, Manchester, Palmyra, Jasper, Hudson, Milan and Ypsilanti.

What's The Value Of Your Family?

GETTING PERSONAL ACCOUNTS IN ORDER HELPS FEELING OF SECURITY

Do you know how much your family is worth, and where important documents like marriage and birth certificates, wills, life insurance policies, and Social Security cards are? You will achieve a new peace of mind and your family will have an additional feeling of security if you and your husband take the time to make an inventory of what you own jointly and singly, says Sylvia Porter. Writing in McCall's for December, she tells you how she and her husband went about organizing their affairs, and gives you a lot of items to check, as a starter:

"Get three pieces of paper from your desk. Label one 'Husband,' the second 'Wife,' the third 'The Two of Us.' Then go on a family treasure hunt.

"Social Security: Take out your Social Security card. On your husband's sheet, or on yours or on both, mark down the number of the card, and note where it is usually kept. If you've lost your card write to the Social Security Board in Baltimore, Maryland, give your name, working address and number, and apply for a duplicate.

"Your marriage and birth certificates: You can't collect Social Security benefits or benefits from many insurance companies unless you can submit proof of your age and marriage. Note location of these documents on your sheets. The right place for them, by the way, is a special strongbox at home or a safe-deposit box in a nearby bank.

"Bank accounts: Both of you may know about each other's accounts, but you may be vague as to the names of the banks and their addresses. Write down the vital facts now.

"Savings bonds: Count up the bonds you own, put down the maturity date of each, its denomination, its serial number, then record the total.

"Various insurance policies: Of all the subjects we should talk out together, this is one of the most important.

"Insurance cannot just be bought; it must be planned by the husband and wife together. Put down on your husband's sheet the names and addresses of his insurance companies, the amounts of his policies, the benefits they provide for you and your family, the methods of settlement.

"Your other insurance policies: If you or your husband work for a corporation or a fair-sized business perhaps you are part of a group insurance or an employees' health plan, a pension or a profit-sharing arrangement.

"Your safe-deposit box: Most of your precious papers belong in a safe-deposit box or its equivalent. Surely if you have a safe-deposit box both of you should be fully aware of its location, its number, its contents and where the keys to it are kept.

"Debts: It is only common sense for you both to know what you owe as well as what you own separately and together.

"Your home: More than 40 per cent of America's homes are in the names of women. Yet many women are utterly ignorant of what ownership implies and the responsibilities it carries.

"Find out where the deed to your house is, the record of payments you have made on it, the mortgage certificate, the tax papers, the other documents so important to proving your ownership and position.

"Wills: It's only natural for us to avoid this subject, but reluctance and delay can cause the severest heartbreak, expense and pain to our loved ones.

"So if you haven't gotten your wills out of the way do it now. Put them in the safekeeping of your lawyer or a trusted friend or in the strongbox at home.

"Stocks and bonds: Over 15 million of us are stockholders in America's corporations, approximately one person in nine, about one family in three. Again the dominance of women is startling, but here too so many of us are astonishingly vague about what we own.

"Business and taxes: Is either one of you in business for himself? Or have you some mutual business ties? If so both of you should know the basic facts about your business and your tax situation.

"And someone you trust: He may not be your closest friend—he may be a neighborhood banker, lawyer, business associate. You may see him only occasionally. But because of what he is you would trust him in a crisis. When you've reached a decision on his name write it down. Then tell him what you've done."

Telephone highways, too, will be crowded this Christmas

LONG DISTANCE HIGHWAYS CAN'T ALL BE DUAL LANES. YOU CAN'T DODGE THE TRAFFIC. YOU'LL HAVE TO FALL IN LINE ON CHRISTMAS DAY

Long distance operators will be on duty, all available circuits will be ready for use, yet the volume of toll calls on Christmas Eve and Christmas Day will cause congestion. To avoid the rush, why not make your calls before Christmas Eve or after Christmas Day?

TABLE TOPPERS TO URGE HOLIDAY SAFETY

The Lenawee County Table-Toppers today announced plans for all bars and taverns in the area to cooperate with the law enforcement and safety officials in conducting a Holiday Hazards Safety Program during December.

President Merritt Spaur of the group stated that during the last two weeks in December all bars and taverns are displaying on their tables a place card carrying the safety message, "If you are driving take it easy." This public education activity is in keeping with the policy of the Michigan Table-Top Licensees' Congress.

"The owners and operators of bars and taverns are as much against the person who drinks enough to become drunk as are the safety officials. They have a responsibility to the public as well as to their patrons to guard against traffic accidents due to drunk driving," President Spaur said.

He urged all patrons of licensed bars and taverns to use exceptional care when driving during the Holiday Season — "TO TAKE IT EASY" — and to remember that "Drunk Drivers Lose Their Licenses" under a mandatory state law.

MAY ALL THE SEASON'S BEST BE YOURS THIS CHRISTMASTIME.

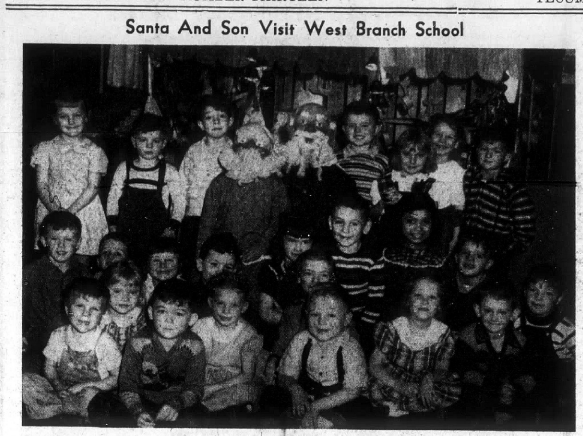
Santa And Son Visit West Branch School



Santa Claus and his son, Hanibal, paid a surprise visit to the children of the West Branch school last week and joined with them in games and fun. The kiddies, of course, were all eyes, and not a few of them got a big kick out of Hanibal. The youngsters in the kinde garten, taught by Mrs. Bertram Updike, posed with their guests for The Herald's candid camera. Thechildren are, from left to right, top row: Gloria Teegarden, David Ireton, Ronald Jordon, Tim Blair, Enid Dunscomb, Karen Rumler and Roy Ballad. Middle row: Robert French, Ruth Parrott, Janice Schuch, Arthur Collingsworth, Ruth Ann Milosh, Edsel Brooks, Alvira Garcia and Steven Covell. Bottom row: Glen Schmidt, Mary Lou Curtiss, Gary McKenzie, Brenda Whelan, Mary Catherine Starks, Richard Meads, Brenda Hannah, Gary Keehl and Larry Heisler.

Children in the second grade at West Branch, taught by Miss Bertha La Pointe, also had a grand time at their Christmas party last week when Santa and his son visited them for a brief visit and an exchange of greetings. The four youngsters pictured above followed Santa to the door. They are, reading from left to right, James Clark, Jerry Irelan, Mary Colgrove and Jean Ann Wagner. (Herald Photo).

Week Of Prayer To Be Observed

SERVICES WILL BE HELD EACH EVENING NEXT WEEK BY SEVERAL CHURCHES

The annual Week of Prayer will be observed in Tecumseh churches next week, January 2 to 6 inclusive, it was announced today by the Ministerial Association. The Friends, Presbyterian, Methodist, Baptist and Episcopal churches will participate in the services which will be held each evening at 7:30 o'clock.

The schedule has been arranged as follows: Monday, Friends church, preacher, the Rev. B. O. Bashore; Tuesday, Baptist church, the Rev. Allan L. Ramsay; Wednesday, Methodist church, the Rev. D. C. Wilson; Thursday, Episcopal church, the Rev. Edward Escolme; Friday, Presbyterian church, Dr. Norman C. MacNaughton.

The public is invited.

NEW BUICK CARS TO GO ON DISPLAY SOON

The new 1950 Buick cars will go on display here on Wednesday, January 4, it was announced today by Schneider Bros. Garage, Inc., local dealers.

The new 1950 line of Buicks, announced yesterday, is said to be the most comprehensive since prewar days and models are offered in a wide range from newly-invaded lower price field to luxury custom models in the upper brackets.

College-Age Reception To Be Held, New Year's

The third annual college-age reception at the Presbyterian church will be held New Year's Day in the Fellowship Center from 3 to 4:30 p.m. Dr. and Mrs. Wesley Mast and Mr. and Mrs. C. D. Branigin are co-chairmen of the event, which is sponsored by the Session.

All young people of college age who are members or friends of the church are invited to attend.

The New Year's Eve party for members of the congregation will be held in the Center beginning at 9 p.m., and lasting through the midnight hour. At 12:30 to 1 a.m., a watchnight service of meditation and music will be conducted in the sanctuary. Mrs. F. C. Dickinson will be at the organ.

UNION TO MEET

The Baptist Ladies Union will meet Thursday, January 5, at the home of Mrs. Faye VanValkenburg for a potluck dinner at noon. Husbands of the members will be guests. A White Cross program will be presented.

HOUSE IS SOLD

Kenneth Herrick has purchased the house owned by Lt. Cdr. F. G. Hodge on West Chicago boulevard. Mr. and Mrs. Herrick and their family will move to their new home from North Union street in about a month.

NEW HIGH SCHOOL IN NEED OF PIANO

Do you, or does someone you know, have a piano they would like to dispose of?

The new high school is in need of a piano for the music room. The piano now in use by music students will remain at the old Central building.

Mrs. Jessie Sluyter, president of the P.T.A., believes that there are many folk in Tecumseh who would like to dispose of their old pianos—if they could find a good "home" for the instruments.

Mrs. Sluyter assures the "good home" at the school and a call to her will bring the dray-man on the run.

Of course, a big thank you letter will come later.

House Decoration Awards Announced

W. J. BRUCE HOUSE FIRST PRIZE WINNER, DR. MARSH IS SECOND

Winners of the house decorating contest, sponsored by the Tecumseh Monday Club, were announced this week by Mrs. Archie Porter, chairman. The William Bruce residence on North Union street was first prize winner of $10 and the residence of Dr. R. G. B. Marsh on West Logan street was rated second best, the prize being $5.

Those receiving honorable mention were the Tecumseh churches, Ray H. Herrick, Orville Farver, Bert Ousterhout, Ernest C. Brandt, F. Charles Hanna, Charles Stevenson, Robert J. McCoy, Harold Wolf, Ronald Johnson, Ken Davison, D. J. Walper, Dr. R. F. Helzerman and Mrs. Rose Service.

"It was difficult for the judges to decide the prize winners," Mrs. Porter said, "because so many houses were decorated attractively. Next year we hope to have different catagories and definite rules for judging." However, the chairman expressed satisfaction with the final results. The judges were Ronald Harris, E. A. Collins, Earl L. Wickwire, Mrs. Joe Rice and Mrs. Earl Place.

New Year's Store Hours Are Announced

Most Tecumseh stores are planning the same store hours for the New Year weekend that were followed for Christmas, it was announced today by Ronald Harris, secretary of the Chamber of Commerce.

A spot check of downtown merchants last Tuesday showed that nearly all merchants plan to close at 6:00 P.M., Saturday, December 31. A majority of the stores will remain open until 9:00 on Friday, December 30. The United Savings Bank will close at 3:00 on Saturday and will not re-open Saturday evening.

Business places will be closed Monday, January 2.

START THE NEW YEAR RIGHT. Visit the new CLUB 23, 5 miles north of Milan on US23. Open seven days and evenings each week, wonderful orchestra Wednesday, Friday and Saturday. "A Nice Place for Respectable People." Adv. D29

CHRISTMAS TREE PICK-UP, JAN. 6th

Again this year, the Public Works Department of the Village will make a special Christmas tree pick-up, which will take place on Friday, January 6, 1950. Only trees placed at the curb will be picked up. The collection will start at 9 A.M.

This will be the only day that Christmas trees will be removed at the Village's expense.

New High School Opens January 3

CLASSES WILL OCCUPY ROOMS IN NEW BUILDINGS; INSTRUCTIONS GIVEN

Tecumseh junior and senior high school students will begin class work in the new $400,000 high school building on South Maumee street on January 3, immediately following the holiday vacation, Earl H. Place, superintendent, said today.

"We do not anticipate any difficulty in the transfer," Mr. Place said. "Students in all elementary grades will report for school next Tuesday morning as usual, and at their usual rooms. The actual transfer will occur after school has been called and students, with their teachers, will go to the new rooms that have been assigned to them."

Mr. Place explained that starting next week the several churches, the Youth Center, the East Branch and the library no longer will be used for class rooms.

"However," Place said, "next Tuesday morning the students who have been attending classes in the East Branch, the churches, the library or at the Youth Center should report there as usual. Then, after school has been called, the students, with their teachers, will transfer to the Central building. We believe that making the transfer in this manner will result in a minimum of confusion."

About 300 elementary students will be involved in the transfer from the churches, library and East Branch to the Central building, the superintendent said. The Brownville school will continue to operate as usual, as will the West Branch, and students now attending school at either of these places will not be transferred.

The entire junior and senior high school body—from grades seven through 12—will transfer out of the Central Building to the new high school. Students in these grades should report at the new high school for classes next Tuesday morning.

"The new high school building is not entirely finished, but the work that still must be done by plumbers and electricians can be carried on without interrupting class work," Place said. "The transfer of furniture, fixtures, etc., all will be finished before next Tuesday morning."

The new high school has 20 rooms and is sufficiently large to accomodate Tecumseh's growing junior and senior high. While the manual arts department is not yet completely equipped, and neither is the home economics department, both of these will be rushed to completion and within a brief time.

After the transfer has been made, the Central building will be given over entirely to elementary grades, some of them starting as low as the first and continuing through the sixth. Kindergarten classes still will operate at Brownville and West Branch as will some sections of the second and the first grades.

"We are very happy to be able to make this move now, at the beginning of a new school period," Place said. "We believe that it can be done with a minimum of difficulty, both for faculty members and students."

Mrs Jessie Sluyter, president of the Parent-Teacher Association, said today that the public would be given its first glimpse of the new modern school on Thursday evening, January 12, at an open house, sponsored by P.T.A.

"This open house will be held instead of a regular meeting," Mrs. Sluyter said, "and we want everybody to visit the school, whether they have children in school or not. This is a public school, and the public is invited to see the new building, of which Tecumseh is very proud."

Teachers will be on hand for the meeting and will conduct visitors through the building.

Wins $100 Savings Bond

Frank Kish of Blissfield, a customer of Butler Motor Sales, Tecumseh, won a $100 Savings Bond in the Ford Motor Company's recent million dollar safety contest. Mr. Kish was presented with his bond last Friday by H. C. Graves of the Ford company, at a ceremony at Butler Motors. Kish was one of two winners in the state of Michigan. Gift Turkeys By The Ton

Nearly 1,800 turkeys and 350 baskets of candies and fruits went to Tecumseh Products Company employees here at Christmas time. In view of The Herald's candid camera at the time of the distribution are, top, Frank V. Owen, Products' director of purchases, and Mrs. Ruth King of the purchasing department. Below, Burdette Kizer, Kroger district manager, and Wm. Walsh of Toledo, Kroger official. Kroger's furnished the turkeys. The birds were dressed, ready for the oven. The live ones, seen in the picture, were on hand to add color to the scene.

Rotary Studies Peace Program

EXCHANGE OF HIGH SCHOOL STUDENTS SUGGESTED BY CLINTON SPEAKER

The exchange of American and foreign students on the junior and senior high school level as well as on the college level in a new effort to bring about world peace was urged by Don Thomas, president of the Clinton Machine Co., in a talk to the Rotary Club here Tuesday evening, following dinner at Brees House.

"I have no quarrel with the present program which exchanges students on the college level," Mr. Thomas said, "except that I do not think that its scope is broad enough to accomplish its purpose. Under the plan I have suggested, high school students would be exchanged in vast numbers and would be given an opportunity to observe conditions here and abroad at first hand."

Thomas explained that the idea had its birth at the Clinton Rotary Club, was discussed there and will be carried to other clubs in this area. If it wins approval the plan will be suggested to Rotary International for further action. The students, he said, would be exchanged in the summer time for about a six weeks period and would live in students' homes here and abroad. The expense of the program, he believed, would not be great.

"I am of the opinion," Thomas said, "that if we and our neighbors across the seas have a better understanding of each other, particularly our children, we can prevent future wars."

Guests at Tuesday's meeting included George Green, jr., of Jackson, Dr. Robert Larsen, Detroit, Lt. Cdr. F. G. Hodge of Norfolk, Va., and Dr. Luther Purdham of Ann Arbor.

I will be at the United Savings Bank on Saturday, December 17, and each Saturday thereafter until further notice, for the collection of Tecumseh township taxes, dog taxes and fire insurance. I will also accept payments by check or money order, mailed to my residence, 211 West Brown Street, Tecumseh, Mich. (Signed) Lawrence Mohr, township treasurer. adv. Dec. 15tf

Palman's Store Sold

CLEVELAND MEN NOW IN POSSESSION; PAUL HADSELL IS MANAGER

Sale of the Palman store here to Nate and Dave Marcus and Nate Schultz, all of Cleveland, was announced today by Morris Palman. The new owners took possession on Tuesday. Paul Hadsell, who has managed the store for Palman's, is now in charge and will continue as manager, Mr. Palman said.

The three Cleveland men operate stores in Pittsburg, Cleveland, Findlay and half a dozen other cities. The local store will continue to operate under the Palman name. An interior remodeling program is under consideration.

The Palman store was owned by Morris Palman and his brothers, Joe and Abe, his sister, Goldie Palman and their mother, Mrs. Wm. Palman. The building was not sold, the new owners taking a long term lease.

Palman's store was started here in 1908 by William Palman. The first location was where the Smith store now is located. Later, the store operated in the Baldwin building and was subsequently removed to the present location at the corner of Chicago boulevard and Evans street. William Palman died in 1947.

Morris Palman said that the family had no immediate plans for the future. Operation of two ready-to-wear shops in the Arcade in Toledo will be continued, he said.

The Palman brothers will be in the store here for about 30 days, winding up their local business affairs and then, Morris Palman said, some vacations may be in order.

"I would like to say, in making the announcement, that Tecumseh has been very kind to us and that we have enjoyed operating the store here," Morris Palman said. "We are very grateful to Tecumseh residents for their long years of patronage."

Community Fund Is Over The Top

CHAIRMAN HARRIS SAYS "THANK YOU" TO COMMUNITY AND WORKERS

Tecumseh's 1949 Community Fund Drive has reached and exceeded its quota, it was announced today by Ronald Harris, chairman of this year's drive.

"Our receipts of contributions and pledges at this time total $5,647.83 against our quota of $5,570," Mr. Harris stated. "In giving this figure we wish to point out that it includes only those contributions and pledges which have actually been turned in to headquarters. It does not include some verbal and telephone confirmations, which while as good as cash to us, cannot be added to our columns until they have been turned in. Neither does the sum include some contributions other than cash, such as advertisements, displays, and materials. We have reason to believe, therefore, that our showing will be even better.

"We are particularly gratified at our success this year," he continued. "All drive organizations are pleased with success, of course. But this year we were told in many sources that we were sure to fall short. The lateness of the drive, the great national strikes that struck at our local business conditions, the conflicts of the season, plus the largest budget Tecumseh has had, all led many to feel that the assignment was too great for us.

"Fortunately our volunteer workers rose to the challenge. They sacrificed business and personal demands for their community. Each of them will be thanked personally, but we believe that a grateful community should know who they were. There are probably some persons who gave us assistance whose names we might not even know. If so, we ask through the columns of The Herald that all workers be given the thanks of the Community Fund itself and of their fellow citizens."

"I would like to take this opportunity to say thank you publicly to Mr. Harris for a good job, well done," the Rev. Edward Escolme, secretary-treasurer of the Community Chest, said today. Mr. Harris has done an outstanding job despite many obstacles.

"We realized when we started the drive that the season was late, that there were holiday conflicts, national strikes and many other things that might tend to hamper success. However, under Mr. Harris' direction the campaign has been a complete success and we owe to him our gratitude."

Following is a list of the volunteer workers and their divisions. Persons who may have been missed during the drive may still make contributions to them. Many Community Chests receive contributions after the close of their drive, it is pointed out, and such contributions are always placed to the advantage of the community.

Special gifts: Edward Escolme Northwest residential: Mrs. Don Goddard, captain; Mrs. Clarence Beach, Mrs. J. H. Rohweder, Mrs. Paul Mack, Mrs. John Ziegler, Mrs. Hugh Andrews, Mrs. J. R. Thompson, Mrs. Sam Shervino, Mrs. Waldo Mohr, Arlene Sherman, Mrs. David Dick, Mrs. Winifred Bates,

Complaints About Service Should Go To Engineer

If you have any complaints relative to the service that is being rendered to you by the Village of Tecumseh, particularly in the water, sewer and street departments, residents should contact Kenneth Dawson, the village engineer, at phone 558.

"Many residents think that it is necessary to bring their complaints regarding service to a member of the council," a member of that body said today. "That is not true any more. We now have a full-time engineer who has an office in the council building and a paid assistant. Any complaints about service, or any other matters that are associated with any of the departments mentioned, should be referred and discussed with the engineer."

The engineer's office is open daily in the council building and persons who are downtown may drop in and talk over their problems with him, it was pointed out.

TO RESUME LUNCHEONS

The weekly luncheon and games held regularly on Wednesdays at the Tecumseh Country Club, will be resumed on January 4, when election of officers for the new year will be held. Hostesses will be Mrs. Harold Wilson, phone 297, and Mrs. Russell Carey, phone 236R. Phone either of these for reservations by Tuesday noon.

"MINIMUM OF STRIKES"

To many people strikes seem so common that for one of the great labor organizations to applaud its record for fewness may come as a surprise. The American Federation of Labor in its publication, Labor's Monthly Survey, comments:

With a minimum of industrial strife we have quietly negotiated important wage increases and other benefits for many millions of workers . . . We estimate that from January through October this year we have won gains for some 5,000,000 workers. This outstanding record of progress for workers, with a minimum of work stoppages, is due to our policy of genuine collective bargaining with employers, negotiating on the basis of pertinent facts in each situation, rather than political power and pressure.

The president of one of the biggest AFL unions says that strikes are so easy to get into that he pays his assistants high salaries in order to get men able to prevent them. Yet no AFL union has a better no-strike history than the powerful Amalgamated Clothing Workers of the CIO, which boasts it has had no major strikes since 1921.

Obviously, if as substantial gains can be made without resort to a strike, a union will do better for its members to avoid a stoppage. But that is something which younger unions especially have to learn. When labor is still organizing, as is the CIO to a greater extent than the AFL, it usually looks for leaders who are fighters.

After a union has established itself, its needs tend to change and call for more thinking on economic lines, vital to bargaining with the employer. Now the CIO is going in for education as never before, and with greater maturity will become steadier. The long-time prospect points to fewer avoidable strikes.

LOCALS AND PERSONALS

Miss Agnes McIntyre is here from Muskegon for the holidays as the guest of her sister and husband, Mr. and Mrs. Sam Sisson, and her aunt, Mrs. Jay Morse.

Mr. and Mrs. William Shavaller have moved to an apartment in the Knudson farm home located near Macon.

Al Schumm is the guest of Mr. and Mrs. Horace Whitehouse and family of Evanston, Ill., this week.

Jack Tonneberger was removed to the home of his parents, Mr. and Mrs. Al Tonneberger, Tuesday, after being a patient in Flower hospital, Toledo, since Friday, as the result of illness.

Miss Vera Gilbert arrived home Tuesday evening after spending the holiday in Pontiac at the home of her sister, Mrs. Gladys Spring.

Mr. and Mrs. Fred Temple of Detroit, were guests of Mr. and Mrs. Ellsworth Collins on Christmas Day. Monday, Mr. and Mrs. Temple left for a two-weeks vacation in the Gulf States.

Tecumseh Produce Bowlers Win Tri-State Classic

Chalking up a mean 3159 score which succeeding squads could not match, the Tecumseh Produce bowling team walked away with first place honors plus much of the prize money in Coldwater's second annual Tri-State Classic. Rolling for the local five are Richard Fielder, Gerald Osworth, Cliff Deaner, Roger Linger and Gordon Grieman.

The closing squads on the last week-end saw Miller's Ford Tractor of Defiance, Ohio, forge into second place with 3031, followed by Bassett Motor Sales of Auburn, Ind., with 3003, and Christensen's of Albion, with 2999.

There were 19 winners in the money, which totaled $1,276. Buick from Stem to Stern

This sturdy looking bumper and grille combination graces the front end of the complete line of 1950 Buick automobiles. Other distinctive features are the full taper-through front fenders, wrap-around bumpers with bomb-shaped bumper guards housing the parking light and direction signal indicators in front, and back-up lights in the rear, and identifying name plates on the front fenders. The cars have completely new bodies, and a new and more powerful engine is under the graceful hood of the new Super sedan shown above. Schneider Bros. Garage, Inc., are the Buick dealers in Tecumseh.

About The Folk You Know

With Christmas in the past, it's time ot think about those New Year's resolutions. Many folk are making big plans to welcome in the last half of the century, this weekend . . . One of this week's social functions is the holiday ball to be held this (Thursday) evening at the Legion Home, sponsored by the Hospital Auxiliary. Ken Edwards and his orchestra will furnish the music for dancing from 10 to one.

Earl Bowen and his assistant, Mrs. Marion Wright, entertained his employees of the Gray Mill restaurant, their husbands and friends at a Christmas party, Saturday evening. Mr. Bowen showed motion pictures after which there was an exchange of gifts and lunch. Some 15 employees and guests were in attendance at the party, which was held in the restaurant.

Mrs. Carl Brighton entertained the employees of the Tecumseh branch of the Michigan Associated Telephone Co., at their annual Christmas party, last week, at her home at 207 South Wyandotte. Fourteen operators and five guests enjoyed the Christmas tree and exchanged gifts. Refreshments were served.

The Elmer Spreeman family of Deerfield were Christmas Eve guests of the William Spreemans. Christmas Day and overnight guests at the same home were the Charles Davidson family of Detroit. Mrs. Charles Lister of Britton was there also and on Monday she entertained the crowd at her home. Monday evening, the Albert Flitter family of Ridgeway and Miss Shirlie Netcher of Onsted called at the Spreeman home.

Entertaining at a family gathering on Christmas Day, the Faye VanValkenburgs had as guests the Dalton VanValkenburgs of Ann Arbor, the Harry Waldrons of Howell and daughter, Ruth Ann, who is a student nurse in Detroit, the Ernest VanValkenburg family of Washington, D. C., and the Leon VanValkenburgs.

The Lyle Powells entertained her mother, Mrs. Marian Underwood and son Norman of Kalamazoo, the William Underwoods and Mrs. Maude Cummings at Christmas dinner . . The Rev. and Mrs. H. E. Speer and son Paul of Alpena were Monday guests of Mrs. Cummings.

The Charles Bancrofts of Cleveland spent the holiday weekend at the home of his mother, Mrs. Vira Bancroft . . . Sunday they enjoyed dinner with her parents at Clayton. Mrs. Vira Bancroft and daughter, Mrs. Helen Walker, were guests of the Forrest Bancroft family at Adrian.

The Gerald Wilcox family were guests at a Christmas Eve dinner at the home of Mrs. Wilcox's parents, the Leo Clarks of Deerfield. Sunday they spent the day with his sister and husband, the Edwin Taylors of Jackson, who entertained at a family gathering.

Guests Christmas Day at the home of the George Schumms were the George Schumm, r., family of Wayne, the Fred Schumm family and Roland Goltz family of Wayne . . . Monday the Schumms were guests of Mrs. Louise Bauman of Somerset at a family gathering.

Christmas Day dinner guests of the Clarke Goodacres included the Harold Millers, the Charles Butts and Ray Jackson . . . The Ronald Goodacres spent the weekend in Chillicothe, Ohio, at the home of her parents, the Fred Penrods.

The E. M. Alzners of Cincinnati, Ohio, came to spend the holiday with Mrs. Alzner's parents, the J. M. Artmans, and all enjoyed Christmas with another daughter of the Artmans, the Markus Hayes family of Hillsdale.

Charles Beevers was the dinner guest of the Donald Beevers family, Christmas Day, and in the afternoon all were entertained at the home of Mrs Beever's sister, the Frank Martinson family of Homer. Additional guests were the J. E. Powells of Tekonsha.

The Elmer Burleson family were Christmas Day guests of his parents, the Dell Burlesons of Macon. Monday Mrs. Burleson and her two daughters spent the day with her sister and husband, the Albert Hochs of Jackson.

The Gerald Driscolls entertained at dinner Christmas Day the Seaton Wilsons and son Seaton, jr., the Chester Hensens, all of Tecumseh; the Alfred Schmidts and daughters of Tipton and Miss Naamah Wilson of Adrian.

The Glenn Driscolls were Christmas Day guests of their daughter and husband, the Ray Waters, at the home of Anna Waters at Antwerp, Ohio. Additional guests were the George Parsons and daughter Barbara of Lansing, former Tecumseh residents.

The Carl Thompsons were Christmas Day guests of the Russell Brown family of Onsted . . . Larry Cosgrove of Adrian is the guest this week of the Thompsons.

The Clyde Baileys and son Robert of Walled Lake and the Royce Beals of Adrian were guests of the Claude Baileys of Macon at a family gathering on Christmas Day.

Entertaining at a family dinner, Monday, the Glenn Driscolls had as guests, the Harry Crosby family, the Ray Waters of Antwerp, Ohio, and the Gerald Driscolls.

Mrs. Mertie Waring and son Sherman were Christmas Day guests of the Malcolm Warings of Detroit.

The Marvin Watkins and Richard, home from Dallas, Texas, were guests of her sister and husband, the John Sells of Blissfield.

Mrs. Anna Haughn entertained her son and family, the Charles Haughns and son Terry of Blissfield at Christmas dinner.

Mary Lou Carlson of Chicago and Donald Carlson of Detroit spent the holiday with their parents, the Louis A. Carlsons.

Christmas Day guests of the Ira Ashleys were the Guy Nemires, Mildred Boyce and the Curtis Ashley family, all of Adrian.

The Mark Baldwins of Albion were holiday guests at the Ned Baldwin home.

The Darwin Cregers and the Harry Cregers were Monday guests of the Ed Florys of Hudson.

Mrs. Cecile Smith was the guest of her sister, Mrs. R. B. Couchie of Dundee, Christmas Day.

The Harry Crosby family spent Christmas Day with his mother, Mrs. Ivadell Crosby of Toledo.

The Paul Hesse family of Lansing spent the Christmas weekend with her parents, the John Lotts.

Mrs. Vevia Anderson was a weekend guest of her son, John Anderson and family of Jackson.

The Lendell Milhelms were in Decatur, Ind., for Christmas.

In last week's issue of The Herald it was stated incorrectly that the auxiliary of the local V.F.W. sponsored a Christmas party for children. The party was given by the auxiliary of Underwood-Orr post, American Legion, in the Legion Home.

Friday Kenneth Beevers was six years old and in celebration his parents, Mr. and Mrs. Donald Beevers, entertained in the evening. Guests included Mr. and Mrs. Irving Carpenter and family of Adrian, Mr. and Mrs. John Hanna and children and Charles Beevers.

The dinner will be held in St. Paul's church, Jackson, at 6:30 p.m. Wednesday, January 4. Clergy and vestrymen of the churches of the southwest convocation will be present to hear an address by the Bishop.

Those invited include L. W. Larsen, senior warden; C. O. Butler, junior warden; A. Gibbs Barber, secretary; George W. McCombs, treasurer; Glenn L. Driscoll, assistant secretary; L. E. Lindsley, W. H. Wick, W. H. Browne, E. J. Rodgers, Gerald Driscoll, O. W. Farver, Lester Rogers and the Rev. Allan L. Ramsay.

Gilbert and Sullivan provided the tune for the song "Hail Hail the Gang's All Here."

On a pipe organ, the short pipes produce the high notes.

REMEMBER WHEN? . . . Nostalgia reigned more than somewhat at the return of the Palace theater to vaudeville. Here comedian Milton Berle (left), radio and video star, was on hand to welcome back two of the oldtimers who "played the Palace" when that engagement was considered the pinnacle of success. Dancer Pat Rooney (right) who played the Palace in the old days, joins Berle in welcoming 77-year old Bessie Wynn who once played at the Palace.

Author of "Gone With the Wind" Really Two Women in One Body

The drunken driver who struck down Margaret Mitchell as she was crossing Peachtree Street last August in her native Atlanta, Georgia, killed two women. One was the newspaper woman who at thirty-five stepped into international fame with her first—and last—book, the incredible best-seller Gone With The Wind. The other, revealed for the first time by the noted columnist and satirist Robert C. Ruark in McCall's Magazine for December, was a four-foot-eleven-inch, ninety-pound southern belle who combined the tongue of a spitfire with the generosity and kindliness of a saint.

"I grew up at a time when children were seen and not heard," she once told a friend. "That means that as a child I had to hear a lot about the Civil War on Sunday afternoons when I was dragged hither and yon to call on elderly relatives and friends of the family who had fought in The War or lived behind the lines.

"I sat on bony knees, fat, slick taffeta laps and soft, flowered muslin laps. I did not even dare wriggle, for fear of getting the flat side of a hair brush where it would do the most good. I should add, while I'm talking about knees and laps, that cavalry knees were the worst knees of all. Cavalry knees had the tendency to trot and bounce and jog in the midst of reminiscences, and this kept me from going to sleep.

"I heard about fighting and wounds and the primitive way they were treated, how the ladies nursed in hospitals, the way gangrene smelled, what substitutes were used for drugs and food and clothing when the blockade got too tight for these necessities to be brought in from abroad. I heard about the burning and the looting of Atlanta and the way the refugees from the town crowded the roads and trains to Macon, and I heard about the Reconstruction too.

"I was raised on The War. I thought it had all happened a little while before I was born. I was ten years old before I found out General Lee lost, and it came as a bitter shock to me."

From writing fairy stories and fables as a child, the girl who was to create those two classic types of womanhood, Scarlett O'Hara and Melanie, grew up to the life of a flapper. But she suddenly left the world of fashion to become a nervy, skillful reporter. It was in her interviews and news stories, some of which her biographer has reclaimed from the morgues of the Atlanta Journal, that she developed the keen eye and the salty phrase which helped make her novel the model for the American bestseller.

But more than journalism went into Gone With The Wind, and there has been much rumor and guesswork as to whether Peggy Mitchell herself "was" the fiery, unmoral Scarlett, or "was" the gentle, high-souled Melanie. In the first of two installments which are to answer this question, Mr. Ruark tells of her unconventional but happy marriage to an advertising executive, of her large collection of bawdy literature, of her acid wit, of her earnest efforts at prison welfare work, and of her pranks and social escapades. He also gives the full details of the methods by which Gone With The Wind was written and of the astounding series of circumstances which brought it from the shelf where it had been moldering for six years into its unprecedented fame.

SEA GULLS THRIVE ON NICE ICE CAKES

Detroit—Sea gulls love to hitchhike rides on ice cakes.

Government weather observer W. W. Oak reported here he made this discovery while scanning the Detroit River with his binoculars. He checks the river daily for icebergs.

"The birds meet the ice cakes from Lake St. Clair. They ride them down the river all the way to the Ambassador Bridge. Then they fly back up the river and find more ice cakes to ride. They do it all day.

"Maybe it is fun for a sea gull," Mr. Oak decided.

Billion Cups of Milk Are Purchased By U. N.

Lake Success—More than 100,000,000 pounds of milk — enough when reconstituted to fill a billion cups—has been purchased from the United States Department of Agriculture by the United Nations International Children's Emergency Fund and has started moving from American ports.

Large quantities thus will be available for some 4,500,000 children in nine European countries under the fund's feeding program and for around 500,000 children and mothers among Arab and Jewish refugees in Israel.

This new purchase is half as much as the entire quantity obtained during 2½ years of the fund's operations and brings the total milk purchases in all countries to more than 300,000,000 pounds. Some idea of the amount can be obtained by picturing the new lot as a line of barrels, end to end, reaching from Philadelphia to Boston.

Portions of the purchase will go to Hong Kong, India, Indonesia, Pakistan, the Philippines, Greece, and to those Latin-American countries where the fund's work is just getting organized.

"This transaction," said Maurice Pate, the fund's executive director, "makes it possible to move the abundance in one part of the world to children badly in need in other parts of the world."

Air Bicycle Riding Is Newest Travel Mode

Lakehurst, N. J.—How'd you like to take a bicycle ride in the air?

A. Woodbridge attorney did it recently.

He flew through the air with the greatest of ease inside the big hangar of the navel air station on a foot-operated bicycle-like device suspended from a 5,000 cubic foot helium bag.

Charles K. Paul, the inventor, and the man who took the ride, said the device which he calls a pedalcopter, is "the safest flying machine imaginable."

The United States Navy, in the person of Capt. G. F. Watson, said it "has no opinion pro or con as to the present or potential value of this device."

The demonstration was permitted as an accommodation to Mr. Paul, a civilian employee of the navy, Captain Wilson said. Mr. Paul is a civilian attorney for the navy and a lieutenant commander in the United States Coast Guard Reserve.

Mr. Paul pedaled away, swooping around the hangar at a height of 100 feet and made an easy landing.

He made the machine out of bicycle parts at a cost of about $400, and said he used about $60 worth of helium in the bag.

Mr. Paul started work on his pedalcopter last May. The pilot sits in the fuselage and operates with his feet a bicycle style sprocket which rotates the helium bag and two flying rotors of the type used on a helicopter.

The helium bag is above the pilot's head, the rotor blades are below his feet. The apparatus on which Mr. Paul sat looked like a baby carriage with a horizontal shaft in the center.

Increased Consumption Farm Problem Answer

"Increased consumption is one of the most practical solutions to farm surplus problems," Joseph B. Hall, Kroger president stated in outlining Kroger policy for aiding in the movement of farm surpluses. Kroger and other food chains for a number of years prior to the war periodically staged special sale promotions as a means of encouraging increased consumption.

Surpluses were not only effectively distributed by these promotions but consumers received special values.

One of the first promotions staged by Kroger since the war was organized two months ago to help move the tremendous pork and apple supply. As a direct result pork sales have been increased eight million pounds over the corresponding period in 1948 and apple sales were up 32 per cent. During late September and early October when apples had to be harvested and storage space was not available, Kroger alone sold 6,840,000 pounds.

The secretary-manager of the nation's largest apple grower's association wrote Kroger: "Your promotions not only move a larger volume of apples, but the leadership which you are taking stimulates all retailers in the country. This promotion comes when it is most needed . . . From the apple growers of this state we thank you."

Stabilizing farm prices by use of potential retail markets, is in the best interests of the consumer as well as the producer. It is the basic reason why we will continue to place emphasis on the sale of agricultural commodities that threaten to cause surplus problems," Hall said.

ALL STALIN NEEDS IS A RESERVATION

London—Now it's big chief Stalin, or so Moscow Radio says.

A Moscow broadcast heard here said Prime Minister Joseph Stalin had received the headdress of an honorary Indian chief, sent as a birthday gift.

Accompanying the headdress, said the radio, was a greeting hailing "the greatest of warriors, Joseph Stalin, elected honorary chief of the Indian tribes."

The broadcast did not say what Indians sent the gift, where they sent it from, or when Stalin had been elected an honorary chief.

Drive-in service stations were inaugurated in 1903. Today there are 250,000.

From where I sit ... by Joe Marsh

A Tonic For The Missus

The missus came marching in with a new hat yesterday. She was as happy as a circus poster.

I've learned one thing about the hats she buys. A hat is a tonic to her. If she's feeling blue, nothing gives her a lift like a new hat. Now, I could trade in my old grey fedora without raising my blood pressure a notch. But I'll admit that more than once I've bought a new briar pipe I didn't need—just because life was getting a little bit monotonous.

With Buck Howell it's something else again. When Buck is feeling low, he gets over it by blowing on a broken-down clarinet he hasn't mastered in twenty years.

From where I sit, different people are *always* going to respond to different things in different ways. So let's keep a friendly understanding of what other folks get out of a new hat, an old clarinet, a chocolate soda or a temperate glass of sparkling beer or ale now and then.

Your Key to GM Greater Value

Hard to believe but —

This Buick costs less than Butter!

MAYBE you never thought of it that way, since you don't buy butter in 3600-pound lots.

But pound for pound, this prideful Buick SPECIAL sells today for less than store-bought butter!

Actually, it costs less per pound than some of the cars in the so-called "lowest price" bracket—less than any other straight-eight on the market.

Now that's a pretty important yardstick.

Because cost-per-pound is a pretty stable measure of a car's merit. It takes skilful engineering, careful buying, efficient manufacturing to keep this figure around the half-dollar mark—and that's where it is on the 1950 SPECIAL 4-door Sedan.

The real point, of course, is that this is a *Buick* at that figure.

Buick styling. Buick valve-in-head straight-eight power. Buick steadiness and roadability. The gentle cushioning power of Buick 4-wheel coil springing.

Buick room, finish, standing—with a special plus these days in greater maneuverability to help you slip into tight parking spaces and home-size garages. Buick's unmistakable appearance, through gracefully tapering fenders and that new "Buick first," that sturdy, shock-absorbing, triple-purpose bumper-guard grille.

All this at price tags that "sound like a six" and a cost-per-pound right down with the very lowest!

So—if you can afford butter, why not a Buick? Talk to your dealer about it—delivered prices, trade-ins, delivery dates, all the rest—and make your next car a Buick.

ALL YOURS FOR ONLY $1835.00

The roomy 3-passenger 1950 Buick SPECIAL Coupe shown delivers for this figure, plus state and local taxes if any. Prices subject to change without notice. Prices may vary slightly in adjoining communities due to transportation charges.

DYNAFLOW PRICE REDUCED $40. *This 1950 Buick SPECIAL is available with Dynaflow Drive at $40 less than November prices.*

4-H Club Sponsors Dance at Grange Hall

A large crowd of older youth of Lenawee county enjoyed a holiday dance at the Tecumseh Grange Hall, Tuesday evening, with Glenn Driscoll's orchestra furnishing the music and Joe Boch calling square dances. Sponsored by the Lenawee 4-H Service Club, guests at the dance were the older 4-H club members in the county and past members of the service club.

Serving as hosts and hostesses were Mr. and Mrs. Jack Barrett and Mr. and Mrs. Donald Murphy. Arranging the holiday decorations were Mr. Barrett, Jerry Eaton, Bob Croll and Pat Long. Mr. and Mrs. Bob Bush, Elwyn Bush and Russell Vershum were the refreshment committee and Lauren and Lawrence Goodluck were in charge of tickets.

During the intermission, Dorman Stout conducted an entertaining Chinese auction.

ONSTED

Dr. and Mrs. A. J. Brickbauer of Plymouth, Wis., daughter and son-in-law of Mr. and Mrs. C. A. Dee-Ermia, have arrived in Honolulu for a four-week's stay with their daughter, Mrs. Henry Ewbank.

The faculty of Onsted school enjoyed their Christmas party recently at the school. An exchange of gifts, a short program, square dancing and lunch were all enjoyed.

The Auxiliary of Durkee-Senger post entertained at a Christmas party, recently, at the Legion Home. A program was presented by the children, who were the guests, after which Santa Claus arrived and distributed gifts.

BRITAIN TIGHTENS FREE MEDICAL PLAN

London—Foreigners no longer will be able to come to Britain just to get free medical treatment under the National Health Act.

The House of Commons has passed an amendment to the act empowering Minister of Health Aneurin Bevan to charge persons not ordinarily resident here for any use they make of Britain's socialized medicine scheme.

Foreigners normally resident here, or who become ill while on a visit to England, still are entitled to free medical attention if they desire it.

Hadrian (122 A. D.) built the Roman Wall in England.

DEPENDABLE CIRCLE

The Temple Dependable Circle of the Methodist church enjoyed a Christmas party, Thursday, in the church parlors. Some 12 members were seated for a potluck dinner, after which a program was presented followed by an exchange of gifts. Mrs. Elizabeth Beamish, Mrs. Claude Gray and Mrs. Ed Pangle were the hostesses.

MATRONS TO MEET

The Past Matrons Club of the Order of the Eastern Star will meet Wednesday, January 4, at the home of Mrs. John H. Smith, 114 West Kilbuck, for a planned chop suey supper at seven o'clock. Members are asked to bring table service.

HOME ECONOMISTS AGREE SUGAR IS SUGAR

That is why they freely state that any supposed difference in pure sugar is simply a *figment of the mind.* That is why in their cook books, they specify just "Sugar".

The plain fact is—all household sugar is sucrose, no matter whether it comes from beets or cane. So, with all things equal, your best buy is the sugar that gives you most for your money—buy—
